Equal Opportunity Employer/Program  
Auxiliary Aids and Services Are Available

## **VISION**

To connect great employees with great companies by equipping Louisiana residents with all the tools they need to succeed.

## **MISSION**

We put people to work in fulfilling, family-sustaining careers by unlocking their potential with our extensive resources.

## **PHILOSOPHY**

The Louisiana Workforce Commission (LWC) is an aggressive advocate for a trained, viable workforce and is committed to employment strategies for Louisiana residents that respond to business and industry's workforce demands. LWC is dedicated to working closely with employers, employees and job seekers to meet their employment and training needs.

## **GOALS**

- Ensuring that all unemployment insurance and workers' compensation processes are efficient and customer-friendly.
- Increasing public awareness of the agency's robust resources.
- Lessening the training gap of a skilled workforce.
- Connecting residents with existing employers by providing excellent customer service.
- Engaging the agency's employees in our mission.

## **VALUES**

- Respect
- Integrity
- Accountability
- Commitment
- Adaptability

## TECHNICAL NOTES

This publication has been prepared to meet the numerous employer requests for population and labor force data by sex, race, and ethnic group for the state, metropolitan statistical areas (MSAs), and individual parishes. Tables included meet the basic requirements of 41 CFR Part 60-2, Subpart B, (Purpose and Contents of Affirmative Action Programs).

### **Population (pages 1 – 6):**

The latest census estimates are used to provide race and sex demographics of the population of the state and each parish. The 2010 census ratios are incorporated in all population tables beginning with this year's publication. Between each ten-year census period the Louisiana Workforce Commission receives annual population estimates for the state and parishes from the U.S. Census Bureau using the latest five years of the ACS (American Community Surveys). Annual population estimates are used for the total population, while the 2010 decennial census population updated the ratios for race and sex and then were applied to the 2014 annual population figures to produce annualized estimates by race and by sex.

### **Labor Force (pages 7 – 24):**

Data were derived from the monthly Current Population Survey (CPS) conducted of approximately 60,000 households across the United States. The U.S. Census Bureau conducts this survey for the Bureau of Labor Statistics (BLS). The Local Area Unemployment Statistics (LAUS) program is a Federal – State cooperative endeavor that provides monthly and annual labor force, employed, and unemployed data at the state, Metropolitan Statistical Area (MSA), and parish levels by place of residence. The CPS sample size for Louisiana is around 725 households. Because of the small sample size data users are cautioned when using labor force figures as a sole economic indicator of an area.

**Labor force** figures represent individuals 16 and over, who were either working or actively looking for work during the reference week of the 12th of the month of the survey.

**Employed** refers to those individuals 16 and over, who reported that they were working during the reference week of the 12th of the month.

**Unemployed** are derived from those individuals 16 and over, who responded that they were not working but were actively looking for work during the reference week of the 12th of the month.

**To compute the estimated employed for an area, subtract the number of unemployed from the civilian labor force figure. To compute the unemployment rate for an area for males or females on pages 17 through 24 divide the number of unemployed by the civilian labor force estimate, then multiply by 100.**

$$\text{Number Unemployed/Total Civilian Labor Force} * 100 = \text{Percent Unemployed}$$

## **Occupational Breakout of Civilian Labor Force by Sex and Ethnic Group (pages 25 - 98):**

Detailed statistics on the breakout of the labor force by occupation, sex, and race are also a ten-year census product. Census ratios were used to calculate the number of persons by occupation, sex, and race in the labor force for each parish, Metropolitan Statistical Area (MSA) and statewide. The latest available annual average labor force estimate for each area was then multiplied by the census ratio. We have incorporated the 2010 Census data by occupation with this 2015 publication. The census data was obtained by a special request to the U.S. Census Bureau, who in turn had to get approval from their Disclosure Review Board (DRB) to release data at the level of specificity that we requested. As you will note, because of more stringent confidentiality standards, many parishes have zero instead of the labor force figures by race and sex due to the DRB mandate that there be at least a weighted sample of 50 in each category of an occupation before it can be published. This also explained the difference between the figures for the civilian labor force 2015 annual average and the total civilian labor force by occupation. Since these data were compiled using ratios some totals by occupation do not sum because of rounding. The Bureau of Labor Statistics established the occupational classifications used in the SOC (Standard Occupational Classification) coding system.

# Labor Market Information Customer Survey

## Louisiana Labor Force Diversity Data 2016

1. Which type of user best describes you? (Please check)

- \_\_\_\_\_ Youth (18 years old or less)
- \_\_\_\_\_ Jobseeker
- \_\_\_\_\_ Business
- \_\_\_\_\_ Other (Please specify) \_\_\_\_\_

2. Did this publication help you to find a job or a training program?

Strongly Agree	Agree	Neither Agree nor Disagree	Disagree	Strongly Disagree	No Opinion

3. For the following, please indicate the extent to which you agree by checking the appropriate box:

	Strongly Agree	Agree	Neither Agree nor Disagree	Disagree	Strongly Disagree	No Opinion
a) The data were easy to understand						
b) The data met my needs						

4. Overall, how would you rate the *Louisiana Labor Force Diversity Data 2016* publication?

(Check the appropriate box.)

Excellent	Good	Average	Fair	Poor	No Opinion

5. Any suggestions for improvements or changes:
