The Registered Apprentice Advantage
Connecting Registered Apprenticeship with your state and local workforce development system is a win-win partnership. It helps businesses and your state thrive by creating highly skilled, highly productive employees. It will also help your state meet important performance goals for workforce development.

What is Registered Apprenticeship?

It’s a job.
Apprentices start working from day one with incremental wage increases as they become more proficient.

It’s on-the-job learning and education.
Registered Apprenticeship includes on-the-job learning from an assigned mentor combined with technical training provided by apprenticeship training centers, technical schools, community colleges, and institutions employing distance and computer-based learning systems.

It’s a credential.
At the end of the apprenticeship, all apprentices receive a nationally recognized credential. Some apprenticeship programs offer interim credentials as apprentices achieve important milestones during their apprenticeship.

What are some advantages of Registered Apprenticeship?

Benefits to Employers

How will Registered Apprenticeship improve performance for most major workforce development programs?

Registered Apprenticeship can have a positive impact on each of the following common measures for workforce development programs:

**Adult Measures**
- Entered employment
- Employment retention
- Average earnings

**Youth Measures**
- Placement in employment or education
- Attainment of degree or certificate
- Literacy/numeracy gains

**Recent Outcomes for National Apprenticeship**
- Employment retention: 83%
- Starting wage: $12.82/hour
- After 9 months: $14.32/hour

Graduates earn an average of $49,800 and many apprentices earn significantly more depending on career area and region of the country.

**Earning Potential of Apprenticeship Graduates**

---

** Operation**
Registered Apprenticeship programs are operated by partnerships of employers, labor management organizations and government. Apprenticeship sponsors – employers, employer associations and labor management organizations – register programs with federal and state government agencies. Sponsors provide mentors, on-the-job learning opportunities and required technical instruction to apprentices. Incorporating Registered Apprenticeship directly into your workforce development system will strengthen your local and regional economy by developing highly trained and educated residents. Let Registered Apprenticeship be your competitive advantage.
