Partners

*This list does not represent all partners which contributed to the creation of this combined plan.
Overview

Under the Workforce Innovation and Opportunity Act (WIOA), the Governor of each State must submit a Unified or Combined State Plan to the Secretary of the U.S. Department of Labor that outlines a four-year strategy for the State’s workforce development system. The publicly-funded workforce development system is a national network of Federal, State, regional, and local agencies and organizations that provide a range of employment, education, training, and related services and supports to help all job-seekers secure good jobs while providing businesses with the skilled workers they need to compete in the global economy. States must have approved Unified or Combined State Plans in place to receive funding for core programs. WIOA reforms planning requirements, previously governed by the Workforce Investment Act of 1998 (WIA), to foster better alignment of Federal investments in job training, to integrate service delivery across programs and improve efficiency in service delivery, and to ensure that the workforce system is job-driven and matches employers with skilled individuals. One of WIOA’s principal areas of reform is to require States to plan across core programs and include this planning process in the Unified or Combined State Plans. This reform promotes a shared understanding of the workforce needs within each State and fosters development of more comprehensive and integrated approaches, such as career pathways and sector strategies, for addressing the needs of businesses and workers. Successful implementation of many of these approaches called for within WIOA requires robust relationships across programs. WIOA requires States and local areas to enhance coordination and partnerships with local entities and supportive service agencies for strengthened service delivery, including through Unified or Combined State Plans.

Options for Submitting a State Plan

A State has two options for submitting a State Plan—a Unified State Plan or a Combined State Plan. At a minimum, a State must submit a Unified State Plan that meets the requirements described in this document and outlines a four-year strategy for the core programs. The six core programs are—

- the Adult program (Title I of WIOA),
- the Dislocated Worker program (Title I),
- the Youth program (Title I),
- the Adult Education and Family Literacy Act program (Title II), and
- the Wagner-Peyser Act Employment Service program (authorized under the Wagner-Peyser Act, as amended by title III),
- the Vocational Rehabilitation program (authorized under Title I of the Rehabilitation Act of 1973, as amended by Title IV).

Alternatively, a State may submit a Combined State Plan that meets the requirements described in this document and outlines a four-year strategy for WIOA’s core programs plus one or more of the Combined State Plan partner programs. When a State includes a Combined State Plan partner program in its Combined State Plan, it need not submit a separate plan or application for that particular program. If included, Combined State Plan partner programs are subject to the “common planning elements” (Sections II-IV of this document) where specified, as well as the program-specific requirements for that program where such planning requirements exist separately for the program. The Combined State Plan partner programs are—

• Temporary Assistance for Needy Families program (42 U.S.C. 601 et seq.)
• Employment and Training programs under the Supplemental Nutrition Assistance Program (programs authorized under section 6(d)(4) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4)))
• Work programs authorized under section 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(o))
• Trade Adjustment Assistance for Workers programs (Activities authorized under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 et seq.))
• Jobs for Veterans State Grants Program (programs authorized under 38, U.S.C. 4100 et seq.)
• Unemployment Insurance programs (programs authorized under State unemployment compensation laws in accordance with applicable Federal law)
• Senior Community Service Employment program (programs authorized under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 et seq.))
• Employment and training activities carried out by the Department of Housing and Urban Development
• Community Services Block Grant (Employment and training activities carried out under the Community Services Block Grant Act (42 U.S.C. 9901 et seq.))
• Reintegration of Ex-Offenders program (programs authorized under section 212 of the Second Chance Act of 2007 (42 U.S.C. 17532))

[1] States that elect to include employment and training activities carried out under the Community Services Block Grant (CSBG) Act (42 U.S.C. 9901 et seq.) under a Combined State Plan would submit all other required elements of a complete CSBG State Plan directly to the Federal agency that administers the program. Similarly, States that elect to include employment and training activities carried out by the Department of Housing and Urban Development that are included would submit all other required elements of a complete State Plan for those programs directly to the Federal agency that administers the program.

How State Plan Requirements Are Organized

The major content areas of the Unified or Combined State Plan include strategic and operational planning elements. WIOA separates the strategic and operational elements to facilitate cross-program strategic planning.

• The Strategic Planning Elements section includes analyses of the State’s economic conditions, workforce characteristics, and workforce development activities. These analyses drive the required vision and goals for the State’s workforce development system and alignment strategies for workforce development programs to support economic growth.

• The Operational Planning Elements section identifies the State’s efforts to support the State’s strategic vision and goals as identified in the Strategic Planning Elements section. This section ensures that the State has the necessary infrastructure, policies, and activities to meet its strategic goals, implement its alignment strategy, and support ongoing program development and coordination. Operational planning elements include:
  o State Strategy Implementation,
  o State Operating Systems and Policies,
  o Assurances,
Program-Specific Requirements for the Core Programs, and

Program-Specific Requirements for the Combined State Plan partner programs. (These requirements are available in a separate supplemental document, Supplement to the Workforce Innovation and Opportunity Act (WIOA) Unified and Combined State Plan Requirements. The Departments are not seeking comments on these particular requirements).

When responding to Unified or Combined State Plan requirements, States must identify specific strategies for coordinating programs and services for target populations. States must develop strategies that look beyond strategies for the general population and develop approaches that also address the needs of target populations.

**Paperwork Reduction Act:** The Paperwork Reduction Act of 1995 (PRA) provides that an agency may not conduct, and no person is required to respond to, a collection of information unless it displays a valid OMB control number. Public reporting burden for this information collection is estimated to be 86 hours per state; including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Responding to this collection is required to obtain or retain the Federal grant benefit. In addition, responses to this information collection are public, and the agencies offer no assurances of confidentiality. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Labor, Office of Workforce Investment, and reference OMB control number 1205-0522. Note: Please do not return the completed plan to this address.

[2] Target populations include individuals with barriers to employment, as defined in WIOA Sec. 3, as well as veterans, unemployed workers, and youth.
I. WIOA State Plan Type and Executive Summary

a. WIOA State Plan Type

Unified or Combined State Plan. Select whether the State is submitting a Unified or Combined State Plan. At a minimum, a State must submit a Unified State Plan that covers the six core programs.

Unified State Plan. This plan includes the Adult, Dislocated Worker, Youth, Wagner-Peyser Act, Adult Education and Family Literacy Act, and Vocational Rehabilitation programs.

Combined State Plan. This plan includes the Adult, Dislocated Worker, Youth, Wagner-Peyser Act, Adult Education and Family Literacy Act, and Vocational Rehabilitation programs, as well as one or more of the optional Combined State Plan partner programs identified below.

This is a combined plan

Combined Plan Partner Program(s)

Indicate which Combined Plan partner program(s) the state is electing to include in the plan.

No

Temporary Assistance for Needy Families program (42 U.S.C. 601 et seq.)

Yes

Employment and Training programs under the Supplemental Nutrition Assistance Program (programs authorized under section 6(d)(4) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4)))

Yes

Work programs authorized under section 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(o))

No

Trade Adjustment Assistance for Workers programs (activities authorized under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 et seq.))

No

Jobs for Veterans State Grants Program (programs authorized under 38, U.S.C. 4100 et. seq.)

Yes

Unemployment Insurance programs (programs authorized under State unemployment compensation laws in accordance with applicable Federal law)

No

Senior Community Service Employment program (programs authorized under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 et seq.))

Yes
Employment and training activities carried out by the Department of Housing and Urban Development

No

Community Services Block Grant (Employment and training activities carried out under the Community Services Block Grant Act (42 U.S.C. 9901 et seq.))

Yes

b. Plan Introduction or Executive Summary

The Unified or Combined State Plan may include an introduction or executive summary. This element is optional.

II. Strategic Elements

The Unified or Combined State Plan must include a Strategic Planning Elements section that analyzes the State’s current economic environment and identifies the State’s overall vision for its workforce development system. The required elements in this section allow the State to develop data-driven goals for preparing an educated and skilled workforce and to identify successful strategies for aligning workforce development programs to support economic growth. Unless otherwise noted, all Strategic Planning Elements apply to Combined State Plan partner programs included in the plan as well as to core programs.

a. Economic, Workforce, and Workforce Development Activities Analysis

The Unified or Combined State Plan must include an analysis of the economic conditions, economic development strategies, and labor market in which the State’s workforce system and programs will operate.

1. Economic and Workforce Analysis

A. Economic Analysis

The Unified or Combined State Plan must include an analysis of the economic conditions and trends in the State, including sub-State regions and any specific economic areas identified by the State. This must include—

i. Existing Demand Industry Sectors and Occupations

Provide an analysis of the industries and occupations for which there is existing demand.

ii. Emerging Demand Industry Sectors and Occupations

Provide an analysis of the industries and occupations for which demand is emerging.

iii. Employers’ Employment Needs

With regard to the industry sectors and occupations identified in (A)(i) and (ii), provide an assessment of the employment needs of employers, including a description of the knowledge, skills, and abilities required, including credentials and licenses.

II. a. 1. A. Economic Analysis

In 2019 Quarter 1, Louisiana’s Mining, Quarrying, and Oil and Gas Extraction industry accounted for 4.4 percent of Louisiana’s $260.4 billion Gross Domestic Product (GDP), nearly three times the percentage of mining-related GDP nationally.
Mining and Logging has lost 3,714 jobs from 2016 Q1, to 2019 Q1, a 9.6 percent decrease. Louisiana Workforce Commission’s (LWC) forecasts anticipate continued decline through 2026 – with a projected loss of 1,599 jobs. Overall, Louisiana’s long-term outlook is encouraging. The state expects an 8.3 percent rise in employment - over 168,208 new jobs - through 2026.

The Health Care and Social Assistance industry - a backbone of the state’s economy accounting for 7.6 percent of Louisiana’s GDP in 2019 Quarter 1 - is the largest contributor to long term employment growth, accounting for 20.2 percent of total forecasted new job growth through 2026.

Health Care and Social Assistance employment has grown 3.5 percent from 2016 Q1 to 2019 Q1. Health Care and Social Assistance accounted for 16 percent of Louisiana’s total employment in 2019 Q1, and the industry is further highlighted in Existing Demand Industry Sectors and Occupations below.

Louisiana’s seasonally adjusted unemployment rate has continued to decline, reaching 4.3 percent in June 2019. Labor force participation declined drastically in 2015 and 2016 but has stabilized, reaching 58.6 percent in June 2019.

Louisiana is home to eight Regional Labor Market Areas (RLMAs). Positive employment growth is projected for all RLMAs through 2026. Below are the employment highlights the eight regions:

- **RLMA 1: New Orleans-Louisiana’s largest by nonfarm employment.**
  - Anticipates 8.2% projected growth through 2026. Three industries that anticipate the most growth are Professional, Scientific, and Technical Services (14.9% projected increase); Health Care and Social Assistance (11.9% projected increase); and Accommodation and Food Services (11.5% increase).

- **RLMA 2: Baton Rouge**
  - Anticipates 10.1% projected growth through 2026. Three industries that anticipate the most growth are Professional, Scientific, and Technical Services (20.2% projected increase); Administrative and Waste Services (16.7% projected increase); and Accommodation and Food Services (14.8% projected increase).

- **RLMA 3: Houma**
  - Anticipates 5.8% projected growth through 2026. Three industries that anticipate the most growth are Accommodation and Food Services (11.1% projected increase); Construction (10.6% projected increase); and Health Care and Social Assistance (10.1% increase).

- **RLMA 4: Lafayette**
  - Anticipates 6.0% projected growth through 2026. Three industries that anticipate the most growth are: Professional, Scientific, and Technical Services (12% projected increase); Health Care and Social Assistance (10.3% projected increase); and Construction (10% projected increase).

- **RLMA 5: Lake Charles- Anticipates the highest projected growth in the state.**
  - Anticipates 13% projected growth through 2026. Three industries that anticipate the most growth are: Construction (26.1% projected increase); Professional, Scientific, and Technical Services (25.8% projected increase); and Health Care and Social Assistance (15.6% projected increase).

- **RLMA 6: Alexandria**
  - Anticipates 5.1% projected growth through 2026. Three industries that anticipate the most growth are: Health Care and Social Assistance (9.0% projected increase);
Construction (8.1% projected increase); and Accommodation and Food Services (7.6% projected increase).

- RLMA 7: Shreveport
  - Anticipates 6.8% growth through 2026. Three industries that anticipate the most growth are: Accommodation and Food Services (15.4% projected increase); Administrative and Waste Services (9.8% projected increase), and Health Care and Social Assistance (8.8% projected increase).

- RLMA 8: Monroe
  - Anticipates 8% growth through 2026. Three industries that anticipate the most growth are: Administrative and Waste Services (17.9% projected increase); Health Care and Social Assistance (13.2% increase); and Accommodation and Food Services (12.6% projected increase).

The Louisiana Workforce Commission’s Louisiana Occupational Information System (LOIS), is the state’s Virtual Labor Market Information Web Portal. This interactive site provides users with access to the latest Louisiana labor force, wages, population, industry employment, training schools, training programs, report for completion rates, projections, demographics, nonfarm employment, employer database, unemployment claimants, industry staffing patterns, licensed occupations, demand occupations, and career products. The LMI tables and charts and figures that follow provide projections for Louisiana’s long-term industry growth.

**Sources:** The preceding section cited data from the Bureau of Economic Analysis, the Current Employment Statistics Program, the Local Area Unemployment Statistics Program, and LWC Long Term Industry Projections.

(i) **EXISTING DEMAND INDUSTRY SECTORS AND OCCUPATIONS[1]**

Louisiana’s long-term employment projections suggest 8.3 percent growth in employment by 2026 in comparison to the projected growth rate of the United States of 6.6 percent.

**Table 1** shows long term growth for the state and the RLMAs. The RLMA 5: Lake Charles, anticipates the fastest growth in the long term, followed by RLMA 2: Baton Rouge.

* North American Industry Classification System

High ranking occupations are those with three, four, or five star rankings as determined by the Louisiana Workforce Commission. LWC’s star ratings system takes into account wages, job openings, employment, and projected growth for over six hundred occupations, both statewide and regionally. **Table 3** shows the highest rated occupations contributing the most employment growth in Louisiana.

(ii) EMERGING DEMAND INDUSTRY SECTORS AND OCCUPATIONS[2]

Figure 1: 2026 Industry Projections for Louisiana, Two-Digit NAICS: Top 10
Figure 1 provides employment growth projections on the 10 industries expected to experience the greatest growth by 2026. The highest growth occupation according to these projections will be Professional, Scientific, and Technical Services. The Professional, Scientific, and Technical Services sector employs workers with a high degree of expertise and training. The establishments in this sector perform activities such as: legal advice and representation; accounting, bookkeeping, and payroll services; architectural, engineering, and specialized design services; computer services; consulting services; research services; advertising services; photographic services; translation and interpretation services; veterinary services; and other professional, scientific, and technical services. Table 4 echoes these results.

Figure 2: Projected Employment through 2026 in the Health Care and Social Assistance Industry
Fueled by the aging of the baby boomers, the Health Care and Social Assistance Industry is projected to grow by 33,988 between 2016 and 2026. This growth is broken down further into the subsectors within the Social Assistance Industry: Ambulatory health care services, Hospitals, Nursing and residential care facilities, and social assistance industries. Over two thirds of the industry’s new job growth is attributable to employment in Ambulatory health care services and Hospitals.

(iii) EMPLOYERS’ EMPLOYMENT NEEDS

Louisiana has a focus on three industries - Health Care and Social Assistance, Transportation and Warehousing, and Professional, Scientific, and Technical Services. Below are employment, wage, and projections data for each industry.

[1] Louisiana Workforce Commission Long Term Industry and Occupational Projections

**B. Workforce Analysis**

The Unified or Combined State Plan must include an analysis of the current workforce, including individuals with barriers to employment, as defined in section 3 of WIOA. This population must include individuals with disabilities among other groups in the State and across regions identified by the State. This includes—

- Individuals with barriers to employment include displaced homemakers; low-income individuals; Indians, Alaska Natives, and Native Hawaiians; individuals with disabilities, including youth who are individuals with disabilities; older individuals; ex-offenders; homeless individuals, or homeless children and youths; youth who are in or have aged out of the foster care system; individuals who are English language learners, individuals who have low levels of literacy, and individuals facing substantial cultural barriers; farmworkers (as defined at section 167(i) of WIOA and Training and Employment Guidance Letter No. 35-14); individuals within 2 years of exhausting lifetime eligibility under the
Temporary Assistance for Needy Families program; single parents (including single pregnant women); and long-term unemployed individuals.

[5] Veterans, unemployed workers, and youth, and others that the State may identify.

i. Employment and Unemployment

Provide an analysis of current employment and unemployment data, including labor force participation rates, and trends in the State.

ii. Labor Market Trends

Provide an analysis of key labor market trends, including across existing industries and occupations.

iii. Education and Skill Levels of the Workforce

Provide an analysis of the educational and skill levels of the workforce.

iv. Skill Gaps

Describe apparent ‘skill gaps’.

(i) Employment and Unemployment

Figure 3: Total Nonfarm Employment, Seasonally Adjusted, LA (January 2009- June 2019)

Source: Current Employment Statistics (CES) Program.

According to the Current Employment Statistics survey, Louisiana nonfarm employment grew from 1,974,100 in January 2018 to 1,981,000 in June 2019, which is a 0.3 percent increase. Driven by strong demand from employers, Louisiana’s total nonfarm employment has risen steadily since 2010. That trend reversed through 2015 and 2016, although gains in employment have been posted in the recent year.

Figure 4: Total Covered Employment for Selected Industries, LA: 2016 Q1 to 2019 Q1
Source: Quarterly Census on Employment and Wages (QCEW) Program.

**Figure 5:** Over the Year (OTY) Change in Total Nonfarm and Private Sector Jobs Seasonally Adjusted (SA), LA: January 2017 to June 2019

Source: Current Employment Statistics (CES) program

**Figure 6:** Year over Year Change in Total Government Jobs (SA): January 2017 to June 2019
Source: Current Employment Statistics (CES) program

Figure 7: United States and Louisiana Unemployment Rates: January 2009 to June 2019

Source: Labor Force data produced by the Local Area Unemployment Statistics (LAUS) and Current Population Survey (CPS) Programs
Between January 2009 and June 2019 Louisiana’s unemployment decreased from 6.1 to 4.3 percent. During this time the number of unemployed persons decreased from 126,727 to 90,492 and the civilian labor force increased from 2,088,301 to 2,097,545.

Figure 8: Initial Weekly UI Claims: January 2016 to June 2019

Figure 8: The above chart represents initial unemployment insurance claims by week for each week during January 2016 to June 2019. There were 253 fewer initial claims made in the last week of June 2019 compared to the last week of January 2016.

Figure 9: Continued Weekly UI Claims: January 2016 to June 2019
Louisiana’s number of continued claimants showed a downward trend between January 2016 and June 2019. There were 7,042 fewer continued claims made in the last week of June 2019 compared to the last week of January 2016.

**Worker Profiling and Reemployment Services (WPRS) Model**

Changes to the U.S. economy—including the contraction of entire industries as a result of changes in technology and overseas competition—have led to increases in the length of unemployment. Unemployed workers are now less likely to be rehired by their previous employers and are at a greater risk of long-term unemployment than in the past. As a result, the Worker Profiling and Reemployment Services (WPRS) system was established nationwide following the 1993 enactment of PL 103-152. Profiling is designed to identify UI claimants who are most likely to exhaust their regular benefits, so that they may receive reemployment services that will help them find a job more quickly.

Louisiana Workforce Commission’s Labor Market Information developed a model for profiling all new claimants for regular UI benefits. The WPRS system strengthens the link between Unemployment Insurance and Employment Services for those most likely to exhaust benefits. The worker profiling model for Louisiana helps us achieve the objectives of reducing the weeks of UI benefits, reducing UI benefits per beneficiary, increasing earnings per beneficiary, and providing a management tool for targeting resources and aiding staff in understanding the customers they serve.

(ii) Labor Market Trends

**Figure 10: National and State Labor Force Participation Rate: January 2009 to June 2019**

Source: Labor Force data produced by the Local Area Unemployment Statistics (LAUS) and Current Population Survey (CPS) Programs.

In January 2009, Louisiana’s labor force participation rate was 3.8 percentage points below the national average. In June 2019, the state participation rate was 4.3 percentage points below the national average after experiencing a large decline in 2015.

**Figure 11: Labor Force Participation Rate and Unemployment Rate in Louisiana (January 2013-December 2017)**
Figure 12: Labor Force Participation Rate and Unemployment Rate in United States (January 2013- December 2017)

Source: Labor Force data produced by the Local Area Unemployment Statistics (LAUS) Program.

Figures 11 and 12 above show the unemployment rate and labor force participation rate from January 2009 to June 2019. Louisiana and the United States labor markets experienced different
recovery trajectories from the Great Recession. Additionally, natural disasters and oil price volatility had disproportionate impacts on the Louisiana labor market. It is encouraging that in recent months Louisiana has experienced both a decline in the unemployment rate and stability in the labor force participation rate.

**Source:** Current Population Survey (CPS) conducted by the Local Area Unemployment Statistics (LAUS) program.

The Current Population Survey (CPS) provides estimates of the composition of the Civilian Non-Institutional Labor Force. The labor force is all individuals over the age of 16 that are employed or unemployed and actively seeking a job. The chart above provides some information on how different ethnic groups and genders are represented in Louisiana’s workforce. From this information, the proportion of each race in the labor force is approximately equal to the proportion of the race of the population. By gender, males comprise a larger proportion of the labor force than the total population.

WIOA Combined State Plan PY 2020-2023 - Page 22 - Final
(iii) Education and Skill Levels of the Workforce

Population 18 to 24 years

- Less than high school graduate: 16.7%
- High school graduate (includes equivalency): 35.5%
- Some college or Associate’s degree: 40.4%
- Bachelor’s degree or higher: 7.4%

Source: U.S. Census American Community Survey 2018 1-year estimates, Table S1501

Tables 13 and 14 highlight the educational achievements of Louisiana’s population. Table 13 looks at a younger cohort, aged 18 to 24, who may still be in postsecondary education. Their relative age likely accounts for the low percentage of Bachelor’s degree or higher completers, and the high percentage of ‘some college or associate’s degree’ completers.

Table 14 studies the population above age 24, which is more likely to have left the educational system. More than half of Louisiana’s adult population has completed some college coursework or graduated from a secondary institution.

Population 25 years and over

- Less than high school graduate: 14.2%
- High school graduate (includes equivalency): 34.3%
- Some college, no degree: 20.8%
- Associate's degree: 6.5%
Population 25 years and over
Bachelor's degree 15.9%
Graduate or professional degree 8.4%

*Disabilities are not mutually exclusive

Source: U.S. Census American Community Survey 2018 1-year estimates, Table B18120

In Louisiana, 6.5 percent of the employed population aged 18 to 64 lives with one or more disabilities. Residents with disabilities account for 15 percent of the unemployed and 31 percent of those not in the labor force.

Table 15 highlights the rates at which various disability characteristics appear in the employed, unemployed, and not in the labor force populations. Disability characteristics are not mutually exclusive, meaning one individual may have multiple difficulties, accounting for the high percentages.

Source: U.S. Census American Community Survey 2018 1-year estimates, Table C21005

Table 16 breaks out the labor force status of Louisiana veterans aged 18 to 64. Veterans in Louisiana have a fairly high labor force participation rate, with 77 percent of those aged 18 to 64 are in the labor force. Veterans account for 4.5 percent of Louisiana’s population and only 3.9 percent of veterans are unemployed.

Table 17 compares incarceration rates statewide and nationally. Louisiana has the highest incarceration rate in the nation, with 762 of every 100,000 residents behind bars in 2016. 99.9 percent of those incarcerated have sentences in excess of one year.[3]

Table 18 shows the number of completers from Louisiana’s public postsecondary education programs by degree level for academic years 2016 through 2018.

The completer data are compared to the number of annual openings from LWC’s long-term projections, which provide an approximation of what skill levels may show gaps in the future.

Below is further breakdown of degrees awarded by occupational category. The same comparison is drawn between 2018 academic year graduates and annual projected job openings through 2026. The annual projected openings are for occupations that typically require completion of a post-secondary program.

2. Workforce Development, Education and Training Activities Analysis

The Unified or Combined State Plan must include an analysis of the workforce development activities, including education and training in the State, to address the education and skill needs of the workforce, as identified in (a)(1)(B)(iii) above, and the employment needs of employers, as identified in (a)(1)(A)(iii) above. This must include an analysis of—

A. The State’s Workforce Development Activities

Provide an analysis of the State’s workforce development activities, including education and training activities of the core programs, Combined State Plan partner programs included in this plan, and required ⁶ and optional one-stop delivery system partners.⁷

⁶ Required one-stop partners: In addition to the core programs, the following partner programs are required to provide access through the one-stops: Career and Technical Education (Perkins), Community Services Block Grant, Indian and Native American programs, HUD Employment and Training programs, Job Corps, Local Veterans’ Employment Representatives and Disabled Veterans’ Outreach Program, National Farmworker Jobs program, Senior Community Service Employment program, Temporary Assistance for Needy Families (TANF) (unless the Governor determines TANF...
will not be a required partner), Trade Adjustment Assistance programs, Unemployment Compensation programs, and YouthBuild.

[7] Workforce development activities may include a wide variety of programs and partners, including educational institutions, faith- and community-based organizations, and human services.

**B. The Strengths and Weaknesses of Workforce Development Activities**

Provide an analysis of the strengths and weaknesses of the workforce development activities identified in (A), directly above.

**C. State Workforce Development Capacity**

Provide an analysis of the capacity of State entities to provide the workforce development activities identified in (A), above.

**A. The State’s Workforce Development Activities**

Each Comprehensive One-Stop Center (includes the presence of all partners) offers an extensive array of services which include for job seekers:

- Outreach, common intake and assessment, orientation and referral to other services.
- Initial and Comprehensive assessment of skills, aptitudes, interests and abilities, both in a self-service and staff assisted service context, based on the specific needs of the job seeker.
- Career Counseling, job search and placement assistance.
- Provision of Labor Market Information by location, region, and national areas – job vacancy listings, information on skills relating to local occupations in demand and the earnings and skill requirements for those occupations.
- Provision of performance information and program cost information on eligible training providers. Provision of information relating to the availability of supportive services such as child care and transportation.

Comprehensive One-Stop Centers offer employers:

- Screening and referral of qualified job candidates.
- Outreach and assistance in developing effective recruiting job orders.
- Access to the State's “talent bank”.
- Coordination of job fairs and recruitment events.
- Connection with community service organizations and tax credit opportunities.
- Training for Incumbent Workers.
- Connections to Registered Apprenticeship programs.
- Provision of information regarding the availability of OJT and Customized Training, including referral of employers to sources of funding for worker training.
- Coordination with economic development and other programs that assist business.
- Assistance with layoff aversion.

**Adult, Dislocated Worker and Youth**
The WIOA Title I Adult program provides workforce activities that increase, particularly for individuals with barriers to employment, the employment, retention, earnings, and attainment of recognized postsecondary credentials of adults age 18 and older, and as a result, improving the quality of the workforce, reducing dependency on public assistance and increasing economic self-sufficiency.

LWC has formally eliminated the sequence of service provision in Title I programs through development of a new service delivery model. The new model connects all partners to clients at any entry point where assessment occurs. The process is further driven by co-enrollment across all active Partner Programs.

LWC, under WIOA codification, and through its policy guidance, clarifies to all partners that participants are not required to pass through multiple layers of assessments and services before entering into training. The state service delivery model has effectively combined core and intensive services into career services, giving all partner staff in One-Stop Centers the flexibility to provide access to training based on assessed need. The redefined service model:

- Provides more flexible training delivery options to meet the needs of low-income individuals.
- Allows Local Workforce Development Boards (LWDBs) to contract directly with colleges or eligible training providers to supply training for high-demand occupations and/or industry sectors.
- Expands reliance beyond Individual Training Accounts and increases flexibility to help local boards use WIOA funds to a better scale.
- LWDBs continue to develop and refine innovative and effective models for obtaining industry-recognized credentials, including:
  - Integrated education and training approaches; career pathways, industry or sector partnerships, including those pertaining to Registered Apprenticeship programs and opportunities.
  - Cohort-based approaches.
  - Evidence-based approaches that reflect best practices including Registered Apprenticeship programs, and
  - Development of interim credentials for longer-term Registered Apprenticeship programs, which Louisiana can do as an “SAA State” (State Apprenticeship Agency).

In addition, LWDBs may use a portion of local funds to fund pay-for-performance contracts as a form of training delivery under Title I, with continuous evaluation of how target populations are chosen, to fairly serve individuals who face barriers to employment and economic success.

LWDBs may consider the full cost of participating in training services, including expenses related to dependent care, transportation and other essential needs for individuals who need additional assistance.

Louisiana uses a broad range of training programs as part of its workforce development strategy. These programs involve collaborating with local boards, companies and education/training providers to improve training.

LWC requires:

Local boards and/or One-Stop operators to specifically report on expenditures for career and training services and on the number of participants who received career and training services. This requirement is specifically designed to make planning and funding decisions more transparent, and to provide better opportunities for public oversight.
Eligible training providers to report results for all of their students for common measures for each program of study, not just participants whose training costs were paid for through the use of WIOA funds, in order to improve transparency of results for programs and for disadvantaged persons.

Adult

The Louisiana Workforce Commission recognizes that for many low-skilled and disadvantaged youth and adults, improved economic opportunity depends on their ability to access education and training necessary to prepare them for college and career success. Evaluation of job training programs for adults finds that postsecondary education, in particular a degree or industry-recognized credential related to in-demand jobs, is the primary determinant of lifetime earnings. Education and training provides opportunities for increasing a family's financial resources, helps parents stay employed and establishes a solid foundation for the next generation (youth).

Emphasis shall be placed on work based learning strategies that align with business needs. Incorporating Registered Apprenticeship into service design and delivery is one way LWC expects LWDBs to address the middle skill jobs that account for over half of Louisiana's labor market as noted in an earlier section, and it likewise addresses the need to focus on in-demand occupations and recognized credentials. One way to accomplish this is by having American Job Center staff involved and engaged in screening and assessment for current registered programs.

LWC operates its Adult Training Program to identify workers who currently need or will need higher levels of education to fare better in the labor market to reduce the incidence and duration of unemployment while supporting higher earnings and job stability. Louisiana honors the Title I Priority of Service requirement by leveraging all available funding streams and partnerships, regardless of state or local funding availability, in providing priority access to higher-intensity career services and training to:

- Public assistance recipients.
- Other low-income individuals.
- Individuals who are deficient in basic skills.
- Individuals with barriers to employment

LWC in its continued implementation of WIOA requires LWDBs to:

- Report the number of individuals with barriers to employment served by each core program, with specific breakdowns by subpopulation.
- Report on the number of individuals with barriers to employment that are served by the Adult and Dislocated Worker program, with specific breakdowns by subpopulation, race, ethnicity, gender, and age.

WIOA establishes a priority requirement with respect to funds allocated to a local area for adult employment and training activities. AJC staff, when using WIOA Adult funds to provide individualized career services, training services, or both, must give priority to recipients of public assistance, other low-income individuals, and individuals who are basic skills deficient. Under WIOA, priority must be implemented regardless of the amount of funds available to provide services in the local area.

For the purpose of determining eligibility of adult under WIOA, individualized career or training services shall constitute a minimum of 51% of adults served meeting the priority target groups. This minimum threshold will ensure that local one-stops are targeting adults in most need of services.
beyond “basic career services while developing talent pools that meet the short term as well as long
term workforce needs of businesses.

**Documenting Low-Income Status for Priority of Service**

LWDA staff must properly document low-income status when an adult is enrolled in the WIOA Adult
program and meets any one criterion under “WIOA Adult Priority of Service Criteria” Section. All
attempts to gather this information, including calls, letters, and email messages to the participant must
be documented in HiRE Case Notes.

**LWDA Priority of Service Policy**

LWDAs must develop policies which describe how this priority of service will be applied.

1. This policy may include the:
   1. Availability of other funds for providing employment and training-related services in the
      local area;
   2. Needs of the specific groups in the local area; and
   3. Other appropriate factors.

   1. LWDAs may not establish policies that undermine WIOAs focus on providing services
to targeted priority of service populations. LWDAs must not set a percentage of funds
that will be used to serve priority populations
   2. LWDAs may establish a process that gives priority to other individuals eligible to
receive such services, provided that it is consistent with priority of services to
veterans and other targeted priority of services groups listed above.
   3. Local area policy must clearly state how LWDAs serve adults who do not meet the
priority of service criteria and how this information is tracked

**Dislocated Worker**

Layoffs are always challenging for workers and employers. LWC provides Rapid Response Services
designed to help employers proceed in an orderly and legal way by guiding them through the process.
LWC works with LWDBs and other partners (training and supportive-service providers) to help both.

Direct services to workers facing a plant shutdown or large-scale lay-off, are focused on preparing
them to find suitable new employment, and get them back to work as quickly as possible by helping
them overcome such difficult barriers to employment as:

- Transferring and/or upgrading specialized skills to other jobs, occupations or industries.
- A decline in the market demand for certain skills.
- Age or length of work experience.
- Need for formal training or education.
- Lack of jobs with earnings at a level comparable to their previous positions.

Dislocated worker services are custom-tailored to meet an individual worker's specific needs. Working
one-on-one with a case manager, workers are guided through the process of developing an
Individualized Employment Plan that includes as a minimum:
• Career planning and counseling.
• Job search and placement.
• Approved training, which include Registered Apprenticeship programs.
• Other needed support services.

**WIOA Dislocated Worker Verification of Layoff or Termination**

Methods to verify layoff include verification from the employer, a WARN notice, a public announcement with a follow-up cross-match with the UI system, or a Rapid Response list showing names of affected employees. When gathering verification documentation becomes a hardship, the LWDA may accept the *WIOA Title I Applicant Statement*

**Youth**

Louisiana does not have a defined service delivery model for WIOA Youth Services. Each LWDB has the autonomy to develop their local youth service model. However, these models must support the implementation of Career Pathways that support postsecondary education, and address the needs of low-income in school youth as well as out of school youth, and support pre-apprenticeship to Registered Apprenticeship opportunities. LWC encourages each LWDB to competitively procure and provide all fourteen of the program service elements. LWC has committed to assisting the LWDB’s through the One Stop partners, to develop and provide age and developmentally appropriate models for out of school youth.

LWC will work with local areas to ensure they:

• Will not require out-of-school youth in high-risk categories to prove low-income status to receive services.
• Will provide services to individuals who have dropped out of high school, have not attended school for at least one calendar quarter of the most recent school year, or are subject to the juvenile or adult justice systems under the out-of-school youth program.
• Will target and provide services to homeless individuals, runaways, current or former foster care youth and individuals who or are pregnant or parenting.
• Will provide services to youth who are not attending school, hold a secondary credential, and are either basic-skills deficient or an English language learner.
• Will consider youth living in a high-poverty area to meet the low-income criterion for youth activities funding and services.

The state will monitor and guide local boards such that at least 75 percent of available statewide funds and 75 percent of funds available to local areas are spent on workforce investment services for out-of-school youth.

Local Boards may directly provide some or all of the youth workforce service activities. If a Local Board serves as the youth service provider and performs other roles such as fiscal agent or AJC Operator, the Local Board must have appropriate firewalls in place between the staff providing services, the staff responsible for oversight and monitoring of services, and the Local Board. The firewalls must conform to *Title 20 CFR Section 679.430* for demonstrating internal controls and preventing conflicts of interest.

Local Workforce Development Areas may follow their local procurement rules provided those rules are not less stringent than the Louisiana State Contract and Procurement Policies, otherwise local
areas must adhere to State procurement policies. (Louisiana Title 34 Government Contracts, Procurement, and Property Control)

Local Boards must also identify youth service providers based on criteria in the State Plan (Title 20 CFR Section 681.400). The State Plan establishes that Local Boards should select service providers that do the following:

1. Employ proven recruitment strategies of effective outreach, engagement, enrollment, and retention of OSY.
2. Demonstrate meaningful partnerships with eligible training providers, institutions of higher education, and employers from in-demand industries.
3. Offer a continuum of services that allow participants to obtain a GED/High School diploma, enroll into postsecondary education, and obtain employment within their chosen career path.
4. Utilize career pathways and sector strategy models with a structured sequence of activities, as well as multiple entry and exit points that provide adequate supportive services.
5. Use structured work-based learning, such as paid and unpaid work experiences and career exploration that leads to gainful employment.
6. Provide intensive case management and support services to help youth overcome complex barriers, successfully complete the program, and retain employment.

1. Competitive Basis

If a Local Board chooses to award, grant or contract youth service providers for some or all activities, the Local Board must award such grants or contracts through a competitive process that does the following:

1. Takes into consideration the ability of the youth service provider to meet performance accountability measures.
2. Meets the procurement standards specified in Uniform Guidance and the DOL Exceptions.
3. Follows state and local procurement laws.

1. Sole Source Exception

The local board may award, grant, or contract on a sole-source basis if such board determines there are an insufficient number of eligible providers of youth workforce investment activities in the local area.

When the Local Board awards a grant or contract to a youth service provider who also fulfills another role in the Local Area, a written agreement with Local Board and the Chief Elected Official must provide clarity on the expectation for those roles and clear methods of tracking execution and accountability for the distinct roles.

Adult Education

In 2010, the Louisiana Legislature finalized the transference of responsibility of Louisiana's adult education delivery system from the Louisiana Department of Education (LADOE) to Louisiana Community and Technical College System (LCTCS). This effort was not simply about moving a
program’s administration from one agency to another. It was about reconsidering completely the goals, outcomes, and direction of adult education in Louisiana. LCTCS developed a new policy framework whose primary focus is putting Louisiana adults to work by providing high-quality basic skills instruction, in addition to wrap-around student services that lead to a seamless transition to postsecondary enrollment, technical skill training, credentialing, and family-sustaining employment. As a symbol of the new vision, the Louisiana Adult Education Program was re-branded "WorkReady U.” Adult education programs have progressively adjusted educational services and delivery models and are well-positioned to provide/deliver/coordinate the required activities under Title II-WIOA.

Adult Education connects with the One-Stop system through the intake and assessment process to identify adults with limited basic skills and use innovative instructional models as necessary to prepare adult learners for transition to postsecondary training or careers. The LCTCS Adult Education and Family Literacy Program (WorkReady U), administers and provides program performance oversight to eligible local entities that provide adult education services. These services include academic instruction and education services that increase the individual’s ability to:

- read, write, and speak English and perform mathematics or other activities necessary for the attainment of a secondary school diploma or its recognized equivalent;
- transition to postsecondary education and training; and
- obtain employment.

The LCTCS provided all of Louisiana’s Comprehensive One-Stop Centers with the technological linkage that provides customers with more accessibility to adult education services and information.

**Wagner-Peyser**

Louisiana meets the WIOA of collocating Wagner-Peyser Employment Services in its American Job Centers, in particular its “Comprehensive One Stop Center. Therefore, unemployment insurance claimants, priority population, and all other clients receive the same services which include: job training, labor exchange, career counseling and labor market intelligence. UI claimants also receive eligibility assessments and referrals to an array of educational resources and training through the Wagner-Peyser Employment Service program.

**Vocational Rehabilitation Services**

Louisiana Rehabilitation Services (LRS) is present in all Comprehensive One-Stop centers and in affiliate locations as necessary to assure effective service to individuals with disabilities through participant’s skills training which enhances participant ability to obtain employment in their desired field, in particular “high demand jobs”. LRS consistently places clients in high demand jobs. The LRS Program Coordinator for rehabilitation technology provides consultation to Comprehensive One-Stop Center staff and affiliate locations to improve knowledge regarding assistive technology and address other accessibility issues. In addition, the agency’s Rehabilitation Employment Development Specialists (REDS) serve as LRS liaisons for all Comprehensive One-Stop centers and affiliate locations within their region, providing public awareness and services to consumers such as building job-seeking skills and employment development. The State is committed to the success of individuals with disabilities and leads the collaboration effort across all Partner Programs.

LRS continues to renew and revise existing local cooperative agreements, as applicable, with all school districts in Louisiana. The Department of Education (LDOE) and LRS continue to work together to establish regional core teams throughout the state. LRS collaborates with LDOE, the Office for Citizens with Developmental Disabilities (OCDD), Work Incentive Planning Program, the Office of Community Services, and the Office of Youth Development in an effort to network, share information and utilize comparable benefits to enhance VR services to transitioning students. The primary focus of LRS’ collaboration is to identify and address barriers (e.g. policies, eligibility process, resource allocation), assure effective service provision through support of local interagency core teams, provide cross-agency training, outreach, engage in capacity building of young adults and
family outreach efforts, provide continued support of innovative models and practices related to transition and provide information and technical assistance.

**Temporary Assistance for Needy Families (TANF)**

The Louisiana Department of Children and Family Services (DCFS) is committed to providing cash assistance and supportive services to needy families meeting specific financial criteria and to provide services necessary to accomplish the goals and purposes of Section 401 of the Social Security Act (42 USC 601) in order to:

- Provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives.
- End dependence of needy parents on government benefits by promoting job preparation, work and marriage.
  - Prevent and reduce the incidence of out-of-wedlock pregnancy.
  - Encourage the formation and maintenance of two-parent families.

**The Trade Adjustment Assistance (TAA)**

The state continues to administer the Trade Adjustment Assistance (TAA) program, which is available to workers who lose their jobs or experience reduced hours or income as a result of increased foreign trade activity. Local boards in areas where TAA petitions exist will actively reach out to affected workers to provide TAA-funded training with the same goals as provided under the dislocated worker program.

Trade services are considered an integral part of the One-Stop Center’s service delivery and may involve any and all partners based on the particular needs of individual clients. As such, trade-affected workers may be eligible for:

- Training services.
- Job-search allowances.
- Relocation allowances.
- Re-employment services.
- Funded training.
- On-the-job training.

Like the dislocated worker program, TAA-funded training helps trade-impacted workers obtain the skills necessary to gain suitable employment. TAA will pay tuition, course fees, books and required supplies and equipment, transportation and other items or services deemed necessary for completion of an approved occupational skills training program, including Registered Apprenticeship programs.

**Jobs for Veterans State Grant (JVSG)**

Louisiana provides employment, training and placement services to all veterans through a network of strategically located American Job Centers, and supported by HIRE. JVSG provides services to veterans and eligible persons according to need, and significant barriers to employment. LWC Jobs for Veterans State Grant-funded activities are co-located within the state’s One-Stop Centers. JVSG staff referred to as Local veteran Employment Representative (LVER) and Disabled Veteran Outreach Program (DVOP) Specialist are essential parts of and fully integrated into the workforce development network. The veterans program is operating a fully functional re-entry program.
Senior Community Service Employment Program (SCSEP)

The goal of the planning process is to design a long-term strategic view of the senior citizen employment opportunities, inclusive of SCSEP and measurable strategies to achieve the defined goals.

Currently the Louisiana Senior Community Service Employment Program is operated by both the state and national non-profit organizations. The program serves low-income persons who are 55 years of age and older who have poor employment prospects by placing them in part-time community service positions and by assisting them to transition to unsubsidized employment. This does not include individuals who are seeking employment and are not eligible for program services.

Louisiana is committed to bringing SCSEP together with diverse stakeholders (including local boards and One-Stop operators) to develop and expand employment and training opportunities for the state’s senior citizens. The goal of the planning process is to design a long-term strategic view of the senior citizen employment opportunities, inclusive of SCSEP and measurable strategies to achieve the defined goals.

Community Services Block Grant (CSBG)

Louisiana is committed to providing resources to combat poverty and fostering partnerships within low-income communities that promote self-sufficiency, enhance family stability and encourage communal revitalization. This commitment is the charge of the LWC’s CSBG Unit within the Office of Workforce Development. As a partner in the Louisiana Combined Plan, the CSBG Unit collaborates with forty-two (42) public and non-profit Community Action Agencies (CAAs) throughout the State’s sixty-four (64) parishes to implement locally designed programs that provide a range of services and activities resulting in measurable outcomes in the reduction of poverty and the increase of self-sufficiency and independence. Programs vary depending on the locally assessed needs and circumstances of each community, but generally include emergency rental/mortgage assistance, emergency shelter, emergency utility assistance, transportation, job training, work uniforms, TWIC cards, food pantries, medical prescriptions, credit counseling, income management, first-time homebuyer education, high school equivalency testing, parenting education, fatherhood initiatives, re-entering citizens and health services. The programs and services of the CSBG Unit and Community Action Agencies are a major component of the Louisiana Workforce continuum of services.

B. The Strengths and Weaknesses of Workforce Development Activities

</tr>
</tbody>
</table>

C. State Workforce Development Capacity
The Louisiana Combined State Plan Partners have defined “capacity” in three categories of service: efficiency, connectivity, and funding. LWC has a solid foundation in efficiently providing employer and job-seeker services. The implementation and operation of a continuous process improvement strategy shows promise in continuing to create efficiencies in these processes.

There is opportunity for stronger coordination and consistency between Partner Programs, through the use of a Common Intake Process and Co-enrollment strategy that will improve efficiencies across the board for all partners. This “any door” approach will enable any job seeker to enter the system with a consistent approach, which will result in seamless transition among Partner Programs and Supportive Services providers. LWC is also engaged in developing a “data warehouse” that will make data sharing more instantaneous and homogenous to all partners.

LWDA leadership continues to rely on the use of Wagner-Peyser and WIOA Adult, to support their operations. LWDA's must begin to take a leadership role by enrolling Dislocated Worker and Youth participants in the appropriate funded programs, even though services under those programs are more complex to manage and require more effort. This is the only way to bring Louisiana into true compliance with the intent of WIOA. LWDA's coming into compliance with the intent of WIOA, as identified in the State’s Co-enrollment and Service Delivery Policies, will provide broader opportunity and greater success for the client (potential WIOA program participant) population. LWC will guide LWDA's in leveraging additional Partner Program funding in order to overcome this shortfall.

The capacity of the State's education and training services varies from region to region and is based on the needs of individuals and funding availability by the LWDA. The State has adopted a Career Pathway approach to address efficiency issues related to how timely and responsive it is in developing plans and entering job-seekers into training. This will allow employers and job-seekers to focus on a stepped approach to earning education and training.

The State is determined to meet the need of “market connection” by identifying and providing "working learners", with greater flexibility and broader opportunities in education and training in order to overcome limited funding. The State’s goal is to develop capacity to assist job-seekers, who find training and education at odds with making a "family sustaining wage.” This can be accomplished through closely managed and leveraged resources.

LWC is quickly building capacity in Business Services through the use of a combination of “Industry Sector Coordinators” and “Business Consultants” One of which focuses on specific industries (chemical, medical, etc.) while the other focuses on providing service to specific employers within an industry. Together they connect with Program Partners who are enrolling, assessing, and providing career and individualized services to job-seekers in order to meet anticipate and meet labor market demands in a timely manner.

LWC’s Apprenticeship Division is working statewide to improve the capacity of the workforce system relative to incorporating Registered Apprenticeship in service design and delivery, as well as to support the emphasis on career pathways. The engagement of State apprenticeship staff with the Office of Apprenticeship in Dallas has also been robust, and we expect that partnership to continue. As noted earlier in this plan, LWC believes Registered Apprenticeship is a model that strikes “…the critical balance between serving individuals and employers in a manner that will produce strategies that in the long run are good for both.”

LWC’s service platform is proven, and is a solid foundation on which to broaden its use. However, there are still challenges with the state’s larger communities and metropolitan areas. These are difficult to serve consistently, due to the varying size of firms and industry concentrations.

Because of the complexity of adopting new laws, in the context of waning budgets and moving industry targets, the State and its LWDA's face a series of strategic challenges to the workforce system both in services to job seekers and employers. Together, these challenges are high, but the opportunities to address these challenges are even greater. The State is building a coalition of Partner Programs, researching and designing support structures, and shall effectively address the next stage of The State's workforce development system through strategic realignment, simplified navigation and an integrated approach to serving all its customers.
LWC’s Office of Workforce Development has realigned staffing and its operational strategy to provide effective guidance and support to Local Workforce Areas identified in the plan, and in support of regional business engagement strategies. One partner, Vocational Rehabilitation Services, has identified human capital as its greatest challenge in meeting the requirements of WIOA. This is due, largely, to current vacancies and attrition. The State’s service delivery models are a solid foundation for striking the critical balance between serving individuals and employers in a manner that will produce strategies that in the long run are good for both.

b. State Strategic Vision and Goals

The Unified or Combined State Plan must include the State’s strategic vision and goals for developing its workforce and meeting employer needs in order to support economic growth and economic self-sufficiency. This must include—

1. Vision

Describe the State’s strategic vision for its workforce development system.

2. Goals

Describe the goals for achieving this vision based on the analysis in (a) above of the State’s economic conditions, workforce, and workforce development activities. This must include—

(A) Goals for preparing an educated and skilled workforce, including preparing youth and individuals with barriers to employment and other populations.

(B) Goals for meeting the skilled workforce needs of employers.

[8] Individuals with barriers to employment include displaced homemakers; low-income individuals; Indians, Alaska Natives, and Native Hawaiians; individuals with disabilities, including youth who are individuals with disabilities; older individuals; ex-offenders; homeless individuals, or homeless children and youths; youth who are in or have aged out of the foster care system; individuals who are English language learners, individuals who have low levels of literacy, and individuals facing substantial cultural barriers; eligible migrant and seasonal farmworkers (as defined at section 167(i) of WIOA and Training and Employment Guidance Letter No. 35-14); individuals within 2 years of exhausting lifetime eligibility under the Temporary Assistance for Needy Families Program; single parents (including single pregnant women); and long-term unemployed individuals.

[9] Veterans, unemployed workers, and youth and any other populations identified by the State.

3. Performance Goals

Using the tables provided within each Core Program section, include the State’s expected levels of performance relating to the performance accountability measures based on primary indicators of performance described in section 116(b)(2)(A) of WIOA. (This Strategic Planning element only applies to core programs.)

4. Assessment

Describe how the State will assess the overall effectiveness of the workforce development system in the State in relation to the strategic vision and goals stated above in sections (b)(1), (2), and (3) and how it will use the results of this assessment and other feedback to make continuous or quality improvements.
1. Vision

Today's economic landscape and workforce is constantly changing and the demands shift on a regular basis for a growing economy. Since 2016, Louisiana has experienced growth in numerous in-demand industry sectors of the workforce, including manufacturing, information technology, healthcare and biotechnology, to name just a few. With the increasing need for skilled workers, the creation of Industry Sector Partnerships aligns education and skills acquisition to meet the general requirements of workers and businesses. One of the goals in releasing the plan is to provide a reliable guide focused on creating and sustaining good jobs while identifying strategies that support future-oriented education and training for Louisiana citizens as well as America's Workforce. This vision has continued the mission with which Gov. Edwards charged the people of Louisiana. That shared mission of “Putting Louisiana First” and making it possible for all Louisiana citizens to be healthy and prosperous has guided the preparation and evolution of this plan.

Louisiana Workforce Commission (LWC) and Governor John Bel Edwards work consistently to support and remain committed to workforce progress as a priority of Louisiana. Louisiana's economy is evolving. Parallel to our evolution are the changing needs and demands of our state and nation, resulting in a shift in the business needs and skills demand to meet businesses' needs today and in the future. As the administration continues to keep the promises made during the previous and current terms, LWC has re-energized the Workforce Commission's commitment to increasing business engagement, employer utilization, reducing employer costs, and increasing value received from the workforce system to recruit and hire qualified Louisiana workers. We additionally have refocused our commitment to ensuring that working families earn a living wage that strengthens families and support our state's economic recovery.

Louisiana's workforce climate is at an all-time high of economic vibrancy and LWC supports the philosophy of bipartisan and cross-agency collaborations that creates solutions to lift people out of poverty. It is our goal to ignite more enthusiasm in creating solutions pertinent to Louisiana's Labor environment.

We, the people of Louisiana, envision a workforce system that will provide pathways for all Louisianans, including individuals who are receiving public assistance, the unemployed or underemployed, those who are deficient in basic skills, as well as persons with disabilities, including disabled veterans, and others who have significant barriers to employment. All will have access to education, training and supportive services needed to prepare for and secure high-demand occupations that pay family-sustaining wages.

2. Goals

STRATEGIC GOALS

Goal 1: Continue to strengthen existing and establish new Career Pathways as a model for skill, credential and degree attainment for Louisiana citizens. This will help to secure jobs that provide opportunities for economic independence and family stability. This goal will be accomplished by executing the following objectives:

1. Workforce development system partners will develop a shared vision and strategy for industry sector-based career pathways for youth and adults. Career pathways are diverse, with multiple entry and exit points allowing individuals of varying abilities, including adults and youth with multiple barriers to employment and in need of skill enhancement, to have realistic access to pathways.

2. Engage employers and integrate sector strategy principles to ensure employers, business associations and organized labor are partners in creating demand-driven career pathways.

3. Increase the identification, prioritization and leverage of workforce system partner resources to provide supportive services and reduce barriers,
4. Strengthen the alignment of K-12 education, workforce, and other viable initiatives such as improving processes for transfer credits through postsecondary, apprenticeships and college coursework as entry and exit points in the career pathways model for in- and out-of-school youth.

5. Expand utilization of registered apprenticeship by employers to train workers and meet industry sector standards and demands.

**Goal 2:** Expand career services and opportunities for targeted and special populations facing multiple barriers.

1. Expand and incentivize the utilization of evidenced-based workforce strategies that support targeted populations (e.g., the long-term unemployed, individuals with disabilities, veterans, out-of-school youth) into sector-based career pathways leading to gainful employment.

2. Enhance and expand the delivery of integrated reentry and employment strategies to reduce recidivism among Louisiana's returning citizens and meet the skill and workforce needs of business and industry.

**Goal 3:** Increase the participation and utilization of the workforce system by employers and job-seekers to foster the improvement and expansion of employer-driven regional sector partnerships to meet occupational demands as supported by regional labor market information.

1. Increase the use of labor market and educational data and technology, in coordination with local data, to inform and guide strategic workforce development decisions.

2. Develop focused, regional workforce initiatives that blend partner resources (co- investment) to educate and train workers for jobs within the workforce region.

3. Increase the alignment and efficacy of formula, discretionary and competitive workforce funding in efforts to support regional and local workforce initiatives.

4. Promote meaningful, portable industry credentials supported throughout the workforce delivery system.

5. Fortify a system of accountability for the workforce development system that supports and promotes the evaluation of the effectiveness of state and local workforce development boards in meeting the workforce demands of business and workforce.

### 3. Performance Goals

Proposed performance levels are in Appendix 1 and are subject to modification pending final agreement with the Secretary of Labor in conjunction with the Secretary of Education and approved by the United States Department of Labor (USDOL).

In addition to the common performance measures described in Section 116(b)(2)(A), LWC will continue to track business-focused metrics as USDOL identifies standardized indicators for measuring Effectiveness in Serving Employers (EISE). LWC reports annual count data, housed in the HIRE MIS system, of employer services. Further, LWC chose two EISE pilot performance measures to report to USDOL annually—Employer Penetration and Repeat Business Customers Rate. The results and methodology are detailed in the annual report.

**Employer Penetration Rate** (Percentage of employers using services out of all employers in the State.)

This approach tracks the percentage of employers with twenty or more employees who are using the core program services out of all employers represented in an area or the State served by the public
American Job Centers will keep track of the number of establishments served within a program year, and States will collect that data and compare it to the aggregate number of employers in the state.

**PRIMARY DATA SOURCE**

The primary source of information for this measure is data recorded in the Management Information Systems (MIS) system of the Louisiana Workforce Commission (LWC), HiRE. Services to employers are both automatically recorded by HiRE and manually entered into HiRE by One-Stop Center staff. The HiRE system has the capability to have service codes added to indicate business market penetration activity.

**Repeat Business Customers** (Percentage of repeat employers using services within the previous three years)

This approach tracks the percentage of employers who receive services that use core program services more than once. This approach is useful in determining whether employers who receive services from the core programs are satisfied with those services and become repeat customers. This approach also assesses the workforce system’s ability to develop and maintain strong relationships with employers over extended periods of time.

**PRIMARY DATA SOURCE**

The primary source of information for this measure is data recorded in the MIS system of the Louisiana Workforce Commission, HiRE. Services to employers are both automatically recorded by HiRE and manually entered into HiRE by One-Stop Center staff. The HiRE system has the capability to record service codes to indicate business market penetration activity.

4. **Assessment**

LWC conducts an assessment of operations through review and analysis of participant data. Leadership focuses on identification of opportunities that have been capitalized upon and those that could have been. The review and assessment is conducted on a quarterly basis, those assessments are collaboratively engaged for purposes of improvement of services. The LWDB Directors actively participate in the evaluation and analysis of successes and opportunities.

c. **State Strategy**

The Unified or Combined State Plan must include the State's strategies to achieve its strategic vision and goals. These strategies must take into account the State’s economic, workforce, and workforce development, education and training activities and analysis provided in Section (a) above. Include discussion of specific strategies to address the needs of populations provided in Section (a).

1. Describe the strategies the State will implement, including industry or sector partnerships related to in-demand industry sectors and occupations and career pathways, as required by WIOA section 101(d)(3)(B), (D). “Career pathway” is defined at
WIOA section 3(7) and includes registered apprenticeship. “In-demand industry sector or occupation” is defined at WIOA section 3(23)

2. Describe the strategies the State will use to align the core programs, any Combined State Plan partner programs included in this Plan, required and optional one-stop partner programs, and any other resources available to the State to achieve fully integrated customer services consistent with the strategic vision and goals described above. Also describe strategies to strengthen workforce development activities in regard to weaknesses identified in section II(a)(2)

1. Describe the strategies the State will implement, including industry or sector partnerships related to in-demand industry sectors and occupations and career pathways, as required by WIOA section 101(d)(3)(B), (D). “Career pathway” is defined at WIOA section 3(7) and includes registered apprenticeship. “In-demand industry sector or occupation” is defined at WIOA section 3(23)

The framework developed by the Louisiana Workforce Commission to deal with industry sector partnerships for in-demand occupations was to implement Industry Sector Specialist (ISS) for the top demand occupations. The Industry Sector Specialist continue to address challenges and opportunities for improvements for the State of Louisiana with regards to career pathways and in demand occupations. This strategy was developed to support talent pipeline approaches designed to assist partners in working together to address the workforce needs of businesses within a region. These industry sector partnership models are led by the businesses and focused on crucial industry clusters. Sector partners work collaboratively to listen and understand the workforce needs of businesses and to develop customized solutions that respond to those needs. Eight foundational elements for the framework have been identified and recommended for use by local areas. The integrated provision of business services is:

- **Sector-based** – The provision of business services should align around regionally identified industry sectors significant to the regional economy.

- **Transformational** – Engagement of businesses should provide a platform for regular and ongoing dialogue, providing a transformation of the relationships between business and workforce partners.

- **Regional** – Service delivery should be regional in nature and should align with the eight economic development regions, as well as multi-region and multi-state approaches when those are indicated by the needs of the sector partnership.
Coordinated – The framework should describe coordinated approaches and strategies used by all partners to meet business needs.

United – Building upon efforts already underway, efforts should continue to co-locate partners to ensure maximum coordination.

Flexible – The framework should provide enough guidance to be helpful but should also allow flexibility for regional innovation and customization.

Aligned – Existing policies/procedures should be reviewed and revised to ensure alignment and progress toward service integration.

Allowable – Partners’ federal mandates to provide specific, related services must still be met when developing this framework.

LWC has identified five components that are necessary for the integrated provision of business services in the state and its eight economic development regions:

Organizational structure – At the State and local level, organizational structures will be developed to enable communication between partners to develop a strategy to support engagement and contact between employers within the workforce/economic development system. The form of these organizational structures will vary according to economic development region and sectors. Leveraging existing relationships between and among businesses and public partners is recommended as the most reliable initial strategy for engagement with particular employers and sectors. The eight regions develop mechanisms connect business to the full range of partner services – regardless of source.

Management of business intelligence – The need to share information across partners -- at the State level, but particularly at the regional/local level -- management of business intelligence is critical. Recognizing the challenges of creating a statewide cross-agency, the state’s initial strategy will focus on supporting creative approaches to meeting these regional/local level responsibilities. It is important for regional partners to understand the grassroots nature of business intelligence development. Perhaps the most important data development issue will always be the creation of methods to record and access partner knowledge regarding employer needs, to share that knowledge across the partner network and then to utilize that knowledge to jointly develop and implement proactive solutions to business and sector needs.

Solutions-based service offerings – The service offerings provided to businesses must be focused on delivering timely solutions to expressed business needs. Each region has developed their own process for contacting employers in each targeted industry sector and have the capability of providing direct access to appropriate services or referral to all partners who can provide those services. Solutions-based service first requires a focus on listening to what business communicates for its needs, and then requires flexible, creative and timely responses to those needs - a process that builds a portfolio of customized solutions for businesses, without merely “dumping” pre-packaged programs and processes. This should be a cradle to the grave process.

Emphasis on work-based learning and other business-focused services – Closely tied to the solutions sought by businesses is the expanded use of work-based learning (Registered Apprenticeships, Youth Apprenticeships, Pre-Apprenticeships, Customized Training, On-the-Job Training, Incumbent Worker Training and others). This emphasis recognizes work-based learning as often the most effective mechanism for delivering Training and Education solutions in an environment that is directly shaped to and for the needs of the employer. This is beneficial because it’s an earn while you learn environment. Employers like this process because it is a plus for their business.

Accountability and performance measurement – The framework elements mentioned thus far will bring significant changes in the focus, intent and utilization of business services. Along
with those changes, comes the need to develop appropriate measures of performance. This will enable the measurement (and dissemination) of the meaningful results of those business services activities for the local regions. This process will also serve to establish feedback loops that facilitate data-driven course corrections. In particular, these measures should be focused on the value of services to businesses through measures, such as, reduced turnover, reduction in the time required to fill vacancies, enhanced employee retention, additional viable candidates applying for work and enhanced productivity.

2. Describe the strategies the State will use to align the core programs, any Combined State Plan partner programs included in this Plan, required and optional one-stop partner programs, and any other resources available to the State to achieve fully integrated customer services consistent with the strategic vision and goals described above. Also describe strategies to strengthen workforce development activities in regard to weaknesses identified in section II(a)(2)

The state of Louisiana will continue to utilize an effective strategy to prepare for the impending job market expansion, in terms of both skills demand, and accelerated job growth. WIOA provides a framework in its requirement for agency and program partnerships that will streamline processes, and create a pipeline for recruiting, training, educating, and otherwise preparing citizens to acquire a living wage. To be successful, this has been and will continue to be a collaborative effort and shared responsibility among all partners. An additional benefit of this course of action will come in the form of a stronger economy. The continuous expansion of the collaborative partnerships will allow Louisiana to fulfill the requirements of WIOA. It will also maximize benefits to the state’s workforce, employers and the overall economy.

Louisiana Workforce Investment Council (WIC) in partnership with the Local Workforce Development Boards is increasing focus on alignment with economic, workforce, and education systems to coordinate system based on skill needs in regions. This entails aligning Career and Technical Education and Apprenticeship opportunities as well as other education programs and activities occurring at the local level in each region. The fifteen workforce boards, through their required Strategic Plans, are developing strategies and actions to promote the alignment of all programs with WIOA-funded programs. Additionally, they are including sector strategies and youth initiatives to promote integration of services across all programs. The strategy related to this goal is creating a new, integrated Regional Planning process across the economic, education, and workforce Secretariats.

The new regional planning process reorganizes higher-level activities (e.g. data analysis, strategic planning, service mapping etc.) into a newly designated structure. Partners will include but are not limited to LWC, Local Workforce Development Boards (LWDB), Community Colleges and Vocational Technical Schools, and Economic Development.

The purpose of the regional planning under the LWDB is to use the same regional boundaries between economic development, workforce, education and key partners. Each region identifies business demand for skills, creates regional strategies, and aligns existing resources to this process. The goal is to ensure that regional employers, educators, and workforce training officials are coordinated in a way that creates a strong talent pipeline, for both middle-skilled and highly skilled jobs. Integrated Regional Planning will support the development of cross-secretariat partnerships formed to support sector initiatives/career pathway initiatives that includes education and training, credential attainment, work-based learning (OJTs or apprenticeship), etc. Local Boards will convene
regional leaders in partnership with education and economic development partners to coordinate strategic activities and performance metrics.

LWC will ensure that the LWDBs develop and utilize an integrated jobseeker customer flow between WIOA Core Program Partners, which will build statewide integrated, technology-based intake and case management information system as the main entry portal into the expanded Louisiana Workforce Development System for all staff and common customers (both job seekers and employers). Designing and implementing the technological infrastructure to execute a common intake/registration application with real-time triage processes that feature strong skills and transferability assessments, job matching and job referral, common case management and reporting systems across all partners is imperative to our ability to strengthen the consistency and quality of services provided by the system to job seekers and businesses. The plan is also to create regional “career pathways” or customer flows for each customer base across systems (adults, dislocated workers, UI Claimants, long-term unemployed, adult education student, TANF/SNAP, vocational rehabilitation clients, veterans, older workers and individuals with additional barriers to employment including, the homeless etc.) to align programs and resources that lead to employment outcomes, particularly for those with barriers to employment. The statewide MOU for all of the WIOA Core Program Partners and additional stakeholders’ outlines models for organizing pathways and opportunities to share systems, staff and resources to build out the model. The 15 regions have developed specific local Memorandum of Understandings that speaks to the implementation of joint service design for priority populations. MOUs developed baseline models and work to forge relationships across WIOA and non-WIOA partners. Service design includes:

- Partners working together on development of One-Stop Career Center operational components such as design of workspace, customer service flow, menu of services, marketing and outreach materials, etc.
- Clearing procedures for mutual referrals between partners.
- Maximizing the capacity to share data and information across systems for both sharing of information on individual customers, and tracking the use of partner services by common customers.

WIOA sets very high expectations for all American Job Center partners to improve outcomes for business and individuals with barriers to employment within the same level of resources, or in some cases, less funding and staffing. Workforce Development Boards are centered in bringing together the diverse interest groups representing the multitude of populations who face barriers to employment to organize new service pathway for each priority population.

### III. Operational Planning Elements

The Unified or Combined State Plan must include an Operational Planning Elements section that supports the State's strategy and the system-wide vision described in Section II(c) above. Unless otherwise noted, all Operational Planning Elements apply to Combined State Plan partner programs included in the plan as well as to core programs. This section must include—

a. State Strategy Implementation

The Unified or Combined State Plan must include—

1. State Board Functions
Describe how the State board will implement its functions under section 101(d) of WIOA (i.e., provide a description of Board operational structures and decision making processes to ensure such functions are carried out).

The Louisiana Workforce Investment Council (WIC) is established in accordance with Section 101 of the Workforce Innovation and Opportunity Act, and under Louisiana Law, LSA-R.S. 23:2042-2056. The mission of the WIC is to support the development of an employer-led, demand-driven workforce development system based on occupational forecasts in which training, education and services for job-seekers prepare Louisiana residents for high-wage, high-demand career opportunities in Louisiana.

The WIC achieves this mission by:

- Recommending policy actions to public and private institutions and creating coalitions to achieve their implementation.
- Working with workforce development system partners to integrate workforce development into the decision-making of business leaders, economic developers, educators and human resource professionals.
- Raising public awareness of the importance of workforce development for Louisiana’s economic future.
- Ensuring public accountability by evaluating the effectiveness of the overall workforce development system.

The responsibilities of the WIC include:

- Submitting a strategic plan to meet current and forecasted workforce needs to the Governor and report plan progress.
- Holding stakeholders accountable for implementing agreed-upon strategic goals that align workforce supply and demand.
- Evaluating the effectiveness of Workforce Development Boards in meeting workforce demand.
- Directing the activities of the Occupational Forecasting Conference.
- Driving state and local policy to support the alignment of education and training with workforce demand.
- Overseeing the Industry-Based Certification (IBC) Council responsible for evaluating the alignment of credentials with state workforce demand for inclusion on the IBC State Focus List.
- Overseeing, jointly with the Board of Regents, the evaluation of two-year and shorter-term programs for TOPS Tech eligibility in alignment with state workforce demand.
- Contributing to the evaluation of TOPS Tech Early Start training providers to ensure alignment with state and regional workforce needs.
- Supporting the alignment of Jump Start Pathways with statewide and regional workforce demand through the Graduation Pathway Review Panel.

The powers of the WIC include:
• Performing all of the duties and responsibilities of the State Workforce Development Board as
defined in Section 101(d) of the Workforce Innovation and Opportunity Act.

• Directing the occupational Forecasting Conference for the purpose of projecting job growth
and demand in the state of Louisiana.

• Advising the Governor and legislature on the full range of issues related to workforce
development.

The WIC meets no less than four times each calendar year, and all meetings comply with the
Louisiana Open Meetings Law. Decisions are made by a vote of a majority of the total serving
membership of the WIC. Decision-making votes shall be conducted according to Robert’s Rules of
Order. Educational and information portions of meetings are conducted according to the preference of
the Chair. The Executive Committee of the WIC is comprised of the Chair, Vice Chair, a sample of
heads or designees of state agencies represented on the WIC, at least one legislator, and at least two
organized labor representatives. The WIC is composed of a majority of business members. Duties
include, but are not limited to overseeing the implementation of the strategic plan, tracking work-
group plans and progress; leading the alignment of the work-groups; and driving provisions of critical
workforce data.

2. Implementation of State Strategy

Describe how the lead State agency with responsibility for the administration of each core program or
a Combined Plan partner program included in this plan will implement the State’s Strategies identified
in Section II(c). above. This must include a description of—

A. Core Program Activities to Implement the State’s Strategy

Describe the activities the entities carrying out the respective core programs will fund to implement
the State’s strategies. Also, describe how such activities will be aligned across the core programs
and Combined State Plan partner programs included in this plan and among the entities administering
the programs, including using co-enrollment and other strategies, as appropriate.

The U.S. Department of Labor has reduced both administrative and programmatic funds available to
state workforce agencies in both WP and WIOA. At the same time, funding availability has been
diminishing, the cost and complexity of providing service delivery, programmatic management and
support, and fiscal and performance reporting have increased. This makes it essential that LWC and
local boards continue to work together to reduce overhead costs and streamline (economize)
services.

This plan supports the State’s commitment to supporting at least one “Comprehensive One-Stop
Center” in each local area (defined as the presence of all WIOA required Partner Programs). Smaller
offices operated by local boards and/or One-Stop operators (contractors) where all Program Partners
are not present, shall be designated and operated as “Affiliate” One-Stop centers and may have any
subset of partners, but shall not be operated as Wagner Peyser stand-alone Employment Services
offices.

Under the plan, local boards will have the flexibility to include additional partners in One-Stop
Centers, in particular and specifically identified by the law:
• Employment and training programs administered by the Social Security Administration, including the Ticket to Work and Self-Sufficiency Programs.

• Employment and training programs carried out by the Small Business Administration.

• Supplemental Nutrition Assistance Program (SNAP) employment and training programs.

• Other programs authorized under the National and Community Service Act of 1990.

• In addition to these specified additional partners the law and plan allows boards to include other partners as part of the one-stop delivery system -- local employers and community-based, faith-based, and/or non-profit organizations, as well as employment, education and training programs provided by public libraries or the private sector.

This plan is designed to support a refined focus on employment, training, adult education and vocational rehabilitation programs designed to provide workers and their families an opportunity for economic prosperity.

The new infrastructure combined with the recently redesigned service delivery model will strengthen existing workforce development and adult education programs in four ways that can benefit adults and youth with barriers to economic success by:

• Increasing the focus on serving the most vulnerable workers (with limited skills, lack of work experience, and other barriers to economic success) through more focused profiling and assessment processes.

• Expanding education and training options to help participants access good jobs to start/advance their careers.

• Providing targeted, managed and appropriate levels of supportive services to disadvantaged and unemployed adults and youth while they receive training and effective employment-based activities.

• Supporting the alignment of planning and accountability policies across core programs to support more unified approaches to serving employers and job-seekers (in particular those who are low-income, low-skilled individuals).

This plan creates an opportunity for chief elected officials (CEOs), boards and local communities to rethink reshape and expand workforce systems, policies and practices in a way that conforms to local needs while maintaining fiscal prudence and viability. The plan also drives the realignment of funding streams to improve accountability across core programs, support career pathways and sector strategies and create continuous opportunities to measure performance and to identify areas for improvement. Operating in the most effective and efficient way by:

Identifying inefficiencies and targeting improvements that will bring costs in line with reasonable standards.

• Measuring local and regional performance so that decision-makers better understand the unit cost of a service, the productivity of staff, results achieved with programs and efficient use of assets.

• Reducing waste (in particular waste created by redundancies in support and oversight), personnel costs, excess paperwork, wasted supplies, excess equipment, etc.

• Maintaining, understanding and managing in real-time with the goal of efficiencies in the actual cost of services at the local and regional level.

• Setting benchmarks as a process of comparing performance and practices locally, regionally and statewide.
Setting standards for the cost of services, efficiency, effectiveness, productivity and asset use for local, regional and state comparison to trend cost efficiencies as improving, declining or falling.

Using reporting, measuring and benchmarking as a foundation for goal setting and to shine a light on efficiencies and effectiveness on how funds are being used.

This plan establishes the state’s commitment to supporting the WIOA requirement that “Each local area must have one comprehensive One-Stop Center that provides access to physical services of the core programs and other required partners.”

The required partner programs, in addition to the core programs, (and if they are present) for a comprehensive One-Stop Center under WIOA are:

- Career and Technical Education (Perkins).
- Community Services Block Grants.
- Indian and Native American Programs.
- HUD Employment and Training Programs, Job Corps.
- Local Veterans Employment Representatives and Disabled Veterans Outreach Program.
- National Farmworker Jobs Program.
- Senior Community Service Employment Program.
- Temporary Assistance for Needy Families (TANF) (unless the Governor takes special action to make TANF an optional partner).
- Trade Adjustment Assistance Programs.
- Unemployment Compensation Programs.
- Youth Build.

For the purposes of operations under this plan regarding services provided in a Comprehensive One-Stop Center, each member of the partnership shall agree to core hours, core services, individualized services, supportive services, data sharing and the sharing of costs for business operations.

This plan commits the state to providing support for one Comprehensive One-Stop Center in each local area. Regionally, boards may choose how they use the resources provided under this plan and other support agreements. However, the use of these resources shall not be contrary to the provisions and requirements of the U.S. Department of Labor or state laws, regulations and statutes.

The relationship established under this plan between the local boards, required partners and all optional partners shall be operated as a Service Level Agreement (SLA). That is, all resources shall be allocated by formula as defined or specifically detailed in the plan. SLAs find their origin in the private sector where they are streamlined contracts between a provider of a service or product and a customer or subsidiary that could require provision or management of service delivery, and as such are the most cost-effective and simplest to operate fiscal and managerial processes for this activity.

Key elements of the service relationship covered in this plan include implementation, performance, finances and operations. All of these characteristic key elements and expectations can be directly related to service-delivery at a One-Stop Center regarding negotiated performance outcomes and managerial metrics.

**Implementation:** As a minimum, the following details required in WIOA must be crafted into a cost allocation and operation agreement for each of these Comprehensive One-Stop Centers and although they will be specific to the individual LWDA, they must contain detail on the following as a minimum:

- Who will be physically present in the center – full or part time.
When not physically present will center staff be required to supply support, i.e. provide customer guidance when using an online tool, etc.?

What services will be offered, and how do those services support a Career Pathway?

Defined interface with partner programs to provide seamless services.

Method of supervision and guidance provided to staff.

Defined administrative or other supports required to be successful.

Facility costs.

Operational delivery, how services are delivered, by whom and when.

- **Performance:** Services shall be provided as required under the relevant funding streams and partnerships identified/negotiated under the statutes, laws and regulations which, in detail, identify expectations, outcomes and outputs by the parties from the arrangements.

- **Finances and other resources:** Resource-pooling arrangements, fee structures, cost variances, adjustments, transparency and arrangements of settlements shall be detailed and agreed to by all parties.

- **Operations:** The state will provide WP-funded staff to support a single Comprehensive One-Stop Center for each WDB. The state recommendation is that LWDA boards utilize this staff to support a centralized recruitment and placement effort, and for a centralized business engagement process. Boards may operate other locations within their LWDA as “affiliate” sites and may from time to time have WP-assigned staff at these locations based on need.

The state shall allocate Wagner-Peyser-funded staff by formula based on the level of effort necessary to support labor exchange services in an LWDA or region.

**Elements of the Local Delivery Structure**

- Board members and staff operate under prior consistent state law. As such, members and staff are primarily private-sector employers with some representing local education agencies, labor organizations, community-based organizations, economic development councils and One-Stop partners such as adult education and literacy (AEL) and vocational rehabilitation (VR). Each board develops a strategic and operational plan, with local plans subject to review by WIC and approval by the Governor. Boards designate one-stop partners, identify providers of training services, and monitor system performance against performance accountability measures.

- Board staff conducts the board’s day-to-day administrative operations. Boards operate with a high degree of local flexibility for service delivery design and partner with local training and educational institutions to ensure employment and training opportunities meet area employment needs.

- American Job Centers provide a variety of online, in-house and on-site services, including employer services, job search resources, labor market information and referrals for customized training. In addition to traditional brick-and-mortar offices, mobile workforce units are utilized in providing on-site, rapid response assistance to area employers and communities.

- Business Service Units (BSUs) address the ever-increasing need for skilled workers in high-demand fields by offering job search assistance, skills training and other workforce development services. Supported by state and federal funds, most basic services are provided free of charge to employers registered with the state and federal government. Some boards also provide certain services, including workshops and seminars, at nominal fees. BSUs within an integrated workforce system offer a unique opportunity to ensure that all workforce services are structured to ensure that the business needs are considered when delivering services to job seekers and consumers.
Boards shall develop new local plans under WIOA to align local goals and objectives set forth in the state’s Combined State Plan and also describe collaboration strategies with system partners.

To address limited financial resources yet still meet the needs of Louisiana’ employers, boards must:

- Leverage additional funding sources.
- Develop, analyze and share labor market information and regional economic studies.
- Engage in planning and service delivery across workforce areas and/or with other workforce and community partners.
- Incorporate new delivery strategies and adapt existing ones, such as the use of mobile units and new technologies that make service more accessible.
- Strive for integrated, effective service delivery by sharing, modifying and replicating effective training models and processes.

Events and projects provide the opportunity for boards and system stakeholders to collaborate, innovate and streamline services to improve workforce service delivery. Continuous improvement efforts by the boards are facilitated and encouraged through activities such as:

- Sharing best practices and other information at LWC’s annual conference, workforce forums and regional and local meetings.
- Maintaining user-friendly, online resources for topics including:
  - Integrated workforce processes.
  - Performance measures.
  - Program-specific monitoring toolkits, through the ongoing work of OWD monitoring effort.

B. Alignment with Activities Outside the Plan

Describe how the activities identified in (A) will be aligned with programs and activities provided by required one-stop partners and other optional one-stop partners and activities provided under employment, training (including Registered Apprenticeships), education (including career and technical education), human services and other programs not covered by the plan, as appropriate, assuring coordination of, and avoiding duplication among these activities.

This plan aims to ensure that the alignment of activities between core programs and partners to improve coordination of employment and training activities and avoid duplication of services to customers. Below are some examples of coordinated efforts currently in practice:

I. Engaging At-Risk Youth through LWDA/High School Partnerships

Understanding that the goal of keeping school-age youth engaged in constructive educational experiences is reducing the risk of truancy, crime and violence. LWC’s Office of Workforce Development works with several local areas to approach public schools and school boards about the possibility of partnering to offer assistance to youth at risk of exiting high school before graduation. The results are cooperative endeavor agreements signed by LWDB chairs and directors, high school principals and public school superintendents to ensure a “soft handoff” occurs the moment these students are removed from the school’s enrollment. Immediately, they are enrolled into WIOA once eligibility has been formally established.
II. Louisiana Jump Start Initiative - Employer Engagement - Department of Education

The Louisiana Department of Education (K-12), is in the process of revamping their initiative that offers Career Technical Education (CTE) to high school students in grades 10 through 12. This initiative, known as Jump Start, provides classroom training and work experience in demand occupations in Louisiana through unpaid internships provided industry partners. Participating students are able to obtain high school credit hours, college course credits and industry certifications, all leading to high school diplomas. In some instances, students are able to graduate high school with associate degrees, beginning their professional careers in technical fields immediately after completing high school with a dual degree.

Essential to the program’s success is employer engagement. Employers within targeted industries must be willing to engage high school students through internship opportunities, providing students with on-the-job training and career mentors.

The reworking of Jumpstart (Jumpstart 2.0) is striving to eliminate duplication of efforts to engage business leaders and overtaxing of resources by working cooperatively through LWDBs and Perkins V Regional Coordinators to actively plan and implement career and technical education and training through the regional teams which align with the RLMAs designated by LWC. These teams are comprised of education (K-12, community and technical colleges), private business, economic development organizations, local One-Stop operators, public sector leaders, re-entry coordinators, and others. These teams are actively working to streamline the process of business engagement.

Local and regional workforce plans will be evaluated to ensure they align with the state’s initiatives to support this process. This process is just one solution to promote business engagement as it relates to opportunities for youth and adults in need of training and work experience.

III. Registered Apprenticeship - LWC

Registered Apprenticeship

Registered Apprenticeship is currently aligned with WIOA through initiatives of the State Apprenticeship Expansion (SAE) grant awarded to the LWC by USDOL. One of these initiatives includes a supportive services pilot for apprentices similar to those offered at the American Job Centers (AJC). SAE supportive services have provided tools, child care assistance, and transportation reimbursement for apprentices with demonstrated financial need, supplementing funds for WIOA participants who need additional support and providing resources for those who are not eligible for WIOA but still require such assistance. These supportive services will continue until the SAE grant ends in September 2020.

ApprenticeshipLA.com utilizes a state-wide WIOA pre-screening approach to determine potential WIOA eligibility for apprentice applicants. Online applications are forwarded to the appropriate local AJC for eligibility and enrollment in WIOA funded services. This provides the opportunity to bridge potential gaps between outreach and recruitment of eligible populations allowing the use of multiple funding streams to support a common activity between partners. The pre-screening form increases the potential for determining eligibility and providing a more robust service delivery.

A new source of grant funding awarded in 2019, the Apprenticeship State Expansion (ASE) grant, provides funds for employer incentives to assist with OJT and Related Technical Instruction (RTI) training costs. The LWC will partner with local boards to promote this benefit braiding funds with OJT contracts and ITAs to increase the amount of WIOA funds utilized by employers with a Registered Apprenticeship model and encourage Registered Apprenticeship expansion across the State of Louisiana.

During National Apprenticeship Week in 2019, the Apprenticeship Division held two events in the Monroe and Lafayette regions, coordinated with two local workforce boards. These events focused on informing employers of the benefits of Registered Apprenticeship and how WIOA funding can amplify programs, with a cumulative attendance of over 80 individuals.
A key strategy identified in the Louisiana Combined Plan goals and objectives is the expansion of the use of Registered Apprenticeship programs where employer and employee are equally committed to the program’s success. Registered Apprenticeship programs have demonstrated that employers benefit from lower employee turnover, increased employee productivity, improve employee problem-solving skills and enhance employee relations.

LWC continues working to develop new non-traditional programs in industries such as health care and advanced manufacturing. The LWC Apprenticeship Division continues to encourage new and currently existing programs to take advantage of partnership opportunities with our workforce system, and has played an active role in discussions regarding Eligible Training Provider List policies and procedures as it applies to registered apprenticeship under the new WIOA regulations.

Provisions in WIOA clearly support the expansion and incorporation of registered apprenticeship as an evidence-based approach to workforce development. Louisiana sees this as an opportunity to create a statewide vision that supports substantive partnerships between LWDBs and registered apprenticeship program sponsors.

IV. HUD/Public Housing

As with the aforementioned strategies to engage out-of-school youth through partnerships with high schools, efforts to work with public housing authorities funded with Department of Housing and Urban Development dollars have begun and will continue throughout the life of this state plan. The goal is to partner and share resources to provide education and employment services to out-of-school youth and adults living in public housing.

V. Re-Entry-Department of Corrections

LWC and its local workforce partners have aligned with the Louisiana Department of Corrections on several reentry initiatives across the state. Participants are convicted of crimes in criminal court and sentenced to serve time in the re-entry program. This alternative sentencing structure is designed to work with men and women while they are incarcerated in an effort to provide job skills in demand occupations, reducing the chances of recidivism among participants and complying with the terms and conditions of sentencing. Minimally, engagement in the re-entry program ensures the following:

- Inmate receives workforce individualized career services prior to release.
- Inmate must secure employment prior to release.
- Peer mentors are assigned to each inmate.
- Peer mentor must verify the inmate’s readiness for release.

OWD is 100% dedicated to this initiative and has specifically assigned specialized staff toward this initiative working in/with Day Reporting Centers and Regional Reentry Centers to provide individualized career services through the case management framework. Furthermore, OWD has increased its presence at nine different specialty courts throughout the state to assist with re-entry barriers to employment.

Additionally, OWD’s Veterans’ Unit offer re-entry services to incarcerated veterans statewide. Staff work with these individuals starting nine months prior to release. They continue to engage both parish and state formerly incarcerated personnel with significant barriers to employment in a concentrated effort of giving people a second chance to become productive, gainfully employed citizens.

VI. Community Service Block Grant
The Community Services Block Grant Unit, as a component of the LWC, Office of Workforce Development, will provide leadership and technical assistance to the local Community Action Agencies (CAAs) to support the collaboration and coordination of their employment and training activities, as well as their supportive services with their local and regional WDBs. CAAs in each region will be included in the Louisiana Career Pathways model development, and are well-positioned to serve as lead partners in the development of “supportive service pathways” or service flow charts for vulnerable populations (i.e. low-skilled, low income, individuals with disabilities, re-entering citizens) focusing on reduction of barriers to employment. The CSBG Unit will achieve this commitment by providing best practices models and supporting innovative strategies that align services to ensure that customers receive the best available employment and training services and employment supports, to achieve their employment and self-sufficiency goals.

C. Coordination, Alignment and Provision of Services to Individuals

Describe how the entities carrying out the respective core programs, Combined State Plan partner programs included in this plan, and required and optional one-stop partner programs will coordinate activities and resources to provide comprehensive, high-quality, customer-centered services, including supportive services (e.g. transportation), to individuals, including those populations identified in section II(a)(1)(B), and individuals in remote areas. The activities described shall conform to the statutory requirements of each program.

WIOA reaffirms the role of the customer-focused one-stop delivery system, a cornerstone of the public workforce investment system, and enhances and increases coordination among several key employment, education and training programs. WIOA presents an extraordinary opportunity for the workforce system to accelerate its transformational efforts and demonstrate its ability to improve job and career options for our citizens through an integrated, job-driven public workforce system that links diverse talent to our nation’s businesses. It supports the development of strong, vibrant regional economies where businesses thrive and people want to live and work.

Goals are as follows:

- Add flexibility to the delivery of training services by simplifying the process for identifying qualified candidates.
- Operate a process that recognizes the ever-changing funding environment associated with federal mandates and grants.
- Support the state’s redesign of its business engagement process in a way that optimizes agency response to in-demand industry needs in hiring, retaining, training and advancement of workers.
- Anticipate the ongoing need for creating contingency plans to support economic growth in targeted industry sectors, and developing improved relationships with local and state economic development entities with the goal of pre-empting shortfalls in a skilled workforce.
- Address the need to reintegrate specific UI recipient related functions into the job-seeker process in order to shorten the return-to-work time for individuals receiving unemployment insurance benefits.
The Combined State Plan partners continue to refine Memoranda of Understanding (MOU) that define the parameters and principles of roles and responsibilities for partners in support of robust comprehensive One Stop Centers.

The redesign and refinement of service delivery provides an unprecedented opportunity to modernize Louisiana’s workforce system, where the needs of employers and job-seekers drive workforce solutions. This allows One-Stop Career Centers and partners to provide excellent customer service to job-seekers and employers with continuous improvement through evaluation and data-driven policy.

The foundation for success is efficient and effective coordination of programs, services and governance, based on common assessment process, career service methodology, case management and job development systems. Leadership at all levels must think expansively, moving forward to produce the best customer-focused comprehensive delivery system.

Although each local board is responsible for its own service delivery, the state has established minimum standards for a demand-driven integrated service delivery process in order to establish consistency across the state.

Over time, the system fluctuated between an unbalanced focus on business to an unbalanced focus on employees. The current efforts are toward finding the level delivery of quality services to both entities consistently through policy followed state-wide throughout AJCs. Further, the balance of customer focus has become far too heavy on the job-seeker and too light on the employer. This “process evolution” combined with a reduction in resources (personnel and financial) is inhibiting state and LWDA leadership ability to quickly and effectively respond to compliance and performance demands and be flexible in operating a true outcome-based demand delivery system.

This revision is based on continuous process improvement (CPI). This moves the partnership away from the “compartmentalization” process of the original design and allows for the following in a real-time context: benchmarking (metric driven change), anticipating and meeting changing customer needs, local control of the process to reduce cycle time and idle resources and incorporate lessons learned through marrying quality assurance (monitoring) directly to training.

The new process for all job-seekers regardless of their reason for entering our services is a roadmap designed for speed and flexibility. It provides for continuous assessment, career services and follow-up. This supports the original design concept of “efficiently determining customer needs, routing customers to the appropriate service, tracking customer activity through the process and targeting and recording outcomes.” Each step in this process has an associated metric draw for continuous improvement.

**Continued Guidelines and Required Actions:** All job-seeking customers visiting a physical One-Stop Center location who receive staff-assisted services are included in the common measures performance calculations.

Because all One-Stop Center services, staff, facility and activities are funded in-part by both WP and WIOA, sequence of services and assessments shall determine the timing for co-enrollment of job-seekers who receive staff-assisted service in a One-Stop Center, or affiliate, into both WIOA Title I and the WP program for reporting and performance measures.

Any job-seeker served in any One-Stop (or affiliate) shall be counted as a participant in WIOA, regardless of the presence of WIOA-funded staff onsite. Conversely, all WIOA participants shall be counted as WP participants, regardless of the presence of WP funded staff at the enrolling service location.

Staff shall provide services to employers and job-seekers with the intent of developing high-quality outcomes. Performance accountability is based on the quality of services and not the number of services provided.

**Service Delivery Process: Assessment, Career Services, and Follow-up for Job-Seekers:**
Rather than being divided into three distinct workspaces, local leadership must design space usage to most efficiently and effectively move customers through the process. This may involve some team areas for specific tasks, but should not "silo" staff such that a "lack of work" can exist.

The old term and concept of "intake process" shall be replaced with "assessment process." While further discussion of assessment in this policy and in its operation will be divided into "initial assessment" and "comprehensive assessment," always think of assessment as an ongoing process in the context of service delivery.

Assessment may include the use of tools and processes that shall be modified by local leadership to be most effective based on the demographic of their specific location, customer base, staffing levels, program availability and access to supportive services.

One-Stop staff shall provide services without regard for their status as state or LWDB employees. Minimally, job-seeker services must include initial registration, WP and (when applicable) WIOA enrollment, with the appropriate staff-assisted first service.

Career services shall include both basic career and individualized career services as appropriate based on job-seeker and employer needs, and the most recently directed criteria associated with compliance and performance under any applicable U.S. Department of Labor grant. These services may include, but are not limited to, assisted job search activities, evaluation of skills, interests, preferences, career counseling training options, matching skills to current job openings, individualized career services, case management and follow-up.

**The Three Tracks for a Job-Seeker**

In the service delivery process, there are three tracks that any job-seeker may take. These are defined as workforce-ready in a demand occupation, workforce ready not in a demand occupation and case management.

It is important to note that one of these tracks will apply to all job-seekers regardless of their reason for entering our staff-assisted service, and that during the course of service assessments and re-evaluation the job-seeker may move from one track to another.

Entry may begin as a self-service electronic registration (in or out of a One-Stop Center), an outreach contact (regardless of reason for outreach), an automatic registration created by an application for UI benefits and the subsequent required service points requiring a visit to a One-Stop Center, a staff-assisted registration and enrollment for a job-seeker who is a "walk in" to a One-Stop Center or an individual who is registered by any means while receiving Rapid Response services.

**Job-seekers who are also UI claimants**

Required service entry for UI beneficiaries is based on worker profiling. UI claimants are profiled "most likely" to exhaust their benefits and be in need of employment services. Determination of service tract is based on individual assessment.

These job-seekers must report to the One-Stop Center at specified service points as a requirement of continued eligibility to receive UI benefits (following the most current U.S. Department of Labor and state guidance for grant specific requirements).

Any job-seeker who is also a UI recipient entering a One-Stop Center for service shall receive an orientation (e.g. provision of labor market information and career information, information on assessment tools and orientation to services available through the One-Stop Center and partner organizations).

Note: Orientation is optional but is encouraged for all non-UI recipient job-seekers as well.

**Workforce Ready, in a Demand Occupation:**

Job-seekers who are not UI recipients may arrive at the One-Stop Center for a variety of other reasons (they may be unemployed by choice or seeking a career change, for example). If the initial
assessment indicates they have no significant barriers to employment and are workforce ready in a demand occupation, they will be placed on the workforce ready in a demand occupation track.

When an initial assessment indicates no significant barriers to employment, and that the job-seeker has skills, credentials, certification, education, soft skills, previous experience or a combination of these factors that qualifies them in a demand occupation, they shall be sent to career specialists performing business services or other career specialists designated by local management for job referral.

AJC staff performing business services shall review the job-seeker’s skills comparing them to specific demand occupation job vacancies, match those skills to job vacancies and make a staff referral. The career specialist who made the referral, or who is case-managing the job-seeker, should plan for a formalized follow-up process, such as a 30-, 60-, 90-day cycle, developed locally with documented reassessment.

**Workforce Ready, Not in a Demand Occupation:**

When the initial assessment indicates a job-seeker is workforce ready but not in a demand occupation that job-seeker shall be referred to self-service and offered assistance as needed with informational services. As defined in Informational Services, these services will include guiding the job-seeker to labor market information including jobs in demand, wage rates, education requirements, work search tools, skills and interest-matching assessments.

Staff should plan for robust and effective follow-up, reassessing as necessary. This is critical because continued failure to achieve employment may indicate the existence of a barrier to employment that was not identified earlier in the assessment process.

Should follow-up for any job-seeker on the workforce ready track show continued unemployment, more individualized career services may be indicated. These job seekers shall be moved to the Case Management Track.

**Case Management Track:**

Job-seekers who have poor or large gaps in their work history, limited, obsolete or unknown skills, limited education, lack credentials, lack soft skills, have significant barriers to employment or a combination of any of these factors shall be considered not workforce ready.

Job-seekers who are not workforce ready shall be provided individualized career services, consisting of a minimum of a comprehensive assessment and development of an individualized employment plan (IEP) in the context of case management.

Comprehensive assessment is vital to collecting information on job-seeker barriers to employment, employment goals, knowledge, skills and abilities, and proficiency in occupational knowledge. This assessment shall be done as a client-centered approach to evaluating the needs of a participant without regard to services or training program availability. The purpose is not to match the job-seeker to what is available, rather to determine job-seeker needs.

The IEP is developed with a job-seeker to identify or create employment goals, appropriate achievement objectives and the right combination of services to assist in achieving goals and objectives. In short – “Where am I now?” “Where do I want to go?” “How will I get there?”

The IEP must include goals and objectives that are SMART (specific, measurable, attainable, realistic and time bound). A case note must accompany the IEP and must justify the plan based on the identified barrier(s) to employment.

Case management requires a regular follow-up and review or revision of the IEP until such time as the job-seeker becomes workforce ready or enters a training program. In either case, follow-up is critical, using a 30-day cycle until the job-seeker attains employment or completes training.

**ROLES AND RESPONSIBILITIES**
Successful implementation of integrated service delivery depends on the development of true partnerships and honest collaboration at all levels and among all stakeholders. This means developing effective partnerships within local communities, including but not limited to, business and industry associations, businesses, organized labor, community-based organizations, educational institutions and other partners. Establishment and effective operation of an ongoing and aggressive training program for both state merit and Local Workforce Development Board (LWDB)-funded staff is also critical to success.

D. Coordination, Alignment and Provision of Services to Employers

Describe how the entities carrying out the respective core programs, any Combined State Plan partner program included in this plan, required and optional one-stop partner programs will coordinate activities and resources to provide comprehensive, high-quality services to employers to meet their current and projected workforce needs and to achieve the goals of industry or sector partners in the state. The activities described shall conform to the statutory requirements of each program.

Louisiana's core program partners along with One-Stop partner programs in each of the 8 regions coordinate activities and resources through local Workforce Development Boards (LWDBs), focusing on delivering regional business services and creating a positive long-term economic impact in the regions. The coordinated activities and resources are designed to provide comprehensive, high-quality services to employers to meet their current and projected workforce needs. This regional approach is appropriate for the following reasons:

- It builds strategic partnerships among businesses, training providers, community organizations and other key stakeholders in a labor market region that is designed to bolster the region's economic competitiveness and promote systemic change to achieve ongoing benefits.
- This approach is more responsive to labor demand than solely traditional job-matching and training services because it is problem-oriented (versus program-oriented), addresses needs interdependently (versus independently) and works to understand the collective needs of business.

The Regional Business Service Team (RBST) determines the skills, recruitment and retention needs of employers, as well as the training, employment and career advancement needs of job-seekers and workers. This meeting of the needs of businesses in the region has the potential to strengthen a region's overall economic vitality by:

- Addressing the needs of employers through an intense focus on the workforce needs within specific industry sectors and businesses over a sustained period, often concentrating on a specific occupation or set of occupations within that industry.
- Addressing the needs of workers by creating formal career paths to good jobs, reducing barriers to employment and sustaining or increasing middle-class jobs.
- Bolstering regional economic competitiveness by engaging economic development experts in workforce issues while aligning education, economic and workforce development planning.
- Engaging a broader array of key stakeholders through partnerships.
- Promoting systemic change that achieves ongoing benefits for the industry, workers and community.

Regional Business Service Team

The Regional Business Service Team is a partnership between core program partners and mandatory/optional One-Stop partner programs with local Workforce Development Boards that
convene and provide guidance to the team. The Regional Business Service Team within each region consists of the following programs:

- Wagner-Peyser.
- Veterans.
- Adult/Dislocated Worker Youth Program.
- Louisiana Rehabilitation Services.
- Incumbent Worker Training Program.
- Rapid Response.
- WorkReady U (Adult Education)
- Other stakeholders that engage employers in the region.

The RBST should meet on a regular basis in order to collaborate and coordinate their focus on employers’ needs in the region. The RBST supports and aligns One-Stop business services within each region. Below is a list of business services in the region the team provides to the employer community:

- Develop and facilitate industry or sector partnerships.
- Customized screenings and referrals of qualified participants in employer based training services to employers (e.g. on-the-job, customized and internship etc.).
- Customized services to employers, employer associations or other such organizations on employment-related issues.
- Customized recruitment/hiring events, job fairs, workshops and related services for employers (e.g., targeted hiring, new business openings, seasonal hiring and safety training).
- Human resource consultation services, such as writing/reviewing job descriptions and employee handbooks, developing performance evaluation and personnel policies and creating orientation sessions for new workers.
- Teaching job interview techniques for efficiency and compliance.
- Analyzing employee turnover, explaining labor laws to help employers comply with wage/hour and safety/health regulations.
- Providing customized labor market information for specific employers, sectors, industries or clusters.
- Increasing coordination with stakeholders to support and develop pre-apprenticeship and apprenticeship opportunities.
- Providing assistance or referral for assistance in the development of registered apprenticeships.
- Creating job order listings and applicant referrals through HiRE. Providing access to One-Stop Centers to develop innovative workforce investment strategies to meet the needs of the region’s employers.

E. Partner Engagement with Educational Institutions
Describe how the State's Strategies will engage the State's community colleges and area career and technical education schools, as partners in the workforce development system to create a job-driven education and training system. WIOA section 102(b)(2)(B)(iv).

Higher education is not a mandated partner in WIOA, however, the Louisiana Workforce Investment Council membership consists of the state leadership of most of the state's educational systems, including the Louisiana Community and Technical College System, the Board of Regents of Higher Education and the superintendent of education (K-12).

As stated in Section II (C), Louisiana has developed a shared definition and framework for Career Pathways as a method for the alignment of education, training and work-based learning (apprenticeships, internships) and support services that enable individuals and students to be better prepared to achieve economic independence and family stability. The WIOA partners have continuously organized resources (staff, supports, etc.) around target job-seeker populations and business development using a model that will encourage separate agencies to wrap resources, staff and supports around the customer base.

As referenced in Section II (C) Regional Business and Sector Strategies, the educational partners, particularly the Louisiana Community and Technical College System institutions, are planning cooperatively through Perkins V and WIOA planning to provide workforce skills training and integrated work-based training to meet regional employer and economic development needs. State partners will continue to work with local and regional workforce development boards and partners to define and build pathways appropriate to the region.

With the support of LMI and Occupational Forecasting Conference, the Louisiana Workforce Commission’s Star Jobs ratings system was developed. The Star Jobs ratings system provides a ranking of the highest-demand, highest-wage jobs in Louisiana, based on factors such as forecasted employment growth (long-term and short-term), jobs available in the previous year, and wages. Star Jobs ratings are developed and dynamically updated. Since the inception and implementation of Star Jobs ratings, this ranking system has been utilized by educators across Louisiana at all levels.

F. Partner Engagement with Other Education and Training Providers

Describe how the State’s Strategies will engage the State’s other education and training providers, including providers on the state’s eligible training provider list, as partners in the workforce development system to create a job-driven education and training system.

As required under WIOA, the State maintains a publicly accessible Eligible Training Provider LIST (ETPL) and their eligible training programs, including relevant performance and cost information. The ETPL includes public and private educational institutions, community-based organizations, and proprietary training provider meeting eligibility. LWC determines procedures for initial determination of eligibility and subsequent certification of training providers.

The flexibility afforded by WIOA has allowed for engagement and expansion of other training programs. For example, this flexibility is demonstrated in the State’s Registered Apprenticeship program which supports increased involvement of unions, trade associations, community colleges and other training providers.

Local Workforce Development Boards in coordination with American Job Center operators are required to collect performance information and determine whether training providers meet required performance criteria as set by the State and their locally established criteria. Providers that meet the criteria are considered eligible providers of training services.

LWC provides the policy and structure for the ETPL, and the LWDBs are charged with aligning education and training resources in their local areas and regions to provide maximum opportunities for job-seekers to attain skills and experiences needed to obtain employment.
In issuing a determination, local boards are required to:

- Analyze the impact of economic, geographic and demographic factors, and the characteristics of the populations served by applicants, including their difficulties to access or provide services, if any.

- Determine the occupations for which they are requesting training services, which shall be those in demand in the geographic region covered by the local board.

- Keep the process of initial eligibility determination open throughout the year.

- Establish eligibility criteria, requirements for additional information and minimum performance levels for providers of training beyond what is required by the State Board, which might be applicable to the specific local area.

- Safeguard the confidentiality of personally identifiable information of any education records, including the circumstances related to prior consent, and comply with the provisions of the Family Educational Rights and Privacy Act (FERPA).

- Periodically invite public and private educational institutions and community-based organizations to submit applications for initial or subsequent eligibility determination as providers of training for occupations in demand.

- Regarding apprenticeship programs, promote automatic inclusion of providers in the State List after a request is made by a registered provider under the provisions of the Registered Apprenticeship Act and enabling State provisions.

- Procedures for on-the-job training; customized training; incumbent worker training; transitional employment; or the circumstances described at WIOA sec. 134(c)(3)(G)(ii).

- Exception made of Registered Apprenticeship, One-Stop Centers' operators are required to collect performance information and determine whether the providers meet the performance criteria. Providers that meet the criteria are considered eligible providers of training services.

G. Leveraging Resources to Increase Educational Access

Describe how the State’s strategies will enable the State to leverage other Federal, State, and local investments that have enhanced access to workforce development programs at the above institutions, described in section (E).

The LWIC has been a partner for the leveraging of federal, state and local investments to expand access to workforce development programs in education and training institutions. Several workforce development regions have leveraged local and state resources to attract philanthropic investments to implement innovative targeted strategies targeting low-skill unemployed and underemployed individuals. LWC will continue to work closely with post-secondary education partners, including all Perkins V postsecondary recipients, to leverage federal, state and local resources. This includes
including financial aid programs and veterans (e.g. GI Bill) benefits to enhance access to educational opportunities.

It should be noted that Louisiana Community and Technical College System, as well as other public and private organizations in the state, have received millions of dollars in discretionary grants and will continue to apply to receive future discretionary grants to support workforce training services and strategies to impact the lives of targeted populations (e.g., dislocated workers, veterans, re-entry, out-of-school youth). The governor's vision is to improve coordination and collaboration in delivering services to eligible participants in an effort to improve upon the efficacy and effectiveness of service delivery, thereby increasing participation of the state’s those most vulnerable populations in need of workforce training and supportive services, as well as overall program outcomes.

Under the vision and leadership of Gov. John Bel Edwards, the LWC Secretary has maintained conversations with federal and state leaders relative to maximization of current federal and state resources to enhance and expand access to workforce development programs that support career pathways for citizens in need of skill upgrades. LWDBs are also being challenged to convene their local partners to continuously develop and update resource maps of existing resources and transformational opportunities.

H. Improving Access to Postsecondary Credentials

Describe how the State’s strategies will improve access to activities leading to recognized postsecondary credentials, including Registered Apprenticeship certificates. This includes credentials that are industry-recognized certificates, licenses or certifications, and that are portable and stackable.

Core to the implementation of Louisiana Career Pathways is the identification and development of stackable credentials that meet the needs of high-demand industries and support individual mobility from one post-secondary program to another. This includes Registered Apprenticeships and occupational training programs, and from basic education into post-secondary programs.

The foundation for Louisiana’s approach to post-secondary credentials is the development of Career Clusters at the secondary school level, these are:

- Agriculture, Food & Natural Resources
- Architecture & Construction
- Arts, A/V Technology & Communications
- Business, Management & Administration
- Education & Training
- Finance
- Government & Public Administration
- Health Science
- Hospitality & Tourism
- Human Services
- Information Technology
• Manufacturing
• Marketing, Sales & Services
• Science, Technology, Engineering & Mathematics
• Transportation, Distributing & Logistics

This Career Pathway approach is designed to prepare students to meet the demands of postsecondary education and the expectations of employers, in particular those representing “in demand” occupations.

Integral to this process is the opportunity for a participant to acquire a “portable” and “recognized” credential that they have successfully demonstrated skill competencies on a core set of content that is complete with performance standards that are based on a specific set of work-related tasks in either a single occupational area, or a cluster of related occupational areas. Louisiana currently has multiple certifications that are “Industry Based” and “Locally Designed” and available state-wide.

I. Coordinating with Economic Development Strategies

Describe how the activities identified in (A) will be coordinated with economic development entities, strategies, and activities in the State.

Sector strategy initiatives have been developed in each of the 8 Workforce Regions of the state. LWC has industry coordinators and business consultants currently on staff and assigned to each region. Their primary roles are to engage business and industry to identify short- and long-term workforce needs, and assist local workforce boards (business consultants) and One-Stop Centers (industry coordinators) with developing goals, objectives and strategies to address these needs.

Each Workforce Region has identified at least 3 of the top industries within the region, industries that have the need to fill vacancies in high-demand occupations. Star Jobs (3-5 star jobs) are the targets. These industries are identified through the use of LMI and engagement with local and regional economic development associations.

LWC and local areas also work with Louisiana Economic Development’s Fast Start Program. LED-Fast Start provides quick workforce solutions to businesses in LED’s effort to attract new businesses to the state, or retain existing businesses. Solutions include recruitment and workforce training, working with the state’s community and technical college system to develop curriculum approved by the employer(s) to produce short-term training to job candidates and helping trainees attain the skills necessary to fill jobs quickly.

b. State Operating Systems and Policies

The Unified or Combined State Plan must include a description of the State operating systems and policies that will support the implementation of the State strategy described in section II Strategic Elements. This includes—
1. The State operating systems that will support the implementation of the State’s strategies. This must include a description of–

A. State operating systems that support coordinated implementation of State strategies (e.g., labor market information systems, data systems, communication systems, case-management systems, job banks, etc.)

Customer service and a focus on consumer needs for user-friendly resources in the areas of skill assessment, career planning, post-secondary training opportunities and workforce information are the highest priority. Louisiana Occupational Information System (LOIS) integration with HiRE provides a seamless delivery point for occupational and career data.

Through HiRE, LWC has maximized customer choice, providing the ability to directly enter the labor exchange process by either self-identification or through staff assistance. The system provides job-seekers with direct access to employer listings through the self-service component, as well as the ability to complete skill-based resumes.

Enhancements launched in November, 2015, provided job-seekers with the ability to do business with the LWC more efficiently with online access to file appeals to unemployment insurance decisions, access real-time claim updates and the ability to correspond online rather than through postal mail.

Louisiana’s labor market information system, case management system, job bank, and internal (customer and staff) communications systems are all integrated into one system – HiRE. HiRE is administered by Geographic Solutions, Inc. (GSI). GSI is responsible for administration, development, and data management of the HiRE system. Each aforementioned functional area within HiRE has its own module for the intake and management of information (customer, labor market, job listings, etc.). This seamless coordination between these functional areas enables rapid and efficient access to different categories of information needed to assist job seekers and employers. LWC will continue to identify opportunities to link electronic delivery of services and resources.

**Featured Job-Seeker Tools**

**Star Jobs**

Louisiana’s Star Jobs rating system was developed in response to the need to broaden our assessment of “top” occupations to be prioritized by training and education policymakers. The Star Jobs rating system considers immediate opportunities and wages associated with that job, as well as short-term (3-year) hiring outlook.

The ultimate advantage of the Star Jobs rating system is the simple, direct way that all rankings are combined into a single measure. Jobs that fare well across several dimensions stand out.

The Louisiana Workforce Commission’s Star Jobs ratings system allows job seekers to explore occupations based on their interests. The Star Jobs system enables users to understand the nature of work, identify education and training requirements, connect with education and training providers and apply for jobs online.

**My life. My way.**

Louisiana Workforce Commission has an online mobile tool called My life. My way. for students, young adults and anyone interested in finding high-demand careers that interest them while supporting the standard of living they want to maintain. It seamlessly flows users into Louisiana Star Jobs, the job search and career exploration tool, automatically showing users jobs that pay the salary they need.
B. Data-collection and reporting processes used for all programs and activities, including those present in one-stop centers

Data-collection and reporting processes used for all programs and activities, including those present in one-stop centers.\textsuperscript{10}

[10] For the PY 2016 state plan, descriptions of data collection and reporting processes need only include currently known indicators.

Louisiana Workforce Commission’s HiRE system (Helping Individuals Reach Employment) is the principal repository for collected data. LWC’s Management of Information Systems (MIS) unit is responsible for ensuring that the data collected is accurate and timely, analyzed and presented for performance reporting. Collected data is managed by Geographic Solutions Inc. (GSI). GSI houses the data and aggregates the data for the different USDOL program performance reporting processes for which LWC is responsible.

The HiRE system facilitates a wide range of dynamic reports of job seeker and employer data including: job search activities, training services, counseling services, assessment activity, recruiting efforts, services to employers, and detailed job vacancy data. Moreover, the HiRE system has readily available labor market data with information on employment trends, wage rates, hiring demand, and industrial data. This enables workforce staff, employers, and job seekers to leverage the available market data in planning and executing services to participants, employee recruiting, and strategic employment planning.

Participant and employer data are in input into the HiRE system by AJC staff, job seekers, and employers. This data is produced for reporting in formats for submission to the USDOL WIPS performance reporting system through the administrative functions of the HiRE system, both for full programmatic periodic reporting and periodic reporting by specific customer groups. Wage data, both in-state and out-of-state, are incorporated into the WIPS-compatible data extracts by the HiRE system. The reporting extracts, with wage records, are formatted accordingly with respect to the quarter reported and the participating and exited program participants.

Supplemental Performance Resources

The MIS unit provides technical assistance to Workforce Investment Boards and AJC staff as it relates to data collection and reporting. Such technical assistance comprises common and program-specific requirements such as eligibility, data entry, case management, individual fund tracking and the management of providers. Further, the MIS Unit provides periodic WIOA performance orientation training and refresher training for new AJC staff and experienced AJC staff, respectively, updating AJC personnel with trends and ETA areas of focus related to WIOA performance.

As a supplement to HiRE, LWC and boards utilize a third-party vendor, FutureWorkSyatems (FWS) which further processes data to enable greater detail of information for analysis. This allows LWC and Boards to optimize decision making related to policy and process. The FWS performance analysis application offers the ability to analyze diverse permutations of performance data, including detailed participant demographic and service delivery data, to enable AJC staff to more effectively deliver program services based on rapidly accessible customer population characteristics.

2. The State policies that will support the implementation of the State’s strategies (e.g., co-enrollment policies and universal intake processes where appropriate). In addition, provide the State’s guidelines for State-
administered one-stop partner programs’ contributions to a one-stop delivery system

III. b. 2. The State policies that will support the implementation of the State’s strategies (e.g., co-enrollment policies and universal intake processes where appropriate). In addition, provide the State’s guidelines for State-administered one-stop partner programs’ contributions to a one-stop delivery system

Co-enrollment – WIOA Title I Adult, Dislocated Worker, and Youth programs

Individuals who meet the respective program and service eligibility requirements may participate in Adult/Dislocated Worker and Youth programs concurrently. Co-enrollment offers the opportunity to access additional program services and funds to help address a participant's specific barriers to employment and/or education. Local programs operators determine the appropriate level and balance of services under the Youth and Adult/Dislocated Worker programs. Case managers must include a case note of justification in the participant file explaining why the co-enrollment is appropriate. Participants must meet the eligibility requirements of each program and will become part of each program’s performance. This determination depends not only on the eligibility requirements of each program, but also on the services needed by each participant [TEGL 19-16]. Services available under each funding stream will depend on eligibility for services under that funding stream. Local program operators determine the appropriate level and balance of services for each individual under each program. Local program operators must identify and track the funding streams that pay the costs of services and ensure no duplication of services [20 CFR 681.430]. However, if it is determined that only the Youth or the Adult/Dislocated Worker program array of services is appropriate for an individual aged 18-24, then the local program provider may enroll the participant in only one program [20 CFR 681.440].

LWC continues to evaluate the process for the development and modification of MOUs with core and required partners. The purpose of the MOU is to:

1. Articulate a coordinated vision for organizing the broadly defined public workforce system in Louisiana to produce the best possible outcomes for customers — job seekers and businesses.

2. Describe the manner in which the WIOA program partners are legally authorized to participate in the delivery of services, under the provision of the Workforce Innovation and Opportunity Act, through Local Workforce Development Boards, the American Job Centers/One-Stop Career Centers and WIOA Core Program partners.

3. Establish agreement at the state level focused on designing partnerships and service delivery systems through the WIOA Core Program partners to ensure that Louisiana businesses and job seekers, including those individuals with disabilities, low-income status, Veteran status, education or language barriers, and other individuals “shared” by the core program partners, achieve/demonstrate measurable and better outcomes in the areas of education, training, job placement, and wages.

4. Establish a definition and set of shared infrastructure costs to support newly designed partnerships and service delivery between the core program partners, specialized centers and/or affiliated centers, and the local workforce development boards, American Job Centers/One-Stop Career Centers in local areas as authorized by WIOA.

5. Guide the establishment of local area partnerships and MOU agreements on how services can be connected, integrated or enhanced by sharing staffing, resources or jointly designed services in ways that improve outcomes for “shared” customers – job seekers and businesses.
The Office of Workforce Development Monitoring Unit reviews and evaluates executed MOUs annually to ensure alignment with State infrastructure policy, that partners follow the identify MOU purposes listed above, as well as have a method to identify shared common customers, have a system in place to provide and track referrals, and enroll shared customers in the State’s HiRE case management system to serve as a data warehouse to report on outcomes of both job seeker and business customers. Agreements must also have clearly defined infrastructure cost-sharing requirements for all core and required partners.

LWC’s various departments reviews, updates, and develops policy guidance on an ongoing basis to support the implementation of workforce activities throughout the state. Policies provide guidance on local board membership and responsibilities, regional and local planning, one-stop certification, priority of service, program eligibility, and one-stop partner requirements for access in the system ensuring one-stop operators and all partners have a mutual understanding of what is required.

LWC, as the lead agency for the implementation of the WIOA Combined State Plan, has developed a foundational set of policies that provide guidance for LWDBs to implement WIOA Core Programs and other associated services. The chart below presents an overview of the state's policies designed to support effective implementation of WIOA and the One-Stop delivery system:

<table>

3. State Program and State Board Overview

A. State Agency Organization

Describe the organization and delivery systems at the State and local levels for the programs covered in the plan, including the organizational structure. Include an organizational chart.

The Louisiana Workforce Commission (LWC) interrelates with its partner agencies as illustrated in the organizational chart.
Among the Executive Branch agencies, the lines of authority are very clear. Each agency is run by a Cabinet-level appointee, and these appointees all report to the Governor. All of the cabinet members in the agencies listed above are members of the Workforce Investment Council (WIC).

All post-secondary education is governed by a state Board of Regents, some of whose members are appointed by the Governor. The Regents’ chief executive, the state Commissioner of Higher Education, is a member of the WIC. Under the Regents’ umbrella is the Board of Supervisors for the Louisiana Community and Technical College System (LCTCS), whose chief executive is also a member of the WIC.

Elementary and secondary education is governed by the state Board of Elementary and Secondary Education (BESE). Eight members are elected from the eight BESE districts, and the remaining three members are appointed by the Governor. BESE’s chief executive is the Superintendent of Education, who also is a member of the WIC.

Title 1 (Adult Youth and Dislocated Worker), Title III Wagner-Peyser, Community Service Block Grants (CSBG) and Title IV Vocational Rehabilitation are administered by LWC. Title II (Adult Education) is administered by LCTCS.

Temporary Assistance for Needy Families (TANF) and Supplemental Nutrition Assistance Program (SNAP) are administered by the Department of Children and Family Services.

B. State Board

ii. Board Activities

Provide a description of the activities that will assist State Board members and staff in carrying out State Board functions effectively.

Workforce Investment Council (WIC) members are Louisiana’s workforce champions. They represent a cross-section of stakeholders in the development of a comprehensive, integrated workforce development and delivery system that begins with understanding the workforce needs of industry, connects Louisiana citizens to training, and links trained workers to high-wage, high-demand careers.

The Workforce Investment Council:

- Collaborates and advises on Louisiana’s strategic plan for a comprehensive, integrated workforce development and delivery system.
- Advocates for efficiency and cooperation among stakeholders.
- Promotes the development of a well-educated, highly skilled workforce.
- Oversees strategies to educate Louisianans about career opportunities and businesses about services and resources available to help them meet their workforce needs.
● Ensures the equitable distribution of workforce development resources across the state.

● Makes recommendations to the Governor of geographic designations and alterations for workforce development areas.

● Directs the activities of the Occupational Forecasting Conference, responsible for overseeing state-wide and regional job-growth projections, which underpin the planning and budgeting of state and local resources.

● Oversees the Industry-Based Credential (IBC) Council, responsible for evaluating the alignment of credentials with state workforce demand and approval of credentials for inclusion on the IBC State-Focus List, which guides training programs and other stakeholders to important occupations in the state and the industry-recognized credentials leading to those occupations.

● Oversees, jointly with the Louisiana Office Financial Student Aid, the Louisiana Department of Education, Louisiana Economic Development, and the Board of Regents, the evaluation of two-year and shorter-term programs for TOPS (Taylor Opportunity Program for Students) Tech eligibility in alignment with state workforce demand, guided by state industry and occupational forecasts.

● Contributes to the evaluation of TOPS Tech Early Start training providers to ensure alignment with state and regional workforce needs.

4. Assessment and Evaluation of Programs and One-Stop Program Partners

A. Assessment of Core Programs

Describe how the core programs will be assessed each year based on State performance accountability measures described in section 116(b) of WIOA. This State assessment must include the quality, effectiveness, and improvement of programs broken down by local area or provider. Such state assessments should take into account local and regional planning goals.

WIOA’s primary measures of performance measure each core program’s effectiveness at producing desired outcomes. Proposed §677.190(a) directs that state and local final adjusted levels of performance each year will take into consideration characteristics of the participants as well as state and local economic conditions through the application of a federal statistical adjustment model. Therefore, the state and local areas will be assessed based on a comparison of the actual performance level with the adjusted level of performance each quarter and annually.

The State’s review of Regional/Local Plans will contain a component regarding how these plans support and relate to the State’s Vision, Strategies and Goals, and how they relate to realistic achievement of performance measures. More specifically, how they relate to the State’s Continuous Improvement Process. In general, this assessment contains the following components:

- Management Commitment, do they indicate an explicit commitment from all Partner Programs Leadership at the Level of “Decision Maker”?
- Do they indicate a link into the “Common Intake” model, “Co-Enrollment” Process, and Sector Based Business Engagement Effort?
- Do they include a component for developing and maintaining well trained and highly qualified operators (and contractors) providing services in all Partner Programs?
- Is there a component for evaluation of service providers?
- Is there a defined methodology for evaluating outcomes for all Partner Programs and a continuous feedback cycle for those evaluations?
• Are there mechanisms to quickly and accurately identify non-conforming actions in all sub-parts (staff, contractors, partners, supportive services, etc.)? These measurements must be both Valid (measures what it is supposed to measure) and Reliable (measures consistently).

• Do the plans contain a defined methodology for quickly and accurately addressing root causation for failures in a positive and proactive fashion?

These components mirror the State’s approach to continuous improvement and are applied to all individual and group goals and objectives.

The state will use the following criteria to evaluate local workforce development area common performance indicators:

1. **Exceed**: Outcome for each measure must be greater than 100 percent of the performance level.

2. **Meet**: Outcome for each measure must not fall below 90 percent of the performance level.

3. **Fail**: Outcome for any one of the measures is less than 90 percent of the performance level.

**Action**: In instances when the state or a local area fails a performance measure, immediate technical assistance will be provided by the appropriate office to improve the proficiency of staff members in providing WIOA services and provide an opportunity to develop strategies to improve the program’s ability to meet performance measures.

**Adult, Dislocated Worker and Youth:**

Core Programs will be assessed, in coordination with LWDBs, One-stop Operators and Core partners/providers, through financial and administrative monitoring of all sub-recipients of funds expended under the Workforce Innovation and Opportunity Act of 2014 for Title I (Adult, Dislocated Worker and Youth programs), Adult Education and Literacy Act, Rehabilitation Act Title I, and Wagner-Peyser Act. Other programs and activities will include, but not limited to discretionary grants such as the National Dislocated Worker Grants (NDWG) and the Trade Adjustment Assistance (TAA) program under the Trade Act of 1974, and the Trade Adjustment Assistance Reauthorization Act of 2015. The State will provide policy guidance to each entity responsible for the administration of Core Programs.

The assessment and evaluation process will include completing annual on-site monitoring reviews of each Core Program to ensure compliance with the Uniform Administrative Requirements of WIOA Section 184(a)(4). These reviews include the appropriate administrative requirements for sub-recipients and applicable cost principles.

The assessment will ensure established policies achieve program quality and outcomes, and meet the objectives of the governing federal laws and regulations. This includes the provision of services by One-Stop Operators, eligible providers of training services, and eligible providers of youth activities; and makes certain that sub-recipients and contractors have demonstrated substantial compliance with federal requirements.

The State will ensure compliance with the provisions in WIOA for all Core Programs as well as implement a more robust monitoring and oversight process across all levels. Comprehensive and effective monitoring is key to providing opportunities for technical assistance, training, and sharing of
proven strategies and practices, which will lead to improved quality of service to job seeker and a stronger workforce.

**Adult Education:**

Programmatic/Fiscal Onsite Monitoring: Programs are identified for onsite monitoring through a comprehensive risk analysis based on the following factors: (1) desk monitoring; (2) need to verify data quality and program expenditures; (3) consistent low performance on NRS indicators in several categories; (4) prospective noncompliance with grant requirements identified through review of programmatic and fiscal reports, or ongoing communications with the program; (4) unresolved audit findings; (5) ongoing lack of progress in resolving required actions from prior monitoring visit; (6) significant staff turnover in the program; and (7) recent or newly established programs.

The goal for State onsite monitoring visits are to:

- ensure that programs meet AEFLA requirements;
- improve the quality of federally-funded activities;
- provide assistance identifying and resolving accountability problems; and,
- ensure the accuracy, validity, and reliability of data collection and data reporting as well as policies and procedures for program accountability.

**Vocational Rehabilitation:**

Louisiana Rehabilitation Services (LRS) will monitor the services provided within the guidelines of the existing cooperative agreements and evaluate if modifications will be needed when they are renegotiated.

To ensure the quality of supported employment services provided to eligible consumers by monitoring the vendors. The monitoring will utilize site reviews and include quality indicators to evaluate the assessment of employment outcomes and an evaluation of the provision of services. The monitoring will be carried out by the state and field office staff.

**B. Assessment of One-Stop Partner Programs**

Describe how other one-stop delivery system partner program services and Combined State Plan partner programs included in the plan will be assessed each year. Such state assessments should take into account local and regional planning goals.

Partner agencies and Partner Programs not covered under the monitoring umbrella of the Core Programs shall be monitored in accordance with their individual governing authority and under the general rules of federal and state fiscal compliance.

**C. Previous Assessment Results**

Beginning with the state plan modification in 2018 and for subsequent state plans and state plan modifications, provide the results of assessments of the effectiveness of the core programs and other one-stop partner programs and Combined State Plan partner programs included in the Unified or Combined State plan during the preceding 2-year period (i.e. the 2-year period of the plan modification cycle). Describe how the State is adapting its strategies based on these assessments.

Federally Required WIOA Indicators of Performance focus on employment outcomes in the second and fourth quarter after exit, median earnings in the second quarter after exit, credential attainment, and measurable skill gains for job seekers and adult education participants. The State uses an assessment tool based on the guidance of federally required WIOA Measures. All partners and their federally funded programs are measured according to their method of operation in determining the effectiveness of service delivery to job seekers and employers.
The Louisiana Workforce Commission has monitored all Title I and Title III programs which met or exceeded performance goals, at the State level, for the prior two program years (PY 17 and PY 18), with the exception of credential attainment rate for Youth. The OWD has continued to conduct annual monitoring of programmatic and fiscal management of grants to ensure that funds are being spent in compliance with federal and state laws and regulations. As part of this ongoing annual monitoring, OWD has included a risk management assessment tool for our WIOA formula and discretionary grants under the management of OWD.

State agency partners assess the performance outcomes of the workforce system through annual performance reviews. The state agencies responsible for each of the core programs outlined in program-specific areas assess performance accountability measures at the state, regional and local levels as required by each core program. To ensure that program partners are well-positioned to meet the performance accountability requirements of WIOA, LWC will create a WIOA Assessment and Evaluation Working Group on performance accountability with core partners to ensure that systems have the capacity to collect and report required new and updated data elements under WIOA, as well as the capacity to track aggregate data for performance indicators applicable to all four core partners. This working group will also review Customer Satisfaction Surveys from both program participants and employers that can be aggregated and compared across the WIOA partner programs. Results from surveys and recommendations from this working group will allow the State to assess our workforce system as well as gauge our progress toward continuously improving service delivery and increase and enhance the quality of employment outcomes for participants.

D. Evaluation

Describe how the State will conduct evaluations and research projects on activities under WIOA core programs; how such projects will be coordinated with, and designed in conjunction with, State and local boards and with State agencies responsible for the administration of all respective core programs; and, further, how the projects will be coordinated with the evaluations provided for by the Secretary of Labor and the Secretary of Education under WIOA.

The Louisiana Workforce Investment Council evaluates the effectiveness of the overall workforce development system by systematically requiring updates on program effectiveness relying on convening resources from local boards, core programs and partner programs’ input. Additionally, the WIC monitors effectiveness of LWDBs in meeting workforce demand. This component of the plan, is an ongoing effort, intended to provide both core program administrators and the LWDBs the opportunity to provide input to the evaluation matrix.

5. Distribution of Funds for Core Programs

Describe the methods and factors the State will use in distributing funds under the core programs in accordance with the provisions authorizing such distributions.

A. For Title I Programs

Provide a description of the written policies that establish the State’s methods and factors used to distribute funds to local areas for—

i. Youth Activities in Accordance with WIOA Section 128(b)(2) or (b)(3)

5. Distribution of Funds for Core Programs

The Governor reserves funds from Title I allotted for services to youth, adults and dislocated workers, for statewide workforce investment activities. The Governor reserves up to 15 percent from each of these sources. Funds reserved under this paragraph are combined and spent on statewide employment and training activities, for adults and dislocated workers, and statewide youth activities,
without regard to the funding source of the reserved funds. The Governor reserves up to 25 percent of the dislocated worker funds for statewide rapid response activities, as described in WIOA.

The Governor allocates Title I Youth, Adult and Dislocated Worker formula funds in accordance with WIOA sections in accordance with the allocation formulas contained in WIOA sections 128(b) and 133(b). Allocation methodologies are used for distribution of State funds appropriated for American Job Centers. LWC’s Office of Workforce Development and Office of Research and Statistics are responsible for computing the 15 local workforce area allocations for WIOA Title I programs based on the approved formula data and methodology and for providing the allocation levels to LWC’s Finance Department. Local area allocations are published annually with the detailed input data and formulas through the Fiscal Year WIOA Local Annual Plan Guidance Policy, and are updated as necessary during the fiscal year if there are changes in federal allotment levels.

The chief elected official or lead elected official in a local workforce development area serves as the local grant recipient for grant funds allocated to the local area for youth, adult, and dislocated worker activities under Sections 128, 129, 132, and 133 of the Workforce Innovation and Opportunity Act., and shall be liable for any misuse of these funds.

In Local Workforce Development Areas with more than one unit of general local government, the chief elected officials of each unit will execute an agreement that specifies the respective roles of the individual chief elected officials, including responsibility for maintaining the integrity of the allocated funds. If, after a reasonable effort, the chief elected officials are unable to reach agreement about this responsibility, the Governor makes the determination. The local plan must include the agreement concerning this responsibility.

Title II Adult Education and Family Literacy funding allocations are established based on data from the American Community Survey in addition to a review of the number of citizens needing literacy services within each of the eight LA Workforce regions. WorkReady U (WRU) ensures that funding allocations are used to provide comprehensive literacy programs in all eight geographical workforce regions and that local providers are sufficiently equipped to meet the needs identified for each area. Further, eligible providers are expected to identify and coordinate with all available organizations and programs in their workforce areas to expand and leverage deliverable services beyond those provided solely through WRU state/federal funding.

Louisiana is focused on performance to ensure that funds are used effectively to serve customers and produce positive results. WRU implemented a funding formula for state/federal adult education funds. The formula was designed to consider the scope of services provided in the local program and performance as compared to established benchmarks as a basis for an increase or decrease in funds. Performance benchmarks and performance standards were established with the expectation that grantees will maintain or exceed performance standards through effective service delivery and innovation.

(i.) Youth Activities in Accordance with WIOA Section 128(b)(2) or (b)(3)

Youth activities, in accordance with WIOA section 128(b)(2) or (b)(3), WIOA Title I Youth local area allocations, are computed in accordance with instructions in the WIOA sections identified above and are distributed by percentage share to the 15 Local Workforce Development Areas according to the formula shown below.

- 33 1/3 percent based on the relative number of unemployed individuals in areas of substantial unemployment in the local workforce development area, compared to the total number of unemployed individuals in areas of substantial unemployment in the state.
- 33 1/3 percent based on the relative excess number of unemployed individuals in the local workforce development area, compared to the total excess number of unemployed individuals in the state,
• 33 1/3 percent based on the relative number of disadvantaged youth in the local workforce development area, compared to the total number of disadvantaged youth in the state.

A hold-harmless provision ensures that each local area’s percentage share of the State allotments designated for local WIOA Title 1 Youth and Adult program activities does not fall below 90% of the local area’s average percentage share for the prior two fiscal years.

ii. Adult and Training Activities in Accordance with WIOA Section 133(b)(2) or (b)(3)

Adult and training activities in accordance with WIOA section 133(b)(2) or (b)(3), WIOA Title I

Adult local area allocations are computed in accordance with instructions in the WIOA sections identified above and are distributed by percentage share to the 15 Local Workforce Development Areas according to the formula shown below.

• 33 1/3 percent based on the relative number of unemployed individuals in areas of substantial unemployment in the local workforce development area, compared to the total number of unemployed individuals in areas of substantial unemployment in all local workforce development areas in the state.

• 33 1/3 percent based on the relative excess number of unemployed individuals in the local workforce development area, compared to the total excess number of unemployed individuals in all local workforce areas in the state.

• 33 1/3 percent based on the relative number of disadvantaged adults in the local workforce development area, compared to the total number of disadvantaged adults in all local workforce development areas in the state.

A hold-harmless provision ensures that each local area’s percentage share of the State allotments designated for local WIOA Title 1 Youth and Adult program activities does not fall below 90% of the local area’s average percentage share for the prior two fiscal years.

The State has put into place control measures through its monitoring division, to identify the following in an attempt to ensure and maintain fiscal integrity.

1) Formal determinations of disallowed costs and non-compliance as documented by reports of the results of the state’s WIOA monitoring, single audits and DOL monitoring (if applicable);

2) Results of investigations of incident reports alleging gross negligence, fraud, abuse or other misconduct; and

3) Formal communication of high-risk status and/or suspension of cash payments resulting from continued violations of administrative requirements and grant terms and conditions and the subsequent corrective actions implemented by the local area to correct the violations. This system of accountability adds another set of tools to ensure grant recipients sustain fiscal integrity.

iii. Dislocated Worker Employment and Training Activities in Accordance with WIOA Section 133(b)(2) and Based on Data and Weights Assigned

The Research and Statistics Division and the Office of Management and Finance reviews the formula for distribution of Title I Dislocated Worker funds to local workforce areas in accordance with requirements in WIOA section 133(b)(2)(B) and makes recommendation to the Governor through the Secretary of Labor and the Office of Workforce Development. This review is done annually to ensure that the most current data are used for the formula allocations to local workforce areas.

Unemployment concentration: 35 percent
The 12-month average for the most recently completed October-September fiscal year will be used showing the unrounded number of persons unemployed by parish within each LWDA.

**Insured unemployed without earnings: 20 percent**

The 12-month average for the most recently completed October-September fiscal year showing the number of continued claims filed without earnings for the reference week that includes the last day of each month. Data is also by parish within the LWDA.

**Exhaustees (long-term unemployed): 25 percent**

This is long-term unemployment data that refers to claimants who received a final payment in unemployment benefits. Data is by parish and is an annual average for the most recently completed fiscal year.

**Declining industries: 15 percent**

Since data on all parishes from the suggested CES Program do not exist, covered employment from the ES-202 Program was used to identify industries that showed a decline in employment for the four-year period ending in March of the prior fiscal year. Decreases in employment for all industries within a parish were totaled and that figure was used toward the allocation of funds for that parish and LWDA.

**Farmer/rancher economic hardship: 5 percent**

Numerical difference between the last two Census of Agriculture to determine decline in hiring farm workers.

LWC will evaluate alternative formulas for future allocations in alignment with WIOA sec 133 (b)(2)(B) to ensure that the most appropriate information that is available is incorporated.

A hold-harmless provision ensures that each local area’s percentage share of the State allotment designated for local Dislocated Worker program activities does not fall below 90% of the local area’s average percentage share for the prior two fiscal years.

**B. For Title II**

i. Describe how the eligible agency will award multi-year grants or contracts on a competitive basis to eligible providers in the State, including how eligible agencies will establish that eligible providers are organizations of demonstrated effectiveness

The Louisiana Community and Technical College System (LCTCS), WorkReady U (WRU), is responsible for administering Title II Adult Education and Family Literacy Act (AEFLA) funds to eligible providers and providing program/performance oversight to grantees. As the administrative/fiscal agency, LCTCS/WRU awards multi-year grants to eligible local providers through a competitive RFP process for the purpose of developing, implementing, and improving adult education within the State. The grants are for a five-year cycle that applies to all programs. After implementation of services, providers must apply on an annual basis for continuation funding under Title II. (See Title II – Adult Education and Literacy Programs (b) Local Activities, Eligible Provider)

WIOA, Title II defines an eligible provider as an organization that has demonstrated effectiveness in providing adult education and literacy activities to eligible individuals and may include:

- A local education agency;
- A community-based or faith-based organization;
- A volunteer literacy organization;
- An institution of higher education;
• A public or private nonprofit agency;
• A library;
• A public housing authority;
• A nonprofit institution with the ability to provide adult education and literacy services;
• A consortium or coalition of agencies, organizations, institutions, libraries or authorities described above; or
• A partnership between an employer and an entity described above.

All applications received are evaluated using the 13 considerations in WIOA section 231(e). The evaluation of each grant application involves an intense assessment of the ability of the eligible provider to comply with the expectations and statutes described within the Workforce Innovation and Opportunity Act inclusive of: (a) meeting the literacy needs of the area; and (b) demonstrating past effectiveness in improving the literacy of eligible individuals, especially those individuals who have low levels of literacy, participants with disabilities; refugees, dislocated youth and foster care youth, individuals with low literacy skills, displaced homemakers, ex-offenders, individuals with cultural barriers and individuals with a variety of barriers to employment. The grant cycle is a minimum of five years, and all providers are subject to the same funding cycle: Year One – July 1, 2020 through June 30, 2021; Year Two-July 1, 2021 through June 30, 2022; Year Three-July 1, 2022 through June 30, 2023; Year Four-July 1, 2023 through June 30, 2024; and Year Five-July 1, 2024 through June 30, 2025. Eligible providers apply to receive adult education funding for the delivery of any of the following adult education and literacy activities:

• Adult education;
• Literacy;
• Workplace adult education and literacy activities;
• English language and acquisition activities;
• Integrated English literacy and civics education;
• Workforce preparation activities;
• Integrated education and training.

As required in Section 427 of GEPA, each applicant provides a description of the agency’s process to ensure equitable access to and participation in [AF1] the WIOA Title II adult education program for students, teachers, and other program beneficiaries with special needs. LCTCS has approved state policies that provide for equal opportunity for all qualified persons without regard to disability in the recruitment of, admission to, accessibility to, participation in, treatment in, or employment in the programs and activities operated and sponsored by the Louisiana Community and Technical College System.

The Louisiana Community and Technical College System ensures that all applicants provide data demonstrating their ability to improve the skills of eligible individuals, particularly eligible individuals who have low levels of literacy, in the content domains of reading, writing, mathematics, English language acquisition, and other subject areas relevant to the services contained in the RFP application for funds and in accordance with WIOA §463.24. Forms are provided for new eligible applicants (See Title II – Adult Education and Literacy Programs (b) Local Activities, Eligible Provider) to provide performance data for student learning gains, including performance outcomes for low-literacy level and English language learners. All applicants are required to report effectiveness in improving the knowledge and skills of adults to successfully transition to postsecondary education, skills training, or employment. Each application is reviewed to determine whether it met the standard of demonstrated effectiveness.
Several factors are used to determine the funding amounts for successful applicants: (1) performance-based funding formula based on the core indicators of performance as outlined in Title II of WIOA and (2) the literacy rate within each workforce region. The formula is designed to consider the levels of performance in the local programs as compared with established benchmarks as a basis for an increase or decrease in funds.

Programs that do not meet established minimum standards in the first year are expected to demonstrate and document substantial improvement toward meeting those standards. Using the approved statewide data management system, monitoring results, and other documentation, WRU determines and applies requirements for program improvement in the subsequent grant cycles. Minimum standards are determined initially based on data collected during the first year and are raised with each new grant cycle. Programs that do not demonstrate and document substantial improvements during each year of the multi-year grant cycle may not be eligible to receive funding in subsequent years of the cycle.

ii. Describe how the eligible agency will ensure direct and equitable access to all eligible providers to apply and compete for funds and how the eligible agency will ensure that it is using the same grant or contract announcement and application procedure for all eligible providers

LCTCS uses the same application process for all eligible providers for sections 225, 231, and/or 243. This ensures that all applications are evaluated using the same rubric and scoring criteria.

The full and open competition is consistent with the standards of Subpart C, CFR 200.319. All activities funded under WIOA are authorized, approved and administered by the LCTCS, WorkReady U. WorkReady U, ensures that all eligible providers have direct and equitable access to apply and compete for grants. LCTCS adheres to all State and Louisiana WIOA Combined Plan laws regarding awarding grant funds and the expenditure of public funds. The following steps are utilized to ensure direct and equitable access:

- An announcement of the availability of federal funds, under the support of Title II of the Workforce Innovation and Opportunity Act of 2014, is disseminated in various methods including but not limited to a minimum of two newspaper outlets that provide state, local and regional news coverage, the LCTCS website, and social media outlets in order to provide the widest possible state coverage;
- The same grant and application process is used for all eligible providers in the state;
- Standard criteria for evaluation of local proposals are used for all eligible providers;
- Technical assistance is provided to assist with the dissemination of information to all eligible providers interested in applying. Technical assistance opportunities are included in announcements and the Request for Proposal; and
- The announcement contains information such as:
  - Type of grants available;
  - Contact person to obtain RFP guidelines;
  - Timeline with grant application due date;
  - Other pertinent items;
  - Any information required by state law regarding the awarding of contracts and the expenditure of public funds.
LCTCS uses the following process to distribute funds to approved applicants:

1. Not less than 82.5 percent of the grant funds to award grants and contracts under section 231 and to carry out section 225, Programs for Corrections Education and Other Institutionalized Individuals, of which not more than 20 percent of such amount shall be available to carry out section 225;

2. Shall not use more than 12.5 percent of the grant funds to carry out state leadership activities under section 223; and

3. Shall not use more than 5 percent of the grant funds for administrative expenses of the eligible agency.

Federal funds may be used to increase the level of nonfederal funds that would be available in the absence of federal funds, and, in no case, replace those nonfederal funds. Federal funds must not be used for the purpose of supplanting, only for supplementing.

See Title II – Adult Education and Literacy Programs (b) Local Activities for additional details regarding the processes for the request for application process.

C. Vocational Rehabilitation Program

In the case of a State that, under section 101(a)(2)(A)(i) of the Rehabilitation Act designates a State agency to administer the part of the Vocational Rehabilitation (VR) services portion of the Unified or Combined State Plan under which VR services are provided for individuals who are blind, describe the process and the factors used by the State to determine the distribution of funds among the two VR agencies in the State.

This is not applicable in Louisiana since blind services are operated within the same agency.

6. Program Data

A. Data Alignment and Integration

Describe the plans of the lead State agencies with responsibility for the administration of the core programs, along with the State Board, to align and integrate available workforce and education data systems for the core programs, unemployment insurance programs, and education through postsecondary education, and to the extent possible, the Combined State Plan partner programs included in this plan. The description of the State’s plan for integrating data systems should include the State’s goals for achieving integration and any progress to date.

i. Describe the State’s plans to make the management information systems for the core programs interoperable to maximize the efficient exchange of common data elements to support assessment and evaluation

Data Alignment and Integration

Louisiana’s WIOA programs are strategically aligned to achieve the interrelated and often interdependent goals of the four core WIOA programs. Long-term, Louisiana has a vision of developing integrated data warehousing in which program performance data from all four WIOA titles is aggregated for reporting and analysis. Currently, the core program stakeholders communicate openly and transparently regarding abilities and opportunities to leverage program resources serving the people of Louisiana to accomplish the WIOA mission.

Currently, Louisiana’s Title I, Title III, and Unemployment Insurance Programs share an integrated management information system, HiRE (Helping Individuals Reach Employment). The system
streamlines the processes of Unemployment Insurance (UI) claims filing, reemployment services, job seeking, employer job posting, applying for employment, and recording of delivery of training, counseling, and other employment services. The state is continuously exploring possibilities to further integrate its information management.

LWC’s HiRE system is a comprehensive system that fully integrated workforce development with unemployment insurance. The system is a common portal used by LWDAs for streamlined intake for programs, exchanging information for case management purposes and providing the necessary data for required federal and state reporting. Not only does this aid the job-seeker/claimant in managing their unemployment insurance benefits, job-search functions, and case management, it also enhances services provided to employers by allowing them to manage unemployment claims as well as utilize recruiting features within the system. Working from the WIOA statutes, the State has established needed data points in HiRE and continually work with our vendor, Geographic Solutions Inc. (GSI) to collect required data as the reporting requirements change.

The HiRE system incorporates dynamic modules including, but not limited to:

- Job Seeker and Employer Self Service
- Adult, Dislocated Worker, Youth, Trade, and Veteran Case Management Modules
- On-line Training Module
- UI Module
- Virtual Recruiter for Employers
- Labor Market Information by Parish, Region and Statistical Area
- Louisiana Training Providers with Demand Occupations

The system also provides workforce administrator and manager tools and virtual functionalities including:

- Accountability and Dashboard Modules for Management
- Fund Management Tracking and Reporting
- Managed Employment Services
- Statewide and Partner Case Management
- Follow-Up and Outcomes Tracking
- National Data Sharing Interfaces
- Trade-Affected Worker Module
- Rapid Response to Layoff Module

HiRE has improved user applied knowledge by making available online assessments and outcome tracking of Aptitude and Basic Skills tests, which are easily recorded for search and viewing by authorized staff and users. Through HiRE, LWC continues to move into “paperless” case management and source document management and data validation modules positioning staff with improved business efficiencies through managed upgrades and modifications to the system.

Louisiana currently produces reports as required by the WIOA by aggregating data through multiple sources. HiRE houses participant case management data. Unemployment Insurance wage data is housed in a state-managed mainframe system. Louisiana is a SWIS member and imports out-of-state wage data for its participants from other SWIS member states and territories.

*Adult Education and TANF*
The Louisiana Workforce Commission (LWC), in partnership with the Department of Children and Family Services (DCFS), shares job seeker registration data to promote efficient use of public assistance resources. DCFS clients, who may benefit from WIOA staff services have access to WIOA job seeking resources are referred to AJC offices additional assistance.

LWC’s relationships with Adult Education promotes training opportunities for Title I WIOA participants. The integration of Title II Adult Education into the Workforce system promotes the flow of communication of labor market needs and education and training opportunities between Adult Education and Workforce Development. These stakeholders use WIOA program and internal data to maximize the efficiency of its shared programmatic efforts.

**Assessment and Evaluation**

LWC regularly analyzes its reemployment data, including population, industry, and occupation metrics, to continuously maximize its ability to return people to work and reduce demand on its unemployment system. Data concerning the state labor force, as a whole, and the state unemployment claimants, including duration, wages, and probability of reemployment during eligibility of UI benefits, drive decision making that factor in steering the delivery of WIOA services offered.

State management, with support from local management, also provides fiscal and programmatic monitoring and serves as liaisons between Workforce Development and UI programs. UI staff provides technical support for job-seekers/claimants and internal staff. The UI technical support unit will upon request provide training to all WIOA and WP staff concerning federal and state UI regulations, eligibility reviews, adjudications services, appeal processes and all other related UI services for job-seekers/claimants.

**Louisiana Rehabilitation Services**

Louisiana Rehabilitation Services (LRS) continues to use the AWARE system (Accessible Web-based Activity and Reporting Environment). Unemployment Insurance wage data is imported into the AWARE system to enable LRS to capture wage data necessary for reporting on performance measures. LWC and core partners continue to research innovative methods of capturing additional data for reporting purposes and for more efficiently servicing Vocational Rehabilitation consumers.

**ii. Describe the State’s plans to integrate data systems to facilitate streamlined intake and service delivery to track participation across all programs included in this plan**

Louisiana has a robust system in HiRE that has comprehensive on-demand reporting capabilities from a statewide database. State and local staff are able to enter, view, update, print and upload participant data, and analyze various reports daily. These reports provide mechanisms to measure levels of service and outcomes by program or targeted groups which allows state and local staff to view outcome data at the state, regional, local, and case manager level for Wagner-Peyser, WIOA Title I-B, TAA, Veterans Employment and Training Services and individuals with disabilities while providing a better measure of the impact of outreach programs or specialized initiatives on performance supporting State’s strategies. Staff has the ability to run reports any time with the majority of data in real-time. Analysis of report data and case management information allows staff to identify errors and quickly correct and improve service delivery. Ongoing technical assistance and training is provided to local workforce areas to ensure understanding of performance measures and the impact of program strategies on performance outcomes. All performance reports have a breakout of how individual customers fit into each performance measure, whether positive, neutral or negative. This allows staff to better find errors and improves analysis by revealing the source of the data down to the individual level.

Louisiana recognizes the opportunities that exist to streamline and enhance intake and service delivery, reporting, and cost-sharing agreements through data sharing. This triggers a broad-based system allowing data to be shared across various data systems of required partners. For example, LWC currently has a data sharing agreement with the DCFS used to service and track TANF recipients participating in the STEP (Strategies to Employ People) program. A data sharing agreement like this helps individuals maintain benefits by participating in mandatory job search
activities through an American Job Center in their local workforce area and have data entered and track by both agencies to ensure compliance. Partnerships like this will continue to be expanded over the life of this plan to increase data sharing for service provision and reporting of WIOA partner agencies. System updates and expansion of workforce and labor market information will continue to achieve high-quality, timely, integrated data that informs policy, employer and job seeker decision-making.

Statewide Workforce and Labor Market Information Development Strategies

1. Warrant job seekers and workers the availability and accessibility of information and guidance required to make informed decisions about training and careers, as well as access to the education, training and support services they need to compete in current and future labor markets.

2. Equip the State Board to execute the role of planning and coordinating the development of required information products by core, partner and other governmental entities, and the accessibility, reliability, dependability, scalability, interoperability and documentation of the workforce system’s data collection and production, and to concert the system’s Internet presence.

3. Maintain an active participation in the Wage Record Interchange Systems (WRIS and WRIS2) and collaborate with federal workforce data producers to ensure Louisiana is accounted for in their data products in order to facilitate planning processes under WIOA and national comparability.

4. Ensure seamless coordination to supply timely, reliable and accessible data to all the stakeholders of the workforce system.

5. Implement and standardize high-level reporting to policymakers on education and employment outcomes across workforce programs.

The Louisiana Workforce Commission and the State’s Office of Technology Systems continue to work together to develop a data collection and management strategies that will meet the needs of data sharing between, amongst, and about core partners. These plans will develop as system requirement updates are realized and cybersecurity measures are enhanced to protect personally identifiable information (PII).

Louisiana continues to work to align and integrate participant and performance data across WIOA programs with the ultimate goal of providing effective and efficient services that lead to the participants’ employment as quickly as possible. Monthly meetings are held between state and local staff to ensure good communication on performance and other related issues. These meetings also serve as the point of discussion on enhancements to HiRE that will further support performance accountability. The programs use the same set of services whenever possible so a service should only need to be entered once for a participant who is enrolled in multiple programs. This also helps in establishing integrated service plans for participants served by more than one program. The WIOA required partners at the state and local levels engage in monthly and/or quarterly discussions regarding ways to streamline intake and service delivery and incorporate their agreements in their regional and local plans, as well as their MOUs and cost-sharing agreements. Collaboration among partners incorporates a broad-based approach to determine how data systems can be integrated or data can be shared across various data systems of all the required partners that participate in the workforce system.

The State provides ongoing technical assistance and training provided by LWC’s Technical Assistance and Training Unit (TAT) within the Office of Workforce Development to local workforce areas to ensure understanding of performance measures and the impact of program strategies on performance outcomes. Quarterly trainings are conducted through virtual and in-person sessions on identified integration strategies that include:

- Functional and technical assessment of external and internal systems in assess and improving common intake solutions;
- Referral to partner agencies;
• Generation and tracking of unique customer identification;
• Automated initial assessment based on real-time triage and intake questions;
• Common dashboard for participant information;
• Policies and procedures for intake, eligibility and enrollment in program services

OWD’s TAT Unit in coordination with the Business Services Team comprised of Industry Sector Specialists (ISS), Business Services Representatives (BSR), and Rehabilitation Employment Development Specialists (REDS), also includes assessments and analysis of business services. This assessment is a key step in developing the capacity for concentrated outreach and recruitment campaigns, access to customer and participant job search activities, identifying eligible job seekers with the HiRE system, improve job postings, and overall improved service delivery to meet the needs of businesses among workforce partners.

LWC will establish a Technical Assistance Working Group comprised of representatives from all WIOA core partners and required one-stop partners administered by State agencies, to develop and issue field guidance for regional and local planning, the one-stop memoranda of understanding and cost-sharing agreements, and provide a mechanism to resolve local WIOA implementation issues between partners.

These strategies include making the system easy to navigate and promoting multiple entry points to access data that will adopt, adapt, or create one or more models of streamlined intake and referral that one-stop centers throughout the state can utilize to improve service delivery.

iii. Explain how the State board will assist the governor in aligning technology and data systems across required one-stop partner programs (including design and implementation of common intake, data collection, etc.) and how such alignment will improve service delivery to individuals, including unemployed individuals

Louisiana's Workforce Investment Council (WIC) works closely with LWC's research and statistics team as well as the Labor Market Information team to ensure data alignment, data sharing and the integration of such data as it relates to WIOA. Those teams evaluate each core partner’s current collection method of the required data elements. Specifically, the teams examine what is collected, how it is collected and how and where data is stored. Collection process changes are the outcome of the evaluation and are incorporated into a data storage system that cooperates when possible with other partner agencies.

iv. Describe the State’s plans to develop and produce the reports required under section 116, performance accountability system. (WIOA section 116(d)(2))

The State has data sharing agreements (DSA) between several partnering agencies to govern the terms and conditions under which program data may be shared. The State has the opportunity to collect program data from each partnering agency through secured data transmission protocols. Each partner has a vendor to produce required federal reports and each core partner is successfully meeting the reporting requirements under Section 116.

B. Assessment of Participants' Post-program Success

Describe how lead State agencies will use the workforce development system to assess the progress of participants who are exiting from core programs in entering, persisting in, and completing postsecondary education, or entering or remaining in employment. States may choose to set additional indicators of performance.

The State is committed to understanding and improving the six primary performance indicators for the core programs. Case management and follow up processes will continue using benchmarking as a
strategy to assess and evaluate results, adjusting strategies as necessary to effectively serve participants.

The State requires employers to report Descriptive Job Title / SOC and Nominal Hourly rate of pay. This will allow a better assessment of participant program success for:

- Participants **entering occupations** related to the program from which they exit.
- Participants completing longer-term training / services programs relative to those who enter shorter programs and self-service (Return on Investment)
- Career progression / **Career Pathways** typically taken by participants.
- Skills acquired at each level of career and skills gap analysis.

C. Use of Unemployment Insurance (UI) Wage Record Data

Explain how the State will meet the requirements to utilize quarterly UI wage records for performance accountability, evaluations, and as a source for workforce and labor market information, consistent with Federal and State law. (This Operational Planning element applies to core programs.)

Based upon the WIOA requirements to utilize wage record data for performance review and evaluation, LWC’s Offices of Workforce Development and Unemployment Insurance work together in identifying and using a variety of on-demand reports that track wage-based performance for Wagner-Peyser, WIOA Title I-B, TAA, and Veterans Employment and Training Services. Out-of-state wages are imported from the Wage Record Interchange System (WRIS2) into participant wage records. There are a significant number of participants who previously had and/or seek out of state employment before and after participation in workforce programs. LWC transitioned to State Wage Interchange System (SWIS) wages to produce a more complete and accurate record of participant earnings.

Unemployment Insurance (UI) Wage Record Data is utilized in data matching for assessing and reporting on state and local employment and training program performance, evaluating training provider performance, and for other purposes allowed by state law and data sharing agreements among state agencies. By utilizing UI Wage Data, the State can measure entered employment, employment retention, and earnings of the individual.

The State continues to work with each of the Core Program partners to continue to meet performance accountability reporting requirements, evaluate and research goals set to support data sharing with education agencies to evaluate the long—term impact of investment and workforce outcomes for individuals who move along a career pathway. Data Sharing Agreements are continuously being reviewed, updated, and maintained to accommodate performance related goals. LWC will create and incorporate a Data Advisory Group across major Secretariats and agencies to help guide this process.

D. Privacy Safeguards

Describe the privacy safeguards incorporated in the State’s workforce development system, including safeguards required by section 444 of the General Education Provisions Act (20 U.S.C. 1232g) and other applicable Federal laws.

Agency legal counsel and Division of Administration Office of Technology Services reviews and approves language in any applicable data-sharing agreement (DSA)and service contract to ensure that privacy safeguards are properly in place.

The Louisiana Workforce Commission (LWC) employs multiple safeguards to customer data. Internally, staff members are held accountable for the use of customer data. All employees accessing LWC’s customer management system, HiRE, are required to sign confidentiality agreements governing the use of information in the HiRE system. Rules, policies, and practices employed by LWC
staff are focused on guarding customer data being used strictly for LWC program purposes. Staff use of the HiRE system is monitored by supervisors and state administrators for appropriate use.

Information in HiRE is kept on file in a secure database and will only be used by our staff to better provide assistance to LWC's customers in determining eligibility for federal assistance in obtaining employment and/or training for employment. Customer information will not be transmitted to other companies, solicitors or organizations not associated with the performance of the responsibilities delineated in the federal Workforce Innovation and Opportunity Act of 2014.

For security purposes and to ensure that this service remains available to all users, HiRE also employs software programs to monitor network traffic to identify unauthorized attempts to upload or change information, or otherwise cause damage.

7. Priority of Service for Veterans

Describe how the State will implement and monitor the priority of service provisions for veterans in accordance with the requirements of the Jobs for Veterans Act, codified at section 4215 of 38 U.S.C., which applies to all employment and training programs funded in whole or in part by the Department of Labor. States should also describe the referral process for veterans determined to have a significant barrier to employment to receive services from the Jobs for Veterans State Grants (JVSG) program's Disabled Veterans' Outreach Program (DVOP) specialist.

The state shall provide priority of service for veterans in accordance with 38 U.S.C. § 4215(b). The term "priority of service" means, with respect to any qualified job training program, that a covered person shall be given priority over nonveterans for the receipt of employment, training, and placement services provided under that program, notwithstanding any other provision of law. Such priority includes giving access services to a covered person before a non-covered person, or, if resources are limited, giving access to such services to a covered person instead of a non-covered person.

Priority starts with the first One-Stop Career Center (OSCC) member that comes in contact with the veteran or eligible person. During the reception process, a series of questions identifies veteran or eligibility status. Eligible Transitioning Service Members and qualified veterans or qualified spouses are provided services prior to other customers and an initial assessment is completed by the first available OSCC staff member. If during the initial assessment it is determined that the veteran has an SBE or is a member of another special category, the veteran is immediately referred to a DVOP specialist.

The state provides priority of service in accordance with TEGL 05-03. When a veteran is identified as having barriers to employment, they are fast tracked on a priority basis to ensure that those barriers are resolved as expeditiously as possible. The state has memorandums of understanding (MOUs) with U.S. Department of Labor-funded programs covered by Section 4215 on veterans' priority and refers veterans to training and supportive services within that network on a priority basis. The state has partnered with educational entities within the state and the vocational/technical institutions, which also provide priority service for veterans and assists them with their educational and literacy needs.

Veterans receive priority for employment and job training opportunities available through WIOA funding, on-the-job training, skills development training and youth training contracts. Veterans can locate training opportunities through the use of the HiRE database and receive training at private facilities, which have been approved through the State Established Training Provider List (ETPL). Should veterans meet the eligibility criteria, their training costs are paid by the WIOA program or through individual training accounts. Veterans take priority in instances of training fund shortages. LVER staff and other OSCC staff identify jobs and training opportunities specifically tailored for veterans, as they promote veterans as potential employees. These priority services are made available and provided to veterans, transitioning service members, Chapter 31 veterans, Native American veterans and other groups targeted for special consideration, including difficult-to-serve veterans and veterans with barriers to employment.
The state will closely monitor the provision of priority of service. Both JVSG management and local area coordinators shall periodically conduct site checks to ensure all required priority of service signs are present and properly displayed, and that OSCC staff understand both the requirement of priority of service and its proper implementation. During these site visits, monitors pay particular attention to the implementation of priority of service beyond core services, particularly in the allocation of training funds. The state shall consider an indicated referral rate in any one of these areas being lower for veterans and other eligible persons than for nonveterans to be evidence of a potential priority-of-implementation problem. The state shall immediately place the affected region under examination and take corrective action measures to include, but not be limited to additional training.

8. Addressing the Accessibility of the One-Stop Delivery System for Individuals with Disabilities

Describe how the one-stop delivery system (including one-stop center operators and the one-stop delivery system partners), will comply with section 188 of WIOA (if applicable) and applicable provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) with regard to the physical and programmatic accessibility of facilities, programs, services, technology, and materials for individuals with disabilities. This also must include a description of compliance through providing staff training and support for addressing the needs of individuals with disabilities. Describe the State’s one-stop center certification policy, particularly the accessibility criteria.

Recognizing the high unemployment rate among individuals with disabilities and the qualified employee shortage businesses are facing, the LWC is committed to providing reasonable accommodations and access to all programs, services and facilities. American Job Centers have incorporated practices to effectively serve persons with disabilities through required assistive technology and equipment.

Louisiana’s one-stop service delivery system complies with provisions of the Americans with Disabilities Act (ADA) of 1990 with regard to the physical and programmatic accessibility of facilities, programs, services, technology and materials for individuals with disabilities. LWC’s Office of Workforce Development Monitoring Unit, Louisiana Rehabilitation Services and Ticket-to-Work staff, along with the Equal Opportunity & Compliance Division works in coordination to conduct on-site reviews of one-stop centers and administrative offices. These reviews are conducted to ensure physical accessibility for customers as well as employees. Reviews are conducted annually and use portions of the Section 188 checklist to ensure programmatic accessibility for customers. Results are included in monitoring reports to ensure Center operations and delivery system partners are in compliance with all applicable requirements in the provision and accessibility of services for individuals with disabilities. Any deficiencies noted are part of corrective actions.

Both monitors and EOOs ensure that the comprehensive one-stop certification and recertification criteria reflects the requirements outlined in section 188 of WIOA (if applicable) and applicable provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.). American Job Centers also use a one-stop disability access checklist to self-evaluate its current level of accessibility.

LWC continues to work with other state agencies, disability partners and advocacy groups in reviewing and revising monitoring tools and procedures, ensuring the incorporation of accessibility criteria as part of the One-Stop certification, and investments in staff training and technology to make certain AJC staff serve adult job-seekers with disabilities effectively.

LWC is currently re-evaluating service provision to individuals with disabilities within American Job Centers and Louisiana Rehabilitation Services offices. Outcomes from this evaluation will be used in establishing stronger policy guidance and annual reviews for core and other partner programs serving this targeted customer group. The guidance includes staff training, integrated service delivery, accessibility, cost effectiveness, effective leadership, performance and responsiveness. Accessibility standards will ensure staff knowledge of and compliance with Section 188 of WIOA. Responsive service delivery is a critical element in American Job Center operations including Center location for
accessibility to the communities it serves, whether hours of operation are responsive to all partners’, possessing adaptive technology, and being ADA compliance.

9. Addressing the Accessibility of the One-Stop Delivery System for Individuals who are English Language Learners

Describe how the one-stop delivery system (including one-stop center operators and the one-stop delivery system partners) will ensure that each one-stop center is able to meet the needs of English language learners, such as through established procedures, staff training, resources, and other materials.

Louisiana is committed to ensuring English Language Learners have access to workforce and education programs and services, and UI assistance. LWC has a contract with a Language Line Translating Service used by UI and American Job Center staff members. This is an 866 number that provides translation/interpreting services for multiple languages. The Translator works with the customer and staff to ensure service provision is accessible, understood, and accurately documented.

There are a few American Job Centers in the State that have bilingual staff members as well several employed within LWC’s Office of Workforce Development and UI departments. Staff members provide assistance via telephone and/or in person as needed. Staffing needs are continuously evaluated in an effort to hire and train bilingual staff to ensure adequate provision of language assistance services in removing language barrier thus allowing meaningful access to workforce services. Local areas and system partners have established effective referral processes to local adult education centers with English as a second language (ESL) classes to provide individuals language education and other educational services, such as gaining a high school equivalency diploma and employability certificates.

IV. Coordination with State Plan Programs

Describe the methods used for joint planning and coordination among the core programs, and with the required one-stop partner programs and other programs and activities included in the Unified or Combined State Plan.

All core partners were consulted for input on individual as well as collaborative efforts. One-stop partner input was solicited through direct communications, meetings and phone calls to coordinate efforts in the development and execution of the combined state plan. Combined plan partners reviewed draft versions of the goals and strategies and each partner contributed information, data, vision and/or goals for their programs as well as coordination of programs with other partners.

The State Board oversees and reviews, as appropriate, the Combined State Plan. It will also steer and align with the State Plan, the local and regional planning processes, through appropriate guidance, pursuant to sections 106 and 108 of WIOA.

V. Common Assurances (For All Core Programs)

The Unified or Combined State Plan must include assurances that:

The State Plan must include

1. The State has established a policy identifying circumstances that may present a conflict of interest for a State Board or local board member, or the entity or class of officials that the member represents, and procedures to resolve such conflicts; Yes

2. The State has established a policy to provide to the public (including individuals with disabilities) access to meetings of State Boards and local boards, and information regarding activities of State Boards and local boards, such as data on board membership and minutes; Yes
The State Plan must include

3. The lead State agencies with optimal policy-making authority and responsibility for the administration of core programs reviewed and commented on the appropriate operational planning elements of the Unified or Combined State Plan, and approved the elements as serving the needs of the populations served by such programs;  

4. (a) The State obtained input into the development of the Unified or Combined State Plan and provided an opportunity for comment on the plan by representatives of local boards and chief elected officials, businesses, labor organizations, institutions of higher education, the entities responsible for planning or administering the core programs, required one-stop partners and the other Combined Plan programs (if included in the State Plan), other primary stakeholders, including other organizations that provide services to individuals with barriers to employment, and the general public, and that the Unified or Combined State Plan is available and accessible to the general public;  
(b) The State provided an opportunity for review and comment on the plan by the State Board, including State agency official(s) for the Unemployment Insurance Agency if such official(s) is a member of the State Board;  

5. The State has established, in accordance with WIOA section 116(i), fiscal control and fund accounting procedures that may be necessary to ensure the proper disbursement of, and accounting for, funds paid to the State through allotments made for the core programs to carry out workforce development activities;  

6. The State has taken appropriate action to secure compliance with uniform administrative requirements in this Act, including that the State will annually monitor local areas to ensure compliance and otherwise take appropriate action to secure compliance with the uniform administrative requirements under WIOA section 184(a)(3);  

7. The State has taken the appropriate action to be in compliance with WIOA section 188, Nondiscrimination, as applicable;  

8. The Federal funds received to carry out a core program will not be expended for any purpose other than for activities authorized with respect to such funds under that core program;  

9. The State will pay an appropriate share (as defined by the State board) of the costs of carrying out section 116, from funds made available through each of the core programs;  

10. The State has a one-stop certification policy that ensures the physical and programmatic accessibility of all one-stop centers with the Americans with Disabilities Act of 1990 (ADA);  

11. Service providers have a referral process in place for directing Veterans with Significant Barriers to Employment (SBE) to DVOP services, when appropriate; and  

12. Priority of service for veterans and eligible spouses is provided in accordance with 38 USC 4215 in all workforce preparation, development or delivery of programs or services funded directly, in whole or in part, by the Department of Labor.

VI. Program-Specific Requirements for Core Programs

The State must address all program-specific requirements in this section for the WIOA core programs regardless of whether the State submits either a Unified or Combined State Plan.
Program-specific Requirements for Adult, Dislocated Worker, and Youth Activities under Title I-B

The Unified or Combined State Plan must include the following with respect to activities carried out under subtitle B—

a. General Requirements

1. Regions and Local Workforce Development Areas

A. Identify the regions and the local workforce development areas designated in the State

The Workforce Innovation Opportunity Act of 2014 calls for realigned workforce, education and economic development systems. One of the cornerstones of this legislation is to define common regions across multiple state agencies, most notably workforce, education and social assistance programs.

The LWC’s Research and Statistics division developed a report based on seven of the eight factors proposed in the new legislation including: population centers, commuting patterns, industrial composition, location quotient, local labor market conditions, accessibility of community colleges and geographic boundaries.

The following map illustrates 8 workforce regions in Louisiana. Within the 8 regions are 15 local workforce development areas (LWDAs). Previously, there were 18 LWDAs under the Workforce Investment Act (WIA).
LWDAs 82 (Morehouse, Union and West Carroll) and 83 (Caldwell, East Carroll, Franklin, Madison, Richland and Tensas parishes) were merged after recommendation of the WIC at its June 15, 2015 meeting and the governor's approval of the recommendation on July 14, 2015.

Under WIOA, local LWDAs 50 (Allen Beauiregard and Vernon parishes) and 51 (Cameron, Calcasieu and Jefferson Davis parishes) requested to be re-designated as a single local area within Region 5 in accordance with WIOA Section 106(b)(4). At its September 15, 2015 meeting, the WIC approved the request of LWDAs 50 and 51 to recommend re-designation to the governor. The LWC Secretary, as designee of the governor, approved the re-designation recommendation on September 29, 2015.

Subsequent to the completion of initial designation, Workforce Development Boards 40 and 41 merged.

As of 2017, the State has 15 Local Workforce Development Boards.

B. Describe the process used for designating local areas, including procedures for determining whether the local area met the criteria for “performed successfully” and “sustained fiscal integrity” in accordance with 106(b)(2) and (3) of WIOA. Describe the process used for identifying regions and planning regions under section 106(a) of WIOA. This must include a description of how the State consulted with the local boards and chief elected officials in identifying the regions.

Since the initial designation, there have been limited changes to the local areas. The process followed during initial designation was:

As stated in WIOA Section 106, the Governor shall approve a request made for initial designation by any local area if, during PY 12 and PY 13, the local area:

- Was designated as a local area under WIA.
- Performed successfully.
- Sustained fiscal integrity.

**Performed Successfully:** A local area has achieved at least 80 percent of their negotiated local performance goal on each performance measure for PYs 2012-13 and 2013-14 (WIOA Section 106(e)(1) OWD 2-8 Sanction Policy).

**Sustained Fiscal Integrity:** The local area has not been found in violation of one or more of the following during PY 12 and PY 13:

- Final determination finding(s) from audits, evaluations or other reviews conducted by state or local governmental agencies or the United States Department of Labor which identify issues of fiscal integrity or misexpended funds due to the willful disregard or failure to comply with any WIA requirements. This includes failure to grant priority of service or verification of participant eligibility; or
- Gross negligence, defined as a conscious and voluntary disregard of the need to use reasonable care, which is likely to cause foreseeable grave injury or harm to persons, property or both; or
- Failure to observe accepted standards of administration. Local areas must adhere to the uniform administrative requirements set forth in Title 2 CFR Part 200 and Title 29 CFR Parts 95 and 97. Local areas must have fully met their federally-mandated responsibilities for the two previous program years, including timely reporting of WIA participant and expenditure.
data, timely completion and submission of the required annual single audit and not having been placed on cash hold for longer than 30 days. (WIOA Section 106(e)(2)) (i.e. failure to submit timely expenditure reports to LWC).

Initial designations are effective July 1, 2015 through June 30, 2022. Local Workforce Development Areas (LWDAs) applied for initial designation using the process included in this policy.

Subsequent designation eligibility and criteria will be addressed in a separate policy. During the initial designation period, local areas planned and prepared to meet the WIOA requirements for subsequent designation (i.e., perform successfully, sustain fiscal integrity, and in the case of a local area in a planning region, meet the regional planning requirements in WIOA Section 106(c)(1)).

**Initial Local Area Designation Application Process**

In order to request initial designation, the local Chief Elected Official (CEO) had to follow one the applicable processes noted below:

**Existing Local Areas**

Complete the Existing Local Area Application for Initial Local Area Designation Program Year 2015-16.

**Modified Local Areas**

Complete the Modified Local Area Application for Initial Local Area Designation Year 2015-16. A local area that considered local-area modification as part of its initial designation application may include: two or more areas proposing to merge into a new combined single local area or a local area that will be expanded to include part or parts of another current local area.

If the LWDA consists of more than one parish, an updated WIOA Consortium Agreement between all CEOs in the parishes must be submitted along with the application.

The local CEO(s) was required to submit a completed application to the LWC/OWD no later than 5:00 p.m., June 23, 2015 to:

**Mail/Hand Deliver:**

Louisiana Workforce Commission  
Office of Workforce Development  
1001 N. 23rd St.  
Baton Rouge, LA. 70804

**Assessment of the Application for Initial Designation**

Once a completed application was received, the staff from the LWC/OWD would verify the information provided in the application and issue a determination as to whether to recommend approval or denial of the application to the Governor.

The local CEO was notified in writing by June 30, 2015 regarding the approval or denial of its initial designation application. If approved, the initial designation was effective July 1, 2015 through June 30, 2017. If denied, the local CEO could contest the decision using the appeal process below.

**C. Provide the appeals process referred to in section 106(b)(5) of WIOA relating to designation of local areas**

The Governor is required to approve a request for subsequent designation from a Local Area, if the Local Area performed successfully, sustained fiscal integrity, and engaged in the regional planning process. The State provided definitions of the required criteria and established an application process for Local Areas to obtain subsequent designation for Program Years (PY) 2019-20 and PY 2020-21.
Definitions

Performed Successfully

For the purposes of subsequent designation for PY 2019-20 and PY 2020-21, performed successfully is defined as a Local Area that has successfully negotiated PY 2018-19 and PY 2019-20 performance goals within their designated Local Workforce Development Areas.

For any subsequent designation and recertification request received from a Local Area after PY 2020-21, that Local Area's WIOA Title I Adult, Dislocated Worker, and Youth performance goals must be successfully negotiated within their Local Workforce Development Areas and must meet or exceed negotiated performance for the two previous program years.

Sustained Fiscal Integrity

The Local Area has not been found in violation of one or more of the following during PY 2016-17 or PY 2017-18: Issues of fiscal integrity or disallowed costs due to the willful disregard of or failure to comply with any WIOA requirement, such as failure to grant priority of service or verify participant eligibility, as identified in final determination of significant finding(s) from audits, evaluations, or other reviews conducted by state or local governmental agencies or the DOL. Gross Negligence, which is defined as a conscious and voluntary disregard for the need to use reasonable care, which is likely to cause foreseeable grave injury or harm to persons, property, or both.

Engaged in Regional Planning

For the purposes of subsequent designation for PY 2019-20 and PY 2020-21, engaged in regional planning is defined as participating in, and having contributed to, regional planning and regional plan implementation (for example, participating in regional planning meetings, leading regional plan implementation efforts, and review and approval of regional plan and modifications by Local Boards and local Chief Elected Officials), and participating in regional performance negotiations.

Application Process

Local Areas had to complete and submit one of the following two applications to the Louisiana Workforce Development Board:

- Existing Local Area - Application for Subsequent Local Area Designation and Local Board Certification Program Year 2019-21
- Modified Local Areas for Local Areas that are requesting Local Area modification as part of their subsequent designation, complete "Modified Local Area - Application for Subsequent Local Area Designation and Local Board Certification Program Year 2019-21.

Appeals Process

In accordance with Section 106 of WIOA, a unit of local government (or combination of units) which has requested and been denied an initial designation as a local area under WIOA may appeal the denial to the State Board within 15 calendar days of the date of the decision.

The request for appeal must be sent by certified mail, return receipt, to the Louisiana Workforce Commission, Attention: Office of Workforce Development P.O. Box 94094 Baton Rouge, La. 70804-9094. The request must include the name of the contact person (e.g., WDB Director) and the address where official notices are to be mailed. The appeal request must be legible, written/typed clearly and concisely and the following must be placed at the top of the first page in capital letters: REQUEST FOR APPEAL. The written/typed appeal must specifically state why the designation as an LWDA should be approved. The request shall be no longer than five pages. (Exhibits and attachments are not included in the five-page limit). Within five calendar days of the receipt of the appeal, the State Board will contact the appellant to schedule a hearing date. The State Board will conduct the appeal hearing and provide a written decision to the appellant no later than ten calendar days after the hearing.
Appeal of State Board Decision

If the appeal to the State Board does not result in approval for initial designation, the appellant, if appealing an initial designation under WIOA Section 106(b)(2) or subsequent designation under Section 106(b)(3), may request a review by the Secretary of Labor. An appeal to the Secretary must be submitted by the appellant or grant recipient no later than 30 calendar days after receipt of written notification from the State Board that the appeal has been denied. Appeals must be submitted by certified mail, return receipt requested, to the Secretary, U.S. Department of Labor, Washington, DC 20210, Attention: Assistant Secretary, Employment and Training Administration. A copy of the appeal must be simultaneously provided to the State Board.

If the Secretary determines that the appellant was not accorded procedural rights under the appeal process established under the above section, or that the area meets the requirements for initial or subsequent designation in WIOA Section 106(b)(2) or 106(b)(3), the Secretary may require that the area be designated as a workforce development area. The Secretary must issue a written decision to the Governor.

D. Provide the appeals process referred to in section 121(h)(2)(E) of WIOA relating to determinations for infrastructure funding

Local funding agreements must satisfy the requirements of section 121(h) of WIOA in PY 2017. The State has provided guidance to the Local Workforce Development Areas which contains an appeals process for the allocation of One-Stop Center infrastructure funding effective for PY 2017. The guidance includes the State infrastructure funding mechanism to be implemented in the event that a LWDA fails to reach consensus on funding methods.

State Infrastructure Funding Mechanism

One of the hallmarks of WIOA is an increased emphasis on Local WDBs as conveners who are responsible for the MOU negotiation process. Initiating negotiations via a Local Funding Mechanism (LFM) allows for decision making to be kept at the local level. LWC’s goal is to provide the support and guidance necessary to help all Local Areas reach agreement under the LFM rather than under the State Funding Mechanism (SFM.) Local WDBs are urged to seek guidance and support from the state throughout the negotiation process to help prevent the triggering of the SFM. However, if a Local WDB is unable to complete an IFA with all its AJC partners, then the SFM will be triggered and LWC, with the Governor’s approval, must then determine the required contributions of each AJC partner.

If a Local WDB does not believe they will be able to come to an agreement regarding joint infrastructure costs with any of their AJC partners by (May 1st each year thereafter), they must notify LWC in writing immediately.

All AJCs partner programs and/or the Local Board may appeal the SFM decision. Appeals must include justification by the program and/or Local Board and be based on believed noncompliance with WIOA Section 121(h)(3) that outlines the Governor’s funding allocations.

Appeals Process

Upon receipt of the specific terms of a State Funding Mechanism, any Local WDB or one-stop required partner may appeal for cause, within 30 calendar days, in writing, LWC's determination regarding the portion of funds (or non-cash contributions) it is to provide. To be officially received, an appeal must fully contain and evidence the following:

- Addressed to the attention of the Secretary of the Louisiana Workforce Commission or his/her designee.
- An introduction identifying the appellant and designating the letter as a formal appeal.
• Full citations from WIOA or the WIOA Final Rules in Title 29 or Title 34 of the Code of Federal Regulations (CFR) that support the appeal.

• Identify the basis for the appeal. WIOA stipulates that a State Funding Mechanism (SFM) allocation determination may be appealed only if the determination is inconsistent with the requirements of WIOA sec. 121(h)(2)(E). The Final Rule at 20 CFR 678.750 further limits admissible grounds for an appeal to three possibilities. The petitioner must make a case that the State’s determination is inconsistent with:
  o the proportionate-share requirements in 20 CFR 678.737, or
  o the cost-contribution limitations in 20 CFR 678.730(c), or
  o the cost-contribution caps in 20 CFR 678.738

• The letter must be signed by signatory authority (electronic signature is acceptable) and dated.

LWC will acknowledge the appeal and return a determination under the designated authority of the Governor no later than 60 days upon the date receipt of appeal. Until the appeals process is completed, the appellant will remain liable for its contribution as originally determined in the SFM. If a one-stop partner’s appeal to LWC using the process described in 20 CFR 678.750 is successful and results in a change to the one-stop partner’s infrastructure-cost contributions, then the Local Area’s MOU must be updated to reflect the final one-stop partner infrastructure cost contributions.

2. Statewide Activities

A. Provide State policies or guidance for the statewide workforce development system and for use of State funds for workforce investment activities

REQUIRED STATEWIDE EMPLOYMENT AND TRAINING ACTIVITIES- ADULT, DISLOCATED WORKER, YOUTH PROGRAMS

Louisiana administers WIOA funds for the purpose of development and funding innovative statewide activities that will improve service delivery strategies and target specific populations throughout the state. These activities are aligned with the mission and direction of WIOA by assisting job seekers, especially job seekers with barriers to employment, with access to employment, education, training, and support services they need to succeed in the labor market while also matching employers with the skilled workers they need to compete in the global economy.

WIOA Statewide Adult, Dislocated Worker and Youth Funds are allocated to the local workforce development areas, with the support of the state, to design, develop, and implement activities that accelerate employment and reemployment strategies for Louisiana job seekers. These workforce activities create and prototype innovative strategies that bridge education and workforce gaps for targeted populations, and implement promising models and practices in workforce system service delivery infrastructure.

LWC has heightened its focus on regional coordination among key partners with efforts to promote relationships with new partners leading to enhanced resources and augmentation of existing services strategies. By working with similar or established programs, organizations are better equipped to anticipate complications and can instead focus on methods and success.

LWC also recognizes that strong relationships with employers are necessary to create pathways to gainful, long-term employment for participants. LWC supports Local Workforce Areas in collaborating with high growth industry leads, as partnerships result in well-crafted trainings and jobs for participants with employers who value them. As a result, service providers receive high-quality job placements because there is a mutual benefit to employers.
The primary goals of WIOA statewide funded activities include:

- Improve labor market and skills outcomes for target groups through the development of strategies that fill gaps, accelerate processes, or customize services to ensure greater access to workforce services and employment opportunities.
- Create new models for service delivery and funding alignment that can be replicated across the State and tailored to regional needs.
- Implement, replicate, and scale successful innovations that emerged from previous projects.
- Leverage state investments with commitments from industry, labor, public, and community partners.

**Targeted Population with Barriers to Employment**

WIOA statewide funded activities will also ensure more of the targeted population with barriers to employment have access to training, good jobs and economic security, and achieve greater intergenerational income mobility.

The following are outcomes the State hopes to achieve through the reinforcement of serving targeted populations with barriers to employment:

- **Demand Driven Skills Attainment:**
  - develop a team that jointly convenes industry and is led by industry champions.
  - share industry sector focus and pools/shares resources to meet demand in the region.
  - a process to communicate industry workforce needs to supply-side partners.
  - policies supporting equity and strives to improve job quality.

- **Upward Mobility and Equity for Individuals with Barriers to Employment Outcomes:**
  - a shared target populations of emphasis.
  - deploy shared/pooled resources to provide services, training, and education to meet target population needs.
  - utilize shared/common case management and capacity building strategies such as co-enrollment and professional development to develop shared responsibility for providing services and ensure quality outcomes.

The State reserves the rights to use funds reserved by the Governor, as described in WIOA sections 128(a) and 133(b), regardless of whether the funds were allotted as Youth, Adult, or Dislocated Worker Formula Funds, to achieve the following statewide activities:

- Provide assistance to state entities and agencies, local areas, and one stop partners in carrying out the activities described in the combined state plan, including the coordination and alignment of data systems used to carry out the requirement of WIOA.
- Provide assistance to local areas for carrying out the regional planning and service delivery efforts required under sec. 106(c) of WIOA.
- Provide assistance to local areas by providing information on, and support for, the effective development, convening, and implementation of industry sector partnerships.
- Provide assistance to local areas, one stop operators, one stop partners, and eligible providers, including the development and training of staff, which may include the development and training of staff to provide opportunities for individuals with barriers to employment to enter in-demand industry sectors or occupations and nontraditional occupations, the
development of exemplary program activities, and the provision of technical assistance to local areas that fail to meet local performance accountability measures described in sec. 116(c) of WIOA

- Disseminating the State list of eligible providers of training services, including eligible providers of nontraditional training services and eligible providers of apprenticeship programs registered under the National Apprenticeship Act of 1937
- Disseminate information identifying eligible providers of on-the-job training (OJT), customized training, incumbent worker training (IWTP), internships, paid or unpaid work experience opportunities, or transitional jobs
- Disseminate information on effective outreach to, partnerships with, and services for, businesses
- Disseminate information on effective service delivery strategies to serve workers and job seekers
- Disseminate performance information and information on the cost of attendance including tuition and fees, for participants in applicable training programs on the Eligible Training Provider’s List (ETPL) with recognized post-secondary credentials, as well as OJT and IWTP
- Disseminate information on physical and programmatic accessibility, in accordance with sec. 188 of WIOA relative to nondiscrimination, if applicable, and the American with Disabilities Act of 1990 for individuals with disabilities
- Conduct evaluations of State Programs, in coordination with evaluations of programs and activities carried out by the U.S. Secretary of Labor
- Disseminate a list of providers of youth workforce investment activities eligible to receive competitive, or sole source, grants and contracts for training with credentials for youth
- Provide re-designation assistance to local areas
- Provide assistance in the development of Regional Plans
- Operate a fiscal and management accountability information system (MIS) to manage, track, and report primary indicators of performance for Youth, Adult, and Dislocated Worker Programs
- Conduct continuous, and at least annually, monitoring and oversight of activities carried out by sub-recipients of WIOA funding to conform to the Uniform Administrative Requirements (UAR)
- Provide additional assistance to local areas that have high concentrations of eligible youth

ALLOWABLE STATEWIDE EMPLOYMENT AND TRAINING ACTIVITIES (Discretionary Funds)

This policy allows the State to use funds not more than 15% of the amount of WIOA formula funding allotted for Adult, Youth and Dislocated Workers, reserved by the Governor, and administered by the Secretary, or her designee, to provide for additional statewide employment and training activities under WIOA. These may include the following:

- Developing strategies for effectively serving individuals with significant barriers to employment and for coordinating programs and services among one stop partners
- Implementing innovative programs and strategies designed to meet the needs of all employers, including small employers, in the State, which programs and strategies may include IWTP, customized training, sector and industry cluster strategies and implementation of industry or sector partnerships, and career pathway programs
The development or identification of education and training programs that respond to real-time labor market analysis, utilize direct assessment and prior learning assessment to measure and provide credit for prior knowledge, skills, competencies, and experiences, evaluate such skills and competencies for adaptability, ensure credits are portable and stackable for more skilled employment, and accelerates course or credential completion

Implementing programs to increase the number of individuals training for and placed in nontraditional employment

Carrying out activities to facilitate remote access to services

Supporting the provision of career services in the one stop delivery system in the State

Activities to improve coordination of employment and training activities with child support services

Activities in the corrections system that assist ex-offenders in re-entering the workforce

Activities consisting of development and dissemination of workforce and labor market information

Conducting research and demonstration projects related to meeting the employment and education needs of adults and dislocated workers

Implementing promising services for workers and businesses, which may include providing support for education, training, skill upgrade, and statewide networking for employees to become workplace learning advisors and maintain proficiency in carrying out activities associated with such advising

Developing and disseminating common intake procedures and related items, including registration processes, materials, or software

Providing technical assistance to local areas that are implementing pay-for-performance contract strategies, which technical assistance may include providing assistance with data collection, meeting data entry requirements, identifying levels of performance, and conducting evaluations of such strategies

Research related to meeting the education and employment needs of youth

Demonstration projects related to meeting the education and employment needs of youth

Supporting the development of alternative, evidence-based programs and other activities that enhance the choices available to eligible youth and encourage

Supporting financial literacy, including the ability of youth program participants to create household budgets, initiate savings plans, and make informed financial decisions about education, retirement, home ownership, wealth building, or other savings goals

Supporting activities that address the particular financial literacy needs on non-English speakers, including providing the support through the development and distribution of multilingual financial literacy and education materials; and

Providing technical assistance to, as appropriate, local boards, chief elected officials, one stop operators, one stop partners, and eligible providers, in local areas, which provision of technical assistance shall include the development and training of staff, the development of exemplary program activities, the provision of technical assistance to local areas that fail to meet local performance accountability measures, and the provision of technology to facilitate remote access to services provided through the one-stop delivery system in the State.
B. Describe how the State intends to use Governor’s set aside funding. Describe how the State will utilize Rapid Response funds to respond to layoffs and plant closings and coordinate services to quickly aid companies and their affected workers. States also should describe any layoff aversion strategies they have implemented to address at risk companies and workers.

The goal of Louisiana’s Rapid Response unit is to quickly mobilize resources to minimize the adverse impact on companies, affected workers and communities that are associated with a job loss. Rapid Response services expedite the process of obtaining information about where new jobs can be found and training, education and/or supportive services that facilitate re-employment as quickly as possible. Pursuant to WIOA section 134 (a)(2)(A), the Governor shall reserve not more than 25 percent of WIOA Dislocated Worker funding to carry out statewide rapid response activities.

These statewide rapid response activities shall include:

- provision of rapid response activities, carried out in local areas by the State, or by an entity designated by the State, working in conjunction with local boards and the chief elected officials for the local areas; and

- provision of additional assistance to local areas that experience disasters, mass layoffs, or plant closings, or other events that precipitate substantial increases in the number of unemployed individuals, carried out in local areas by the State, working in conjunction with the local boards and the chief elected officials for the local areas. The State’s Rapid Response activities will include, but are not limited to the following:
• Immediate contact with the employer, representatives of the affected works and the local community, which may include an assessment of the layoff plans and the schedule for reemployment orientation sessions.

• The team provides customized transition services and assistance. These services are provided at the job site, prior to the layoff and are offered at times convenient for the employer and affected workers. Companies and individuals not covered and/or specifically addressed in the WARN Act are also eligible and provided services through the Rapid Response unit.

• Entering the impacted workers into the Halow database. The Halow (Helping A Laid Off Worker) initiative showcases laid off workers to prospective employers by listing the affected job title, length of employment with company, parish of residence, education level and veteran status.

Layoff-aversion strategies are the first line of defense. The Rapid Response unit provides companies with industry-specific strategies that have been proven to avert layoffs and closures. Additionally, the Rapid Response unit will quickly convene stakeholders to examine and begin initial implementation of layoff-aversion activities.

These activities and services include, but are not limited to:

• Utilize computer predictability programs to target companies in distress that could face an upcoming layoff.

• Rapid Response unit will work with Industry Sector Specialists and local Business Services staff to continuously conduct outreach to targeted employers in order to build a relationship with the business community allowing quick coordination for job fairs or hiring events.

• Incumbent worker training, including employer loan programs for employee skill upgrading; and

• Linkages with economic development activities at the federal, state and local levels, including federal Department of Commerce programs and available state and local business retention and recruitment activities.

The State reserves the right to determine how RR activities will be initiated based on the circumstances of an individual layoff event. Responsibility for facilitating how the process begins is determined by the Statewide RR Coordinator and communicated to the WIOA Director.

When an official WARN Notice is involved the following sequence of events will be in place:

• The Statewide RR Coordinator will determine whether the WARN is classified as Federal, State or below the required WARN threshold.

• The Statewide RR Coordinator will acknowledge the receipt of the WARN with the company and communicate with the official named in the notice to explain RR policy and gather relevant details about the terms of the closing or layoff.
  
  o Depending on the type of WARN and dynamics of the impact to the community, the RR Coordinator will reach out to the company official or request a contact be made to the company by the Local Workforce Development Board Director.

  o When collective bargaining is involved in the layoff or downsizing, the labor representative will also be contacted and invited to all meetings.

• The State RR Coordinator will notify LWC agency leadership and Local Workforce Development Board Director, to make them aware of the WARN. The notification will contain a synopsis of the WARN notice details and the WARN Notice will be attached.
• A subsequent e-mail will be sent to the WIOA Director and other relevant LWC leadership in order to coordinate next steps and potential approach to when rapid response services should begin.

Following notification and confirmation of a layoff, the State Rapid Response Coordinator and Rapid Response staff arranges an on-site meeting with the company, union officials (if applicable) and local leadership. The Statewide RR Coordinator delegate the convening and facilitating of the employer meeting to experienced RR staff. The meeting can be conducted via conference call if the need arises.

The State RR Coordinator will make sure the following components are included for an organized, multi-faceted response:

• Contact with company and labor officials from the affected business;
• Contact with local Workforce Development Boards and other local leadership and partners;
• Contact with service providing agencies in the local area;
• Arrangement and facilitation of RR meetings;
• Arrangement and facilitation of RR Orientation

Rapid Response Orientations are conducted at various venues as coordinated with employers and/or workers, and includes services available through American Job Centers and other partnering agencies such as; job search and job placement assistance, resume workshops, career counseling, and training in a new career, and assistance filing unemployment insurance (UI) benefits, and the impacts of layoff with regard to health care. Other state agencies or community-based organizations are invited to participate in the meetings to help workers adjust in a time of crisis.

C. In addition, describe the State policies and procedures to provide Rapid Responses in cases of natural disasters including coordination with FEMA and other entities

Louisiana has developed a comprehensive and well-tested disaster response and recovery plan. Rapid Response is a critical component of the state’s disaster response and recovery plan and provide services such as:

The WARN Act for Natural Disasters requires certain employers to provide at least 60 calendar days’ advance written notice of a plant closing or mass layoff affecting 50 or more employees at a single site of employment. The Act makes certain exceptions to the requirements when dislocations occur due to natural disasters if the employees are unreachable and the employment site is destroyed.

When a plant closure or a mass layoff is the direct result of a natural disaster such as a hurricane, flood, earthquake, drought, storm, or similar events caused by nature, employers are obligated to give as much notice as possible, even if the notice comes after a disaster.

To comply with the law, the employer may send notice to the employees’ last known address, even if their homes are destroyed. This would indicate good faith. The regulations recognize that the available information may be limited.

Emergency RR quickly coordinates services in the event of a crisis, emergencies or situations categorized as a natural disaster. The delivery must be proactive, comprehensive and structured. The primary goal is to convene all diverse expertise and partners who will be dedicated to help the community navigate difficult times and address the short-term and long-term impacts of such events.

Emergency RR includes, but is not limited to:

• Assisting individuals with accessing UI or disaster unemployment assistance;
• Acquisition of and support for mobile one-stop units
  o Rapid Response mobile unit’s function as offices on wheels. In the event of a disaster resulting in a job loss or other interruption in employment, the mobile units are deployed. The units run on generators and are equipped with computers and Internet access. The units can also be deployed to remote locations or to regions where offices may have been destroyed;

• Gathering demographic information for potential emergency grant applications; and

• Coordination with Federal Emergency Management Agency (FEMA) or other disaster-response organizations.

• State and local area rapid response providers must work closely with other State and local agencies and other critical partners through strategic planning processes to ensure effective and immediate responses can be undertaken when the need arises.

In situations of natural disaster or other state-declared emergency situations and to adhere to DOL policy guidance relative to disaster DWG’s and TEGL 2-15, initial steps and supplementary planning will include coordination with the following:

• FEMA;

• Louisiana Homeland Security & Emergency Management, through the Duty Officer who coordinates with Emergency Management systems;

• Workforce Development Boards and community stakeholders; and

• Business or businesses impacted by economic downturn or the natural disaster and cause of unemployment and affecting the current workforce;

• Priority of Service Populations;

• Disaster Unemployment Insurance;

• Fish and Wildlife;

• Monitoring provisions;

• Work on Private Property rules;

• Prevailing Wages laws;

• Participant Eligibility qualifications as required by WIOA including accessing supportive services;

• Safety/OSHA

D. Describe how the State provides early intervention (e.g., Rapid Response) to worker groups on whose behalf a Trade Adjustment Assistance (TAA) petition has been filed. (Section 134(a)(2)(A).) This description must include how the State disseminates benefit information to provide trade-affected workers in the groups identified in the TAA petitions with an accurate understanding of the provision of TAA benefits and services in such a way that they are transparent to the trade-affected dislocated worker applying for them (Trade Act Sec. 221(a)(2)(A) and Sec. 225; Governor-Secretary Agreement). Describe
how the State will use funds that have been reserved for Rapid Response to provide services for every worker group that files a TAA petition.

LWC has a policy requiring co-enrollment into WIOA services for Trade affected workers receiving services under the Trade Adjustment Assistance (TAA). Co-enrolling (or multi-enrolling) TAA participants aligns resources and supports the development of clear plans for integrated service strategies necessary to effectively and efficiently assist the Trade-affected workers in transition.

Upon receipt of a valid WARN notification, and LWC determines the lay-off warrants a public announcement, notices are disseminated to personnel identified within the WARN notification network. To ensure timeliness, the State’s Rapid Response team, begins intervention efforts within 48 hours of a layoff notification. To better meet local need, Rapid Response coordinators are located in each region of the state to lead and manage activities, and to provide customized responses to businesses and workers within their regions. The Rapid Response Regional Coordinator makes initial contact with the employer and gathers information regarding the cause of the layoff, including any possible trade factors, demographics of the affected workers, immediate needs of the workers, etc. The Rapid Response Regional Coordinator would then relay any trade factors to Trade unit for preparation of the TAA petition.

LWC has activated cross-program strategic planning and service integration (TAA, Dislocated Worker, and Rapid Response) by providing core and intensive services through the Rapid Response unit and by co-enrolling TAA certified participants in need of training in WIOA and TAA. The TAA Statewide Coordinator notifies the Rapid Response Statewide Coordinator whenever a new petition is filed to ensure that Rapid Response services are provided. In the case that a petition is filed by a worker group then the Regional Rapid Response coordinator and the TAA coordinator will synchronize services to the affected workers.

The Trade unit organizes orientation sessions for employees who were affected by Trade when there is an active petition in the Trade program. The state also provides guidance to Local Boards to develop strategies and policies to provide progressive levels of intervention for job-seekers. Using information collected through early intervention, WIOA staff initiate enrollment of eligible laid-off employees for case management at One-Stop Centers statewide. All eligible dislocated workers are provided a full range of core, intensive, training and other individually appropriate local partner services.

To accommodate worker schedules and enable more employees to access services every effort is made to negotiate on-site services and paid time-off. When possible, Worker Transition Centers are established on-site. Statistics have proven that when services are on-site and during company time it increases participation, morale, while maintaining productivity. The Work Test is provided throughout the interface of staff with unemployment insurance claimants, not just during the eligibility review process. In both daily re-employment (of claimants) efforts and during the eligibility review process, daily notification of work test issues are provided to the UI adjudication staff for follow-up.

Early intervention services that include orientation; initial assessment of skill levels, aptitudes and abilities; the provision of labor market information; job-search assistance and financial management workshops continue to be a priority for workers in the TAA program. Once trade-impacted employees are certified, local-merit staff at the AJC approves and enter the TAA program budget obligations and expenditure records in the HiRE system and complete the enrollment of these participants in TAA training.

Certification of a dislocated worker for TAA includes determining eligibility by matching the laid-off employee to the USDOL-certified petition and the employer’s laid-off list, as well as approval of the individual using the six TAA criteria for eligibility to be placed in training along with other steps. The TAA criteria requires assessing the emotional, spiritual, financial and intellectual abilities of the trade impacted workers, to demonstrate the individual’s qualification to undertake, complete and benefit from the planned training. Supporting the assessment are testing tools (SAGE, TABE, WorkKeys,
etc.) administered at the local BCSC level. If the assessment identifies a TAA-certified participant’s need for adult education or remedial services, these programs can be offered by local-merit staff. The assessment tool also can be used to identify education gaps and to pinpoint work-related aptitudes and interests. Approval for TAA training services and selection of a training method or program is based on matching these factors to the participant for appropriate training for a demand occupation.

b. Adult and Dislocated Workers Program Requirements

1. Work-Based Training Models

If the State is utilizing work-based training models (e.g. on-the-job training, incumbent worker training, transitional jobs, and customized training) as part of its training strategy and these strategies are not already discussed in other sections of the plan, describe the State’s strategies for how these models ensure high quality training for both the participant and the employer.

The State will maximize Work-Based Training program models including on-the-job training, incumbent worker training, registered apprenticeship, transitional jobs (Work Experience), and customized training as part of its training strategy. These models are designed to ensure high quality training for both participants and employers. The Louisiana Work-Based Training model has as its goal to meet job seekers as well as employer needs.

In order to enhance the success of the Work-Based Training program’s model, Louisiana will engage partners in the development of strategies, frameworks, and models to insure successful implementation of work-and-learn experiences. The State will strategize to elevate the importance of work-and-learn models. Through partnerships with employers LWC will strive to mitigate employer challenges as well as determine best practices.

Furthermore, job seekers will be able to establish connections directly with potential employers by using this evidence-based approach to career readiness. The State will additionally provide guidance for the field through policies, standardized procedures, statewide training, and technical assistance.

Work-Based Training models will utilize work-based learning to fill regional business needs for skilled employees, thereby increasing employee earning potential and the business’s bottom line. To ensure quality in work-based training, local Workforce Development Areas are expected to demonstrate evidence of the following criteria:

- Occupation training for in-demand jobs as defined by Occupational Forecasting Conference and approved by the State Board (Workforce Investment Council) accessible through (STAR JOBS)
- Clear program goals
- Outreach implementation to program participants and employers regarding OJT opportunities; including leveraging various partners' relationships with employers
- Standardizing and streamlining forms, including contracts and training plan templates in each region
- Clear roles and responsibilities for trainers, worksite supervisors and support personnel
- Assessments to identify existing skills of individual learners
- Reasonable training length reflecting both the complexity of the job and skills of the trainee
- Specified methods of instruction
• Assurance that participants are job-ready prior to work-based training opportunities

• Established evaluation processes

• Clear expectations and feedback to assess progress toward achieving learning/skills acquisition goals.

These Work-Based Training programs will better prepare adults and dislocated workers for an economy that demands that workers have career knowledge and skills, are adaptable to change, and are prepared for lifelong learning. The strategy of Work-Based Training will utilize community partners in an effort to provide job seekers with the opportunity to learn the necessary workplace skills required for success in the new economy.

2. Registered Apprenticeship

Describe how the State will incorporate Registered Apprenticeship into its strategy for service design and delivery (e.g., job center staff taking applications and conducting assessments).

Registered Apprenticeship is currently aligned with WIOA through initiatives of the State Apprenticeship Expansion (SAE) grant awarded to the LWC by USDOL. One of these initiatives includes a supportive services pilot for apprentices similar to those offered at the local comprehensive career centers. SAE supportive services have provided tools, childcare assistance, and gas reimbursement for apprentices with financial need, supplementing funds for WIOA participants who need additional support and providing resources for those who are not eligible for WIOA but still require such assistance. These supportive services will continue until the SAE grant ends in October 2020.

ApprenticeshipLA.com utilizes a WIOA pre-screening form to determine potential WIOA eligibility for apprentice applicants, based on a model developed by Region 1. Completed forms are sent to the ApprenticeshipLA email and forwarded to the appropriate local board so they can reach out to these individuals and screen them before their apprenticeship begins. This has proved beneficial, as many are unaware of the services provided at comprehensive job centers. The pre-screening form increases the likelihood of determining eligibility before employment where afterward they may no longer be eligible for OJT contracts, supportive services, and/or individual training accounts (ITAs).

A new source of grant funding awarded in 2019, the Apprenticeship State Expansion (ASE) grant, provides funds for employer incentives to assist with OJT and Related Technical Instruction (RTI) training costs. The LWC will partner with local boards to execute this incentive, braiding funds with OJT contracts and ITAs to increase the amount of WIOA funds utilized by employers with a Registered Apprenticeship model and encourage Registered Apprenticeship expansion across the State of Louisiana.

During National Apprenticeship Week in 2019, the Apprenticeship Division held two events in the Monroe and Lafayette regions, coordinated with two local workforce boards. These events focused on informing employers of the benefits of Registered Apprenticeship and how WIOA funding can amplify programs, with a cumulative attendance of over 80 individuals. The Apprenticeship Division aims to replicate these events in the other regions of Louisiana to strengthen partnerships between the LWC, the local boards, and employers.

3. Training Provider Eligibility Procedure

Provide the procedure, eligibility criteria, and information requirements for determining training provider initial and continued eligibility, including Registered Apprenticeship programs (WIOA Section 122).

LWC is currently working on revising agency policy and ETPL manual to meet requirements of TEGL 8-19. Those policies will be issued and all edits to the ETPL Manual will be incorporated and issued by May 30, 2020. The edited manual will be publicly available.
LWC is responsible for facilitating the application process and for calculating the performance outcomes based on student level data submitted by training providers. In addition, LWC is required to disseminate the State’s list of eligible providers of training services, including eligible providers of non-traditional training services, performance information and program costs.

LWDBs are responsible for notifying providers in their area of the opportunity to apply for status as approved eligible training providers. At its own discretion, an LWDB may also solicit training providers from outside of their LWDA. Solicitation may be done through a combination of direct mailings, newspaper notices and other appropriate means. An LWDB is responsible for ensuring that training providers have access to the application for certification and a list of demand occupations for their LWDA. WIOA requires training funds be used for training job seekers for occupations on the demand occupation list. The list contains information for training providers regarding where training funds should be used.

Training providers that do not have data entry access to the HiRE (Helping Individuals Reach Employment) should contact LWC’s Office of Workforce Development at (225)342-7693 to obtain the necessary security access. Refer to the Eligible Training Provider Manual for additional information on the application process, at http://www.laworks.net/Downloads/WFD/ETPLManual.pdf.

The statewide standardized system eliminates duplication and provides uniformity in the provider information gathered for the statewide list. Potential training providers must submit an application for each course of study or program being proposed, including cost information on each course or program. Each training provider must submit one (1) single application containing all required information on the training institution and one (1) on each program being proposed to receive WIOA training funds.

In addition to the application, each provider must submit required student data as outlined in chapter 7 of the Eligible Training Provider Manual. High school students, prisoners, and non-degreed individuals are excluded from the student data requirements. A non-degreed individual is defined as an individual who is enrolled for a single course without the intention of completing a program. The data submission must include the signed “Student Data Certification Statement” found in Appendix 1 — Form C. As part of the certification process the state will verify a proprietary school’s licensure status through the Louisiana State Board of Regents, through the Louisiana State Board of Regents, a proprietary school’s licensure status. Applications will not be processed through the certification process until this verification has been made. Questions regarding licensure status should be directed to Carol Marabella at (225) 219-7150, (225) 342-4253 or at the following address:

Louisiana State Board of Regents Proprietary School Section P. O. Box 3677 Baton Rouge, LA 70821-3677

Initial Eligibility

- Providers must submit an application to the State for training program(s) it wishes to offer. In addition to any local requirements, providers must follow the process outlined in this policy and submit student and performance data as required by the State.
- Providers are eligible only for programs that qualify and are approved by the State and LWDBs.
- Providers must submit evidence of accreditation and/or licensure from the appropriate state or other governing body.
- Distance learning programs are eligible only when offered by institutions that are fully accredited by a recognized accrediting body.
- Initial eligibility is limited to a period of one (1) calendar year for each approved program.
The provider must renew its eligibility and establish continued eligibility for each approved program to continue receiving WIOA funds after the program’s one-year period of eligibility ends.

Providers must contact the State every two years to renew each program’s continued eligibility to receive WIOA funds.

The State shall provide a written notice of determination of acceptance or rejection of an initial application in HiRE to an applying entity within thirty (30) calendar days of the receipt of the completed initial eligibility determination application.

Continued Eligibility

All training providers must apply annually to remain on the ETPL by submitting a completed application along with the required information. The State will review the application, make a determination of approval, and notify the applicant of the determination within 30 days of receiving the completed application. The State will notify the applicant of the final determination in writing in HiRE, including in the case of a denial, the reasons for the final determination and a statement that the provider may appeal the determination as provided in the ETP policy. The applicant may appeal the determination of the State using the appeals procedures outlined in the ETP policy. Any training provider that does not apply to remain on the ETPL pursuant to this policy shall be removed from the ETPL.

The following information is required for a continued eligibility determination:

1. A completed online application;
2. Performance reports for the past two years, as applicable;
3. Certification that the following have not changed from previous years:
   - the provider’s refund,
   - equal employment opportunity and accessibility policies; and
   - the class schedule. If changes have been made, new copies of the aforementioned shall be provided;
4. Redetermination of licensure status by the Louisiana State Board of Regents; and
5. Any additional information requested by the State.

A continued eligibility determination will be made for each training provider on a program-by-program basis and be based on the following criteria:

- A training provider’s prior eligibility status or status of existing programs.
- The performance of training providers on the performance accountability measures relating to the State Plan and the training provider’s individual performance measures established by the State.
- The availability of training services throughout the State.
- Information reported to State Agencies with respect to Federal and State programs involving training services, including adult education and vocational rehabilitation programs.
- The degree to which the program relates to in-demand industry sectors and occupations in the State.
- Compliance with State licensing requirements, where applicable.
• The ability of the training provider to offer quality programs that lead to postsecondary credentials.

• The ability of the training provider to provide training services to individuals who are unemployed, underemployed, incumbent workers and individuals with barriers to employment.

• Demonstrated ability of the training provider to submit timely and accurate performance reports.

• A training provider’s ability to meet the State Plan’s performance measures as required by the U.S. Department of Labor.

Apprenticeship

As stated in the State’s ETPL Manual (2018) Pp. 3-23, Under WIOA, Title I, Registered Apprenticeship program sponsors are automatically eligible for placement on the state-approved ETP list and will remain on the list as long as the program is registered or until the program sponsor notifies the State that it no longer wants to be included on the list. However, registered apprenticeship programs are given an opportunity to consent to inclusion on the ETPL before being placed on the list. Registered Apprenticeship programs are not subject to the same application and performance information requirements or to a period of initial or continued eligibility as other providers. In addition, LWDBs cannot establish additional criteria and information requirements or establish higher levels of performance for these entities to provide training services in the local areas.

4. Describe how the State will implement and monitor the priority for public assistance recipients, other low-income individuals, and individuals who are basic skills deficient in accordance with the requirements of WIOA sec. 134(c)(3)(E), which applies to individualized career services and training services funded by the Adult Formula program

As outlined in OWD policy 2-24.2, “Workforce Innovation and Opportunity Act (WIOA) Adult and Dislocated Worker Eligibility Policy”, for the purpose of determining eligibility of Adults under WIOA, individualized career or training services shall constitute a minimum of 51 percent of Adults served meeting the priority target groups. This minimum threshold will ensure that local One-Stops are targeting Adults in most need of services beyond “basic career” services while developing talent pools that meet the short term as well as long term workforce needs of businesses.

Compliance with Adult priority will be evaluated on an annual basis at the end of each program year and should be tracked at the local level on an ongoing basis using regular monitoring and reporting systems.

Potential Barriers to Employment Solutions:

• Partnering with community organizations and businesses to provide business-appropriate wardrobe for Low-Income job seekers.

• Partnering with local government and community organizations to identify resources to provide stabilized housing, childcare, domestic violence solutions, and transportation services.

• Offering soft-skills training to those individuals with barriers to employment.

• Identifying mentors who have successfully completed the program while living with some of these barriers to employment.
• Provide training to front-line staff to better understand cultural differences while conducting outreach and providing services to individuals with limited English proficiency.

• Developing a pool of employers willing to hire ex-offenders and/or provide work experience or On-The-Job Training (OJT) sites.

**Action:**

Each Local Workforce Development Area must provide added emphasis towards the identification, outreach, and enrollment of individuals possessing barriers to employment. This added emphasis must include, but is not limited to:

• Development of a comprehensive Local Outreach Plan geared towards increased enrollment and service delivery to individuals with barriers to employment. This includes a broadening of the current local area service delivery base to identify and collaborate with advocates for veterans and their spouses, the homeless, low-income, formerly incarcerated, single mothers, and individuals with limited English proficiency or cultural barriers. This plan will be reviewed during the annual State WIOA Monitoring site visit.

• Designating staff who will serve as the lead coordinator(s) of Local Area outreach efforts to serve individuals with barriers to employment. The lead coordinator will be interviewed during the annual State WIOA Monitoring site visit.

• Identification of best practices in your local area that may be replicated in other regions of the State.

• Formalizing MOUs or other institutionalized practices designed to increase enrollments to individuals with barriers to employment.

5. Describe the State’s criteria regarding local area transfer of funds between the adult and dislocated worker programs

WIOA sec.133(b)(4) provides the authority for Local Workforce Development Boards (LWDB), with the written approval of the Governor, to expend up to 100 percent of the Adult activities funds on DW activities, and up to 100 percent of DW activities funds on Adult activities. LWC’s State Combined Plan outlines the policy to evaluate transfer requests from local workforce areas. Expenditures of monies transferred between local DW and adult programs are reported on the ETA-9130 reports. ETA notes when considering such transfers that career and training services must continue to be made available to both Adult and DW participants in the AJCs (see WIOA sec. 134(c)(1)).

However, State policy will limit the maximum allowable transfer to 75 percent. A local board may send written notice requesting a transfer of funds between adult and dislocated worker funds up to a maximum amount of 50 percent in the first year in which funds are made available. In the second year, local boards may send written notification requesting up to an additional 25 percent.

The written request must include the following information:

1. The transfer fund source (i.e., from adult to dislocated worker or dislocated worker to adult);
2. The dollar amount of the transfer request, including the percentage share of the base allocation represented by that dollar amount;
3. The reason(s) for the transfer; (Example: Economic conditions such as high/low unemployment, business closures, etc.)
4. Signed approval from the full local board or Board Chairperson requesting the transfer.
Transfer of funds process

LWDBs must submit requests to transfer adult or dislocated worker funds to LWC’s Office of Workforce Development.

LWC’s Office of Workforce Commission will make recommendations to the Secretary based on funds availability and business case submitted by the LWDA. As part of the review, may request additional information from LWDBs, however, OWD may alternatively deny the request or authorize a partial transfer of funds. Following approval of a fund transfer, OWD will notify LWDBs by email, which will also include the appropriate grant modification packages for LWDBs to complete and sign.

c. With respect to youth workforce investment activities authorized in section 129 of WIOA—

With respect to youth workforce investment activities authorized in section 129 of WIOA—

1. Identify the State-developed criteria to be used by local boards in awarding grants or contracts for youth workforce investment activities and describe how the local boards will take into consideration the ability of the providers to meet performance accountability measures based on primary indicators of performance for the youth program as described in section 116(b)(2)(A)(ii) of WIOA in awarding such grants or contracts.[11]

Local areas are encouraged to refocus traditional performance—based contracts to place an emphasis on the contractor achieving outcomes, like participants obtaining and retaining good jobs, rather than outputs like the number of people served. No more than 10 percent of the local youth allotment can be expended on the implementation of WIOA pay—for—performance contract strategies for youth training services and other activities.

2. Describe the strategies the State will use to achieve improved outcomes for out-of-school youth as described in 129(a)(1)(B), including how it will leverage and align the core programs, any Combined State Plan partner programs included in this Plan, required and optional one-stop partner programs, and any other resources available.

The Local Boards are responsible for developing local plans for the governor’s approval, designating local One-Stop operators, designating eligible partners of training services, negotiating local performance measures with the state workforce board and the Governor, monitoring local system performance against established performance measures, and helping to develop the labor market information system for local areas. Local Boards will facilitate relationships between Partner Programs, local entities, and supportive service agencies for a strengthened service delivery in regard to provision of services to youth. These relationships will include, as a minimum, procedures for youth
participant co-enrollment and common intake as necessary to integrate: intake, case management, and reporting. This shall be the case for all Partner Programs under which youth may be served. Youth services shall begin with a systematic approach to gathering information about strengths and assets, need and challenges, and interests and goals. These assessments shall be used to determining program eligibility, and subsequently guide the development of individualized plans and all other Case Management activities. Youth shall be co-enrolled as necessary in any programs under WIOA funding sources and any Partner Program that is not WIOA funded, e.g., Adult Education, Vocational Rehabilitation, Children and Family Services that is necessary based on their needs assessment. Youth will be simultaneously co-enrolled in any and all programs under which they are eligible for, and receiving, services. This will prevent youth having to wait until they exit one program in order to access services offered by other programs, and allow them to receive the best combination of services from different funding streams. For any program year, LWDBs must spend not less than 75 percent of local workforce development area funds to provide direct services to out-of-school youth. For any program year, LWDBs must spend not less than 20 percent of the funds allocated to the local area to provide in school youth and out of school youth with work experiences such as summer employment, pre-apprenticeship, internship, job shadowing, and on-the-job training. Local boards shall ensure that parents, participants, and other members of the community with experience relating to the programs for youth are involved in its design and implementation. One-Stop operators shall carry out programs that:

- Provide an assessment of academic levels, skill levels and occupational skills, any prior work experience, employability, interests and aptitudes.
- Develop service strategies for each youth that directly links to one or more of the established performance indicators.
- Provide activities leading to the attainment of a secondary school diploma, or its recognized equivalent or a recognized postsecondary credential.
- Provide for preparation for postsecondary educational and training opportunities.
- Create strong linkages between academic instruction and student academic achievement standards that lead to postsecondary credentials.
- Prepare for unsubsidized employment opportunities.
- Establish effective connections to employers in demand industry sectors and occupations of the local and regional labor markets.

Local boards shall develop strategies that support the attainment of a secondary school diploma or its recognized equivalent, entry into postsecondary education, and career readiness for participants, the programs shall provide elements consisting of:

- Tutoring, study skills training, instruction and evidence-based dropout prevention and recovery strategies that lead to completion of the requirements for a secondary school diploma or its recognized equivalent (including a recognized certificate of attendance or similar document for individuals with disabilities) or for a recognized post-secondary credential.
- Alternative secondary school services, or dropout recovery services, as appropriate.
- Paid and unpaid work experiences that have an academic and occupational education component.
- Pre-Apprenticeship programs
- Occupational skills training, which includes priority consideration for training programs that lead to recognized postsecondary credentials that are aligned with in-demand industry sectors or occupations in the local area involved, if the Local Board determines that the programs meet quality criteria.
• Education offered concurrently with and in the same context as workforce preparation activities and training for a specific occupation or occupational cluster.
• Leadership development opportunities including community service and peer-centered activities encouraging responsibility and other positive social and civic behaviors.
• Supportive services.
• Adult mentoring for a duration of at least 12 months that may occur both during and after program participation.
• Follow-up services for not less than 12 months after the completion of participation.
• Comprehensive guidance and counseling, which may include drug and alcohol abuse counseling as well as referrals to counseling, as appropriate to the needs of the individual youth.
• Financial literacy education.
• Entrepreneurial skill training.
• Services that provide labor market and employment information about in-demand industry sectors or occupations available in the local area such as career awareness, career counseling, and career exploration services.
• Activities that help youth prepare for and transition to post-secondary education and training.

3. Describe how the state will ensure that all 14 program elements described in WIOA section 129(c)(2) are made available and effectively implemented, including quality pre-apprenticeship programs under the work experience program element. [12]

[12] Sec. 102(b)(2)(D)(i)(l)

Local Boards may directly provide some or all of the youth workforce service activities. If a Local Board serves as the youth service provider and performs other roles such as fiscal agent or AJC Operator, the Local Board must have appropriate firewalls in place between the staff providing services, the staff responsible for oversight and monitoring of services, and the Local Board. The firewalls must conform to Title 20 CFR Section 679.430 for demonstrating internal controls and preventing conflicts of interest.

Local Workforce Development Areas may follow their local procurement rules provided those rules are not less stringent than the Louisiana State Contract and Procurement Policies, otherwise local areas must adhere to State procurement policies. (Louisiana Title 34 Government Contracts, Procurement, and Property Control)

Local Boards must also identify youth service providers based on criteria in the State Plan (Title 20 CFR Section 681.400). The State Plan establishes that Local Boards should select service providers that do the following:

1. Employ proven recruitment strategies of effective outreach, engagement, enrollment, and retention of OS youth.
2. Demonstrate meaningful partnerships with eligible training providers, institutions of higher education, and employers from in-demand industries.
3. Offer a continuum of services that allow participants to obtain a GED/High School diploma, enroll into postsecondary education, and obtain employment within their chosen career path.

4. Utilize career pathways and sector strategy models with a structured sequence of activities, as well as multiple entry and exit points that provide adequate supportive services.

5. Use structured work-based learning, such as paid and unpaid work experiences and career exploration that leads to gainful employment.

6. Provide intensive case management and support services to help youth overcome complex barriers, successfully complete the program, and retain employment.

**Competitive Basis**

If a Local Board chooses to award grants or contracts to youth service providers for some or all activities, the Local Board must award such grants or contracts through a competitive process that does the following:

1. Takes into consideration the ability of the youth service provider to meet performance accountability measures.

2. Meets the procurement standards specified in Uniform Guidance and the DOL Exceptions.

3. Follows state and local procurement laws.

Participant activities will be monitored through desk reviews and other monitoring methodologies.

4. Provide the language contained in the State policy for “requiring additional assistance to enter or complete an educational program, or to secure and hold employment” criterion for out-of-school youth specified in WIOA section 129(a)(1)(B)(iii)(VIII) and for “requiring additional assistance to complete an education program, or to secure and hold employment” criterion for in-school youth specified in WIOA section 129(a)(1)(C)(iv)(VII). If the state does not have a policy, describe how the state will ensure that local areas will have a policy for these criteria.

As outlined in OWD policy 2-21.3 “Youth Program Operations” Local Boards are responsible for establishing local definitions and eligibility documentation requirements for “requires additional assistance” as it relates to both OS and IS youth. The local policy should be reasonable, quantifiable, and based on evidence that the specific characteristics of the youth identified in the policy objectively requires additional assistance. Some examples could include, but are not limited to, the following:

1. Have repeated at least one secondary grade level or are one year over age for grade.

2. Have a core grade point average of less than 1.5.

3. For each year of secondary education, are at least two semester credits behind the rate required to graduate from high school.
4. Are emancipated youth.
5. Have aged out of foster care.
6. Are previous dropouts or have been suspended five or more times or have been expelled.
7. Have received court/agency referrals mandating school attendance.
8. Are deemed at risk of dropping out of school by a school official.
9. Have been referred to or are being treated by an agency for substance abuse related problem.
10. Have experienced recent traumatic events, are victims of abuse, or reside in an abusive environment as documented by a school official or other qualified professional.
11. Have serious emotional, medical or psychological problems as documented by a qualified professional.
12. Have never held a job (applies to OS youth).
13. Have been fired from a job within the 12 months prior to application (applies to OS youth).
14. Have never held a full-time job for more than 13 consecutive weeks (applies to OS youth).

This policy is subject to the monitoring process.

5. Include the State definition, as defined in law, for not attending school and attending school as specified in WIOA Section 129(a)(1)(B)(i) and Section 129(a)(1)(C)(i). If State law does not define “not attending school” or “attending school,” indicate that is the case and provide the state policy for determining whether a youth is attending or not attending school.

School status must be based on status at the time the eligibility determination portion of program enrollment is made. Once the school status of a youth is determined, that school status remains the same throughout the youth’s participation in the WIOA youth program, unless the youth exits from the program, reapplies, and is again determined eligible.

For the purposes of determining ISY status, the school attended may be either a secondary school (including alternative secondary school services) or postsecondary school. If the youth participant is enrolled in credit-bearing postsecondary classes, including credit-bearing community college and credit-bearing continuing education classes, he or she is attending postsecondary education and is an ISY. If the youth is only enrolled in non-credit bearing postsecondary classes, he or she would be considered an OSY.

For the purposes of WIOA school status, the following are not considered to be schools, so youth enrolled, only in these programs are OSY:

- Adult education programs under Title II of WIOA;
- YouthBuild programs; and
- JobCorps programs.
Youth enrolled in high school equivalency programs and dropout re-engagement programs are also generally considered OSY, unless the program is funded by the public K-12 school system and the youth is enrolled in the school system, in which case the youth is an ISY.

If a youth is determined eligible for the WIOA youth program during the summer and is in between school years, the youth is considered an ISY if enrolled to continue school in the fall. **A youth who is determined eligible for the WIOA youth program between high school graduation and postsecondary education is considered an ISY once he or she has registered for postsecondary courses (i.e., when courses for the upcoming term have been selected and confirmed) even if classes have not yet begun.** However, if a youth who completed secondary education has not yet registered for postsecondary courses at the time of eligibility determination, he or she is an OSY, even if he or she has been accepted into a postsecondary education program.

Regardless of the prior paragraph, a secondary student earning postsecondary credit through the College Credit Plus program defined in Chapter 3365 of the Revised Code who intends to continue attending the same postsecondary school after graduating secondary school remains an ISY during the period between completion of secondary school and enrollment in the postsecondary school.

If a child is being homeschooled in accordance with the requirements of Louisiana Department of Education home school laws, the child is in school.

6. If using the basic skills deficient definition contained in WIOA Section 3(5)(B), include the State definition which must further define how to determine if an individual is unable to compute or solve problems, or read, write, or speak English, at a level necessary to function on the job, in the individual's family, or in society. If not using the portion of the definition contained in WIOA Section 3(5)(B), indicate that is the case.

Basic Skills Deficient: A youth is basic—skills deficient if he/she has English reading, writing or computing skills at or below the 8th—grade level on a generally—accepted standardized test; is unable to compute or solve problems or read, write or speak English at a level necessary to function on the job, in the individual's family or in society. (Assessment process must include reasonable accommodations for people with disabilities).

d. Single-area State Requirements

In States where there is only one local workforce investment area, the governor serves as both the State and local chief elected official. In such cases, the State must submit any information required in the local plan (WIOA section 106(d)(2)). States with a single workforce area must include—

1. Any comments from the public comment period that represent disagreement with the Plan. (WIOA section 108(d)(3).)

2. The entity responsible for the disbursal of grant funds, as determined by the governor, if different from that for the State. (WIOA section 108(b)(15).)
3. A description of the type and availability of WIOA title I Youth activities and successful models, including for youth with disabilities. (WIOA section 108(b)(9).)

4. A description of the roles and resource contributions of the one-stop partners.

5. The competitive process used to award the subgrants and contracts for title I activities.

6. How training services outlined in section 134 will be provided through individual training accounts and/or through contracts, and how such training approaches will be coordinated. Describe how the State will meet informed customer choice requirements regardless of training approach.

7. How the State Board, in fulfilling Local Board functions, will coordinate title I activities with those activities under title II. Describe how the State Board will carry out the review of local applications submitted under title II consistent with WIOA secs. 107(d)(11)(A) and (B)(i) and WIOA sec. 232.

8. Copies of executed cooperative agreements which define how all local service providers will carry out the requirements for integration of and access to the entire set of services available in the one-stop delivery system, including cooperative agreements with entities administering Rehabilitation Act programs and services.

e. Waiver Requests (optional)

States wanting to request waivers as part of their title I-B Operational Plan must include a waiver plan that includes the following information for each waiver requested:

1. Identifies the statutory or regulatory requirements for which a waiver is requested and the goals that the State or local area, as appropriate, intends to achieve as a result of the waiver and how those goals relate to the Unified or Combined State Plan;
2. Describes the actions that the State or local area, as appropriate, has undertaken to remove State or local statutory or regulatory barriers;

3. Describes the goals of the waiver and the expected programmatic outcomes if the request is granted;

4. Describes how the waiver will align with the Department’s policy priorities, such as:
   A. Supporting employer engagement;
   B. Connecting education and training strategies;
   C. Supporting work-based learning;
   D. Improving job and career results, and
   E. Other guidance issued by the department.

5. Describes the individuals affected by the waiver, including how the waiver will impact services for disadvantaged populations or individuals with multiple barriers to employment; and

6. Describes the processes used to:
   A. Monitor the progress in implementing the waiver;
   B. Provide notice to any local board affected by the waiver;
   C. Provide any local board affected by the waiver an opportunity to comment on the request;
   D. Ensure meaningful public comment, including comment by business and organized labor, on the waiver.
   E. Collect and report information about waiver outcomes in the State’s WIOA Annual Report.

7. The Secretary may require that States provide the most recent data available about the outcomes of the existing waiver in cases where the State seeks renewal of a previously approved waiver.
Title I-B Assurances

The State Plan must include assurances that:

1. The State has implemented a policy to ensure Adult program funds provide a priority in the delivery of training services and individualized career services to individuals who are low income, public assistance recipients and basic skills deficient; Yes

2. The State has implemented a policy to ensure local areas have a process in place for referring veterans with significant barriers to employment to career services provided by the JVSG program’s Disabled Veterans’ Outreach Program (DVOP) specialist; Yes

3. The State established a written policy and procedure that set forth criteria to be used by chief elected officials for the appointment of local workforce investment board members; Yes

4. The State established written policy and procedures to ensure local workforce investment boards are certified by the governor every two years in accordance with WIOA section 107(c)(2); Yes

5. Where an alternative entity takes the place of a State Board, the State has written policy and procedures to ensure the alternative entity meets the definition under WIOA section 101(e) and the legal requirements for membership; Yes

6. The State established a written policy and procedure for how the individuals and entities represented on the State Workforce Development Board help to determine the methods and factors of distribution, and how the State consults with chief elected officials in local areas throughout the State in determining the distributions; Yes

7. The State will not use funds received under WIOA Title I to assist, promote, or deter union organizing in accordance with WIOA section 181(b)(7); Yes

8. The State distributes adult and youth funds received under WIOA equitably throughout the State, and no local area suffers significant shifts in funding from year-to-year during the period covered by this plan; Yes

9. If a State Workforce Development Board, department, or agency administers State laws for vocational rehabilitation of persons with disabilities, that board, department, or agency cooperates with the agency that administers Wagner-Peyser services, Adult and Dislocated Worker programs and Youth Programs under Title I; Yes

10. The State agrees to report on the impact and outcomes of its approved waivers in its WIOA Annual Report; Yes

11. The State has taken appropriate action to secure compliance with the Uniform Guidance at 2 CFR 200 and 2 CFR 2900, including that the State will annually monitor local areas to ensure compliance and otherwise take appropriate action to secure compliance with the Uniform Guidance under section WIOA 184(a)(3); Yes

Adult Program Performance Indicators

Performance Goals for the Core Programs

Each state submitting a Unified or Combined State Plan is required to identify expected levels of performance for each of the primary indicators of performance for the first two years covered by the plan. The state is required to reach agreement with the Secretary of Labor, in conjunction with the Secretary of Education, on state-negotiated levels of performance for the indicators for each of the first two years of the plan.
For Program Year (PY) 2016-2019 plans, the Departments used the transition authority under section 503(a) of WIOA to designate certain primary indicators of performance as “baseline” indicators to ensure an orderly transition from the requirements of the Workforce Investment Act of 1998 to those under WIOA. A “baseline” indicator was one for which states did not propose an expected level of performance and did not come to agreement with the Departments on negotiated levels of performance because sufficient data was not available to establish such performance levels. As a result, “baseline” indicators were not used in the end of the year adjustment of performance levels and were not used to determine failure to meet adjusted levels of performance for purposes of sanctions. The Departments designated indicators as “baseline” based on the likelihood of a State having insufficient data with which to make a reasonable determination of an expected level of performance.

For PYs 2020-2023 Plans, Title I programs (Adult, Dislocated Worker, and Youth) and the Title II program (Adult Education and Family Literacy Act) will have two full years of data available to make reasonable determinations of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit);
- Credential Attainment Rate; and
- Measurable Skill Gains

The Wagner-Peyser Act Employment Service program, authorized under the Wagner-Peyser Act, as amended by title III of WIOA, will have two full years of data available to make a reasonable determination of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit)

The Credential Attainment Rate and Measurable Skill Gains indicators do not apply to the Wagner-Peyser Act Employment Service program; therefore, this program will not submit expected levels of performance for these indicators.

For the first two years of PYs 2020-2023 Plans, the Vocational Rehabilitation (VR) program, authorized under title I of the Rehabilitation Act of 1973, as amended by title IV of WIOA, will have two full years of data available for the Measurable Skill Gains indicator only. Therefore, the Departments will designate the following indicators as “baseline” for the VR program for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit);
- Credential Attainment Rate

VR agencies must continue to collect and report on all indicators, including those that have been designated as “baseline, pursuant to section 116(d) of WIOA.” The actual performance data reported by these programs for indicators designated as “baseline” for PY 2020 and PY 2021 will serve as baseline data in future years. The Departments will require VR agencies to submit expected levels of performance for these indicators for PY 2022 and PY 2023.

The Departments determined that the Effectiveness in Serving Employers indicator will be measured as a shared outcome across all six core programs within each state to ensure a holistic approach to
serving employers. The Departments will continue piloting approaches for measuring this indicator for the first two years of PY 2020-2023 plans. Therefore, states are not required to submit an expected level of performance for the Effectiveness in Serving Employers indicator for PY 2020 and PY 2021. However, core programs are expected to collect data and report on this indicator for PY 2020 and PY 2021 as they did for PYs 2016-2019 plans.

Each core program must submit an expected level of performance for all of the other indicators, as applicable, with the exception of the four indicators designated as “baseline” for the VR program in PY 2020 and PY 2021. The Departments will work with states during the negotiation process to establish negotiated levels of performance for each of the primary indicators for the core programs not listed as “baseline.” Each state must update its plan to include the agreed-upon negotiated levels of performance before the Departments approve a state’s plan.

States may identify additional indicators in the plan, including additional approaches to measuring Effectiveness in Serving Employers, and may establish levels of performance for each of the state indicators. Please identify any such state indicators under Additional Indicators of Performance.

Dislocated Program Performance Indicators

Performance Goals for the Core Programs

Each state submitting a Unified or Combined State Plan is required to identify expected levels of performance for each of the primary indicators of performance for the first two years covered by the plan. The state is required to reach agreement with the Secretary of Labor, in conjunction with the Secretary of Education, on state-negotiated levels of performance for the indicators for each of the first two years of the plan.

For Program Year (PY) 2016-2019 plans, the Departments used the transition authority under section 503(a) of WIOA to designate certain primary indicators of performance as “baseline” indicators to ensure an orderly transition from the requirements of the Workforce Investment Act of 1998 to those under WIOA. A “baseline” indicator was one for which states did not propose an expected level of performance and did not come to agreement with the Departments on negotiated levels of performance because sufficient data was not available to establish such performance levels. As a result, “baseline” indicators were not used in the end of the year adjustment of performance levels and were not used to determine failure to meet adjusted levels of performance for purposes of sanctions. The Departments designated indicators as “baseline” based on the likelihood of a State
having insufficient data with which to make a reasonable determination of an expected level of performance.

For PYs 2020-2023 Plans, Title I programs (Adult, Dislocated Worker, and Youth) and the Title II program (Adult Education and Family Literacy Act) will have two full years of data available to make reasonable determinations of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit);
- Credential Attainment Rate; and
- Measurable Skill Gains

The Wagner-Peyser Act Employment Service program, authorized under the Wagner-Peyser Act, as amended by title III of WIOA, will have two full years of data available to make a reasonable determination of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit); and
- Median Earnings (Second Quarter after Exit)

The Credential Attainment Rate and Measurable Skill Gains indicators do not apply to the Wagner-Peyser Act Employment Service program; therefore, this program will not submit expected levels of performance for these indicators.

For the first two years of PYs 2020-2023 Plans, the Vocational Rehabilitation (VR) program, authorized under title I of the Rehabilitation Act of 1973, as amended by title IV of WIOA, will have two full years of data available for the Measurable Skill Gains indicator only. Therefore, the Departments will designate the following indicators as “baseline” for the VR program for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit); and
- Credential Attainment Rate

VR agencies must continue to collect and report on all indicators, including those that have been designated as “baseline, pursuant to section 116(d) of WIOA.” The actual performance data reported by these programs for indicators designated as “baseline” for PY 2020 and PY 2021 will serve as baseline data in future years. The Departments will require VR agencies to submit expected levels of performance for these indicators for PY 2022 and PY 2023.

The Departments determined that the Effectiveness in Serving Employers indicator will be measured as a shared outcome across all six core programs within each state to ensure a holistic approach to serving employers. The Departments will continue piloting approaches for measuring this indicator for the first two years of PY 2020-2023 plans. Therefore, states are not required to submit an expected level of performance for the Effectiveness in Serving Employers indicator for PY 2020 and PY 2021. However, core programs are expected to collect data and report on this indicator for PY 2020 and PY 2021 as they did for PYs 2016-2019 plans.

Each core program must submit an expected level of performance for all of the other indicators, as applicable, with the exception of the four indicators designated as “baseline” for the VR program in PY 2020 and PY 2021. The Departments will work with states during the negotiation process to establish
negotiated levels of performance for each of the primary indicators for the core programs not listed as “baseline.” Each state must update its plan to include the agreed-upon negotiated levels of performance before the Departments approve a state’s plan.

States may identify additional indicators in the plan, including additional approaches to measuring Effectiveness in Serving Employers, and may establish levels of performance for each of the state indicators. Please identify any such state indicators under Additional Indicators of Performance.

<sup>1</sup> “Effectiveness in Serving Employers” is still being piloted and this data will not be entered for 2020 State Plans.

### Youth Program Performance Indicators

**Performance Goals for the Core Programs**

Each state submitting a Unified or Combined State Plan is required to identify expected levels of performance for each of the primary indicators of performance for the first two years covered by the plan. The state is required to reach agreement with the Secretary of Labor, in conjunction with the Secretary of Education, on state-negotiated levels of performance for the indicators for each of the first two years of the plan.

For Program Year (PY) 2016-2019 plans, the Departments used the transition authority under section 503(a) of WIOA to designate certain primary indicators of performance as “baseline” indicators to ensure an orderly transition from the requirements of the Workforce Investment Act of 1998 to those under WIOA. A “baseline” indicator was one for which states did not propose an expected level of performance and did not come to agreement with the Departments on negotiated levels of performance because sufficient data was not available to establish such performance levels. As a result, “baseline” indicators were not used in the end of the year adjustment of performance levels and were not used to determine failure to meet adjusted levels of performance for purposes of sanctions. The Departments designated indicators as “baseline” based on the likelihood of a State having insufficient data with which to make a reasonable determination of an expected level of performance.

For PYs 2020-2023 Plans, Title I programs (Adult, Dislocated Worker, and Youth) and the Title II program (Adult Education and Family Literacy Act) will have two full years of data available to make reasonable determinations of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
Employment (Fourth Quarter after Exit);
Median Earnings (Second Quarter after Exit);
Credential Attainment Rate; and
Measurable Skill Gains

The Wagner-Peyser Act Employment Service program, authorized under the Wagner-Peyser Act, as amended by title III of WIOA, will have two full years of data available to make a reasonable determination of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit); and
- Median Earnings (Second Quarter after Exit)

The Credential Attainment Rate and Measurable Skill Gains indicators do not apply to the Wagner-Peyser Act Employment Service program; therefore, this program will not submit expected levels of performance for these indicators.

For the first two years of PYs 2020-2023 Plans, the Vocational Rehabilitation (VR) program, authorized under title I of the Rehabilitation Act of 1973, as amended by title IV of WIOA, will have two full years of data available for the Measurable Skill Gains indicator only. Therefore, the Departments will designate the following indicators as “baseline” for the VR program for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit); and
- Credential Attainment Rate

VR agencies must continue to collect and report on all indicators, including those that have been designated as “baseline, pursuant to section 116(d) of WIOA.” The actual performance data reported by these programs for indicators designated as “baseline” for PY 2020 and PY 2021 will serve as baseline data in future years. The Departments will require VR agencies to submit expected levels of performance for these indicators for PY 2022 and PY 2023.

The Departments determined that the Effectiveness in Serving Employers indicator will be measured as a shared outcome across all six core programs within each state to ensure a holistic approach to serving employers. The Departments will continue piloting approaches for measuring this indicator for the first two years of PY 2020-2023 plans. Therefore, states are not required to submit an expected level of performance for the Effectiveness in Serving Employers indicator for PY 2020 and PY 2021. However, core programs are expected to collect data and report on this indicator for PY 2020 and PY 2021 as they did for PYs 2016-2019 plans.

Each core program must submit an expected level of performance for all of the other indicators, as applicable, with the exception of the four indicators designated as “baseline” for the VR program in PY 2020 and PY 2021. The Departments will work with states during the negotiation process to establish negotiated levels of performance for each of the primary indicators for the core programs not listed as “baseline.” Each state must update its plan to include the agreed-upon negotiated levels of performance before the Departments approve a state’s plan.

States may identify additional indicators in the plan, including additional approaches to measuring Effectiveness in Serving Employers, and may establish levels of performance for each of the state indicators. Please identify any such state indicators under Additional Indicators of Performance.

¹ “Effectiveness in Serving Employers” is still being piloted and this data will not be entered for 2020 State Plans.

### Program-Specific Requirements for Wagner-Peyser Program (Employment Services)

All Program-Specific Requirements provided for the WIOA core programs in this section must be addressed for either a Unified or Combined State Plan.

#### a. Employment Service Staff

1. Describe how the State will staff the provision of labor exchange services under the Wagner-Peyser Act, such as through State employees, including but not limited to state merit staff employees, staff of a sub-recipient, or some combination thereof.

   The state plans to continue he provision of labor exchange service through state merit employees. The state shall allocate Wagner-Peyser-funded staff by formula based on the level of effort necessary to support labor exchange services in an LWDA or region.

2. Describe how the State will utilize professional development activities for Employment Service staff to ensure staff is able to provide high quality services to both jobseekers and employers.

   The Louisiana Workforce Commission, Office of Workforce Development has developed and implemented the following internal training program for employment service staff, which includes:

   - Standardized performance ratings for individual staff members with technical competencies based on federal and state laws, regulations, statutes and standardized operating procedures were developed for use statewide with behavioral competencies required for effective “case management” and provision of service.
3. Describe strategies developed to support training and awareness across core programs and the Unemployment Insurance (UI) program and the training provided for Employment Services and WIOA staff on identification of UI eligibility issues and referral to UI staff for adjudication

The State’s Reemployment Services and Eligibility Assessment (RESEA) program is designed to provide intensive reemployment assistance to individuals who are receiving unemployment benefits and are determined likely to exhaust their benefits before becoming reemployed and transitioning veterans receiving Unemployment Compensation for Ex-Service members (UCX).

The State’s have developed a RESEA Plan that defines the scope, objectives, and overall approach. It is a critical element for initiating, planning, executing, controlling, and assessing the effectiveness of the services and continuous improvement of outcomes.

The primary goals and objectives are:

- Promote the integration of Workforce Development and Unemployment Insurance activities to put people to work faster in sustaining careers.
- Ensure shared responsibility between LWC, the AJCs and the job seekers.
- Promote continuous improvement through evaluation of services and outcomes as the dynamic of our economy changes.

The RESEA program focuses on the following primary strategies:

1. Conducting in-person reemployment and eligibility assessments; and,
2. Providing customized reemployment services that are tailored to each claimant’s needs.

The goal of RESEA is to provide claimants with a wide array of resources that support reemployment as quickly as possible and to connect claimants to reemployment services, including co-enrollment in the Workforce Innovation and Opportunity Act (WIOA) Title I program or other partner programs, as appropriate.

A cross collaboration team consisting of Workforce and Unemployment Insurance staff meet biweekly to discuss strategies, issues and program impact. The team ensures that the core components of a RESEA are being met through training and quality assurance reviews. Core services include:

- UI eligibility assessment, including review of work search activities, and referral to adjudication, as appropriate, if an issue or potential issue(s) is identified;
- Providing labor market and career information that addresses the claimant’s specific needs;
- Enrollment in Wagner-Peyser Act-funded Employment Services; Providing support to the claimant to develop and implement an individual reemployment plan; and
- Providing information and access to AJC services and providing referrals to reemployment services, and training as appropriate, to support the claimant’s return to work.
b. Explain how the State will provide information and meaningful assistance to individuals requesting assistance in filing a claim for unemployment compensation through one-stop centers, as required by WIOA as a career service

All American Job Center staff members are trained in the program overview, case management and all key aspects of job-specific functions. Administrative and managerial staff members at all levels provide operational oversight and technical support for programs. Regional senior managers through their local managerial structure and in cooperation with LWDA leadership are responsible for ensuring a seamless process in AJCs through coordinating staff training, providing technical support, maintaining program documentation and continuous communication and dissemination of information. These leaders work in coordination with the Management of Information Systems (MIS) technicians and UI technical support teams on all issues relating to UI eligibility, disqualification and requalification.

c. Describe the State’s strategy for providing reemployment assistance to UI claimants and other unemployed individuals

The philosophy is to engage individuals to our services as quickly as possible, thus reducing the amount and duration of unemployment. AJC operators, Business Services staff, and LWC Industry Sector Coordinators must recognize and engage in integrating user-friendly customer interfaces, continuous information updates, and coordinated outreach processes to effectively support job development in the industries, careers, and jobs that labor market research indicates RESEA participants are moving into. RESEA participants in addition to other identified Priority Populations should be offered as high quality candidates for any job postings or for future staffing needs the participant is being prepared to fill.

Goals and Objectives

- Helping UI claimants access the full range of on-line and in-person services delivered through American Job Centers;
- Connecting UI claimants to career services;
- Ensure claimants meet eligibility requirements such as searching for work and participating in reemployment services;
- Ensure that claimants are notified of all deadlines and eligibility requirements associated with the TAA program (including TRA, ATAA and RTAA), and that communication with case managers for TAA participants is seamless;
- Working with Rapid Response teams to provide services to employers and workers in mass layoff situations, and conducting claim filing activities when needed; and
- Undertaking strategies to promote entrepreneurship.

OWD’s Technical Assistance Unit and Management Information Service Unit provides assistance to state and local staff through various methods including needs assessments, monitoring outcomes and
updates and/or newly issued federal and state requirements. This process identifies knowledge/skills/attitudes (KSAs) gaps and learning objectives for:

(1) grants/programs,
(2) service delivery,
(3) internal (state) and external (local) processes and procedures,
(4) accessing/using HIRE,
(5) Workforce Specialist roles & responsibilities), etc. Assistance is provided through statewide training, webinars, conferences, workshops and meetings.

d. Describe how the State will use W-P funds to support UI claimants, and the communication between W-P and UI, as appropriate including the following:

1. Coordination of and provision of labor exchange services for UI claimants as required by the Wagner-Peyser Act;

LWC has taken an aggressive approach in developing more comprehensive integrated systems throughout the agency. True integration and collaborative processes have been established through building stronger links among Workforce and Unemployment Insurance departments working together to provide a full array of services to our customer base. Louisiana has fully integrated its Unemployment Insurance process with its Employment Services and Employment and Training Services through the HiRE system. This system allows for automatically referring claimants to the American Job Center for Job Seeker services and provides for automated referral to Adjudication Services.

2. Registration of UI claimants with the State’s employment service if required by State law;

Any person filing a UI claim in Louisiana is automatically registered with the State's Employment Service through the HiRE platform. Subsequent to the completion of any UI claim and prior to the determination of "monetary eligibility" all claimants are "enrolled" in Wagner-Peyser services and are then profiled and placed on a standardized service delivery track as delineated in the state’s “Integrated Service Delivery” policy.

3. Administration of the work test for the State unemployment compensation system, including making eligibility assessments (for referral to UI adjudication, if needed), and providing job finding and placement services for UI claimants; and

Through the Reemployment Services and Eligibility Assessment (RESEA) program, Wagner-Peyser and WIOA staff have been trained to identify UI eligibility issues and refer their findings to the appropriate UI staff for adjudication. The RESEA program is a major area of emphasis of re-employment and the training needs of unemployment compensation claimants.

Every RESEA session includes a one-on-one assessment of the claimants' continuing UI eligibility. This assessment includes several questions confirming employment status, a review of the claimant’s work search activities, and referral to adjudication if an issue or potential issue is identified. AJC staff
completes an internal form that is submitted electronically to the UI Adjudication Unit for review and determination of continued benefits. RESEA service delivery staff receives continuous training to identify eligibility issues and how to properly refer all eligibility issues to UI merit staff for adjudication, as appropriate.

RESEA uses a modernized statistical model that focuses on general variables to reflect a number of economic and motivational aspects of the unemployed. The method of selection concentrates on those claimants most likely to exhaust benefits and recently separated Veterans receiving Unemployment Compensation for Ex-Service members (UCX). Claimants are provided customized labor market and career information based on their assessment of needs, development of an individual reemployment plan, and information and referral to additional reemployment services including job search assistance and job placement, AJC services, resources, and training, as appropriate.

For delivering services to Job Seekers, regardless of their “reason for” or “point of” entry into the AJC, the State has adopted a Continuous Process Improvement (CPI) methodology. This process moves the Program Partners away from “Compartmentalization” and allows for the following in a real-time context: benchmarking (metric driven change); anticipating and meeting customer changing needs; local control of the process to reduce cycle time and idle resources; and incorporating lessons learned through marrying quality assurance (monitoring) directly to staff training.

Service delivery is customer demand driven and efficient. So, while it is important that all offices will “standardize job seeker services and enrollment processes,” the way in which these are delivered may be flexible, and link directly to the manner in which Program Partners serve employers.

The new roadmap for all job seekers regardless of their reason for entering LWC services is designed for speed and flexibility by providing for Continuous Assessment, Career Services, Adjudication (as necessary), and Follow-up. This supports determining participant needs, routing participants to the appropriate service, tracking participant activity throughout the process, and targeting and recording participant outcomes.

All customers visiting a physical One-Stop-Center location who receive staff-assisted services shall be included in the common measures performance calculations.

Because all AJC services, staff, facility and activities are funded in-part by both WP and WIOA, the sequence of services and assessments shall determine the timing for co-enrollment of job seekers who receive WP or WIOA Title 1B staff-assisted service in a One-Stop Center for reporting and performance measures.

Most job seekers served in any One-Stop Center should be counted as a participant in WIOA, regardless of the presence of WIOA-funded staff onsite. Conversely, most WIOA participants should be counted as WP participants; regardless of the presence of WP funded staff at the enrolling service location.

4. Provision of referrals to and application assistance for training and education programs and resources.

The State requires AJCs and LWDBs to provide services to participants with the specific intent of developing quality outcomes. For this reason, the State bases its performance accountability system on the quality of services and not the number of services provided.

The State has replaced the concept of “Intake Process” with “Assessment Process” (which is the step following “Common Intake”), further dividing the assessment process into an “Initial Assessment” and “Comprehensive Assessment”. The assessment process is continuous and ongoing in the context of referrals and assistance in acquiring training, education, access to resources, and employment.

Assessments shall include the use of assessment tools and processes modified by local leadership to be most effective based on the demographics of their local area, customer base, staffing levels, program (and Program Partner) availability, and supportive services access. To provide a foundation
for all services, as a minimum, job seeker services shall include: initial registration, WP and (when applicable) WIOA Enrollment, with the appropriate staff assisted first service.

One-Stop operators shall ensure that appropriate services as appropriate are provided based on job seeker and employer needs, and the most recently directed criteria associated with compliance and performance under any applicable USDOL grant. These services may include, but are not limited to: assisted job search activities, evaluation of skills, interests, preferences, career counseling training options, matching skills to current job openings, intensive services, case management and follow up.

Comprehensive assessment is vital to collecting information on job seeker barriers to employment, employment goals, knowledge, skills and abilities, and proficiency in occupational knowledge. This assessment shall be done as a client centered approach to evaluating the needs of a participant without regard to services or training program availability. The purpose of the assessment will be to determine the job seeker’s needs and not simply to match the job seeker to what is available.

This assessment is best defined operatively as an “intensive interviewing process.” which includes behavioral observations and may also require the use of structured assessment tools. Other information gathered may include detailed work history, family support available, social services affiliations, offender status, and a detailed education history.

Comprehensive assessments must be documented via case notes, with regard to privacy and Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) rules.

The comprehensive assessment is the foundation for development of an IEP. No IEP shall be created without completing a comprehensive assessment. In many cases the comprehensive assessment will be an ongoing process that may result in changes to the goals and objectives of the IEP.

The IEP is developed with a job seeker to identify or create employment goals, appropriate achievement objectives, and the right combination of services to assist in achieving goals and objectives. In short — “where am I now,” “where do I want to go,” “how will I get there?”

The IEP is a plan for the future, not a rehash of the past. It must include goals and objectives that are SMART (specific, measureable, attainable, realistic, and time bound).

Case Management requires a regular follow-up and review or revision of the IEP, until such time as the job seeker becomes workforce ready or enters a training program. In either case follow-up is critical, using the 30, 60, and 90-day cycle until employed or training is complete is appropriate — except for long term training. For long-term training, Career Specialists should follow the most current guidance.

e. Agricultural Outreach Plan (AOP). Each State agency must develop an AOP every four years as part of the Unified or Combined State Plan required under sections 102 or 103 of WIOA. The AOP must include an assessment of need. An assessment need describes the unique needs of farmworkers in the area based on past and projected agricultural and farmworker activity in the State. Such needs may include but are not limited to: employment, training, and housing.
1. Assessment of Need. Provide an assessment of the unique needs of farmworkers in the area based on past and projected agricultural and farmworker activity in the State. Such needs may include but are not limited to: employment, training, and housing.

A. Assessment Of Agricultural Activity Within The State

In 2018 (the latest year for which information is available); Louisiana agricultural and forestry production contributed $11.7 billion to the State’s economy, still the total dollar value was affected by lower prices for many crops.

The following quotation provides a summary of 2018 production levels:

Despite any difficulty producers may have experienced individually in the year, collectively producers enjoyed record or near record yields for the third year in a row, but mixed prices for the state’s agricultural commodities. This resulted in total gross farm gate value for the agricultural industry being $11.7 billion in 2018.

The gross farm value of all plant enterprises was more than $3.74 billion in 2017, an increase of 9.2% from $3.43 billion in 2016. Value added was $3.80 billion for all plant commodities for during 2017, up from $3.55 billion in 2016. Total value of all plant or crop enterprises to the Louisiana economy was $7.54 billion in 2017, up 8% from $6.98 billion in 2016.

Louisiana has long been recognized for supporting one of the most diverse aquaculture industries in the United States. Species and products such as crawfish, catfish, alligators, oysters, tilapia, baitfish, soft-shelled crawfish and crabs, ornamental fish, baby turtles, a variety of freshwater game fish, and other minor species all have been commercialized successfully. Louisiana producers continue to be among the leaders in the nation in crawfish, oyster, pet turtle and alligator sales.

Total farm value of all fisheries and wildlife enterprises during 2018 was $859.5 million, down 2.9% from $885.4 million in 2017. Valued added in 2018 was $567.9 million, down slightly from $585.2 million the preceding year. Total value of all fisheries and wildlife enterprises to the Louisiana economy for 2018 was $1.43 billion, down marginally from the $1.47 in 2016.

Gross farm income for all animal enterprises was over $1.82 billion for 2018, up 5.5% from $1.73 in 2017. Value added was nearly $1.15 billion for 2018, up from $1.03 million in 2017. Total value of all animal enterprises in the Louisiana economy was $2.97 billion, up 7.9% from $2.75 billion in 2017.

As indicated below, in 2018, agricultural employers placed job orders with LWC relative to the following selected crops.

Source: LSU AgCenter
Sugarcane:

In 2018, sugarcane was grown on 459,217 acres in 25 Louisiana parishes. Harvested acres were 429,368 after accounting for seed-cane acreage. The 11 operating raw sugar factories in the state processed nearly 16,867,669 tons of cane. In total, the 11 factories produced 1.84 million short tons of sugar (96 pol). The average field yield of cane on harvested acres was 39.3 tons per acre. The average sugar recovery was the second best on record at 218 pounds of sugar (96 pol) per ton of cane. The yield of commercially recoverable sugar produced per acre averaged 8,577 pounds. Although the pricing period is not complete for the 2018 crop, the projected average price for raw sugar was estimated at 26 cents per pound. The molasses price was projected to average $97 per short ton at 79.5 °Brix.

The gross farm value of the 2018 sugarcane crop was $600.1 million for sugar and molasses. The gross farm value reported above represents 60% of the value of the sugar and 50% of the value of molasses produced. The remaining percentages are for raw sugar processing, which amounted to $408.6 million. Therefore, the total value of the sugarcane crop to Louisiana producers, processors and landlords at the first processing level was $1.009 billion.

Soybeans:

In 2018, 1.3 million acres of soybean were planted by 2,254 producers. However, only 1.1 million acres were harvested because of inclement weather. While planted acreage and numbers of producers were similar to that in 2017, harvested acres were 121,369 lower in 2018. Despite inclement weather at harvest, the statewide average yield was 55.7 bushels per acre, compared to 53.5 in 2017. Gross farm value for 2018 was $606.1 million, down $73.2 million from 2017.

The 2018 season got off to a good start, but dry conditions slowed planting. Insect and disease pressure were low during the year, but persistent late-season rains prevent producers from harvesting 147,777 acres. Seed quality and yields were negatively impacted in fields that were harvested after being subjected to extended periods of inclement weather.

Rice:

Louisiana planted more than 436,000 acres in 2018. Planting was spread out more evenly than normal from the period beginning in late February through March, mainly because of wet soil conditions caused by frequent, but not excessive, rainfall. The Rice Variety by Parish Survey conducted annually by extension agents indicated that Louisiana planted approximately 89% long grain, 10% medium grain and 1% special purpose rice varieties. The top planted rice varieties and hybrids included CL153 (19.5%), CL111 (14%), Cheniere (11.9%), Mermentau (10.5%), CLXL745 (9.7%), Jupiter (5.8%) and XP753 (4.9%). Clearfield seed technology in both inbred and hybrid rice varieties made up approximately 59% of the acres. The new Provisia herbicide technology was available for the first time in 2018 in a variety named PVL01, and it was planted on approximately 10,000 acres, or 2.3%, of the total acreage.

In 2018, the statewide rice average yield was 7,211 pounds per acre (42.2 barrels or 152 bushels per acre), up from 6,840 in 2017. A total of 31.45 million hundredweight of rice was produced on 436,130 harvested acres in 2018. The gross farm value in 2018 for rice produced was $379.6 million in 2018, up from $297.6 million in 2017. When value-added activities of $126.4 million are considered, the total economic impact of the rice industry was $506 million in 2018, up from $327.7 million in 2017.

Crawfish:

Farm-raised crawfish continued to be the state’s most valuable aquaculture sector in 2018, representing roughly 52% of the total gross farm value generated across all commercial aquaculture enterprises. Growth in demand, both within the state and regionally, has created increasing incentive for expansion of acreage and production over the last several years. Crawfish production has increasingly been incorporated into other farming operations in recent years as producers look to offset struggling rice markets. Estimates from the field in 2018 indicated farm-raised crawfish production occupied a record 237,234 acres, up 6.6% from the previous year. Total production was
up almost 20% from the previous year at 151.8 million pounds, and gross farm value for farmed crawfish was $209 million, representing an all-time high.

**Plant Nurseries:**

The commercial nursery industry in Louisiana consists of fruit and nut tree nursery stock production, foliage plants, woody ornamentals (trees and shrubs) and floriculture/bedding plants. Commercial nursery crop production in Louisiana had a gross farm value of $110.3 million in 2018, compared to $107.1 million in 2017. Wholesale nursery sales in Louisiana have improved over the past several years. Increases in demand were experienced in 2017 as consumers began to replant in response to plant loss caused by two major floods and an extremely rainy growing season in 2016. A continuation of that demand, along with improvements experienced in the overall economy have led to strong demand again in 2018.

Wholesale production was $6.33 million for the growers of fruit and nut tree nursery stock in 2018. This category consists of citrus, blueberries and figs, among others. Bedding plant and floriculture crop production was $41.77 million in farm gate sales in 2018. The largest segment of the nursery industry continues to be woody ornamentals, primarily trees and shrubs. At the wholesale level, woody ornamental growers sold products worth $59.20 million during 2018. Wholesale production of foliage plants increased somewhat from 2017 and accounted for $3.05 million in sales in 2018. Including value-added activity of $60.69 million, the total value of the Louisiana nursery industry at the wholesale level was $171.02 million in 2018.

**Strawberries:**

In 2018, the Louisiana strawberry industry involved 47 commercial growers who produced berries on 218 acres for a gross farm value of $8.74 million. While average prices were up slightly in 2018, lower acreage, lower yields and lower production all helped to generate a gross from value that was nearly $5 million lower in 2018. Tangipahoa Parish continues to be the leading strawberry producing parish, with 73% of the total acres in the state and accounting for 78% of the state’s total gross farm value. The majority of the Louisiana strawberries were sold commercially. Growers delivered berries to grocery store warehouses, individual grocery stores and fruit stands. The remaining portion of the crop was sold at farmer's markets and roadside stands. Louisiana strawberries are generally available as early as November, December and January. These early berries often bring premium prices and play a large part in the high returns for the crop in Louisiana.

**Sweet Potatoes:**

Louisiana sweet potato acreage decreased slightly in 2018. Producers harvested 7,682 acres in 2018, compared to 9,194 acres in 2017. Prior to 2018, Louisiana acreage had remained steady, in the 9,000-acre range. Louisiana remains fourth in sweet potato production acreage in the United States behind North Carolina, Mississippi and California.

Louisiana’s total gross farm gate value for sweet potatoes in 2018 is estimated at 53.99 million, compared to $52.90 in 2017. Total value of sweet potato production, including value added of $40.49 million, was $94.48 million.

2. An assessment of the agricultural activity in the State means:

   1) Identifying the top five labor-intensive crops, the months of heavy activity, and the geographic area of prime activity;
   2) Summarize the agricultural employers' needs in the State (i.e., are they predominantly hiring local or foreign workers, are they
expressing that there is a scarcity in the agricultural workforce); and 3) Identifying any economic, natural, or other factors that are affecting agriculture in the State or any projected factors that will affect agriculture in the State.

The top five labor-intensive crops are:

<table>

The general employment trend in rural Louisiana has been for workers to leave agricultural work for higher paying or less labor intensive jobs in other occupations. Additionally, while many workers enjoy agricultural work, very few can adapt to living on a seasonal income. As a result, agricultural employers have a difficult time finding reliable local workers. The H-2A temporary agricultural foreign worker program has become increasingly popular among Louisiana agricultural employers, following the national trend. Today, H-2A workers dominate the agricultural labor force in the state.

Louisiana H-2A statistics show an increase in the number of positions requested and certified by ETA, US DOL, Office of Labor Certification.

- 2016 – 8,301 H-2A positions certified
- 2017 – 8,875 H-2A positions certified
- 2018 – 10,079 H-2A positions certified
- 2019 – 10,816 H-2A positions certified

None of the employers expressed an interest in the Agricultural Recruitment System (ARS) beyond searching for workers locally through the HIRE system. The total number of temporary or seasonal workers requested through these job orders is consistent with the growing trend for agricultural employers to seek H-2A workers. This indicates the level of demand for agricultural workers within the state.

Agricultural employers repeat four common challenges in obtaining a secure and stable workforce:
1. Most workers lack interest in seasonal work.

2. Most workers are not interested in farm work.

3. An increasing number of workers do not have the stamina for farm work, especially in extreme climatic conditions.

4. A lack of workers who will show up for work every day or on time when they do.

5. A lack of reliable workers who will stay with the job more than a few weeks, sometimes abandoning the job without notice.

3. An assessment of the unique needs of farmworkers means summarizing Migrant and Seasonal Farm Worker (MSFW) characteristics (including if they are predominantly from certain countries, what language(s) they speak, the approximate number of MSFWs in the State during peak season and during low season, and whether they tend to be migrant, seasonal, or year-round farmworkers). This information must take into account data supplied by WIOA Section 167 National Farmworker Jobs Program (NFJP) grantees, other MSFW organizations, employer organizations, and State and/or Federal agency data sources such as the U.S. Department of Agriculture and the U.S. Department of Labor (DOL) Employment and Training Administration.

Seasonal Shifts and Farmworker Origins - During the most recent year Louisiana hosted a total of 11,641 Non-Immigrant farmworkers. The peak season ended in December with a quarterly total of 3,891 and the low season ending in March saw 2,101. These workers come predominantly from Mexico and Central America who generally speak a variation of Spanish, with some from the Indus Valley and Southeast Asia, speaking the most common language of their region. This is not an exhaustive list.

It is estimated that, in Louisiana, there are currently 900 MSFWs in the following agricultural industries. (This estimate does not include H-2A non-immigrant agricultural temporary workers.)

Although some of these MSFWs are Spanish-speaking Mexican or Central American immigrants or descendants, the great majority of MSFWs in the state are local seasonal workers. According to best estimates the number of migrant workers is very small compared to the size of the LA agricultural industry. Three areas comprise the largest concentrations of MSFWs; Ouachita, southern Rapides, and western Tangipahoa Parishes.
From the best estimates, based upon MSFW contacts by LWC, Motivation, Education and Training, Inc. (MET, Inc., the state Section 167, National Farmworker Jobs Program [NFJP] grantee), and the High School Equivalency Program (HEP) at Delta Community College, the number of migrant farmworkers is very small. According to MET, Inc., (using the broader definition of MSFWs under the NFJP grant) migrant farmworker clients are rare. In PY2017 thru PY 2019 100% of MET, Inc. clients were local seasonal workers. The first language is of most of those clients was English. Approximately 2,000 people enroll in HEP annually. Of that number an average of 100 enrollees have engaged in farm work and approximately 50% of them would be categorized as a MSFW. An estimated 75% of that number are local English-speaking seasonal or year-round workers and 25% are local Spanish-speaking seasonal or year-round workers. Almost 100% of the Spanish-speaking workers are from Mexico or of Mexican descent. A few HEP participants each year are H-2A workers who wish to obtain a high school equivalency and learn English. The peak participation period for HEP are the winter months, the off-season for most farm work.

The following characteristics of Louisiana NFJP participants for calendar year 2018 were provided by MET, Inc. and derived from MET's NFJP database:

“Seasonal Farmworkers represent the following: 66% Black, 28% White, 21% Hispanic, 10% born in Mexico, 88% born in the USA, 216 Families and Individuals served, Average 142 Days Worked in Farm Work, 50% Female, 42% School Dropout, 2% Limited English, 2% Veteran, 47% Long-Term Agricultural Employment, 29% Reading Skill Below 8.9 Grade Level.”

Both NFJP and HEP program operators stated that over 90% of their MSFW participants do not rely primarily on agriculture for their income at the time of participation, but that agricultural work happens to be part of their past or present experience combined with work in other non-agricultural occupations. Of those that do rely upon agricultural income at the time of participation or within the two years before participation, very few regard agricultural work as a vocation, but one of many different occupations they may work in the course of their careers, especially in rural labor supply areas.

Most participants in both NFJP and HEP utilize the One-Stop System to some degree. The most common needs of MSFWs are employment, increasing income, food assistance, transportation, and training.

4. Outreach Activities

The local offices outreach activities must be designed to meet the needs of MSFWs in the State and to locate and contact MSFWs who are not being reached through normal intake activities. Describe the State agency's proposed strategies for:

During 2019, One-Stop Centers contacted 173 MSFWs, of which 24 were referred to jobs. During the Plan period, LWC intends to increase the number of MSFWs by five percent as staff is better trained to increase their outreach to MSFWs and to recognize MSFWs who enter the American Job Center network and register in HIRE. LWC estimates that at least 100 staff days annually may be required to provide the qualitatively equivalent and quantitatively proportionate level of services to MSFW, compared to non-MSFWs.

A. Contacting farmworkers who are not being reached by the normal intake activities conducted by the employment service offices

Local offices commonly engage in job related outreach to the public through job fairs and coordination and outreach to schools (e.g., career days). Staff attempts to reach as wide an audience as possible when promoting these events and activities, often coordinating outreach with partners (e.g., HEP, MET, Inc.) who are able to contact members of the public who may prove difficult to contact. Where the NFJP provider MET, Inc. operates, One-Stop Centers make cross referrals of prospective MSFW program candidates. One-Stop Centers will also make employment and training services information
available to MSFWs through other organizations and programs that provide services to MSFWs, e.g., HEP and MEP. Where possible, cross referrals are made with these providers and combined services are utilized. Staff members in offices with a higher number of MSFWs or Spanish-speaking clients provide Spanish language materials on jobs, job training, education, job safety, and healthcare. Where possible, local offices provide bi-lingual services or have access to translators through partners. Additionally, the HIRE online labor exchange system is available in a Spanish language version.

Because of funding and manpower limitations, the SWA must rely greatly upon the SMA, One-Stop partners, and MSFW organizations for outreach to MSFWs. However, One-Stop Center staff will assist as much as possible. Additionally MSFW contacts will be sought through networking opportunities where MSFWs are more likely to congregate, grocery stores, community centers, public events, and medical clinics. Social media continues to be explored and will be utilized where possible and proven effective. The SMA and On-Stop Center staff will continue distributing materials and information of interest to MSFWs at these locations and to agricultural employers. Through our networking activities, new outlets for MSFW outreach will continually be sought and utilized.

B. Providing technical assistance to outreach staff. Technical assistance must include trainings, conferences, additional resources, and increased collaboration with other organizations on topics such as one-stop center services (i.e. availability of referrals to training, supportive services, and career services, as well as specific employment opportunities), the Employment Service and Employment-Related Law Complaint System (“Complaint System” described at 20 CFR 658 Subpart E), information on the other organizations serving MSFWs in the area, and a basic summary of farmworker rights, including their rights with respect to the terms and conditions of employment.

The SMA will work with LWC administrative and local One-Stop Center staff on issues of concern (identification of MSFWs, compliance with equivalency of service and equity indicators, reviving local interest, proper documentation of services, etc.). This technical assistance is provided to all One-Stop Center staff as needed, during field office visits, SMA monitoring reviews, and OWD state training seminars and conferences. Any deficiencies the SMA discovers during daily business or reviews will be addressed upon discovery. The primary emphasis will be placed upon properly identifying MSFWs, meeting the needs of MSFWs, and recording the services provided to them.

The SMA will provide quarterly training at each of the state's American Job Centers to all partner staff, including but not limited to WIOA funded staff and Wagner-Peyser Employment Services staff. This training is tied to and follows outreach and provision of services to MSFWs. The staff will be encouraged to query clients to better identify MSFWs and record them in the HIRE system. Staff will provide the full range of One-Stop services, including the HIRE labor exchange system, of which the ARS is a part. The labor exchange system provides job openings in both agricultural and non-agricultural employment. Other services, such as training or supportive services, provide a pathway for MSFWs to transition to higher wage jobs & permanent year round employment in non-agricultural work.

C. Increasing outreach worker training and awareness across core programs including the Unemployment Insurance (UI) program and the training on identification of UI eligibility issues

LWC utilizes a variety of methods for staff training for the delivery of core services. The most effective is through a combination of training seminars, group sessions, and the provision of self-paced training materials. Training on the identification of and the provision of services to MSFWs is
routinely provided through a combination of training at annual state conferences, on-site training, webinars and conference calls. The training is conducted in conjunction with WIOA training, to foster a seamless delivery of services to MSFWs as compared to non-MSFW populations. MSFW partner organizations are invited to participate in order to learn more about One-Stop services and develop more ways to coordinate services with the SWA. Likewise, partners will be invited to conduct training on their programs and services to promote and enhance coordinated to MSFW services.

Providing services to target groups, e.g., MSFWs or veterans, is incorporated into the training. The LWC University, a set of online staff training modules, is one method of self-paced training for the provision of services to MSFWs.

The four modules are:

1. Agricultural Outreach Training
2. Business Service Representatives
3. State Monitor Advocates (Roles and Responsibilities)
4. Front-Line Staff Training on the Job Service Complaint System

For many decades, the state Unemployment Insurance (UI) program was co-located in offices that also provided Wagner-Peyser and WIA services. This arrangement created a situation where offices activities were dominated by UI activities, to the detriment of job training and placement services. This system also required UI claimants to travel, sometimes long distances, to an office for services.

In 2005, the LWC implemented a centrally operated UI system utilizing an online computerized system and a statewide Call Center. UI services have been removed from Louisiana One-Stop Centers to allow the Center staff to focus solely upon job training, job placement, and related career services. Since a claimant can gain access to the UI system from anywhere, the need for a local presence was no longer needed.

The UI system initially operated separately from the SWA labor exchange system, but continued the requirement that UI claimants register for work and conduct a job search or engaged in training. For the last several years, LWC has been integrating UI and Workforce Development (WD) system services through the Helping Individuals Reach Employment (HIRE) online labor exchange and training services system. Upon registering in HIRE, the WD and UI systems are tied into certain automated support activities. For example, upon registration, a UI claimant is automatically profiled for job matching (e.g., the last occupation) and a list of potential employment opportunities within a 25-mile radius is sent to them for consideration. This feature alone has resulted in an average shortened period of unemployment.

UI claimants may file online or by phone at One-Stop Centers. One-Stop Center staff provide instruction to UI claimants on how to apply for UI services and assist claimants while filing their claims. Further UI services, such as eligibility issues, are provided through the UI Call Center. The online UI application system is available in Spanish. The UI Call Center has bi-lingual staff that offers translation services in Spanish.

All One-Stop staff and workforce partners have been thoroughly trained on the integrated HIRE system (OWD/UI). One-Stop workers regularly provide UI eligibility awareness and may incorporate UI claims income into their individualized service plans.

D. Providing State merit staff outreach workers professional development activities to ensure they are able to provide high quality services to both jobseekers and employers

The four MSFW training modules on the Intranet LWC University and on the Staff Online Resources page in the HIRE labor exchange system comprise part of the merit staff outreach workers’ set of professional development tools. The LWC University is available to all LWC merit employees. The
Staff Online Resources is available to merit staff and all partners. Additionally, other MSFW resources are available through the Staff Online Resources; Migrant and Seasonal Agricultural Worker Protection Act (MSPA), the MSPA poster in English, Spanish and Vietnamese, CFR Part 653 – Services to Migrant and Seasonal Farmworkers, Job Service Complaint System, One-Stop Center Complaint Referral Record ETA Form 8429 and instructions. State merit employees receive professional development credit for courses taken through LEO. The inclusion of the MSFW modules would provide an extra incentive for merit employees to take the courses. The state uses "Workforce GPS" system for training.

E. Coordinating outreach efforts with NFJP grantees as well as with public and private community service agencies and MSFW groups

LWC has partnered with the NFJP provider MET, Inc. to assist Louisiana in providing increased services to MSFWs and farm worker employers. One MET, Inc. office is co-located in the Hammond One-Stop Center. MET, Inc. encourages all of their customers who need workforce services to register in HIRE. Likewise, the local One-Stop staff keeps MET staff informed of upcoming events, and hiring and training opportunities for their customers, co-enrolling when the service plans are complementary. For additional methods see the previous section 2. Outreach Activities, A. Contacting Workers Not Being Reached By Normal Intake Activities.

5. Services provided to farmworkers and agricultural employers through the one-stop delivery system

Describe the State agency's proposed strategies for:

A. Providing the full range of employment and training services to the agricultural community, both farmworkers and agricultural employers, through the one-stop delivery system. This includes:

i. How career and training services required under WIOA Title I will be provided to MSFWs through the one-stop centers

ii. How the State serves agricultural employers and how it intends to improve such services

All job seekers who come into the One-Stop system are offered the same services at the same level, tailored to meet the customer’s career goals. During intake and assessment, staff will ascertain whether the client is an MSFW. MSFWs will then be identified on their registration. The MWFW is informed of the full range of one-stop services MSFWs is also informed of partners who provide MSFW services for which they may qualify. MSFW may be put into an individualized career services track incorporating partner organization services.

Regional Business Teams, as part of their regional service strategies, and the SMA will reach out to agricultural employers to inform them of One-Stop employer services, including the ARS, partner employer services, and services to employees. The Teams will encourage agricultural employer engagement in employment and training opportunities and Rapid Response services. The SMA continually disseminates to agricultural employers and their agents information on One-Stop employment and training services to MSFWs, MSFW employment rights, worker safety and health, housing, and MSFW partner services.

Locally, One-Stop Centers will coordinate the services of one-stop partners, community based organizations, the state MSFW contacts, MSFW groups, state cooperative extension service, and parish (county) agents, and other agencies and organizations listed above to do the following:
1. Give local presentations on One-Stop services, including the My Life, My Way online self-assessment tool and the LWC Star Jobs portal, both accessible online and through smartphones,
2. Set up and utilize an integrated referral system to provide maximum services to MSFWs,
3. Inform agricultural employers of MSFW services and rights,
4. Encourage agricultural employers to utilize the Agricultural Recruiting System (ARS),
5. Promote the hiring of MSFWs to employers in all sectors, including agricultural,
6. Provide required employer posters and other handouts in the English language and in Spanish,
7. Meet on a regular basis to exchange information, discuss problems, and coordinate efforts,
8. Offer to distribute their information pamphlets during outreach contacts and provide materials for them to distribute to MSFWs,
9. Offer services that are relative to their needs, and
10. Advise them of all employment changes affecting their community.

Additionally, the SMA will continue an ongoing relationship with the LA Farm Bureau Federation and participate in its annual Mid South Labor Seminar, providing materials or conducting presentations on agricultural labor issues.

B. Marketing the employment service complaint system to farmworkers and other farmworker advocacy groups

Locally, One-Stop Centers display the Employment Security (ES) Complaint System poster in the languages most likely spoken by the customers seeking workforce services. The public is also informed of the ES Complaint System during outreach events. The SMA keeps workforce partners informed of the service and coordinates complaint activities with them.

American Job Center front line staff maintain and report alleged MSFS violations via a complaints log to the SMA as necessary. The SMA then conducts that appropriate investigation through a partnership with the Local Workforce Development Board and state leadership.

Violations are published annually with access to employers and the result reported to the USDOL Wage and Hour Division as appropriate.

All complaints from MSFWs alleging violations of employment-related standards and laws shall be taken in writing by One-Stop Center staff. The staff will attempt a timely resolution, if possible. In the event the staffs are not able to resolve the complaint, the complainant will be timely referred, as appropriate, to agencies and organizations that may play a role in resolving the complaint. The complaint records will be made available to the SMA and reported quarterly to the LWC Office of Human Rights. One-Stop staff will consult the SMA in cases where they have questions on the proper resolution of complaints or factors of the complaint indicate the complaint may need the assistance or intervention by the SMA.

C. Marketing the Agricultural Recruitment System for U.S. Workers (ARS) to agricultural employers and how it intends to improve such publicity.
Typically Louisiana processes fewer than 100 non-H-2A agricultural job orders annually. Those that are posted tend to be permanent positions.

Employers in Louisiana tend to prefer use of the HiRE system to the Agricultural Recruitment System (ARS).

The SMA will continue to promote the ARS to both H-2A and non-H-2A agricultural employers and farmer organizations.

6. Other Requirements

A. Collaboration

Describe any collaborative agreements the state workforce agency (SWA) has with other MSFW service providers including NFJP grantees and other service providers. Describe how the SWA intends to build upon/increase collaboration with existing partners and in establishing new partners over the next four years (including any approximate timelines for establishing agreements or building upon existing agreements).

As a non-significant MSFW state, the local One-Stop Centers cooperate and work closely with MET, Inc. in three geographical areas; Franklin Parish and surrounding areas, Tangipahoa Parish, and Iberia Parish and surrounding areas.

A MET, Inc. office is co-housed in the One-Stop Center in Iberia Parish. MET, Inc. encourages all customers and requires all NFJP trainees to register into HIRE, the state's labor exchange system. The SMA developed and assisted MET, Inc. and local WOIA providers in developing MOUs which were signed in February 2019.

The coordinated services will focus upon:

- Coordinated outreach to MSFWs,
- Properly identifying MSFWs,
- Assessments of needs,
- Coordinated individual service plans designed to leverage funds from each program,
- Co-enrollment when appropriate and advantageous,
- Coordination and referrals to supportive services.

SWA staff and the SMA will maintain contact with the LDOE Migrant Education Program (MEP) to promote the program for the children of migrant parents (whether MSFWs or non-agricultural migrants) and to promote One-Stop services to the parents of MEP students and youths in the program. Likewise, the MEP operators may refer people to the One-Stop Centers.

The SMA has made contact with the Catholic Charities Louisiana Office for Refugees (LOR). Although their clients would rarely, if ever, qualify as MSFW, it is possible some may become eligible after resettlement. Also, some may be referred to agricultural employment.

The SMA will promote and encourage the provision and coordination of MSFW services to the One-Stop Centers with MET, Inc., state and local agricultural agencies, farm organizations, and other agricultural stakeholders. The SMA will encourage One-Stop Centers to engage in relationships with these organizations for outreach and the provision of services. These organizations will include:

- Louisiana Department of Agriculture and Forestry,
- Louisiana State University (LSU) AgCenter,
• Louisiana Farm Bureau Federation,
• American Sugar Cane League,
• Louisiana Alligator Advisory Council,
• Louisiana Crawfish Farmers Association,
• Latino Farmers Cooperative of Louisiana, Inc.
• Louisiana Department of Education (LDOE) Migrant Education,
• University of Louisiana Monroe (ULM) Continuing Education/Delta Community College DeltaLinc,
• Louisiana Primary Care Association, Inc.,
• USDOL Wage and Hour Division (WHD),
• USDOL Occupational Safety & Health Administration (OSHA),
• U.S. Equal Employment Opportunity Commission,
• The Louisiana Association of Cooperatives
• Legal aid organizations,
• Migration and refugee centers,
• Other service or advocacy organizations.

The SMA will continue to coordinate with the LWC Occupational Safety and Health Administration Consultation (OSHA Consultation) section to provide outreach and safety information and training to agricultural employers and employees. Some of the training may be provided either on the job site or in the local area. Safety information and resources will be provided to partners and organizations to hand out to their agricultural clients. LWC will continue to disseminate safety and employment related information through the agricultural network.

B. Review and Public Comment

In developing the AOP, the SWA must solicit information and suggestions from NFJP grantees, other appropriate MSFW groups, public agencies, agricultural employer organizations, and other interested organizations. In addition, at least 45 calendar days before submitting its final AOP, the SWA must provide a proposed plan to NFJP grantees, public agencies, agricultural employer organizations, and other organizations expressing an interest and allow at least 30 days for review and comment. The SWA must: 1) Consider any comments received in formulating its final proposed AOP; 2) Inform all commenting parties in writing whether their comments have been incorporated and, if not, the reasons therefore; and 3) Transmit the comments and recommendations received and its responses with the submission of the AOP.

The AOP must include a statement confirming NFJP grantees, other appropriate MSFW groups, public agencies, agricultural employer organizations and other interested employer organizations have been given an opportunity to comment on the AOP. Include the list of organizations from which information and suggestions were solicited, any comments received, and responses to those comments.
During the development of the Agricultural Outreach Plan (AOP) information and suggestions were solicited through survey of information from the MET, Inc., Delta Community College DeltaLinc HEP, and the Louisiana Department of Education (DOE) MEP. No comments were received.

C. Data Assessment

Review the previous four years Wagner-Peyser data reports on performance. Note whether the State has been meeting its goals to provide MSFWs quantitatively proportionate services as compared to non-MSFWs. If it has not met these goals, explain why the State believes such goals were not met and how the State intends to improve its provision of services in order to meet such goals.

The previous four Program Years (PY2015 – PY2018) were analyzed to determine whether LWC met its goals in the provision of quantitatively proportionate and qualitatively equivalent level of services to MSFWs compared to the whole population of LWC customers. LWC provided services to an average of 173 MSFWs each year. In PY2015, LWC met all Equity Ratio Indicators. In PY2016, LWC met three (3) of the five (5) Equity Ratio Indicators. In PY2017 and PY2018, LWC met five (5) of the five (5) Equity Ratio Indicators.

Louisiana American Job Center staff treat any job seeker who is currently working in an agricultural field, who could be identified as an MSFW as if they are. At the present time the SMA will continue to train and encourage American Job Center staff to identify and record services to MSFWs.

The poor use of the ES Complaint System and reporting of complaints has been corrected. When a complaint arises, the issue is often resolved in-house or the complainant is referred to an organization that can assist in the complaint. Further staff training and promotion of the use of the ES Complaint System as described in Outreach Activities (2)(B) have improved and alleviated any weaknesses in these two areas.

D. Assessment of Progress

The plan must include an explanation of what was achieved based on the previous AOP, what was not achieved and an explanation as to why the State believes the goals were not achieved, and how the State intends to remedy the gaps of achievement in the coming year.

Since the previous Agricultural Outreach Plan identification and reporting of services provided to MSFWs has experienced qualitative and quantitative improvement. This is due to the SMA collecting and reviewing monthly/quarterly data from various sources including, but not limited to HiRE. Use of the ES Complaint System and reporting of complaints should continue to improve for the next few years.

E. State Monitor Advocate

The plan must contain a statement confirming the State Monitor Advocate has reviewed and approved the AOP.

The State Monitor Advocate has reviewed and approved this Agricultural Outreach Plan, no comments were received.

Wagner-Peyser Assurances

The State Plan must include assurances that:

The State Plan must include

Include

1. The Wagner-Peyser Act Employment Service is co-located with one-stop centers or a plan Yes and timeline has been developed to comply with this requirement within a reasonable amount of time (sec 121(e)(3));
The State Plan must include

2. If the State has significant MSFW one-stop centers, the State agency is complying with the requirements under 20 CFR 653.111, State Workforce Agency staffing requirements;

3. If a State Workforce Development Board, department, or agency administers State laws for vocational rehabilitation of persons with disabilities, that board, department, or agency cooperates with the agency that administers Wagner-Peyser Act services, Adult and Dislocated Worker programs and Youth Programs under Title I; and

4. SWA officials:
   1) Initiate the discontinuation of services;
   2) Make the determination that services need to be discontinued;
   3) Make the determination to reinstate services after the services have been discontinued;
   4) Approve corrective action plans;
   5) Approve the removal of an employer’s clearance orders from interstate or intrastate clearance if the employer was granted conditional access to ARS and did not come into compliance within 5 calendar days;
   6) Enter into agreements with State and Federal enforcement agencies for enforcement-agency staff to conduct field checks on the SWAs' behalf (if the SWA so chooses); and
   7) Decide whether to consent to the withdrawal of complaints if a party who requested a hearing wishes to withdraw its request for hearing in writing before the hearing.

Wagner Peyser Program Performance Indicators

Performance Goals for the Core Programs

Each state submitting a Unified or Combined State Plan is required to identify expected levels of performance for each of the primary indicators of performance for the first two years covered by the plan. The state is required to reach agreement with the Secretary of Labor, in conjunction with the Secretary of Education, on state-negotiated levels of performance for the indicators for each of the first two years of the plan.

For Program Year (PY) 2016-2019 plans, the Departments used the transition authority under section 503(a) of WIOA to designate certain primary indicators of performance as “baseline” indicators to ensure an orderly transition from the requirements of the Workforce Investment Act of 1998 to those under WIOA. A “baseline” indicator was one for which states did not propose an expected level of performance and did not come to agreement with the Departments on negotiated levels of performance because sufficient data was not available to establish such performance levels. As a result, “baseline” indicators were not used in the end of the year adjustment of performance levels and were not used to determine failure to meet adjusted levels of performance for purposes of sanctions. The Departments designated indicators as “baseline” based on the likelihood of a State having insufficient data with which to make a reasonable determination of an expected level of performance.

For PYs 2020-2023 Plans, Title I programs (Adult, Dislocated Worker, and Youth) and the Title II program (Adult Education and Family Literacy Act) will have two full years of data available to make reasonable determinations of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit);
- Credential Attainment Rate; and
- Measurable Skill Gains
The Wagner-Peyser Act Employment Service program, authorized under the Wagner-Peyser Act, as amended by title III of WIOA, will have two full years of data available to make a reasonable determination of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit); and
- Median Earnings (Second Quarter after Exit)

The Credential Attainment Rate and Measurable Skill Gains indicators do not apply to the Wagner-Peyser Act Employment Service program; therefore, this program will not submit expected levels of performance for these indicators.

For the first two years of PYs 2020-2023 Plans, the Vocational Rehabilitation (VR) program, authorized under title I of the Rehabilitation Act of 1973, as amended by title IV of WIOA, will have two full years of data available for the Measurable Skill Gains indicator only. Therefore, the Departments will designate the following indicators as “baseline” for the VR program for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit); and
- Credential Attainment Rate

VR agencies must continue to collect and report on all indicators, including those that have been designated as “baseline, pursuant to section 116(d) of WIOA.” The actual performance data reported by these programs for indicators designated as “baseline” for PY 2020 and PY 2021 will serve as baseline data in future years. The Departments will require VR agencies to submit expected levels of performance for these indicators for PY 2022 and PY 2023.

The Departments determined that the Effectiveness in Serving Employers indicator will be measured as a shared outcome across all six core programs within each state to ensure a holistic approach to serving employers. The Departments will continue piloting approaches for measuring this indicator for the first two years of PY 2020-2023 plans. Therefore, states are not required to submit an expected level of performance for the Effectiveness in Serving Employers indicator for PY 2020 and PY 2021. However, core programs are expected to collect data and report on this indicator for PY 2020 and PY 2021 as they did for PYs 2016-2019 plans.

Each core program must submit an expected level of performance for all of the other indicators, as applicable, with the exception of the four indicators designated as “baseline” for the VR program in PY 2020 and PY 2021. The Departments will work with states during the negotiation process to establish negotiated levels of performance for each of the primary indicators for the core programs not listed as “baseline.” Each state must update its plan to include the agreed-upon negotiated levels of performance before the Departments approve a state’s plan.

States may identify additional indicators in the plan, including additional approaches to measuring Effectiveness in Serving Employers, and may establish levels of performance for each of the state indicators. Please identify any such state indicators under Additional Indicators of Performance.

## Program-specific Requirements for Adult Education and Family Literacy Act Programs

The Unified or Combined State Plan must include a description of the following as it pertains to adult education and literacy programs and activities under title II of WIOA, the Adult Education and Family Literacy Act (AEFLA).

### a. Aligning of Content Standards

Describe how the eligible agency has aligned its content standards for adult education with State-adopted challenging academic content standards, as adopted under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 6311(b)(1)).

Effective July 1, 2016, the Louisiana Community and Technical College (LCTCS), WorkReady U (WRU) aligned the adult education content standards with the Louisiana College and Career Readiness Standards and the state-mandated, Academic Standards + Grade Level Expectations curriculum for public schools under the Elementary and Secondary Education Act of 1965, as amended [20 U.S.C. 6311 (b)(1)] through the adoption and implementation of the College and Career Readiness Standards (CCRS) for Adult Education. The standards alignment provides rigorous content standards that specify what learners should know and be able to do in the areas of reading and language arts, mathematics, and English language acquisition and also takes into consideration alignment with other standards, including high school equivalency, enrollment in non-remedial, for-credit courses in postsecondary educational institutions and occupational and industry skill standards and certifications widely used and recognized by business and industry.

### b. Local Activities

Describe how the State will, using the considerations specified in section 231(e) of WIOA, fund each eligible provider to establish or operate programs that provide any of the following adult education and literacy activities identified in section 203 of WIOA, including programs that provide such activities concurrently. The Unified or Combined State Plan must include at a minimum the scope, content, and organization of these local activities.

#### Adult Education and Literacy Activities (Section 203 of WIOA)

- Adult education;
- Literacy;
• Workplace adult education and literacy activities;
• Family literacy activities;
• English language acquisition activities;
• Integrated English literacy and civics education;
• Workforce preparation activities; or
• Integrated education and training that—

1. Provides adult education and literacy activities, concurrently and contextually with both, workforce preparation activities, and workforce training for a specific occupation or occupational cluster, and
2. Is for the purpose of educational and career advancement.

Special Rule. Each eligible agency awarding a grant or contract under this section shall not use any funds made available under this title for adult education and literacy activities for the purpose of supporting or providing programs, services, or activities for individuals who are under the age of 16 and are enrolled or required to be enrolled in secondary school under State law, except that such agency may use such funds for such purpose if such programs, services, or activities are related to family literacy activities. In providing family literacy activities under this title, an eligible provider shall attempt to coordinate with programs and services that are not assisted under this title prior to using funds for adult education and literacy activities under this title for activities other than activities for eligible individuals.

The Louisiana Community and Technical College System (LCTCS), WorkReady U (WRU), is responsible for administering Title II Adult Education and Family Literacy Act (AEFLA) funds to eligible providers and providing program/performance oversight to grantees. As the administrative/fiscal agency, LCTCS/WRU conducts a competitive Request for Proposal (RFP) Grant Application process to provide funding to eligible local entities for the provision of adult education services as described in the Workforce Innovation and Opportunity Act of 2014: Title II: Common Elements under Distribution of Funds. The RFP is the statewide procurement method through which WRU identifies, assesses and awards five-year multi-year grants to eligible providers throughout the state for the delivery of adult education services that includes academic instruction and educational services to eligible individuals. An eligible individual, defined in WIOA, Title II, is an individual who: has attained 16 years of age; is not enrolled or required to be enrolled in secondary school under State law; is basic skills deficient; does not have a secondary school diploma or its recognized equivalent and has not achieved an equivalent level of education; or is an English language learner with skills below the postsecondary level in need of services that increase the individual's ability to:

• Read, write and speak English and perform mathematics or other activities necessary for the attainment of a secondary school diploma or its recognized equivalent;
• Transition to postsecondary education and training; and
• Obtain employment.

The full and open competition is consistent with the standards of Subpart C, CFR 200.319. All activities funded under WIOA are authorized, approved and administered by the LCTCS, WorkReady U. WorkReady U, ensures that all eligible providers have direct and equitable access to apply and compete for grants. The grant competition is publicized through a variety of print and electronic media throughout the state. Information is shared through the LCTCS communications office via posting on the LCTCS website, social media outlets, and other means of available communication.

LCTCS uses the same application process for all eligible providers for sections 225, 231, and/or 243. This ensures that all applications are evaluated using the same rubric and scoring.
criteria. LCTCS ensures that all eligible providers have direct and equitable access to apply for grants. See Title I, Common Elements, (III.b.5.B.ii) Direct and Equitable Access.

As required in Section 427 of GEPA, each applicant provides a description of the agency’s process to ensure equitable access to and participation in the WIOA Title II adult education program for students, teachers, and other program beneficiaries with special needs. LCTCS has approved state policies that provide for equal opportunity for all qualified persons without regard to disability in the recruitment of, admission to, accessibility to, participation in, treatment in, or employment in the programs and activities operated and sponsored by the Louisiana Community and Technical College System.

WIOA, Title II defines eligible provider as an organization that has demonstrated effectiveness in providing adult education and literacy activities to eligible individuals and may include:

- A local education agency;
- A community-based or faith-based organization;
- A volunteer literacy organization;
- An institution of higher education;
- A public or private nonprofit agency;
- A library;
- A public housing authority;
- A nonprofit institution with the ability to provide adult education and literacy services;
- A consortium or coalition of agencies, organizations, institutions, libraries or authorities described above; or
- A partnership between an employer and an entity described above.

All applications received are evaluated using the 13 considerations in WIOA section 231(e). The evaluation of each grant application involves an intense assessment of the ability of the eligible provider to comply with the expectations and statutes described within the Workforce Innovation and Opportunity Act inclusive of: (a) meeting the literacy needs of the area; and (b) demonstrating past effectiveness in improving the literacy of eligible individuals, especially those individuals who have low levels of literacy, participants with disabilities; refugees, dislocated youth and foster care youth, individuals with low literacy skills, displaced homemakers, ex-offenders, individuals with cultural barriers and individuals with a variety of barriers to employment. The grant cycle is a minimum of five years, and all providers are subject to the same funding cycle: Year One – July 1, 2020 through June 30, 2021; Year Two-July 1, 2021 through June 30, 2022; Year Three-July 1, 2022 through June 30, 2023; Year Four-July 1, 2023 through June 30, 2024 and Year Five-July 1, 2024 through June 30, 2025. Eligible providers apply to receive adult education funding for the delivery of any of the following adult education and literacy activities:

- Adult education;
- Literacy;
- Workplace adult education and literacy activities;
- English language and acquisition activities;
- Integrated English literacy and civics education;
- Workforce preparation activities;
- Integrated education and training.
Federal Definitions and Allowable Services/Activities

In Louisiana, adult education consists of academic instruction and education services below the postsecondary level that increase an individual’s ability to read, write, and speak in English and perform mathematics or other activities necessary for the attainment of a secondary school diploma or its recognized equivalent; transition to postsecondary education and training and obtain employment.

Literacy is defined as an individual’s ability to read, write and speak in English, compute and solve problems at levels of proficiency necessary to function on the job, in the family of the individual and in society.

Workplace adult education and literacy activities are adult education and literacy activities offered by an eligible provider in collaboration with an employer or employee organization at a workplace or an off-site location that is designed to improve the productivity of the workforce through the improvement of literacy skills.

An English-language acquisition program is designed to help eligible individuals who are English-language learners achieve competence in reading, writing, speaking and comprehension of the English language leading to attainment of a secondary school diploma or its recognized equivalent and transition to postsecondary education and training or employment.

Integrated education and training (IET) is a service approach that provides three components simultaneously, concurrently, and contextually: (1) adult education and literacy (2) workforce preparation activities, and (3) workforce training. The IET must be a part of a career pathway with a single set of learning objectives for a specific occupation or occupational cluster for the purpose of educational and career advancement which may be any one of the approved WIOA training services defined in section 134(c)(3)(D) of the Act.

The Louisiana Career Pathway model provides a combination of rigorous and high-quality education, training, and other services that align with the skill needs of industries in the region. The model prepares adults for success by organizing education, training, and other services to support their particular needs including: counseling to accomplish goals; educational training and workforce preparation that is offered simultaneously, concurrently, and contextually within a specific occupation or occupational cluster; allowance for attaining a recognized high school equivalency credential; and entrance or advancement within a specific occupation or occupational cluster. Integrated education and training services of sufficient quality and intensity will be designed based on the most rigorous research available and successful applicants are required to provide the following services/activities:

- a minimum of two career pathway programs that provide the opportunity for students to earn college credit;
- basic skills services that are concurrently integrated and contextualized with the workforce training program of study and aligned with a single set of learning objectives and specific integrated activities;
- basic skills, workforce preparation activities, workforce training, and other services designed to accelerate the educational and career advancement of participants to the extent practicable;
- a logical progression/sequence of courses that are applicable to the target credential;
- the attainment of industry-based and/or academic credentials;
- partnerships with business and industry as well as regional economic development partners in order to meet both current and future sector needs; and
- multiple entry and exit points, flexible scheduling, alternative class times and locations, stackable and portable credentials and/or credit hours, and the innovative use of technology customized for the needs of adults.
Each funded program must demonstrate a commitment to provide appropriate wrap-around support services to students enrolled in the IET program. These services will include, but are not limited to, tutoring or other academic supports, college navigation support, and career planning.

Integrated English literacy and civics education (IELCE) refers to education services provided to English-language learners who are adults, including professionals with degrees and credentials in their native countries, that enables them to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as parents, workers, and citizens in the United States. Such services shall include instruction in literacy and English-language acquisition and instruction on the rights and responsibilities of citizenship and civic participation and may include workforce training. See Title II – Adult Education and Literacy Programs (d) Integrated English Literacy and Civics Education Program.

Workforce-preparation activities include activities, programs, or services designed to help an individual acquire a combination of basic academic skills, critical thinking skills, digital literacy skills, and self-management skills including competencies in utilizing resources, using information, working with others, understanding systems, and obtaining skills necessary for successful transition into postsecondary education, training, and/or employment.

Federal funds may be used to increase the level of non-federal funds that would be available in the absence of federal funds and, in no case, replace those non-federal funds. Federal funds must not be used for the purpose of supplanting, only for supplementing.

Louisiana is focused on performance to ensure that funds are used effectively to serve customers and produce positive results. WRU uses a funding formula for state/federal adult education funds. The formula is designed to consider the scope of services provided in the local program and performance as compared to established benchmarks as a basis for an increase or decrease in funds. Performance benchmarks and performance standards are established with the expectation that grantees will maintain or exceed performance standards through effective service delivery and innovation.

Evaluating the RFP

The assessment of each grant application involves an intense evaluation of the ability of the eligible provider to meet the literacy needs of the area and to comply with the expectations and statutes described within the Workforce Innovation and Opportunity Act. Additionally, an eligible provider must demonstrate program effectiveness by providing performance data on its record of improving the skills of eligible individuals, particularly eligible individuals who have low levels of literacy, in the content domains of reading, writing, mathematics, English language acquisition, and other subject areas relevant to the services described in WIOA §463.24. An eligible provider must also provide information regarding its outcomes for participants related to employment, attainment of secondary school diploma or its recognized equivalent, and transition to postsecondary education and training. There are two ways an eligible provider may meet the requirements:

- An applicant that has been previously funded under AEFLA, under WIOA, must submit performance data required under Section 116 to demonstrate past effectiveness.
- An applicant that has not been previously funded under AEFLA, under WIOA, must provide performance data to demonstrate its past effectiveness in serving basic skills deficient eligible individuals, including evidence of its success in achieving outcomes.

Applicants applying as a consortium must submit demonstrated effectiveness data for each member of the consortium to determine if each member is an eligible provider of demonstrated effectiveness.

Application review consists of a multi-tier process: (1) applications are pre-screen for all required components, including performance data to demonstrate effectiveness in serving eligible individuals; (2) reviewers are comprised of at least one WRU state staff, representative(s) from core partner entities, and internal/external reader(s) with adult education experience; and (3) local workforce development boards (LWDBs) review the application to determine whether the activities in the
application are consistent with and align to the approved local plan and provide recommendations to promote further alignment when applicable in accordance with Section 107(d)(11)(B)(i, II) of WIOA and 34 CFR §463.21(b)(1, 2). Training and technical assistance are provided to each reviewer by the WRU staff. Each reviewer receives the local application, access to the local and regional workforce development plan, and scoring rubric to evaluate the applications. After the individual review period, all reviewers convene for a final group review at which time the local workforce development board application reviews are taken into consideration in the final determination.

All applications are scored based on the applicant’s ability to comply with the expectations and statutes described within the thirteen (13) federal evaluation factors required under WIOA and described in Title II, Sec. 231 (e) listed below:

1. The ability of the eligible provider to meet the literacy and English-language needs identified for the population in the area, including individuals who have low levels of literacy skills or who are English-language learners. Particular emphasis is given to the provider’s ability to provide targeted service to individuals with barriers to employment.

2. The eligible provider’s ability to provide service to individuals with a (physical or learning) disability.

3. The eligible provider’s demonstrated effectiveness in providing literacy instruction, including its ability to meet state-adjusted levels of performance and improve the literacy levels of eligible individuals.

4. The eligible provider’s alignment with the WIOA local plan.

5. The depth, intensity, and rigor of the programs and activities offered by the eligible provider. The proposed program must incorporate instructional practices that include the essential components of reading instruction. Attention is given to the extent to which the eligible provider incorporates rigorous research for attaining substantial learning gains in the grant proposal and the development of the literacy program itself.

6. The extent to which the eligible provider’s program is based on intense research, best practices, and effective educational practice.

7. The extent to which the eligible provider demonstrates the effective use of technology for instruction to include distance education toward students’ improved performance.

8. The eligible provider’s demonstrated integration of contextualized instruction to blend literacy skills and preparation for transition to post-secondary education or entry into the workplace. Particular attention is given to activities that promote and lead to economic self-sufficiency and the ability to exercise the full rights of citizenship.

9. The qualifications and expertise of the eligible provider’s instructors, counselors, and administrative staff. All instructors must hold, at a minimum, a post-secondary degree and participate in the WorkReady U instructor-certification program within one year of employment. The eligible provider must also demonstrate its ability and intent to provide high-quality professional development to instructors and staff toward the improvement of student performance.

10. The eligible provider’s collaboration with other available education, training, and social service resources in the community. Particularly, the eligible provider should have, or have the means to establish, meaningful partnerships with elementary schools and secondary schools, postsecondary educational institutions, institutions of higher education, local workforce investment boards, One-Stop Centers, job training programs and social service agencies, business, industry, labor organizations, community-based organizations, nonprofit organizations, and intermediaries for the development of career pathways.
11. The flexibility of program scheduling offered by the eligible provider, including coordination (when available) with federal, state, and local support services such as childcare, transportation, mental health services, and career planning.

12. The eligible provider’s management information system; the expectation will be that the eligible providers will use the state-administered designated Management Information System (MIS) for all grant-related data collection and reporting.

13. The demonstrated need within the area occupied by the eligible provider for English language acquisition programs and civics education programs.

Special Rule

LCTCS will not use any funds made available under this title for adult education and literacy activities for the purpose of supporting or providing programs, services or activities for individuals who are under the age of 16 and are enrolled or required to be enrolled in secondary school under state law.

c. Corrections Education and other Education of Institutionalized Individuals

Describe how the State will establish and operate programs under section 225 of WIOA for corrections education and education of other institutionalized individuals, including how it will fund, in accordance with the requirements of title II subtitle C, any of the following academic programs for:

- Adult education and literacy activities;
- Special education, as determined by the eligible agency;
- Secondary school credit;
- Integrated education and training;
- Career pathways;
- Concurrent enrollment;
- Peer tutoring; and
- Transition to re-entry initiatives and other post release services with the goal of reducing recidivism.

Each eligible agency using funds provided under Programs for Corrections Education and Other Institutionalized Individuals to carry out a program for criminal offenders within a correctional institution must give priority to serving individuals who are likely to leave the correctional institution within 5 years of participation in the program.

From funds made available under Section 222(a)(1), LCTCS, WorkReady U conducts a full and open competition specifically for Corrections Education funding (Section 225) that is consistent with the standards of Subpart C, CFR 200.319. All activities funded under WIOA are authorized, approved and administered by the LCTCS, WorkReady U. Applicants must establish that Section 225 funds are utilized to serve criminal offenders in a correctional institution as defined in WIOA as any prison, jail, reformatory, work farm, detention center, halfway house, community-based rehabilitation center, or any other similar institution designed for the confinement or rehabilitation of criminal offenders.

WorkReady U ensures that all eligible providers have direct and equitable access to apply and compete for grants. See Title I, Common Elements, (III.b.5.B.ii) Direct and Equitable Access. The grant competition is publicized through a variety of print and electronic media throughout the state. Information is shared through the LCTCS communications office via posting on the LCTCS website, social media outlets, and other means of available communication.
LCTCS uses the same application process for all eligible providers for sections 225, 231, and/or 243. This ensures that all applications are evaluated using the same rubric and scoring criteria. LCTCS ensures that all eligible providers have direct and equitable access to apply for grants. See Title I, Common Elements, (III.b.5.B.ii) Direct and Equitable Access.

As required in Section 427 of GEPA, each applicant provides a description of the agency’s process to ensure equitable access to and participation in, the WIOA, Title II adult education program for students, teachers, and other program beneficiaries with special needs. LCTCS has approved state policies that provide for equal opportunity for all qualified persons without regard to disability in the recruitment of, admission to, accessibility to, participation in, treatment in, or employment in the programs and activities operated and sponsored by the Louisiana Community and Technical College System.

The review of proposals includes rating responses to the 13 considerations in Title II of WIOA in addition to the description of how programs will design academic programs to support the following services/activities:

1. Adult education and literacy activities;
   See VI.b – Local Activities, Federal Definitions and Allowable Services/Activities.

2. Special education;
   Funded programs must comply with the Americans with Disabilities Act of 1990 (ADA) and partner with mandatory partners such as Louisiana Rehabilitation Services, Vocational Rehabilitation, and secondary partners, such as the Louisiana Department of Education to eliminate barriers to education and/or employment.

3. Secondary school credit;
   Title II resides under the jurisdiction of LCTCS while secondary school credit falls under the jurisdiction of the Louisiana Department of Education. LCTCS partners with the Louisiana Department of Education and the Louisiana Office of Juvenile Justice (OJJ) to ensure that all eligible students receive Title II educational services. Funded programs must provide instructional services/activities that will prepare students to earn a high school equivalency credential.

4. Integrated education and training;

5. Career pathways;

6. Concurrent enrollment;
   See VI.b – Local Activities, Federal Definitions and Allowable Services/Activities

7. Peer tutoring; and
   Funded programs provide training for specified offenders to serve as peer tutors in adult education and career and technical education (CTE) classes.

8. Transition to re-entry initiatives and other post-release services with the goal of reducing recidivism. Allowable activities to assist with reducing recidivism may include: (a) providing educational counseling and/or case management; (b) developing plans for post-release education program participation; (c) assisting students in identifying and applying for participation in post-release programs; and/or (d) performing direct outreach to community-based program providers on behalf of re-entering students.

Funds may not be used for the cost of participation in post-release programs or services.

LCTCS will not use less than 82.5 percent of the grant funds to award grants and contracts under section 231 and to carry out section 225, Programs for Corrections Education and Other Institutionalized Individuals, of which not more than 20 percent of such amount shall be available to carry out section 225.
Through the RFP procurement process for Section 225 funding, described in the Common Elements: Distribution of Funds, the successful applicants must show demonstrated program effectiveness in serving eligible individuals and the ability to provide services that support correctional education activities as defined in WIOA.

Programs that do not meet established minimum standards in the first year are expected to demonstrate and document substantial improvement toward meeting those standards. Using the approved statewide data management system, monitoring results, and other documentation, WRU determines and applies requirements for program improvement in the subsequent grant cycles. Minimum standards are determined initially based on data collected during the first year and will be raised with each new grant cycle. Programs that do not demonstrate and document substantial improvements during each year of the multi-year grant cycle may not be eligible to receive funding in subsequent years of the cycle.

Each eligible provider that receives funds provided under section 225 to carry out a program for criminal offenders within a correctional institution shall give priority to serving individuals who are likely to leave the correctional institution within five (5) years of participation in the program.

d. Integrated English Literacy and Civics Education Program

Describe how the State will establish and operate Integrated English Literacy and Civics Education programs under Section 243 of WIOA, for English language learners who are adults, including professionals with degrees and credentials in their native countries, including how the Integrated English Literacy and Civics Education program under section 243(a) of WIOA will be delivered in combination with integrated education and training activities.

Describe how the State will fund, in accordance with the requirements of title II, subtitle C, an Integrated English Literacy and Civics Education program and how the funds will be used for the program.

Describe how the Integrated English Literacy and Civics Education program under section 243(a) of WIOA will be designed to prepare adults who are English language learners for, and place such adults in, unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency.

Describe how the Integrated English Literacy and Civics Education program under section 243(a) of WIOA will be designed to integrate with the local workforce development system and its functions to carry out the activities of the program.

WorkReady U will establish programs under Section 243 of WIOA that offer Integrated English literacy and civics education programs through the competitive, multi-year request for proposal process specified for integrated literacy and civics education funds using the process described in the Common Elements: Distribution of Funds; Title II. Through the RFP procurement process, the successful applicants must demonstrate the ability to provide integration and alignment of services that support the following literacy and English language acquisition activities:

- **Civics** education instruction that assists eligible students to become active and informed parents, workers, and community members;

- **Rights and Responsibilities of citizenship**;

- **Integrated education and training** that provides training opportunities to eligible individuals seeking workforce training for the workplace in combination with English Literacy instruction; and
• **Advanced English literacy** instruction that provides training opportunities to eligible individuals seeking workforce training, including professionals with degrees and/or credentials from outside the United States. State-approved English Language Proficiency Standards will be utilized for literacy instruction.

WorkReady U will provide available funds under Section 211(a)(2)(b) for the delivery of integrated English literacy and civics education in combination with integrated education and training activities to adults seeking workforce training.

The Integrated English Literacy and Civics Education Program engages students in purposeful use of the language. The skills provided through this funding source assist students in obtaining citizenship, achieving basic life skills needed to enhance employment, and functioning effectively as parents, workers, and citizens in the United States.

Each funded program under this section shall be designed to provide the following services.

1. Prepare adults who are English-language learners for, and place such adults in, unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency and

2. Integrate with the local workforce development system and its functions to carry out the activities of the program.

English language learners seeking English language proficiency and civics education, but not seeking workforce training, should not be excluded or discouraged from participation in the Integrated English Literacy and Civics Education program.

In the evaluation of applications, WorkReady U considers if the provider has demonstrated the need for IELCE services in a designated service delivery area. Applications must include data that demonstrates the need for IELCE services in their respective areas of the state. Data sources that may be cited are the US Census Bureau, reports from the Office of Immigration Services, documentation of prior effectiveness in the delivery of this type of service or other data.

LCTCS’ full and open competition is consistent with the standards of 34 CFR Subpart C. All eligible providers have direct and equitable access to apply and compete for grants. See Title I, Common Elements, (III.b.5.B.ii) Direct and Equitable Access. The grant competition is publicized through a variety of print and electronic media throughout the state. Information is shared through the LCTCS communications office via posting on the LCTCS website, social media outlets, and [AF1] other means of available communication. LCTCS uses the same application process for all eligible providers for sections 225, 231, and/or 243. This ensures that all applications are evaluated using the same rubric and scoring criteria. [AF2]

As required in Section 427 of GEPA, each applicant must provide a description of the agency’s process to ensure equitable access to and participation in, the WIOA Title II adult education program for students, teachers, and other program beneficiaries with special needs. LCTCS has approved state policies that provide for equal opportunity for all qualified persons without regard to disability in the recruitment of, admission to, accessibility to, participation in, treatment in, or employment in the programs and activities operated and sponsored by the Louisiana Community and Technical College System.

LCTCS uses the 13 considerations specified in section 243 of WIOA to fund eligible providers by incorporating each of the considerations into the narrative portion of the application. Successful applicants must provide a narrative that demonstrates the program design and service delivery model to deliver each consideration.

Funds are used to support the operational expenses of the local IELCE programs, including teacher salaries and benefits, classroom supplies, textbooks, and other AEFLA allowable expenditures, to carry out instruction in literacy and English language acquisition and instruction on rights and responsibilities of citizenship and civic participation all in combination with integrated education and training. LCTCS issues guidance and technical assistance to funded providers to assist in ensuring
that all required components as set forth in 34 CFR Part 463 Subpart G of the regulations are included in the program’s design.

The term “integrated English literacy and civics education” (IELCE) means education services provided to English language learners who are adults, including professionals with degrees and credentials in their native countries, that enables such adults to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as parents, workers, and citizens in the United States. Such services shall include instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation and may include workforce training.

IELCE funded applicants must deliver services in combination with integrated education and training activities by: (1) using funds provided under section 243 to support integrated education and training activities as cited in subpart D; or (2) co-enrolling participants in integrated education and training as described in subpart D that is provided within the local or regional workforce development area from sources other than section 243.

English language learners seeking English language proficiency and civics education, but not seeking workforce training, should not be excluded or discouraged from participation in the Integrated English Literacy and Civics Education program.

The program design for each funded IELCE provider must demonstrate the capability to: (1) deliver education services/activities under WIOA to English language learners who are adults, including professionals with degrees and credentials in their native countries, that enables such adults to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as parents, workers, and citizens in the United States; (2) provide instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation. The Section 243 funds are used in combination with integrated education and training.

Additionally, the IELCE program is designed with the purpose of improving the productivity and obtaining gainful employment through the improvement of skills of non-native English learners. Working with employers throughout their community, integrating services/activities with the local workforce development system, programs identify the in-demand industries and occupations that lead to economic self-sufficiency.

LCTCS uses the same application process for all eligible providers for sections 225, 231, and/or 243. This ensures that all applications are evaluated using the same rubric and scoring criteria. LCTCS ensures that all eligible providers have direct and equitable access to apply for grants. See Title I, Common Elements, (III.b.5.B.ii) Direct and Equitable Access.

LCTCS’ full and open competition is consistent with the standards of 34 CFR Subpart C. All eligible providers have direct and equitable access to apply and compete for grants. The grant competition is publicized through a variety of print and electronic media throughout the state. Information is shared through the LCTCS communications office via posting on the LCTCS website, social media outlets, and other means of available communication. LCTCS adheres to all State and Louisiana WIOA Combined Plan laws regarding awarding grant funds and the expenditure of public funds. During the initial period of the grant submission process, any eligible agency that contacts LCTCS with an interest in participating is provided the information needed.

LCTCS uses the 13 considerations specified in section 243 of WIOA to fund eligible providers by incorporating each of the considerations into the narrative portion of the application. Successful applicants must provide a narrative that demonstrates the program design and service delivery model to deliver each consideration.

e. State Leadership
1. Describe how the State will use the funds to carry out the required State Leadership activities under section 223 of WIOA

From funds made available under section 223, LCTCS, WorkReady U will provide statewide leadership activities through the following services/activities.

**Aligning Activities with Core Programs and One-Stop Partners**

WorkReady U will work with core programs and one-stop partners to facilitate new methods of service delivery, increase secondary credential attainment opportunities, expand instructional content and delivery techniques to include college and career readiness standards, leverage technology to enhance educational opportunities, and transition from career pathway pilot initiatives to Integrated Education and Training (IET) opportunities through Louisiana Career Pathways.

In order to advance the alignment of activities with core partners, WorkReady U’s Regional Resource Center (RRC) regions have been aligned with the Louisiana Workforce Development Board (LWDB) regions. RRCs will serve as a hub for local WorkReady U providers in the development of career pathways that align with local and regional workforce development plans and needs.

**High-Quality Professional Development Programs**

LCTCS, WorkReady U will provide varied professional development opportunities through:

1. Direct WRU professional development opportunities;
2. Activities in Regional Resource Centers (RRC);
3. Louisiana Community and Technical College System (LCTCS) Conference; and
4. Louisiana Association for Public, Community, and Adult Education (LAPCAE) Conference.

WorkReady U is committed to providing high-quality professional development opportunities by facilitating training opportunities for local program instructors, administrators, and support staff. Each year’s focus areas will arise from national trends and challenges, state goals, and program/partner needs to better prepare students, staff, partners, and programming for the new landscape in adult education.

Targeted trainings based upon needs assessments are beneficial to an individual’s professional growth, a program’s improvement, and core partner relationships. WRU prefers a three-pronged approach to PD in which:

- participants are provided with the material beforehand,
- training occurs, and then
- there is follow-up after the training in the form of
  - Communities of Practice, or
  - Training of Trainers.

Participant evaluations are collected for all professional development activities. Participants respond to items regarding:

- the training as a whole
- objectives
- materials
- environment
presentation

the immediate application in
  o classrooms
  o programs
  o workforce

State staff review this information to plan for future trainings and potential technical assistance. The team looks at:

- cost effectiveness;
- return on investment;
- transferability of skills/knowledge; and
- benefit of students/clients from Professional Development outcomes.

In order to advance the WorkReady U (WRU) mission, promote learning communities, and pursue high-quality adult education practices, Regional Resource Center (RRC) regions have been aligned with the Louisiana Workforce Development Board (LWDB) regions. Regional Resource Centers (RRCs) will operate within each LWDB region in order to promote the alignment of services between WorkReady U local programs and core partners and one-stop operators and to serve as a hub for peer support and learning within the adult education network. The goals of the RRCs are to:

1. facilitate professional development (PD) opportunities;
2. provide resources and support; and
3. offer technical assistance (TA) to increase student performance and program enrollment.

WorkReady U supports both the LCTCS and LAPCAE (Louisiana Association for Public, Community, and Adult Education) annual conferences geared towards adult education in Louisiana. Professional development opportunities for instructors (full-time, part-time and/or volunteers), supervisors, partners, and employers consist of:

- development and implementation of technology applications, and/or distance education, including support the use of instructional technology;
- development and dissemination of curricula, including curricula incorporating the essential components of reading instruction for adult learners;
- development of contextualized curricula and effective models for integrated education, training and career pathways;
- development and implementation of a comprehensive model that assists in the transition from adult education to postsecondary education;
- integration of literacy and English language instruction with occupational skill training, including promoting linkages with employers;
- activities to promote workplace adult education and literacy activities;
- identification of curriculum frameworks and aligning rigorous content standards that specify what adult learners should know and be able to do in the areas of reading and language arts, mathematics, and English language acquisition, taking into consideration the following:
  o College and Career Readiness Standards;
  o The current adult skills and literacy assessments used in the State;
The primary indicators of performance described in section 116 of WIOA;

- Standards and academic requirements for enrollment in nonremedial, for-credit courses in postsecondary educational institutions or institutions of higher education supported by the State; and

- The content of occupational and industry skill standards widely used by business and industry in the State;

  - development and pilot of strategies geared towards improving teacher quality and retention; and

  - development and implementation of programs and services to meet the needs of adult learners with learning disabilities or English language learners based on valid research.

Each conference committee collects evaluations from participants to:

- guide the direction and focus of the following year’s event; and

- inform the state staff of underlying needs.

Technical Assistance

WorkReady U will use established techniques for providing technical assistance to local programs. The procedures included: performance target requirements, continued use of a risk assessment model, and continued data review. Program performance negotiations jointly analyzed individual program data and established baseline performance goals for the fiscal year. The risk assessment model will be used to identify programs with low performance data and guide the State in providing targeted technical assistance. Enhanced database dashboards are used to assist programs in tracking their progress in meeting the benchmarks and standards. Local programs are ranked in the state by benchmarks, pre-post testing, and recruiting to help both WRU and local program staff identify strengths, areas for improvement, technical assistance opportunities, and professional development needs. State Leadership funds will be used to enhance the web-based data collection/management system that is used by all federally funded adult education programs.

Technical assistance activities focus on:

1. aligning adult education and literacy activities with core partners and program services

2. onboarding new instructors, administrators, and support staff on the vision and mission of WorkReady U and the goals of adult education

3. improving the overall service delivery to students, including –
   a. online instructor courses
   b. teacher observation/evaluation training
   c. teacher-leader cohorts working with national experts to capture research-based best practices for instruction
   d. supervisor training
   e. support staff (including data entry and intake/orientation employees)

4. improving adult education and literacy activities, with regard to—
   a. the development and dissemination of instructional and programmatic practices based on the most rigorous or scientifically valid research available and appropriate, in reading, writing, speaking, mathematics, English language acquisition programs, distance education, and staff training;
b. strengthening partnership at the local level to provide access to employment, education, and training services; and

c. effective uses of technology to improve system efficiencies

5. training on the monitoring and evaluation of program quality and adult education and literacy activities

6. certification and recertification on the administration of NRS approved assessments adopted in the WRU Assessment Policy guide

7. training on the WRU Recipient Grant Management Handbook

8. collecting and disseminating best practices both at onsite meetings and virtually via –
   a. online forums/discussion boards
   b. virtual meetings/calls

Monitoring and Evaluation

WorkReady U operates a statewide compliance team that conducts an analysis of data and program performance through monthly data submissions and desk reviews. Based upon desk reviews, state staff request local data documentation according to a risk assessment determination. Follow-up onsite visits are conducted when warranted.

WorkReady U’s compliance team uses a risk-assessment model that incorporates six vital modules – data, recruitment/retention, classroom activities, records/reports, partnerships, and finance -- in an effort to model the USDE/OCTAE instrument and place emphasis on what is valued and consistent with the WRU mission. Onsite program visits include an examination of student files, student attendance records, and program data submitted through the statewide data management system. Monitoring reports are prepared after each onsite monitoring visit. Sites that are non-compliant/had findings receive recommendations for program improvements. Programs are given 30 days to prepare and submit a written plan of action describing the plan of resolution. WRU staff members are assigned to ensure all plans are adhered to and non-compliance addressed in a detailed follow-up process to ensure that a resolution has been determined and put into effect. Monitoring and evaluation outcomes are always tied to technical assistance efforts with local programs.

2. Describe how the State will use the funds to carry out permissible State Leadership Activities under section 223 of WIOA, if applicable

From funds made available under section 223, LCTCS, WorkReady U will provide permissible statewide leadership activities through the following services/activities.

1. Support Regional Resource Centers (RRC) that have been aligned with the Louisiana Workforce Development Board (LWDB) regions. Regional Resource Centers will promote the alignment of services between WorkReady U local programs and core partners and one-stop operators and serve as a hub for peer support and learning within the adult education network. The goals of the RRCs are to:
   a. facilitate professional development (PD) opportunities;
   b. provide resources and support; and
   c. offer technical assistance (TA) to increase student performance and program enrollment.
2. Provide grants to local programs to scale innovative practices in distance education and the use of instructional technology.

3. Develop and disseminate curricula, including curricula incorporating the essential components of reading instruction, that meet the following criteria:
   a. incorporation of workforce preparation standards;
   b. alignment with College and Career Readiness Standards;
   c. incorporation of digital literacy standards and activities;
   d. designed to be delivered in face-to-face, hybrid, and distance classroom settings; and
   e. developed to be an Open Educational Resource (OER) that is shareable across the WorkReady U network.

4. Operate a statewide framework for the development, growth, and implementation of models for integrated education and training that are aligned with local and regional workforce development plans.

f. Assessing Quality

Describe how the eligible agency will assess the quality of providers of adult education and literacy activities under title II and take actions to improve such quality, including providing the activities described in section 223(a)(1)(B) of WIOA.

Local providers are accountable to LCTCS, WorkReady U to meet the standards of quality for administration and instruction as outlined by WorkReady U. Program effectiveness, services, and activities of local recipients of funds are assessed through a systematic evaluation of local programs. Performance outcomes for each provider must meet or exceed the established levels of performance for each core measure each fiscal year to ensure the highest quality service to adult learners who participate in WorkReady U programs. WRU assesses the quality of providers of adult education and literacy activities through data reviews and on-site program reviews.

Performance Accountability assesses the effectiveness of grantees in achieving continuous improvement of adult education and literacy activities. The performance outcome measures shall consist of the following core indicators:

1. Measurable Skills Gains (MSGs);
2. The percentage of program participants who are in unsubsidized employment during the second quarter after exit from the program;
3. The percentage of program participants who are in unsubsidized employment during the fourth quarter after exit from the program;
4. The median earnings of program participants who are in unsubsidized employment during the second quarter after exit from the program;
5. The percentage of program participants who obtain either a recognized postsecondary credential or a secondary school diploma, or its recognized equivalent, during participation in or within one year of exit from the program;
6. The percentage of program participants who, during a program year, are in an education or training program that leads to a recognized postsecondary credential or employment and who are achieving measurable skill gains towards such a credential or employment; and
7. The indicators of effectiveness in serving employers established pursuant to clause (iv).

Setting Performance Targets
Each fiscal year Louisiana negotiates proposed target percentages for each of the core indicators of performance with the U.S. Department of Education, Office of Career, Technical and Adult Education (OCTAE). Each local eligible program is responsible for meeting or exceeding the negotiated performance targets. Each program shall analyze progress towards meeting the targets on an ongoing basis. Each program must utilize Louisiana approved standardized assessments that provide the framework needed to measure program effectiveness.

Data Collection and Analysis

Local programs are required to collect data on the program’s performance and are required to analyze it to determine progress towards meeting the targets and areas of improvement. Analysis should include a review of academic, employment, secondary credential, and postsecondary measures. Local programs must assure that the National Reporting System of Adult Education data quality standards are met.

Program Evaluation

The State evaluates the effectiveness of the adult education and literacy activities, based on the core performance measures, through activities and processes listed below. Strategies, processes, and barriers to attaining the performance levels are reviewed, as well as qualitative and quantitative data. The annual evaluation addresses the extent to which local providers implement the activities specified in Section 225, 231, and 243 of the Workforce Innovation and Opportunity Act.

The purpose of these activities, strategies, and processes is to assess the effectiveness of the State to achieve continuous improvement of adult education and literacy activities and to optimize the return on investment of Federal funds in adult education and literacy activities. The results of the evaluation will provide relevant information to determine the achievement of levels of performance for each of the core indicators for the local providers.

a. Data Collection. The state-approved Management Information System (MIS) shall be used by all eligible entities receiving funds under this title. Providers shall enter data monthly during a program year. Data will be reviewed for compliance with performance measures and expectations for the delivery of services as approved in the individual application. LCTCS and Louisiana Workforce Commission (LWC) will data match placement/wage data for students entered in the state-approved MIS.

LCTCS has instituted a comprehensive data system, Enterprise Resource Planning System (ERP), for all colleges. The ERP system will provide the capability to match data from disparate sources and produce analytical and actionable information to drive programmatic decisions.

Desk Monitoring: Desk monitoring is conducted once a year, at a minimum, by WRU staff. Desk monitoring relies primarily on data that is collected and reported by local programs in the statewide approved data management system. Using a structured format, local programs provide monthly data to the state office where state staff can review the data to guide program review activities, inform technical assistance, identify risk-assessment areas, and promote program improvement. The system can produce a series of reports that allow WRU staff to examine demographic, assessment, and academic information.

Programmatic/Fiscal Onsite Monitoring: WRU staff conduct formal monitoring visits of funded programs on a prescribed schedule each year. Programs are identified for onsite monitoring through a comprehensive risk analysis based on the following factors: (1) desk monitoring; (2) data quality and program expenditures; (3) consistent low performance on core indicators in several categories; (4) prospective noncompliance with grant requirements identified through review of programmatic and fiscal reports, or ongoing communications with the program; (4) unresolved audit findings; (5) ongoing lack of progress in resolving required actions from prior monitoring visit; (6) significant staff turnover in the program; and (7) recent or newly established programs.
The goals for State onsite monitoring visits are to: (1) ensure that implementation of the program service/activities as outlined in the RFP have been fully executed; (2) ensure that programs meet AEFLA requirements; (3) improve the quality of federally-funded activities; (4) provide assistance identifying and resolving accountability problems; and (5) ensure the accuracy, validity, and reliability of data collection and data reporting as well as policies and procedures for program accountability.

**Corrective Action Plan**

Upon completion of the review, a formal written report will be provided to the program administrator. If a program fails to meet performance goals or other state and/or federal programmatic requirements, a Corrective Action Plan (CAP) will be required to outline the course of action for program improvement. The local program will be given a period of 30 days to respond in writing to the findings. WRU provides technical assistance throughout the corrective process and by the end of a designated time frame, programs should be able to correct the identified issues, end their respective CAP and improve the quality of the program. WRU provides ongoing technical assistance, professional development, and other support until the required steps of the plans are completed.

Programs that fail to comply with grant requirements and regulations may not be eligible to receive funding in subsequent years of the cycle and/or funds may be terminated.

**Evaluation of Professional Development**

WorkReady U will assess the quality and effectiveness of its professional development activities through the feedback of its local programs (instructors, administrators, and support staff). Participant evaluations will be collected for all professional development activities. Participants will respond to items regarding:

- the training as a whole
  - objectives
  - materials
  - environment
  - presentation
- the immediate application in
  - classrooms
  - programs
  - workforce

State staff will review this information to plan for future trainings and potential technical assistance. The team will assess all professional development activities for:

- cost effectiveness;
- return on investment;
- transferability of skills/knowledge; and
- benefit of students/clients from Professional Development outcomes.

**Adult Education and Family Literacy Act Program Certifications**

States must provide written and signed certifications that:
The State Plan must include

1. The plan is submitted by the State agency that is eligible to submit the plan; Yes
2. The State agency has authority under State law to perform the functions of the State under the program; Yes
3. The State legally may carry out each provision of the plan; Yes
4. All provisions of the plan are consistent with State law; Yes
5. A State officer, specified by title in the certification, has authority under State law to receive, hold, and disburse Federal funds made available under the plan; Yes
6. The State officer who is submitting the plan, specified by the title in the certification, has authority to submit the plan; Yes
7. The agency that is submitting the plan has adopted or otherwise formally approved the plan; and Yes
8. The plan is the basis for State operation and administration of the program; Yes

Adult Education and Family Literacy Act Program Assurances

The State Plan must include assurances that:

1. The eligible agency will expend funds appropriated to carry out title II of the Workforce Innovation and Opportunity Act (WIOA) only in a manner consistent with fiscal requirements under section 241(a) of WIOA (regarding the supplement-not-supplant requirement); Yes
2. The eligible agency will ensure that there is at least one eligible provider serving each local area, as defined in section 3(32) of WIOA; Yes
3. The eligible agency will not use any funds made available under title II of WIOA for the purpose of supporting or providing programs, services, or activities for individuals who are not “eligible individuals” within the meaning of section 203(4) of WIOA, unless it is providing programs, services or activities related to family literacy activities, as defined in section 203(9) of WIOA; Yes
4. Using funds made available under title II of WIOA to carry out a program for criminal offenders within a correctional institution, the eligible agency will give priority to serving individuals who are likely to leave the correctional institution within five years of participation in the program. Yes
5. The eligible agency agrees that in expending funds made available under Title II of WIOA, the eligible agency will comply with sections 8301 through 8303 of the Buy American Act (41 U.S.C. 8301-8303). Yes

Authorizing or Certifying Representative

CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a
Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

**APPLICANT’S ORGANIZATION**

Applicant’s Organization

Louisiana Community and Technical College System

**PRINTED NAME AND TITLE OF AUTHORIZED REPRESENTATIVE**

First Name

Erin

Last Name

Landry
Section 427 of the General Education Provisions Act (GEPA)

In the text box below, describe the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs provide the information to meet the requirements of Section 427 of the General Education Provisions Act (GEPA), consistent with the following instructions posted at https://www2.ed.gov/fund/grant/apply/appforms/gepa427.doc.

As required in Section 427 of GEPA, each applicant provided a description of the agency’s process to ensure equitable access to and participation in, the WIOA Title II adult education program for students, teachers, and other program beneficiaries with special needs. LCTCS has approved state policies that provide for equal opportunity for all qualified persons without regard to disability in the recruitment of, admission to, accessibility to, participation in, treatment in or employment in the programs and activities operated and sponsored by the Louisiana Community and Technical College System. LCTCS approved state policies are mandates for the LCTCS state office and all programs and activities funded by LCTCS, inclusive of WIOA Title II grantees. Compliance with Section 427 of GEPA is included in the on-site review process.

Adult Education and Literacy Program Performance Indicators

Performance Goals for the Core Programs

Each state submitting a Unified or Combined State Plan is required to identify expected levels of performance for each of the primary indicators of performance for the first two years covered by the plan. The state is required to reach agreement with the Secretary of Labor, in conjunction with the Secretary of Education, on state-negotiated levels of performance for the indicators for each of the first two years of the plan.

For Program Year (PY) 2016-2019 plans, the Departments used the transition authority under section 503(a) of WIOA to designate certain primary indicators of performance as “baseline” indicators to ensure an orderly transition from the requirements of the Workforce Investment Act of 1998 to those under WIOA. A “baseline” indicator was one for which states did not propose an expected level of performance and did not come to agreement with the Departments on negotiated levels of performance because sufficient data was not available to establish such performance levels. As a result, “baseline” indicators were not used in the end of the year adjustment of performance levels and were not used to determine failure to meet adjusted levels of performance for purposes of sanctions. The Departments designated indicators as “baseline” based on the likelihood of a State having insufficient data with which to make a reasonable determination of an expected level of performance.

For PYs 2020-2023 Plans, Title I programs (Adult, Dislocated Worker, and Youth) and the Title II program (Adult Education and Family Literacy Act) will have two full years of data available to make reasonable determinations of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
• Employment (Fourth Quarter after Exit);
• Median Earnings (Second Quarter after Exit);
• Credential Attainment Rate; and
• Measurable Skill Gains

The Wagner-Peyser Act Employment Service program, authorized under the Wagner-Peyser Act, as amended by title III of WIOA, will have two full years of data available to make a reasonable determination of expected levels of performance for the following indicators for PY 2020 and PY 2021:

• Employment (Second Quarter after Exit);
• Employment (Fourth Quarter after Exit); and
• Median Earnings (Second Quarter after Exit)

The Credential Attainment Rate and Measurable Skill Gains indicators do not apply to the Wagner-Peyser Act Employment Service program; therefore, this program will not submit expected levels of performance for these indicators.

For the first two years of PYs 2020-2023 Plans, the Vocational Rehabilitation (VR) program, authorized under title I of the Rehabilitation Act of 1973, as amended by title IV of WIOA, will have two full years of data available for the Measurable Skill Gains indicator only. Therefore, the Departments will designate the following indicators as “baseline” for the VR program for PY 2020 and PY 2021:

• Employment (Second Quarter after Exit);
• Employment (Fourth Quarter after Exit);
• Median Earnings (Second Quarter after Exit); and
• Credential Attainment Rate

VR agencies must continue to collect and report on all indicators, including those that have been designated as “baseline, pursuant to section 116(d) of WIOA.” The actual performance data reported by these programs for indicators designated as “baseline” for PY 2020 and PY 2021 will serve as baseline data in future years. The Departments will require VR agencies to submit expected levels of performance for these indicators for PY 2022 and PY 2023.

The Departments determined that the Effectiveness in Serving Employers indicator will be measured as a shared outcome across all six core programs within each state to ensure a holistic approach to serving employers. The Departments will continue piloting approaches for measuring this indicator for the first two years of PY 2020-2023 plans. Therefore, states are not required to submit an expected level of performance for the Effectiveness in Serving Employers indicator for PY 2020 and PY 2021. However, core programs are expected to collect data and report on this indicator for PY 2020 and PY 2021 as they did for PYs 2016-2019 plans.

Each core program must submit an expected level of performance for all of the other indicators, as applicable, with the exception of the four indicators designated as “baseline” for the VR program in PY 2020 and PY 2021. The Departments will work with states during the negotiation process to establish negotiated levels of performance for each of the primary indicators for the core programs not listed as “baseline.” Each state must update its plan to include the agreed-upon negotiated levels of performance before the Departments approve a state’s plan.

States may identify additional indicators in the plan, including additional approaches to measuring Effectiveness in Serving Employers, and may establish levels of performance for each of the state indicators. Please identify any such state indicators under Additional Indicators of Performance.

Program-Specific Requirements for Vocational Rehabilitation (Combined or General)

The Vocational Rehabilitation (VR) Services Portion of the Unified or Combined State Plan [13] must include the following descriptions and estimates, as required by section 101(a) of the Rehabilitation Act of 1973, as amended by title IV of WIOA:

[13] Sec. 102(b)(2)(D)(iii) of WIOA

a. Input of State Rehabilitation Council

All agencies, except for those that are independent consumer-controlled commissions, must describe the following:

1. Input provided by the State Rehabilitation Council, including input and recommendations on the VR services portion of the Unified or Combined State Plan, recommendations from the Council’s report, the review and analysis of consumer satisfaction, and other Council reports that may have been developed as part of the Council’s functions;

The Louisiana Rehabilitation Council (LRC), which is the state rehabilitation council, met with Louisiana Rehabilitation Services (LRS) quarterly as a part of the council meeting. During these meetings, LRS provided quarterly updates, and LRC provided input and recommendations to LRS. The LRC incorporates public forums, consumer/counselor interviews, etc., to ensure the services provided by LRS meet the needs of Louisiana’s citizens with disabilities. The LRC uses a committee structure to provide focused review and comment to LRS. These committees are: the Executive committee; the Eligibility and Planning committee; the Employment committee and the Transition committee. Much of the interaction included exchanges of information in order to achieve greater
The following is a list of activities and accomplishments of LRC for the period from July 1, 2018 to June 30, 2019:

- The LRC produced the FFY 2018-2019 Annual Report which included its accomplishments, as well as consumer success stories.
- Invited current and former VR recipients to attend each SRC meeting with their VR counselors to share their success stories.
- LRS staff made numerous presentations to Council for education of programs and services offered.
- Council members received a report from LRS Director at each regularly scheduled LRC meeting. Council members asked questions and were provided direct input from the LRS Director and other State Office staff.
- LRC provided feedback and input regarding proposed changes to the LRS Technical Assistance and Guidance Manual.
- The Louisiana Workforce Commission webpage continues to be utilized to distribute information about Council activities to include quarterly meeting locations and public forums.
- LRC ensured public comments were welcomed and encouraged by including meeting agenda item and timeframe at all meetings.
- Vocational Rehabilitation (VR) consumers are invited to speak to the Council to discuss their experiences regarding VR service provision. The LRC continued to provide a forum for consumers and the public the opportunity to openly discuss LRS services and to offer suggestions for improved service delivery. The Council provided feedback to LRS on these ideas and concerns.
- The Executive Committee of the SRC continued recruitment of new members, filling seats vacated by outgoing members.
- The LRC was educated and updated on the changes on the Medicaid Waivers through the LDH (Louisiana Department of Health).
- LRC working on the feasibility of LRS adding the “Employment Retention Program” where individuals with disabilities and are working would be exempt from the Order of Selection to help ensure that they would retain their employment.
- LRC Members attended the Louisiana Rehabilitation Association Conference and the Council of State Administrators of Vocational Rehabilitation (CSAVR) Conference in Bethesda, Maryland.
- The LRC educated State Legislators during the 2019 Legislative Session on the VR program and the services that benefit the State of Louisiana and its citizens with disabilities.
- LRC provided feedback and input regarding the Comprehensive Statewide Needs Assessment.
- The LRC reviewed copies of due process hearing decisions.
- The Council coordinated their July 2019 meeting with the Annual Governor’s Office of Disability Affairs Conference.
- LRC members are active with other boards and groups statewide that include, but are not limited to, the Statewide Independent Living Council, Governor’s Advisory Council on
2. The designated State unit's response to the Council's input and recommendations; and

The following is a summary of the input and recommendations made from July 1, 2018 through June 30, 2019. Recommendations are transmitted to LRS both verbally at LRC meetings and in writing throughout the year by committee reports and the LRC minutes.

LRS appreciates the input, partnership, and ongoing dialogue with LRC throughout the year, and will continue to provide updates to the LRC on progress made toward implementation of recommendations.

LRS rejected the Council's recommendation that LRS consider posting online a list of CRP vendors by region due to the agency not having the system software needed to efficiently keep a statewide vendor list updated online. The Council was made aware that each Regional office maintains a current vendor list that is provided to consumers to assist them in informed choice throughout the VR process.

b. Request for Waiver of Statewideness

When requesting a waiver of the statewideness requirement, the designated State unit must identify the types of services to be provided by the program on a non-statewide basis. The waiver request must also include written assurances that:
1. A local public agency will provide the non-Federal share of costs associated with the services to be provided in accordance with the waiver request;

Louisiana Rehabilitation Services is requesting approval for a waiver of statewideness in accordance with 34 CFR Section 361.26 for the following Third Party Cooperative Arrangements:

LRS has eleven (11) Third Party Cooperative Arrangements (TPCAs) established with separate School Districts in Grant, Bossier, Evangeline, Livingston, DeSoto, Natchitoches and Franklin Parishes as well as with Collegiate Academies Charter Schools, Sci Academy, Livingston Collegiate, GW Carver and Virtual Academy of Lafourche. Through these TPCAs, a Transition Specialist provides the required Pre-Employment Transition Services to students with disabilities.

2. The designated State unit will approve each proposed service before it is put into effect; and

By entering into a contractual agreement in which LRS has approved each proposed service, the TPCA Contractors are assuring they will provide the non-federal matching funds. All vocational rehabilitation services provided under this waiver are provided under approved services listed in the specific TPCA and authorized by the consumer’s VR counselor.

3. Requirements of the VR services portion of the Unified or Combined State Plan will apply to the services approved under the waiver.

The Third Party Cooperative Arrangement (TPCA) Contractors assure that all State Plan requirements, including the potentially eligible Pre-Employment Transition Services (Pre-ETS) or Order of Selection will apply to all individuals receiving services through the agreement.

TPCAs are monitored monthly to determine that students meet the definition of a student with a disability and services provided meet the definition of Pre-ETS required activities. TPCA contractors are required to provide monthly invoices and supporting documentation (Attendance and Progress Reports). TPCA contractors are monitored annually to insure they are meeting all contract deliverables.

Regional Managers, District Supervisors, Rehabilitation Counselors and Rehabilitation Counselor Associates assure VR service requirements are met according to the LRS Technical Assistance and Guidance Manual procedures written and updated by LRS State Office personnel and monitored by LRS Quality Assurance division.

c. Cooperative Agreements with Agencies Not Carrying Out Activities Under the Statewide Workforce Development System

Describe interagency cooperation with and utilization of the services and facilities of agencies and programs that are not carrying out activities through the statewide workforce development system with respect to:

1. Federal, State, and local agencies and programs;

LRS has appropriate cooperative arrangements with, and uses the services and facilities of, various federal, state, and local agencies and programs. LRS coordinates with other agencies and programs.
to ensure individuals with disabilities receive appropriate services. These agencies and programs include:

- Louisiana Department of Education, Division of Special Populations - Collaboration, outreach, responsibilities and means between LRS and LDE for which every student with a disability is informed of, offered and/or provided VR services.

- Louisiana Department of Health, Office of Behavioral Health (OBH) – Collaboration and responsibilities of LRS and OBH who are jointly responsible for meeting the needs of consumers with mental illness, including youth with most significant disabilities, for whom supported employment is the most appropriate service.

- Department of Veteran Affairs – Collaboration to improve employment outcomes for disabled veterans through providing maximum benefits and services.

- Louisiana Workforce Commission, Unemployment Insurance – Collaboration to exchange Louisiana wage data and import into AWARE.

- Louisiana Department of Health, Office for Citizens with Developmental Disabilities (OCDD) - Collaboration and responsibilities of LRS and OCDD who are jointly responsible for meeting the needs of consumers with intellectual/developmental disabilities, including youth with most significant disabilities, for whom supported employment is the most appropriate service.

- Governor’s Office of Disability Affairs – Collaboration to provide support to the Statewide Independent Living Council operations, staff salary, travel, and activities of the SILC.

- Social Security Administration – Collaboration to exchange data with SSA for Ticket to Work cost reimbursement purposes.

- Louisiana Workforce Commission, Employment Network, Partnership Plus Agreement – Collaboration to provide services and supports to assist individuals with disabilities in achieving long-term employment success.

- Central Louisiana Intertribal Vocational Rehabilitation Program (Title 121) – Collaboration and responsibilities of each party in providing VR services to tribal members with disabilities.

- United Houma Nation (Title 121) – Collaboration and responsibilities of each party in providing VR services to tribal members with disabilities.

- Tunica-Biloxi Tribe of Louisiana (Title 121) – Collaboration and responsibilities of each party in providing VR services to tribal members with disabilities.

- U.S. Department of Labor State Wage Interchange System - Collaboration to exchange U.S. wage data and import into AWARE.

2. State programs carried out under section 4 of the Assistive Technology Act of 1998;

LRS partners with the Louisiana Assistive Technology Access Network (LATAN) under the Assistive Technology Act of 1998 to provide client referral to their Assistive Technology Market Place, peer-to-peer information sharing, and information and referral for other assistance such as the secured loan financing program that helps consumers obtain financing for assistive technology.

3. Programs carried out by the Under Secretary for Rural Development of the Department of Agriculture;

At this time, Louisiana Rehabilitation Services (LRS) is not aware of any interagency cooperation on the utilization of services and facilities of the programs carried out by the Undersecretary for Rural
Development of the U. S. Department of Agriculture. Please be advised, that if such agreements are initiated, LRS will amend this section.

4. Non-educational agencies serving out-of-school youth; and

At this time, Louisiana Rehabilitation Services (LRS) is not aware of any interagency collaboration with non-educational agencies serving out-of-school youth. However, LRS will be determining potential collaboration with the local American Job Centers who are serving out-of-school youth to assist with increasing successful employment outcomes within the state for youth with disabilities. LRS is not currently working with any juvenile justice youth programs serving out-of-school youth.

5. State use contracting programs.

The LRS Director has recently been appointed to the State Use Council and will be attending meetings. Louisiana Rehabilitation Services (LRS) will be exploring the possibilities of collaborating with the State Use programs to utilize their services and facilities. If such agreements are initiated, LRS will amend this section. LRS does not currently have an active agreement with the State Use program.

d. Coordination with Education Officials

Describe:

1. The designated State unit’s plans, policies, and procedures for coordination with education officials to facilitate the transition of students with disabilities from school to the receipt of VR services, including pre-employment transition services, as well as procedures for the timely development and approval of individualized plans for employment for the students

Louisiana Rehabilitation Services (LRS) continues to provide transition or post-school training services for those youth with disabilities leaving the secondary education system and who are pursuing employment opportunities in adult life. This is accomplished by reviewing, updating, and renewing the formal interagency agreement between LRS and the Louisiana Department of Education (LDE) as needed based upon both agencies’ policy and/or procedure changes; ongoing collaboration; joint development and evaluation of goals, and specialized training for both LRS and LDE staff.

LRS policy requires the development and approval of the Individualized Plan for Employment (IPE) for eligible students who have official transition plans in place with the state education system. The IPEs are to be developed as early as possible in the transition process, but at the latest, by the time each Vocational Rehabilitation (VR) eligible student leaves the high school setting.

The formal interagency agreement provides for initial contact to be made with the transition student as early as age sixteen. This is accomplished by the development of criteria and timelines for an effective and efficient referral process; provision of orientation and information sessions for students and their families; and LRS counselors determining transition students’ eligibility for VR services within the timelines established by policy.

For each student determined eligible for services, every effort will be made to ensure those who are in an Order of Selection (OOS) Category currently being served by LRS leave the school system with an approved IPE in place that incorporates appropriate segments of the Individualized Education Plan (IEP) and projected employment needs, as applicable.
The Louisiana Workforce Commission (LWC)/LRS and the LDE will establish and maintain communication with appropriate agency stakeholders regarding necessary collaborative efforts that improve the quality of transition services at the state, regional, and local levels. Parties will exchange records and information on mutually served students/consumers as needed in strict compliance with all applicable policies governing consent and confidentiality including any and all polices established with individual Local Education Agencies (LEAs).

LWC/LRS and the LDE, in accordance with the terms of this agreement, recognize the need to provide Pre-Employment Transitions Services on a cooperative basis for students with disabilities who are applicants for, or recipients of, LRS services, attending LDE secondary schools, who fall under the Order of Selection Group that LRS is currently serving, as stated in the State Plan. The aforementioned students should only receive Pre-ETS if they are potentially eligible for VR services, if the LDE has received certification from LRS that the student has been determined eligible for Pre-ETS services, and students meet the Workforce Innovation and Opportunity Act (WIOA) definition of Student with Disability.

The LWC/LRS and LDE will collaborate to provide outreach information to all eligible students with disabilities, including but not limited to, a description of the vocational rehabilitation program, eligibility requirements, application procedures and the scope of services provided.

2. Information on the formal interagency agreement with the State educational agency with respect to:

A. Consultation and technical assistance to assist educational agencies in planning for the transition of students with disabilities from school to post-school activities, including VR services;

LRS continues to renew and revise existing local cooperative agreements, as applicable, with the 70 school districts and 146 Charter Schools in Louisiana.

Consultation and technical assistance is provided to educational agencies in a variety of ways. VR Counselors attend IEP meetings to provide recommendations/guidance on adult services available to transitioning students, provide information relative to the VR process, and relay information regarding various training options available within the community. LRS has access to alternative means for meeting participation, such as video conferences and conference calls, to assist educational agencies in planning for the transition of students with disabilities from school to post-school activities.

The State Office Transition Program Coordinator provides consultation and technical support statewide to the field Transition VR Counselors in a variety of methods - to include information on webinars, conference calls, and video conferences - updates of best practice techniques gathered from WINTAC and Transition Core Team meetings. The Program Coordinator also updates LRS' procedures for provision of transition services/activities and conducts training of staff statewide.

B. Transition planning by personnel of the designated State agency and educational agency that facilitates the development and implementation of their individualized education programs;

The Program Coordinator works collaboratively with LDE Transition Coordinator in planning for the transition of students with disabilities from school to post-school activities including VR services. Both agencies share responsibility to coordinate the provision of services, conduct outreach, and identify financial responsibility as needed. The LDE will assure that all students with disabilities and their families have knowledge of LRS policies and services including brochures and promotional information supplied by LRS. Information dissemination begins with the writing of the transition service page and continues through referral to LRS. Local Education Agencies (LEAs) also invite LRS
representatives to IEP meetings at the students’ request, when a transition service page is being written for a student with a disability who may be eligible for and/or interested in VR services;

- facilitate appropriate orientation meetings among LRS staff, student and family members;

- provide time for LRS staff to meet with teachers, guidance counselors, and other appropriate personnel for such purposes as information sharing/gathering at both the individual and agency levels; and

- assist in the development, provision, and evaluation of interagency vocational assessment processes and functional vocational transition programs.

School Districts that have entered into a third party cooperative arrangement with LRS for aTransition Specialist will have direct services provided to students with disabilities who are applicants and eligible LRS. LRS collaborated with Bossier, Grant, Franklin, Evangeline, Livingston, DeSoto, and Natchitoches Parishes, as well as with Collegiate Academies Charter Schools, Sci Academy, Livingston Collegiate, GW Carver and independent school system, Virtual Academy of Lafourche, in the implementation of third party cooperative arrangements to provide Pre-Employment Transition Services. All of these TPCAs are still active.

C. Roles and responsibilities, including financial responsibilities, of each agency, including provisions for determining State lead agencies and qualified personnel responsible for transition services;

Current LRS policy and guidelines address the allocation of 15% of State’s VR allotment for the provision of services of Pre-Employment Transition Services (Pre-ETS) to high school students with disabilities between the ages of 16 - 21 who are eligible or potentially eligible for VR services. The required activities of Pre-ETS are workplace readiness training, job exploration counseling; work-based learning experiences; counseling on opportunities for enrollment in comprehensive transition or postsecondary education programs at institutions of higher education; and instruction in self-advocacy. LRS assigned vendors to work with each high school statewide not having a TPCA with LRS to make Pre-ETS services available to students who receive IDEA funds or students who are an individuals with a disability for the purposes of section 504 of the Act (29 U.S.C.794).

The LWC/LRS and LDE have a State-Level agreement outlining agency responsibilities regarding the provision of Pre-ETS and VR services related to the achievement of the agreed-upon vocational goals for those participants who are potentially eligible for Pre-ETS or have an approved IPE within the Louisiana Public School System. This agreement includes a coordinated documentation process whereby students who are known to be seeking subminimum wage employment will be provided documentation of services as specified by 34 CFR 397 including: (1) completion of transition services provided by the Department of Education (DOE) under the Individuals with Disabilities Education Act (IDEA); (2) Provision of Pre-ETS provided by LRS; and (3) application for VR services. Students who become eligible and are provided services by LRS under an approved IPE who are unable to achieve an employment outcome despite reasonable accommodations and appropriate supports provided with services for a reasonable period of time will be provided career counseling and information and referrals to other applicable resources as appropriate; the case record will be closed and documentation will be provided to the youth within 30 calendar days. If a youth is determined ineligible for services, LRS will provide career counseling along with information and referral. Documentation will be provided to the youth within 30 calendar days. For youth seeking subminimum wage employment who refuse participation in Pre-Employment Transition Services, LRS will document the youth's refusal of services and provide documentation to the youth within 10 calendar days and the youth will not be able to pursue subminimum wage employment. The agreement does not reduce the obligation under IDEA of a Local Education Agency (LEA) or any other agency to provide or pay for transition services, including pre-employment transition services. The LDE and LEA will use appropriate federal, state, and local funds for the provision of educational services on the approved IEP that relates directly to the achievement of the agreed-upon educational goal.
D. Procedures for outreach to and identification of students with disabilities who need transition services.

Outreach is conducted by VR Counselors to identify students with disabilities through the following methods:

LRS Transition Counselors in each region meet with a school liaison, usually the guidance counselor, to provide information regarding LRS services. The school liaison relays the information to students with disabilities and coordinates the student's initial meeting with the LRS Transition Counselor.

LRS Transition Counselors conduct outreach by hosting transition meetings at area high schools to provide information about VR services and to accept referrals. Information disseminated at these meetings includes LRS brochures, client handbooks describing the VR processes/services, and referrals to other community resources students may need to access. Counselors work with the students, parents and educators to plan services needed for successful transition from school to work from the point that the student with a disability is identified.

Counselors attend “Career Days” at the high schools to share information with transition students on available services that may identify career goals and to share information regarding services available to assist them in reaching their goals.

e. Cooperative Agreements with Private Nonprofit Organizations

Describe the manner in which the designated State agency establishes cooperative agreements with private non-profit VR service providers.

The Office of Workforce Development/Louisiana Rehabilitation Services (LRS) establishes fee-for-service cooperative agreements with private non-profit vocational rehabilitation service providers and/or Community Rehabilitation Providers (CRPs) through a vendorship approval process. This process is initiated at the Regional Office level when it is determined the services are needed in the region.

The potential service provider is given a copy of the CRP standards and vendorship approval guidelines and must agree to comply with these guidelines. The guidelines include adherence to 504 and 508 Accessibility, education and training certifications and other procedural standards related to quality services and payment for services. The application for vendorship is submitted to State Office by the Regional Manager, along with a recommendation of approval or disapproval of the program.

The need for new, improved or expanded services is identified through a variety of methods. These include needs identified through the comprehensive statewide needs assessment, regional shortages of service providers, increases in specific service needs, and needs identified as a result of changes in processes.

All rates are set by a rate-setting process in the fiscal section, are consistent statewide, and are reimbursed through a fee-for-service.

f. Arrangements and Cooperative Agreements for the Provision of Supported Employment Services

Describe the designated State agency’s efforts to identify and make arrangements, including entering into cooperative agreements, with other State agencies and other appropriate entities in order to provide supported employment services and extended employment services, as applicable, to individuals with the most significant disabilities, including youth with the most significant disabilities.
Louisiana Rehabilitation Services (LRS) will maintain cooperative agreements on file with the Louisiana Department of Health (LDH), Office of Behavioral Health (OBH) and Office of Citizens with Developmental Disabilities (OCDD), which ensures proper utilization of resources under the Title VI, Part C Program. These agreements are written to comply with the content requirements in 34 CFR 363.50(b) outlining each agency's responsibility in reference to the supported employment program.

A description of each agreement follows:

OFFICE OF BEHAVIORAL HEALTH (OBH)

LRS and the OBH are jointly responsible for meeting the needs of consumers with mental illness, including youth with the most significant disabilities, for whom supported employment is the most appropriate service. OBH will refer individuals with behavioral health conditions in need of LRS services in order to achieve a competitive and integrated employment outcome. LRS will fund the Job Coach Model and Evidenced-Based Employment Service Model for the chronically mentally ill to provide supported work services that will assist these consumers in achieving competitive integrated employment. These services will be provided, either directly or through a service provider, to these individuals and will include: (1) ongoing support services including customized employment, (2) assessment of employment stability and transition to extended services and; (3) extended follow-along services for youth with the most significant disabilities in supported employment for a period not to exceed four years or until the youth turns age 25.

Approximately two hundred and fifty (250) consumers could be referred to LRS by OBH for employment services during each fiscal year. Once eligibility for supported employment services has been determined and an Individualized Plan for Employment (IPE) for supported employment services has been developed by LRS, there is continued collaboration with OBH to ensure that services are provided in an effective manner. OBH assists with the provision of training on behavioral health services upon request by LRS to enhance the quality of services provided to individuals with behavioral health conditions seeking competitive integrated employment. The IPE shall specify the responsibilities of all parties involved in the supported employment program for the individual and shall include reporting requirements for both agencies.

During the operational phase, LRS is responsible for the provision of services as outlined in the agreement. The LRS vendor (service provider) is responsible for the actual provision of ongoing supports, transition to extended follow-along, and for the provision of extended services not funded by LRS as well as extended services funded by LRS for youth with the most significant disabilities up to 4 years or until the youth turns age 25. Any problems which might impact the ultimate success of the job placement shall be immediately brought to the attention of LRS and the OBH. LRS shall maintain an open, active case on each consumer in accordance with definitions and guidelines which have been accepted for each of the program models.

LRS agrees to re-open a consumer's case at any point where additional long-term intensive training is needed, (i.e. consumer loses job and must be retrained, consumer promoted or consumer assigned new responsibilities).

OFFICE OF CITIZENS WITH DEVELOPMENTAL DISABILITIES (OCDD)

LRS and the OCDD are jointly responsible for meeting the needs of consumers with intellectual/developmental disabilities, including youth with the most significant disabilities, for whom supported employment is the most appropriate service. LRS will fund the Job Coach Model and Evidenced-Based Employment Service Model for individuals with intellectual/developmental disabilities to provide supported work services that will assist these consumers in achieving competitive integrated employment. These services will be provided, either directly or through a service provider, to these individuals and will include: (1) ongoing support services including customized employment, (2) assessment of employment stability and transition to extended services and; (3) extended follow-along services for youth with the most significant disabilities in supported employment when funding from waiver services are not available, for a period not to exceed four years or until the youth turns age 25. The OCDD will provide extended services for consumers who receive Medicaid Waiver services and have identified extended services as needed on their plan of
care, if this service is available in their waiver. When individuals with intellectual/developmental disabilities who receive waivers and are interested in competitive integrated employment, are denied LRS services or are determined eligible for LRS services in an Order of Selection category not currently being served the OCDD will provide Supported Employment services.

Approximately three hundred (300) consumers could be referred by OCDD for supported employment services during each year. Once eligibility for supported employment services has been determined and an Individualized Plan for Employment (IPE) for supported employment services has been developed by LRS, there is continued collaboration with OCDD to ensure that services are provided in an effective manner. If extended services are not confirmed, there must be a reasonable expectation that supports, including natural supports will become available. The IPE shall specify the responsibilities of all parties involved in the supported employment program for the individual and shall include reporting requirements for both agencies.

The LRS counselor, the service provider, and the consumer are principal participants in the provision of services prior to job placement. OCDD is available for consultation and referral, etc. The LRS counselor will attend Person-Centered Planning meetings as needed.

During this phase, LRS is responsible for the provision of services as outlined in the agreement. The LRS vendor (service provider) is responsible for the actual provision of ongoing supports, transition to extended follow-along, and for the provision of extended services not funded by LRS as well as extended services funded by LRS for youth with the most significant disabilities up to 4 years or until the youth turns age 25 when waiver funding is not available. The service provider shall immediately bring any problems, which might impact upon the ultimate success of the job placement, to the attention of LRS and OCDD.

LRS agrees to re-open a consumer’s case at any point where additional intensive training is needed and is justified in writing, subject to availability of funds. LRS is working with partner agencies to amend and update agreements.

MONITORING AND EXPANSION

1. LRS will monitor the services provided within the guidelines of the existing cooperative agreements and evaluate if modifications will be needed when they are renegotiated.

2. LRS will endeavor to provide access to these individuals by establishing agreements with non-profit organizations and/or community or state agencies including the following:

- Social Security Administration
- Louisiana Department of Education
- Office of Workforce Development
- Employment Network of Louisiana
- Associations for Citizens with Disabilities
- Title VII, Independent Living Centers
- Other volunteer organizations and/or resources

3. LRS will work towards establishing relationships with employers through the National VR Business Network, Community Rehabilitation Program - Rehabilitation Continuing Education Program, Business Advisory Committees, Business Leadership Networks, other Networks, and Councils to establish collaboration with businesses and corporations in order to facilitate natural supports at the job site.

g. Coordination with Employers
Describe how the designated State unit will work with employers to identify competitive integrated employment and career exploration opportunities in order to facilitate the provision of:

1. VR Services; and

Louisiana Rehabilitation Services will continue to uphold the achievement of competitive integrated employment for individuals with disabilities. Our Vocational Rehabilitation Program sets out to accomplish this task by building relationships with employers in the communities and various cities in the state of Louisiana. In order to form these connections, LRS Rehabilitation Employment Development Specialists (REDS) continue to build these relations by first gaining an understanding of what the business and workforce needs are in each area of the state. This is done by expanding our outreach to the business community and then by referring or recommending those clients that will fit their workforce needs.

LRS staff are involved with the Workforce Development Area Board meetings and have formed relationships with LWCs’ Industry Coordinators which helps to identify workforce needs in various sectors. The Industry Coordinator analyzes and acquires knowledge about the full range of existing business solutions and identifies and defines talent pipelines and skill paths to promote sector employment to job seekers. The Program Coordinator over employment initiatives provides further technical assistance to the REDs to assist them in outreach efforts to businesses and their Human Resource Management Teams. Outreach efforts include attendance at local and regional job fairs, Chamber of Commerce meetings and the Society of Human Resource Management monthly meetings. REDS also contact numerous employers every month in an effort to identify workforce needs and determine if we have consumers that are job ready and meet the qualifications for positions available. After the REDs or the Employment Specialists place the consumers in competitive and integrated employment, they continue to work with the business and the consumer, ensuring the employment opportunity is a good fit for both.

2. Transition services, including pre-employment transition services, for students and youth with disabilities.

Students with disabilities are provided access to local employers through Third Party Cooperative Arrangements (TPCAs) and Community Rehabilitation Program staff to enable them to obtain information about employment opportunities, to participate in Employer Site Visits, participate in Job Shadowing and Internships, and to participate in Work-Based Learning Experiences.

LRS has eleven (11) Third Party Cooperative Arrangements (TPCAs) established with separate School Districts in Grant, Bossier, Evangeline, Livingston, DeSoto, Natchitoches and Franklin Parishes as well as with Collegiate Academies Charter Schools, Sci Academy, Livingston Collegiate, GW Carver and Virtual Academy of Lafourche. Through these TPCAs, a Transition Specialist provides the required Pre-Employment Transition Services to students with disabilities.

LRS assigned Community Rehabilitation Providers (CRPs) to each public high school statewide not having a TPCA with LRS, including Charter schools, to make Pre-ETS services available to students who receive special education services through IDEA funds or students who are considered individuals with disabilities for the purpose of section 504 of the Act (29 U.S.C. 794). Assigned CRPs provide work readiness and identify employers in the area to give students opportunities for work-based learning experiences.

In PY 2019, LRS will partner with DOW Chemical, The Iberville ARC and the Iberville Parish School System to hold Louisiana’s first Project SEARCH initiative. DOW will host 6 – 8 transition students with disabilities as interns and will provide a minimum of three different work environments to enable these students to learn while on the job. This initiative will expand the students’ skill sets and allow them to have work experience in their community. LRS has another potential employer interested in starting a Project SEARCH site.
LRS also has been part of the State as a Model Employer (SAME) initiative which was started to increase the number of persons with disabilities employed in State government. A point of contact has been established with each state agency to coordinate hiring of individuals with disabilities. This initiative will benefit students with disabilities by enabling them to interview for and be considered for state employment once they are job ready.

h. Interagency Cooperation

Describe how the designated State unit will collaborate with the State agency responsible for administering each of the following programs to develop opportunities for competitive integrated employment, to the greatest extent practicable:

1. The State Medicaid plan under title XIX of the Social Security Act;

Louisiana Rehabilitation Services (LRS) works collaboratively with the State Medicaid Plan housed within the Louisiana Department of Health (LDH). LRS will maintain a memorandum of understanding with LDH in order to ensure proper utilization of resources and continue to explore all available opportunities for employment in integrated settings.

2. The State agency responsible for providing services for individuals with developmental disabilities; and

Louisiana Rehabilitation Services (LRS) works collaboratively with the Office of Citizens with Developmental Disabilities (OCDD) housed within the Louisiana Department of Health (LDH). LRS will maintain a memorandum of understanding with LDH in order to ensure proper utilization of resources and continue to explore all available opportunities for employment in integrated settings. This collaboration will provide a means to identify individuals with intellectual/developmental disabilities who are interested in achieving competitive integrated employment and who require intensive services and supports to achieve an employment outcome.

LRS and (OCDD) share a common goal to increase opportunities for employment in the community with competitive wages and opportunities for advancement, for the citizens of Louisiana who have intellectual/developmental disabilities, that is sought by mutual cooperation, shared resources, elimination of procedural barriers that impact respective goals, and increased understanding and communication across service systems.

3. The State agency responsible for providing mental health services.

Louisiana Rehabilitation Services (LRS) works collaboratively with the Office of Behavioral Health (OBH) housed within the Louisiana Department of Health (LDH). As part of the Employment First State Leadership Mentoring Program (EFSLMP) Vision Quest (VQ) grant, LRS and OBH developed a memorandum of understanding (MOU) to improve collaboration amongst offices and employment outcomes for individuals with mental illness. Facilitated discussions about existing services systems and potential service barriers encouraged input from engaged stakeholder organizations such as LDH Medicaid, LA Office of Workforce Development, LA Office for Citizens with Developmental Disabilities, Developmental Disabilities Council, LA Governor’s Office of Disability Affairs and the Advocacy Center. In PY 2019, LRS, OBH, and other state partners will receive technical assistance under the US Department of Labor’s Office of Disability Employment Policy (ODEP) Initiative: Visionary Opportunities to Increase Competitive Employment (VOICE) to increase integrated employment for individuals with mental health disabilities. One focus of the TA will assist LRS and OBH in the operationalization and implementation of the activities agreed upon in the MOU.
i. Comprehensive System of Personnel Development; Data System on Personnel and Personnel Development

Describe the designated State agency's procedures and activities to establish and maintain a comprehensive system of personnel development designed to ensure an adequate supply of qualified State rehabilitation professional and paraprofessional personnel for the designated State unit, including the following:

1. System on Personnel and Personnel Development

A. Qualified Personnel Needs

Describe the development and maintenance of a system for collecting and analyzing on an annual basis data on qualified personnel needs with respect to:

i. The number of personnel who are employed by the State agency in the provision of VR services in relation to the number of individuals served, broken down by personnel category;

In order to assess the need for qualified personnel, LRS has developed and maintains a database which includes information on the number of rehabilitation personnel providing VR services, and the ratio of the number of personnel needed to adequately provide VR services statewide.

LRS is geographically divided into eight (8) regions within the state. In PY 2018, LRS had a staff of 180, of which 77 were Rehabilitation Counselors with an average caseload size of 149 consumers. LRS provided services to 18,105 VR and 5,046 Pre-ETS consumers. Of the individuals receiving services, the Rehabilitation Employment Development Specialists (REDS) provided direct job placement services to 155 consumers. One thousand, three hundred and eighty-four (1,384) consumers exited the VR program achieving an employment outcome. This does not include Pre-ETS consumers.

ii. The number of personnel currently needed by the State agency to provide VR services, broken down by personnel category; and

At this time, in an effort to adequately serve and meet the needs of consumers in all Order of Selection categories currently being served, LRS needs additional staff that would consist of 20 Rehabilitation Counselors and 10 Counselor Associates. LRS continues to assess human resources available to determine most effective structure to meet the service needs of individuals with disabilities statewide. The chart in iii. below details current staffing numbers and needs by job title/category.

iii. Projections of the number of personnel, broken down by personnel category, who will be needed by the State agency to provide VR services in 5 years based on projections of the number of individuals to be served, including individuals with significant disabilities, the number of personnel expected to retire or leave the field, and other relevant factors.

<td>1</td>
<td>Rehabilitation Counselor (Client Services)</td>
<td>97</td>
<td>20</td>
<td>15</td>
</tr>
</tbody>
</table>
LRS will need to increase its staff statewide to be able to meet the growing needs of individuals with disabilities in the coming five years. Currently, LRS has 20 Rehabilitation Counselor vacancies and has identified 15 more that will be eligible for retirement in the next five years. Also, some Rehabilitation Counselors may promote to supervisory or executive positions within LRS and their vacancies will need to be filled.

B. Personnel Development

Describe the development and maintenance of a system for collecting and analyzing on an annual basis data on personnel development with respect to:

i. A list of the institutions of higher education in the State that are preparing VR professionals, by type of program;

Louisiana has two universities with CORE accredited graduate programs in rehabilitation counseling: Southern University (SU) in Baton Rouge, a Historically Black University and Louisiana State University Health Sciences Center (LSUHSC) in New Orleans. SU offers an undergraduate rehabilitation counseling program. Neither SU nor LSUHSC offers a doctoral degree at this time.

ii. The number of students enrolled at each of those institutions, broken down by type of program; and

As noted in the following table, a total of 15 students graduated with a Master's Degree in Rehabilitation Counseling during the previous year from the two institutions listed above.

<table>
<thead>
<tr>

</tbody>
</table>

iii. The number of students who graduated during the prior year from each of those institutions with certification or licensure, or with the credentials for certification or licensure, broken down by the personnel category for which they have received, or have the credentials to receive, certification or licensure.

All graduates from the Master’s program at both of the above institutions are eligible to meet the national certification requirement and sit for the national licensure of Certified Rehabilitation Counselor (CRC). Southern University Graduate Program is focused on CRC obtainment and encourages all graduates to achieve their CRC prior to graduation. Southern University had 8 Master’s graduates. Four obtained their CRC and four are scheduled take the CRC exam once CRCC resumes testing after the pandemic closures. Louisiana State University Health Science Center graduates are prepared to meet all requirements to sit for the CRC examination and are also eligible for licensure in Louisiana as a Licensed Rehabilitation Counselor (LRC) and Licensed Professional Counselor (LPC). According to LSUHSC’s 2018 Annual Report, 87% of the students from the past three graduating classes responding to a post-graduation survey reported that they passed the CRC.

2. Plan for Recruitment, Preparation and Retention of Qualified Personnel

Describe the development and implementation of a plan to address the current and projected needs for qualified personnel including, the coordination and facilitation of efforts between the designated State unit and institutions of higher education and professional associations to recruit, prepare, and retain personnel who are qualified, including personnel from minority backgrounds and personnel who are individuals with disabilities.

RECRUITMENT

LRS continues to be committed to the development and continued growth of professional staff members. In an effort to meet the current and projected needs for qualified personnel, the following process and activities are utilized. All strategies noted below for LRS’ Comprehensive System of Personnel Development (CSPD) program encourages the hiring of staff members from minority backgrounds and individuals with disabilities.

In an effort to work cooperatively with institutions of higher education in the area of recruitment, the agency participated in Career Day activities at Southern University. To ensure recruitment of individuals from minority backgrounds, LRS works closely with SU, a Historically Black University. Students are provided information on the application process for employment and information regarding advancement opportunities with the agency. LRS provides internship opportunities for graduate students in both assessment and counseling settings. In addition, brochures about the rehabilitation counseling profession are available in Spanish for staff members to distribute to consumers and at functions statewide.

The universities provide program updates throughout the year, which are shared with agency staff members. Notification of agency professional position vacancies is provided to department heads at the universities to assist graduates pursuing employment.

As a method of recruiting individuals with disabilities, Rehabilitation Counselors advise consumers about the career opportunities in the field of rehabilitation. LRS also utilizes cross-training of our Workforce Partners to assist in providing information to potential candidates regarding careers in the
field of rehabilitation. LRS works with the State Civil Service and universities to notify potential candidates of vacancies in the field of rehabilitation services.

PREPARATION

Annually, LRS maintains a Re-Training Plan to monitor the number of Rehabilitation Counselors who do not meet the highest CSPD qualifications. To encourage LRS’ Rehabilitation Counselors meet the higher CSPD requirements, LRS continues the strategies noted below:

- When hiring new staff members who do not meet the highest guidelines for “qualified” personnel, the agency encourages the individual to commit to pursuing the higher educational requirement.

- LRS’ CSPD Re-Training Plan is maintained by the Training Section. This plan is utilized to track LRS’ progress toward meeting the highest CSPD requirement which is closely monitored and updated annually. All professional staff members listed on the Re-Training Plan who do not have a master’s degree in rehabilitation or a degree in a closely related field are considered to be in a “re-training priority” category. LRS has established two categories - higher and lower priority groups for re-training. The lower priority group consists of the “non-masters degreed” employees that are either currently eligible for retirement or within five years of retirement eligibility. The higher priority group consists of the remaining “non-masters degreed” employees on the re-training list.

- The Program Manager responsible for coordination of the CSPD initiative assists the “non-masters degreed” employees to address and resolve any barriers that may be preventing them from pursuing the Masters in Rehabilitation Counseling degree.

- LRS has procedures in place to assist Rehabilitation Counselors with funding for textbooks, and when necessary, travel and educational leave to be retrained in accordance with the agency's CSPD Re-Training Plan. This policy prioritizes funding for staff members in the high priority re-training group.

- LRS staff members participate in training annually, such as are presented by the Council of State Administrators of Vocational Rehabilitation (CSAVR), and the WINTACs, to obtain information and professional training to meet the standards for CSPD. Internal training is provided, but in addition to that professional and paraprofessional staff members also regularly attend training workshops delivered by other agencies, state universities, (including the two state universities offering degrees in rehabilitation counseling), and organizations for service providers promoting the enhancement of employment for persons with disabilities. LRS encourages professional development of all staff members through community involvement and membership in state associations such as the Louisiana Rehabilitation Association (LRA), a chapter of the National Rehabilitation Association (NRA), and the Clerical Association of Louisiana (CAL).

LRS collaborates with local universities providing training for the rehabilitation professions and offer suggestions based on the agency’s needs to strengthen academic preparation and ensure that curriculums develop the necessary job-related competencies of their students.

LRS collaborates with the universities to support their research efforts in an attempt to obtain information to improve rehabilitation services and service delivery. This allows staff members to participate in studies that may bring more effective practices to the field.

RETENTION OF QUALIFIED PERSONNEL

To provide opportunities for advancement and encourage retention of qualified personnel, LRS provides professional and paraprofessional staff members the opportunity to promote. For professional staff, promotions are based on work performance and the attainment of specific job-related competencies.
Positions that are promotional opportunities include Master Counselor and Master Evaluator. In order to qualify for these positions, professional staff members must possess a Master’s Degree in Rehabilitation Counseling, Evaluation, or a closely related field. If administrative opportunities are desired, professional staff may apply for positions to include District Supervisor, Regional Manager, and various State Office level positions.

Paraprofessional staff who desire to promote within the agency, can apply for the Rehabilitation Counselor Assistant position once specific competencies have been achieved. This position works closely with the Rehabilitation Counselor in managing caseload activities and in provision of services to consumers.

To retain qualified staff members, LRS coordinates training with local universities, business professionals and professional associations to assist in obtaining training and the necessary continuing education units (CEUs) required for maintenance of certification and licensure. The LRS training section is certified by the Commission on Rehabilitation Counselor Certification (CRCC) to provide CEUs for qualifying training events coordinated or conducted by LRS.

3. Personnel Standards

Describe the State agency’s policies and procedures for the establishment and maintenance of personnel standards consistent with section 101(a)(7)(B) to ensure that designated State unit professional and paraprofessional personnel are adequately trained and prepared, including:

A. Standards that are consistent with any national or State-approved or -recognized certification, licensing, registration, or other comparable requirements that apply to the profession or discipline in which such personnel are providing VR services; and

LRS’ continues to encourage professional staff to attain the highest CSPD standard for qualified rehabilitation professional, a Master’s Degree in Rehabilitation Counseling or a related field. This is in accordance with the academic degree requirement for the national Certified Rehabilitation Counselor (CRC) licensure offered by the Commission on Rehabilitation Counselor Certification and the state degree requirement for the Licensed Rehabilitation Counselor (LRC) licensure offered through the Louisiana Vocational Rehabilitation Counselors Licensing Act and issued by the Louisiana Licensed Professional Vocational Rehabilitation Counselors Board of Examiners.

B. The establishment and maintenance of education and experience requirements, in accordance with section 101(a)(7)(B)(ii) of the Rehabilitation Act, to ensure that the personnel have a 21st century understanding of the evolving labor force and the needs of individuals with disabilities.

To ensure Rehabilitation Counselor positions have an adequate background to successfully enter the profession, LRS requires the following minimum qualifications:

- A baccalaureate degree plus one year of professional level experience in social services, teaching, counseling, human resources, nursing, recreation therapy, music therapy, physical therapy, art therapy, rehabilitation instruction, rehabilitation evaluation, worker's compensation dispute resolution, or job placement/job development involving persons with disabilities.

- A baccalaureate degree in rehabilitation counseling, vocational evaluation/assessment, social services, social work, psychology, sociology, counseling, guidance and counseling, family and child counseling, education, vocational education, deaf or blind education, rehabilitation
education, rehabilitation teaching, nursing, mental health, human services/resources, speech therapy or biomedical engineering will substitute for the one year of required experience.

- A master's degree in any field will substitute for the one year of required experience.

LRS decided not to change the qualification requirements for the entry-level Rehabilitation Counselor positions as there are only two universities in Louisiana that have accredited rehabilitation programs. Changing the entry-level Rehabilitation Counselor qualification requirements would have dramatically affected the ability to fill these positions, particularly those located in more rural areas.

Rehabilitation Counselors at the highest priority for retraining are encouraged to achieve the agency's CSPD standard per 34 CFR 361.18(c)(1)(ii)(B). Counselors are routinely provided with information on Colleges and Universities offering Master’s in Rehabilitation along with scholarships. LRS offers assistance with books, supplies, registration fees, and outstanding tuition fees not covered by scholarships. LRS also offers an additional Master Counselor level upon completion of a Master's Degree in Rehabilitation, a case review, and additional criteria. This comes with a pay increase of 7%.

The following depicts the educational breakdown of Rehabilitation Counselors on board as of June 30, 2019:

**Rehabilitation Counselors - 77**

- Has a Masters in Rehabilitation Counseling or a related field - 42
- Lower priority for retraining - 10
- Higher priority for retraining - 25
- Currently enrolled in a Master's Program - 1
- Those needing to begin training - 24

The agency recognizes that some employees in the higher priority retraining group will not be able to either pursue their master's degree or complete all requirements of a master's degree program. These individuals will not be eligible for advancement to the Master Counselor positions. In addition, to recruit individuals meeting the highest standard, vacancy announcements are shared with local universities and posted on the State Civil Service website. Universities frequently refer students to LRS for internships that may lead to full-time employment and to apply for vacant Rehabilitation Counselor positions.

4. Staff Development

Describe the State agency's policies, procedures, and activities to ensure that, consistent with section101(a)(7)(C) of the Rehabilitation Act, all personnel employed by the designated State unit receive appropriate and adequate training in terms of:

A. A system of staff development for professionals and paraprofessionals within the designated State unit, particularly with respect to assessment, vocational counseling, job placement, and rehabilitation technology, including training implemented in coordination with entities carrying out State programs under section 4 of the Assistive Technology Act of 1998; and

LRS utilizes several methods of identifying training needs of professional and paraprofessional staff members, to include a Training Needs Assessment form which is available online. In addition, Regional Managers and State Office Program staff members may identify and request training. The Quality Assurance staff members may also request training when trends are noted during the case
review process. All agency training ends with the completion of an evaluation form which allows for comments and/or to request further training.

LRS staff members take advantage of training opportunities provided through webinars and teleconferences as well as on-site training. Numerous types of training and support continue to be provided and/or coordinated by State Office staff members to support the field staff. Such training for PY 2018 included Travel Training, AWARE, Tableau/VIS, Case Management, Pre-ETS, Job Development Training, Customized Employment, Vendor Training specializing in Pre-ETS, Windmills, LRA, new Rehabilitation Counselor Academy, LWC Labor Summit, Regional Manager and District Supervisor training.

Additionally, the agency has specific monthly in-service training requirements (4 hours per month), which are conducted by the regional field offices to ensure continuous education for all professional and paraprofessional staff members. This training is provided by experienced staff members or by knowledgeable community providers who specialize in the area of training required. Rehabilitation Counselor Associates (RCAs) are required to attend all in-service training with the Rehabilitation Counselors and also attend separate training as needed. Examples of training topics include assessment, guidance and vocational counseling, eligibility, planning, disability related issues, assistive technology, disability services at colleges and universities, ethics, community-based employment outcomes, mental health, and employment related issues.

Career Enrichment/Development

The Bureau of Resource Development researches, develops, implements, and maintains standards to ensure staff development. In addition to the training coordinated by this Bureau, classes are offered through the Comprehensive Public Training Program (CPTP) to all state employees at all levels to further enhance their professional skills and development. Through this program, specialized training is available in areas such as management development, supervisory techniques, skill training for non-supervisory personnel, web-based computer skills and professional development training. LRS encourages all agency staff members to participate in applicable CPTP training classes.

B. Procedures for the acquisition and dissemination of significant knowledge from research and other sources to designated State unit professionals and paraprofessionals.

For the most up-to-date information, all staff members have computers on their desk with access to the Internet to be used for research purposes. Information received on various rehabilitation topics are forwarded to staff statewide for their use. State office personnel subscribe to various websites, newsletters, and resources to stay abreast of current information. As information is received, it is sent to the Training Director for review and is disseminated to staff via email, video conference, conference call, etc. Information may be sent to Managers, Rehabilitation Counselors, or all staff depending on the content of the information.

5. Personnel to Address Individual Communication Needs

Describe how the designated State unit has personnel or obtains the services of other individuals who are able to communicate in appropriate modes of communication with or in the native language of applicants or eligible individuals who have limited English speaking ability.

Each office is authorized to obtain the services of a foreign language interpreter/translator as the need arises (i.e. LRS has consumers who speak Spanish, French, and Vietnamese). LRS has several staff members who are bilingual. In instances where bilingual staff members are not available, translators/interpreters are secured through community resources.

In order to insure that individuals who are deaf, deaf-blind, hard-of-hearing or blind are able to access services and offices, LRS has the following procedures:
• Receptionists, Specialists for the Deaf statewide, and some Specialists for the Blind are equipped with TDD's and/or video phones. Appropriate staff members have been trained in the use of this equipment.

• Specialists for the Deaf must be skilled or be participating in training to improve skills in sign language.

• All Specialists are encouraged to attend a graduate program such as Northern Illinois University, Western Oregon University, San Diego State University or other applicable program approved by the agency. There they learn about hearing loss and the Deaf culture, and are taught basic sign language skills, if needed.

• Specific needs are assessed on an individual basis and appropriate training is obtained for each Specialist in their respective region.

• The agency has implemented a series of coursework for the Specialist for the Deaf position, which requires the completion of specific training for advancement.

• To move to the Specialist 2 level, an individual must have obtained sign language skills equivalent to a minimum of the intermediate level on the sign communication proficiency interview, (SCPI) or other applicable evaluation instrument approved by the agency, or interpreter certification equivalent to a minimum of the state's Level III level certification and attend the orientation to deafness training or orientation to deaf-blindness training at the University of Tennessee, Northern Illinois University, Western Oregon University, or other applicable program approved by the agency.

• To advance to the Master level Specialist for the Deaf, an individual must have a Master’s degree plus sign language skills equivalent to a minimum of the advanced level on the Sign Communication Proficiency Interview, (SCPI), or other applicable evaluation instrument approved by the agency, or interpreter certification equivalent to a minimum of the state’s Level IV certification, and have taken a minimum of 9 hours of specialized college coursework in deafness or deaf-blindness related areas approved by the agency.

In order to ensure that individuals who are blind or visually impaired are able to access services and offices, LRS has the following procedures:

• Braille printers and Braille translation software is available to produce Braille translation in-house. Agency publications can be provided in alternative formats upon request.

• Specialists for the Blind complete introductory course work in Braille and continue to receive training in this area. The agency has a series of training for the Blind Specialist position, which requires the completion of specific training for advancement.

• To move to the Specialist 2 level, an individual must complete Braille Literacy - Grade 1, Introduction to Orientation and Mobility training and Introduction to Assistive Technology, including Braille technology.

• To move to Master level Specialist for the Blind, a minimum of 9 hours of specialized college coursework must be completed in blindness related areas approved by the agency to include Braille literacy, Grade 2 and Orientation and Mobility training.

6. Coordination of Personnel Development Under the Individuals with Disabilities Education Act

As appropriate, describe the procedures and activities to coordinate the designated State unit's comprehensive system of personnel development with personnel development under the Individuals with Disabilities Education Act.
LRS continues to collaborate with the Louisiana Department of Education (LDE) to jointly provide staff training for effective provision of transition services for those youth with disabilities leaving the secondary education system and pursuing successful employment opportunities in adult life. This is accomplished through the LRS/LDE formal interagency agreement which includes specialized training for both LRS and LDE staff members.

LRS’ Program Coordinator for Transition and LDE’s Program Manager collaborate on joint agency training and meetings throughout the year to network and share information. They are also responsible for assisting in the coordination and provision of transition services within each agency to assure effective service provision and training through the support of local interagency core teams, cross-agency training, outreach, and other needed activities; capacity building of young adult and family outreach efforts; and continuous provision of information and technical assistance.

Some examples of collaborative efforts include Transition Core Team meetings held statewide attended by the LDE, the Office for Citizens with Developmental Disabilities, Families Helping Families, and other interested individuals. These meetings are held to assist agencies who serve transition students as they exit from school to work.

LRS has a Program Coordinator specializing in Assistive Technology who conducts in-service training annually to keep field staff members abreast of the most recent technology available to assist individuals with disabilities.

Specialized training is provided to our staff members working with low-incident disabilities to include such training as orientation to deafness, mobility training, sign language coursework, deaf-blindness training, and graduate level training specific to working with low-incident populations (i.e. visual impairment/hearing impairment/significant cognitive impairment).

Local Education Agencies work with LRS staff members to:

- provide training on the Individual Education Plan document;
- facilitate appropriate orientation meetings among LRS staff members, students and family members;
- provide time for LRS staff members to meet with teachers, guidance counselors, and other appropriate personnel for such purposes as information sharing/gathering at both the individual and agency levels.

**j. Statewide Assessment**

1. Provide an assessment of the rehabilitation needs of individuals with disabilities residing within the State, particularly the VR services needs of those:

A. With the most significant disabilities, including their need for supported employment services;

Frequency of Comprehensive Statewide Needs Assessment: The LRS CSNA is conducted every three years. The most recent CSNA was completed in FY 2017 and the next one will be completed in FY 2020 with results to be submitted with the subsequent update.

Current Comprehensive Statewide Needs Assessment:

Louisiana Rehabilitation Services (LRS) assists eligible individuals with disabilities to prepare for, achieve, and retain employment in an integrated community setting. LRS administers the general Vocational Rehabilitation program in Louisiana for the Rehabilitation Services Administration.
comprehensive needs assessment focuses on the Vocational Rehabilitation program and the needs of individuals eligible for those services.

The purpose of the statewide comprehensive assessment, conducted jointly with the Louisiana Rehabilitation Council (LRC), is to describe the rehabilitation needs of individuals with disabilities residing within Louisiana, particularly the vocational rehabilitation service needs as outlined in the 34 CFR 361.29:

Individuals with the most significant disabilities, including their need for supported employment services;

1. Individuals with disabilities who are minorities and individuals with disabilities who have been unserved or underserved by the vocational rehabilitation program carried out under this part;

2. Individuals with disabilities served through other components of the statewide workforce investment system as identified by those individuals and personnel assisting those individuals through the components of the system; and

3. Youth with disabilities, and students with disabilities, including their need for pre-employment transition services or other transition services; and an assessment of the needs of individuals with disabilities for transition services and pre-employment transition services, and the extent to which such services provided under this part are coordinated with transition services provided under the Individuals with Disabilities Education Act in order to meet the needs of individuals with disabilities.

4. Assessments of the need to establish, develop, or improve Community Rehabilitation Programs within the State.

This assessment is in response to the requirements of 34 CFR 361.29 that includes statewide assessment, annual estimates, annual state goals and priorities, strategies, and progress reports. As mandated, LRS and the LRC jointly planned and conducted this Comprehensive Statewide Needs Assessment. The findings and results of this assessment will assist LRS with planning and developing strategic goals and objectives.

**METHODOLOGY**

Louisiana Rehabilitation Services (LRS) utilized a variety of modalities and methodologies to research and collect data to assess and identify the rehabilitation needs of individuals with disabilities, as well as the need to establish, develop, or improve Community Rehabilitation Programs (CRPs).

Data from consumers, staff members, workforce partners/stakeholders, Title 121 and the public at large was obtained. Survey Monkey, accessible survey software available through the internet, was used for all surveys. Surveys in hard copy and alternate languages were also available upon request. The use of online surveys assisted LRS in keeping the cost of conducting the needs assessment within budget.

The Louisiana Workforce Commission’s (LWC) Communications Section solicited participation in LRS’ statewide needs assessment surveys utilizing social media. The survey link was published in the Governors Office for Disability Affairs’ newsletter. An email account was set up to monitor any questions or comments provided. This email account was monitored by a designated LRS employee.

LRS stakeholders, consumers, staff members, Workforce Partners, and Title 121 were emailed a link inviting participation in the survey. All respondents were ensured of the confidentiality of information provided.

In addition to the surveys conducted by LRS, data was accessed from a wide range of publicly available resources including the United States Census Bureau, the American Census Surveys (ACS), the Disability Compendium, and reports provided by Community Rehabilitation Programs.

Six hundred twenty-five survey responses were received. In addition, eighty-three LRS employees responded to total seven hundred and eight survey respondents.
Louisiana Rehabilitation Council (LRC) Joint Collaboration

In order to collaborate with the state rehabilitation council on the completion of the survey, LRS staff attended LRC meetings where the Council provided input including assisting with the development of the survey questionnaires, recommending methods of distribution of surveys and in the distribution to potential respondents statewide. As detailed results are compiled and distributed, the council will continue to assist in determining actions needed based on the assessment results.

The LRC/LRS liaison participated in the development of the questionnaires. Once the surveys were developed, the liaison distributed the draft survey instruments to LRC members soliciting their input. Comments and suggestions received contributed to the final development of the survey. As exhibited above, the CSNA is the result of a joint effort between LRS and the LRC.

Target Populations

The CSNA survey link was emailed to consumers, staff members, Workforce Partners, Community Rehabilitation Programs, customers of CRPs, Title 121 and stakeholders. The survey link was provided for access by the public through the Louisiana Workforce Commission and Governor’s Office for Disability Affairs social media sites and newsletters. LRS solicited and received feedback from these target populations.

Consumer Surveys

Louisiana Rehabilitation Services emailed survey links to 5,607 VR and Pre-ETS applicants and consumers statewide. The survey links were sent to individuals from diverse racial/ethnic backgrounds, unserved/underserved populations and individuals with the most significant disabilities. Surveys were also sent to youth and students with disabilities to determine their specific needs.

Surveys included an introduction explaining the purpose and an invitation to participate. Recipients were ensured of confidentiality of all information submitted.

The consumer survey instrument was designed to:

- Be easily read and understood
- Be accessible
- Be completed by the individual or parent/guardian/advocate
- Encourage completion (online survey)
- Provide anonymity

Questions on the survey were developed with input from the LRC to access the needs of individuals with most significant disabilities, the unserved/underserved, those being served through workforce partners and to determine the need to establish, develop, and expand CRPs within the state.

DEMOGRAPHICS

Consumer Surveys

LRS received 316 responses. Seventy percent of respondents identified themselves as individuals with disabilities; 19% were identified as a parent or guardian of an individual with a disability answering on behalf of the minor; and 13% were a youth or student with a disability.

Forty-eight percent of respondents were male and 52% were female. Five percent identified themselves as veterans. Sixty percent of respondents identified themselves as Caucasian; 36% percent as African-Americans; and the remaining four percent as American Indian, Hispanic, Native Pacific Islander or Other.
The predominant age of respondents was between the ages 18 - 25 years (30%); followed by the ages of 41 - 50 (17%); ages 31 - 40 years (16%); ages 51 - 60 (14%); ages 26 - 30 (12%); ages 61 - 70 (7%); under 18 years of age (3%); and ages 70 and over (1%).

Thirty-nine percent of respondents indicated living with parents or guardians; 23% lived alone; 17% percent of respondents indicated living with a partner or spouse; 13% lived with their children; 10% with a roommate or other adult.

The top disability categories respondents reported were: Mental Illness (19%); Hard of Hearing (12%); Psychological/Behavioral (11%); Intellectual Disability (10%); Orthopedic/Mobility (10%); Specific Learning Disability (9%); Autism (9%); and Blindness (9%).

Educational levels of respondents were as follows: 26% had either a high school diploma or a GED; 25% had some college training; 21% had a 4 year degree; 12% had a 2 year degree/technical college; 10% indicated that they did or have not completed high school, and 6% had either a master's or doctoral degree.

Thirty-three percent of respondents indicated being employed, 29% were out of work/looking for work, 38% were students and 7% noted that they are unable to work.

The primary source of income reported included SSI/SSDI (45%); own employment (30%); parent/guardian's income (19%), and public assistance (6%).

Thirty-four percent of respondents reported an average household yearly income of less than $10,000; 18% reported receiving $10,001 - $15,000; 16% reported an income of $50,000 and over; 13% received $15,001 - $25,000; 6% received $40,001 - $50,000; 6% received $25,001 - $35,000; and 5% received $35,001 - $40,000.

When asked why they wanted to work, 77% of respondents stated that they want to support themselves or their family, 58% wanted to better their lifestyle, 53% to be a contributing member of society, and 30% to have medical insurance.

When asked “If employed, are you earning minimum wage or above?” 111 skipped the question and 205 responded. Of respondents, 55% stated they earned above minimum wage and 45% stated they earned below minimum wage.

Workforce Partner Agencies, Stakeholders & Title 121

LRS solicited input from identified workforce partners, stakeholders and the liaison with Title 121. One hundred individuals completed the online survey.

Sixty-eight percent of respondents were service providers, 20% were advocates, and 11% reported having a disability themselves. Seventy-four percent had never received services from Louisiana Rehabilitation Services, 15% had previously received services but were not receiving them currently.

The gender of survey respondents were 58% female and 42% male. Seven percent indicated being veterans. When asked about their race/ethnicity, 70% identified themselves as Caucasian; 31% as African American; 5% Hispanic or Latino and 2% as American Indian or Alaskan Eskimo. Multiple races were selected for some.

Twenty-four percent of respondents were between the ages 51 - 60 years; 21% were between 61 - 70 years old; 20% were between 31 - 40 years old; 18% were between 41 - 50 years old; 8% were between 18 - 25 years old; 3% were between 26-30 and 3 % were under 18 years of age.

The current living situation of respondents are as follows: 59% reported living with a spouse or partner; 21% live with children; 14% live with a parent or guardian; and the remainder live alone, with a roommate, are homeless or institutionalized.

Educational levels of respondents with a master's or doctoral degree was 45%; a 4 year college degree were 22%; 12% had either a high school diploma or a GED; 10% indicated that they did not
complete high school; 9% had some college training; and 2% had a 2 year associates or technical college degree.

Seventy-three percent of respondents indicated that their primary source of income is employment; 11% indicated receiving SSI/SSDI; 10% rely on their spouse’s wages; and 10% rely on the income of a parent/guardian.

The average household yearly income received was $50,001 and over for 51% of respondents; $40,001 - $50,000 for 11%; less than $10,000 for 11%; $10,001 - $15,000 for 7%; $15,001 - $25,000 for 6%; $25,001 - $35,000 for 6%; and $35,001 - $40,000 for 7%.

**LRS Employee Surveys**

LRS sent survey links via email to all staff members (173) including administrative, support, and direct service delivery. The online surveys ensured staff of confidentiality and anonymity.

Eighty-three LRS employees from offices statewide responded to surveys. Of the respondents, 37% have worked for LRS from 11 - 10 years; 27% have worked for the agency over 20 years; 27% have worked for LRS for 6 - 10 years; 12% have worked for the agency for over 25 years and 9% have worked for LRS for less than 5 years.

Fifty-two percent of respondents have their Master’s degree; 22% have their Bachelor’s degree; 11% have some college; 9% have a two year associates or technical college degree and 3% have a Doctoral degree 3% have their high school diploma or GED.

Primary respondents were Rehabilitation Counselors (44%); Counselor Associates, Rehab Secretaries and Receptionist (15%); and District Supervisors (10%).

Individuals with the most significant disabilities, including their need for supported employment services:

Survey respondents universally stated that training should be provided to LRS staff, vendors and legislators regarding the vocational rehabilitation program, service provision and budgetary needs; that more staff should be hired to increase capacity to serve; and that more vendors are needed. Respondents indicated that more consumers need LRS services and could be served if additional state dollars could be secured to match the federal funding available to the state.

Upon reviewing survey information of individuals receiving SSI/SSDI, the top needs identified by respondents included job placement (46%); job coaching (30%); benefits planning (30%); transportation (29%); job readiness skills (28%); and vocational guidance and career counseling (27%). They identified barriers to employment as being the fear of losing their government benefits (52%), lack of employer acceptance of their disability (44%), adjustment to disability (32%); lack of transportation (38%); lack of public services (36%); the slow job market (36%); and lack of medical insurance (27%).

Respondents receiving supported employment services identified the following as needs not being met, job placement (23%); training/tuition assistance (21%); transportation (21%); room & board (15%); mental health counseling (14%); post-employment services (14%); benefits planning (13%); and equipment for work (13%).

The barriers to employment identified by respondents receiving supported employment services included the fear of losing government benefits (40%); lack of transportation (39%); employer acceptance of their disability (36%); their personal adjustment to the disability (29%); lack of public resources (29%); the slow job market (21%); and the lack of medical insurance/care (20%).

**B. Who are minorities;**

To assess the needs of individuals with disabilities who are minorities, unserved or underserved, LRS extracted information from various surveys including LRS consumers, Workforce Partners/Stakeholders/Title 121 and LRS employees.
When asked about barriers to employment, respondents reported the following needs:

Comprehensive services are needed for individuals who have psychological disabilities, who are and ex-felons with disabilities. This includes mental health & substance abuse counseling, career counseling, vocational training, work readiness training, supported employment services, job placement, housing, and transportation. Services needed for individuals living in rural areas are more vendors to provide services such as job skills and job readiness training, job placement assistance, employment opportunities and transportation. Individuals not meeting LRS’ economic need criteria need a range of services that cannot be provided by LRS without additional funding and a change in the financial need criteria currently established.

LRS will develop strategies to address these identified needs in collaboration with the State’s Department of Corrections, Department of Health, Department of Transportation and other partners. LRS will also assess the current economic need criteria to determine if changes can be made in an effort to provide more services to those individuals who are not currently being served.

It was also noted that LRS needs to do more outreach to rural communities, students and employed individuals who may need accommodations such as assistive technology devices.

C. Who have been unserved or underserved by the VR program;

Needs identified by unserved/underserved respondents were much the same as those who identified themselves as being a minority. These individuals can be living in rural areas, not have a significant disability, and/or not meet LRS’ economic need criteria. CRPs were identified as being needed in rural areas to assist individuals in preparing for and obtaining employment. Transportation also continues to be a need in rural communities.

LRS will develop strategies to address the identified needs in collaboration with the State’s Department of Corrections, Department of Health, Department of Transportation and other partners. LRS will also assess the current economic need criteria to determine if changes can be made in an effort to provide more services to those individuals who are not currently being served.

D. Who have been served through other components of the statewide workforce development system; and

Respondents from other components of the statewide workforce investment system were given survey links to complete the survey online.

Needs identified by respondents included transportation; benefit planning; job coaching; post-employment services; transition from school to work; assistive technology devices/services; and job placement.

The primary barriers identified by respondents included the lack of medical insurance/care; adjustment to disability; fear of losing government benefits; lack of public resources; lack of employer acceptance of an individual’s disability; and the lack of transportation.

Fifty percent of LRS employees responding noted that they are satisfied or very satisfied when working with the American Job Centers (AJCs). Thirty-eight percent noted that they have not worked with an AJC. Thirty-nine percent used an AJC in the last month to access/provide services to individuals with disabilities. Eighteen percent utilized the AJC in the last three months. Seventy-four percent of staff are familiar with services available through their local AJC.

E. Who are youth with disabilities and students with disabilities, including, as appropriate, their need for pre-employment transition services or other transition services.

The primary needs of youth and students who are most significantly disabled were identified by responses of those receiving SSI/SSDI and those receiving supported employment services. Primary
needs identified included Pre-ETS Job Exploration Counseling (17%); other services needed to assist in transitioning from high school to employment (17%); and job readiness skills such as resume writing, interview practice, work behaviors (17%).

2. Identify the need to establish, develop, or improve community rehabilitation programs within the State; and

LRS received comments from the public, workforce partners/stakeholders and LRS staff members to determine the need to establish, develop, or improve CRPs within the state.

The LRS employee survey revealed that 47% of respondents felt that new CRPs were needed to adequately serve consumers and 36% felt that the current CRPs should be improved or expanded. Forty percent of LRS employees felt that the CRPs present in their region did not provide an adequate range of services to meet the needs of their consumers. Fifty-two percent indicated that CRP staff needed more education/training to effectively serve individuals with disabilities.

Additionally, 48% of counselors indicated that the quality of services provided to meet the needs of consumers could be improved. Seventy percent of staff responding felt that more CRPs are needed in their area to serve specific services or to serve specific disability populations. Populations that were identified as needing further CRPs to serve include the deaf, deaf-blind and blind/visually impaired, felons/ex-felons with disabilities, individuals with cognitive impairments/intellectual disabilities, autism, mental illness, paraplegic/quadruplegic, and traumatic brain injuries. In addition, it was noted that more CRPs are needed to provide services to transition students, to provide services such as supported employment in rural areas, job readiness/placement, sign language interpretation, assistive technology services and training, training, and customized employment.

Eighty-six percent of respondents to the public survey indicated that more CRPs are needed to provide services and 66% of existing CRPs need improvement. Some populations identified as needing more services include those having intellectual disabilities, autism, psychological disabilities, those who are blind/deaf-blind, deaf/hard-of-hearing. In addition, it was noted that CRPs are needed to provide particular services such as those needed by students transitioning from high school into employment and to individuals with disabilities exiting the correctional facilities and have felonies.

A need for additional vendors who provide specific services to individuals who are blind or have low vision, to include orientation & mobility assessments, low vision assessments, and vocational assessments was also noted.

Additional CRPs who provide job placement services, including supported employment, are needed in the regions serving rural areas as some areas do not have CRPs that are conveniently located for consumers’ participation.

3. Include an assessment of the needs of individuals with disabilities for transition career services and pre-employment transition services, and the extent to which such services are coordinated with transition services provided under the Individuals with Disabilities Education Act

Survey information was provided to the State Department of Education to distribute to students with disabilities and Transition Counselors assigned to work with the school districts also provided survey information. All students with disabilities having email addresses in the AWARE system also were emailed the survey and information was posted in multiple social media sites and newsletters for access.

Sixty-nine percent of youth and students with disabilities who responded were receiving services from LRS. Most frequent disabilities indicated were specific learning disabilities (15%),
psychological/behavioral (13%), mental illness (11%), and autism (10%). Fifty-two percent of respondents were male and 48% female. Sixty-two percent of respondents indicated that they were Caucasian; 32% Black/African American; 3% Asian, and 3% Hispanic/Latino.

Needs that were identified as not being met for this population include training/tuition assistance (24%); job placement (22%); job readiness skills such as resume writing, interview practice, work behaviors (22%); benefits planning (20%); and other transition services to assist with transitioning from school to work (20%).

Eighty-two percent indicated wanting to work to support themselves or their families; 55% want to work to have a better lifestyle; 49% to be a contributing member of their community; and 27% to have medical insurance.

Lack of transportation was noted as a significant barrier by 33% of respondents; while 27% feared losing their government benefits; and 26% felt that employer acceptance of disability is a significant barrier.

Students noted that more advertisement and information needs to be provided to let people with disabilities know about services available through LRS. More counselors are needed to reduce wait times for services and to allow counselors to spend more time with the students they are working with.

In response to the survey, LRS has identified additional activities and programs to assist in meeting the needs of transitioning students. LRS has most Counselors’ providing Pre-Employment Transition Services as the need for more Counselors to provide statewide outreach continues to grow in Louisiana. LRS Transition Counselors in each region are assigned to the high schools and to meet with a school liaison to discuss specific needs for students, determine funding streams to provide each service, provide information and coordinate services.

Those students with disabilities who are ready to begin Pre-Employment Transition Services have Pre-ETS cases opened by the Counselor and services are provided by the Counselor or a local vendor who has been agreed upon to provide these services. Those preparing to exit the school system who are not already a Vocational Rehabilitation (VR) client, have VR cases are opened so that they can begin receiving additional services to include job training. LRS partnered with DOW Chemical in 2019 to bring Project Search to Louisiana. Students from Iberville Parish were identified to begin internships at DOW starting in 2020 to learn job skills that will assist them in choosing a career path and obtaining employment. Additionally, LRS continues to renew and revise existing local cooperative agreements with the LEAs and to seek opportunities to increase Third Party Cooperative Arrangements (TPCAs) to expand service provision statewide.

**IMPLICATIONS AND RECOMMENDATIONS**

There are many people in Louisiana with disabilities that could benefit from vocational rehabilitation services designed to help them achieve and retain employment in integrated community settings. To meet this need, LRS maintains eight regional offices located statewide; employs a skilled workforce to help individuals plan services needed; utilizes community rehabilitation programs to deliver services; and collaborates with multiple agencies and community businesses to promote employment opportunities for individuals with disabilities.

Common trends discovered in this needs assessment included the necessity for more LRS and CRP staff, more CRPs, provision of skills training to work with specific disability populations, more funding to serve individuals with disabilities not currently being served, and provision of alternate methods of outreach.

LRS will continue to analyze the findings from this Comprehensive Statewide Needs Assessment and use it as a tool to help develop LRS’ strategies. The data will continue to be used to drive goals and initiatives. LRS will continue to work with staff members and the LRC to establish measurable timelines and tracking mechanisms to ensure that strategies are accomplished. In addition, LRS will continue to collaborate with other key workforce partners serving individuals with disabilities to determine improvements that can be achieved through collaboration and partnerships.
k. Annual Estimates

Describe:

1. The number of individuals in the State who are eligible for services

Per the 2018 Annual Disability Statistics Compendium, approximately 361,642 individuals with disabilities ages 18-64 are living in Louisiana. To qualify for Vocational Rehabilitation (VR) services, individuals with disabilities must be interested in obtaining or maintaining employment. According to the Bureau of Labor Statistics, in 2018 the unemployment rate for persons with disabilities was 8%, more than twice the rate of those with no disability (3.7%). To be included in this rate, the person with a disability was unemployed, available for work and was actively looking for a job in the 4 weeks prior to the survey. Although, it would be difficult to determine how many individuals with disabilities would be eligible, based on these statistics, 8% or 28,931 of these individuals would be actively seeking employment and could potentially be eligible for VR services. This does not include the numbers that have been looking for work more than 4 weeks prior, so the number could be much greater.

2. The number of eligible individuals who will receive services under:

A. The VR Program;

Louisiana Rehabilitation Services (LRS) estimates that it will serve 11,250 individuals with in the vocational rehabilitation program during FFY 2020 & FFY 2021. This includes all those clients with existing plans and those expected to be served under new plans/IPEs. In addition, LRS anticipates serving 3,100 students with disabilities through the Pre-ETS program offered separately from the VR program. See following charts with a further breakdown of eligible individuals who will be served.

B. The Supported Employment Program; and

Of the estimated 11,250 individuals receiving services, approximately 1,560 will receive supported employment services through funds provided under Title I and through Title VI program funds.

C. Each priority category, if under an order of selection.

<table>
<thead>
<tr>
<th>Projections for Program Year 2020</th>

<tr>
<td>Category IV - Significantly Disabled (SD)</td>
</tr>
<tr>
<td>Category V - Non Significantly Disabled (NSD)</td>
</tr>
<tr>
<td>Totals</td>
</tr>
</tbody>
</table>
3. The number of individuals who are eligible for VR services, but are not receiving such services due to an order of selection; and

The number of consumers on the waiting list by Order of Selection Category follows:

- OOS Category I - 0
- OOS Category II - 0
- OOS Category III - 0
- OOS Category IV - 0
- OOS Category V – 0
- Total - 0

In the last two PYs there have been 7 individuals placed on a waiting list for OOS Category V and periodically LRS opened the category as funding allowed in order to serve those individuals.

4. The cost of services for the number of individuals estimated to be eligible for services. If under an order of selection, identify the cost of services for each priority category.

Cost for the VR Program:

LRS is projecting that for FFY 2021 the VR Program will need $43,618,201 to provide services to eligible consumers. Projected revenue is matching funds of $9,290,753 and Federal Section 110 Funds of $34,327,448. The numbers below are projected using historical expenditures.

Projected cost to serve individuals with existing Individualized Plans for Employment:

Matching Funds: $1,917,000
Federal Section 110: $7,083,000
Total: $9,000,000

Projected cost for determining eligibility of new applicants:

Matching Funds: $194,935
Federal Section 110: $720,251
Total: $915,186

Projected revenue includes matching funds of $9,290,753 and Federal Section 110 Funds of $34,327,448:

Total Available Budget $43,618,201

Less projections of $43,618,201

For a difference of $0

ORDER OF SELECTION

Estimates of costs of services for each Order of Selection category are in the chart that follows. As of December 17, 2019 LRS is serving Order of Selection Categories I through IV. Order of Selection Category V remains closed. LRS will continue to provide services to those with plans of service in
place as long as funding allows. Consumers reflected in chart below are those continuing to receive services as a result of “continuity of services.”

I. State Goals and Priorities

The designated State unit must:

1. Identify if the goals and priorities were jointly developed and agreed to by the State VR agency and the State Rehabilitation Council, if the State has a Council, and jointly agreed to any revisions

During the Louisiana Rehabilitation Council’s quarterly meetings, the Director and LRS staff developed and reviewed agency goals and priorities. The Council provided input and feedback as part of State Plan development. The Council agreed to the state plan updates in order to carry out the vocational rehabilitation program and supported employment services. During the Council’s meetings, the Director also provided up to date information on the progress of the vocational rehabilitation program in accomplishing goals and activities.

2. Identify the goals and priorities in carrying out the VR andSupported Employment programs

**Goal & Priority I:** To maximize opportunities for individuals with disabilities in achieving competitive integrated employment and promote self-sufficiency.

**Goal & Priority II:** To ensure that Louisiana Rehabilitation Services has necessary and qualified rehabilitation personnel, both professionals and paraprofessionals, to provide quality vocational rehabilitation services to individuals with disabilities to achieve competitive integrated employment and self-sufficiency.

**Goal & Priority III:** To increase the amount the state VR program draws down from the state’s federal VR grant allotment.

3. Ensure that the goals and priorities are based on an analysis of the following areas:
A. The most recent comprehensive statewide assessment, including any updates;

The goals and priorities were based on an analysis of needs identified in the comprehensive statewide needs assessment, the SRC recommendations and performance accountability measures identified in WIOA. The needs assessment identified the need for expanded services and outreach to youth with disabilities. After reviewing survey responses, strategies were developed for the following: (1) to utilize more web-based networks to reach more of this population who are tech-savvy and want to participate in services in more electronic methods; (2) to increase counselor presence statewide in the secondary education settings; (3) to provide more outreach to youth to make them aware of services available; (4) to collaborate with LDEs and LEAs to expand services provision; and (5) to increase quality CRPs and collaborative programs to serve youth and prepare them for and assist them in obtaining employment. Strategies were also developed to address needs identified such as lack of transportation, lack of providers for job readiness and job placement, and to provide additional training to staff to insure adequate knowledge to provide quality services.

B. The State’s performance under the performance accountability measures of section 116 of WIOA; and

LRS is negotiating the following performance measures with our federal and core partners.

LRS updated the AWARE Case Management System to capture data on the following performance measures and completed an agreement with LWC’s Unemployment Insurance section to import wage data for clients having employment data to assist in determining employment at the second and fourth quarter after exit.

1. Percent of program participants in unsubsidized employment during the second quarter after exit from the program;

2. Percent of program participants in unsubsidized employment during the fourth quarter after exit from the program;

3. The median earnings of program participants who are in unsubsidized employment during the second quarter after exit from the program; (baseline first year)

4. Percent of program participants obtaining a recognized postsecondary credential, or a secondary school diploma or its recognized equivalent, during participation in or within 1 year after exit from the program; (subject to clause (iii) Indicator relating to credential...program participants who obtain a secondary school diploma or its recognized equivalent shall be included in the percentage counted as meeting the criterion under such clause only if such participants, in addition to obtaining such diploma or its recognized equivalent, have obtained or retained employment or are in an education or training program leading to a recognized postsecondary credential within 1 year after exit from the program.)

5. Percent of program participants who, during a program year, are in an education or training program that leads to a recognized postsecondary credential or employment and who are achieving measurable skill gains toward such a credential or employment; and

6. Determine the indicators of effectiveness in serving employers established pursuant to clause [(iv) Indicator for services to employers - Prior to the commencement of the second full program year after the date of enactment of this Act, for purposes of clauses (i)(VI), or clause (ii)(III) with respect to clause (i)(IV), the Secretary of Labor and the Secretary of Education, after consultation with the representatives described in paragraph (4)(B), shall jointly develop and establish, for purposes of this subparagraph, 1 or more primary indicators of performance that indicate the effectiveness of the core programs in serving employers.]

Agency goals were developed to support the achievement of these performance indicators and through the collaboration with the Louisiana Rehabilitation Council, training of staff, case
management system updates, collaboration with state and nationwide wage databases, and collaboration with other partners. Through the goals developed, LRS seeks to increase employment outcomes statewide, support a more seamless transition for students with disabilities from high school to employment, ensure quality training and credentials to assist our customers in achieving higher wages in careers that they can advance in and to provide effective services to employers.

C. Other available information on the operation and effectiveness of the VR program, including any reports received from the State Rehabilitation Council and findings and recommendations from monitoring activities conducted under section 107.

The Rehabilitation Services Administration (RSA) completed a monitoring visit with Louisiana Rehabilitation Services in March 2018. The draft monitoring report has been received by LRS. The agency is in the process of addressing areas identified as needing improvement.

The FY 2018 monitoring process and final report provided the impetus for LRS to refocus on maximizing employment opportunities for individuals with disabilities. Prior to the monitoring, LRS focused on developing a robust method of delivering Pre-Employment Transition Services, however, the report helped LRS appropriately align staff and resources to maximize employment opportunities.

In addition, the Louisiana Rehabilitation Council provided input and recommendations to assist the agency in identifying areas of collaboration and opportunities for increased efficacy that contributed to the development of many of the goals and strategies identified in this plan.

The FY 2018 RSA Monitoring Report referenced above will be available in the near future on the RSA website. Information about the vocational rehabilitation program can be found at the following address:

https://rsa.ed.gov/about-your-state.cfm?state=Louisiana

m. Order of Selection

Describe:

1. Whether the designated State unit will implement and order of selection. If so, describe:

A. The order to be followed in selecting eligible individuals to be provided VR services

The Order of Selection (OOS) assures that individuals with the most significant disabilities receive priority for VR services. After determination of eligibility for VR services, each individual will then be classified by placement into one of the five following priority categories:

**OOS Category I** (Severe limitations in four or more functional capacity areas): An individual who has been determined eligible for VR services and:

1. Who has a significant physical or mental impairment which seriously limits four or more functional capacities (mobility, communication, self-care, self-direction, motor skills, interpersonal skills, work tolerance, or work skills) in terms of an employment outcome; and,

2. Whose VR can be expected to require *multiple* VR services over an *extended period of time; and

3. Who has one or more physical or mental impairments resulting from amputation, arthritis, autism, blindness, burn injury, cancer, cerebral palsy, cystic fibrosis, deafness, head injury, heart disease, hemiplegia, hemophilia, respiratory or pulmonary dysfunction, mental illness,
mental retardation, multiple sclerosis, muscular dystrophy, musculo-skeletal disorders, neurological disorders (including stroke and epilepsy), paraplegia, quadriplegia, other spinal cord conditions, sickle cell anemia, specific learning disability, end-stage renal disease, or another impairment or combination of impairments determined on the basis of an assessment for determining eligibility and VR needs to cause comparable substantial functional limitations.

An individual's placement in the Order of Selection shall not be based upon residency requirements; economic status; type of disability; age, sex, race, color, creed, or national origin; source of referral; or expected employment outcome.

*Definitions of terms in 2 above:

Multiple VR Services - are defined as vocational counseling and guidance and at least one other service needed to obtain, maintain, or advance in employment.

Extended Period of Time - Means that the individual requires VR services that are anticipated to extend three months or longer.

**Order of Selection Category II** (Severe limitations in three functional capacity areas): An individual who has been determined eligible for VR services and:

1. Who has a significant physical or mental impairment which seriously limits three functional capacities (mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, motor skills, or work skills) in terms of an employment outcome; and,

2. Whose VR can be expected to require multiple VR services over an extended period of time; and,

3. Who has one or more physical or mental impairments resulting from amputation, arthritis, autism, blindness, burn injury, cancer, cerebral palsy, cystic fibrosis, deafness, head injury, heart disease, hemiplegia, hemophilia, respiratory or pulmonary dysfunction, mental illness, mental retardation, multiple sclerosis, muscular dystrophy, musculo-skeletal disorders, neurological disorders (including stroke and epilepsy), paraplegia, quadriplegia, other spinal cord conditions, sickle cell anemia, specific learning disability, end-stage renal disease, or another impairment or combination of impairments determined on the basis of an assessment for determining eligibility and VR needs to cause comparable substantial functional limitations.

An individual's placement in the Order of Selection shall not be based upon residency requirements; economic status; type of disability; age, sex, race, color, creed, or national origin; source of referral; or expected employment outcome.

**Order of Selection Category III** (Severe limitations in two functional capacity areas): An individual who has been determined eligible for VR services and:

1. Who has a significant physical or mental impairment which seriously limits two functional capacities (mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, motor skills or work skills) in terms of an employment outcome; and,

2. Whose VR can be expected to require multiple VR services over an extended period of time; and,

3. Who has one or more physical or mental impairments resulting from amputation, arthritis, autism, blindness, burn injury, cancer, cerebral palsy, cystic fibrosis, deafness, head injury, heart disease, hemiplegia, hemophilia, respiratory or pulmonary dysfunction, mental illness, mental retardation, multiple sclerosis, muscular dystrophy, musculo-skeletal disorders, neurological disorders (including stroke and epilepsy), paraplegia, quadriplegia, other spinal cord conditions, sickle cell anemia, specific learning disability, end-stage renal disease, or another impairment or combination of impairments determined on the basis of an assessment for determining eligibility and VR needs to cause comparable substantial functional limitations.

**Order of Selection Category IV** (Severe limitations in one functional capacity area): An individual who has been determined eligible for VR services and:
1. Who has a significant physical or mental impairment which seriously limits one functional capacity (mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, motor skills or work skills) in terms of an employment outcome; and,

2. Whose VR can be expected to require multiple VR services over an extended period of time; and,

3. Who has one or more physical or mental impairments resulting from amputation, arthritis, autism, blindness, burn injury, cancer, cerebral palsy, cystic fibrosis, deafness, head injury, heart disease, hemiplegia, hemophilia, respiratory or pulmonary dysfunction, mental illness, mental retardation, multiple sclerosis, muscular dystrophy, musculo-skeletal disorders, neurological disorders (including stroke and epilepsy), paraplegia, quadriplegia, other spinal cord conditions, sickle cell anemia, specific learning disability, end-stage renal disease, or another impairment or combination of impairments determined on the basis of an assessment for determining eligibility and VR needs to cause comparable substantial functional limitations.

**Order of Selection Category V:** An individual with a physical or mental disability:

1. Who has been determined eligible for VR services; and

2. Who does not meet the criteria of an individual with either a “most significant” or “significant” disability as defined in Categories I - IV above.

An individual's placement in the Order of Selection shall not be based upon residency requirements; economic status; type of disability; age, sex, race, color, creed, or national origin; source of referral; or expected employment outcome.

Individuals shall be classified in the highest priority category for which they are determined qualified. Upon placement into a priority category, individuals shall be notified in writing of the priority categories, which category they have been placed in and their right to appeal their category assignment.

LRS shall provide for continuity of services once an otherwise eligible individual is selected for services and has begun to receive services under an IPE, irrespective of the severity of the individual’s disability. LRS will continue to provide needed VR services to all individuals with an existing Individualized Plan for Employment (IPE).

All services, including post-employment services, shall be available to individuals receiving services under an Order of Selection insofar as such services are necessary and appropriate to the individual's Individualized Plan for Employment (IPE) in order to ultimately place them in successful employment.

All LRS policies and procedures governing the expenditure of funds, consumer financial participation, and use of comparable services and benefits are applicable to individuals receiving services under an Order of Selection.

LRS will review the above Order of Selection criteria and in collaboration with the LRC and CAP will determine changes needed to ensure that those individuals who are eligible to receive Supported Employment services are receiving them as long as funding is available to serve individuals with the most significant disabilities.

**B. The justification for the order**

The lack of full funding available from the state to match the total federal dollars available has impacted LRS’ overall ability to effectively serve many individuals with disabilities in Louisiana who could potentially become employed.

LRS continues to have difficulty maintaining adequate staff, resulting in reduced capacity to administer the program and serve consumers. In 1988, when the Order of Selection (OOS) was implemented, LRS had approximately 565 staff members on hand to administer the programs under the auspices of LRS. In PY 2018 this number declined to 180 (68% decrease). Specifically, Rehabilitation Counselors have decreased by 46% over the last sixteen years (from 142 in 2002 to 77
in 2018). LRS’ goal, as positions have been lost due to budget cuts or inability to hire, has been to maintain counselors above all other positions as indicated by the slower decline in counselor numbers as compared to other staff.

On March 20, 1988, LRS moved to providing Vocational Rehabilitation (VR) services statewide through an OOS. This enabled LRS to continue providing services to those eligible, preserve its ability to accept applications, to provide diagnostic studies, to provide trial work experiences and to determine placement in the OOS.

Effective July 20, 1999, LRS served all current consumers and new applicants determined eligible and placed in OOS Category I due to decreased funding. OOS Category II was opened in February of 2000. On March 9, 2001 LRS moved from three OOS categories to five OOS categories. In August of 2002, LRS opened OOS Category III and it was closed again in August of 2003.

OOS Category III was opened again in December 14, 2005 and in January 10, 2006, due to a waiver of the state match approved by Congress to assist the state in its recovery efforts after hurricanes Katrina, Rita and Wilma, all OOS categories were opened. Due to this waiver, LRS was able to serve all five OOS categories from January 10, 2006 through April 13, 2009. From April 14, 2009 through September 30, 2010, LRS served OOS Categories I & II. Effective October 1, 2010, LRS began serving OOS I only. On January 1, 2014 LRS began serving individuals on the waiting list in Order of Selection Category II. On July 1, 2014 OOS Categories II and III were opened and individuals on the waiting list in Category IV were served. LRS served individuals determined eligible and placed in Categories I - III through February 29, 2016 at which time Categories I - III were closed. On June 3, 2016, Category I was opened and individuals on the Category II waiting list were served. On February 22, 2017, Category I was closed so all categories remained closed. On July 3, 2017 1,007 were served from the Category I waiting list. On September 1, 2017 1,019 were served from the Category I waiting list. On October 16, 2017 605 were served from the Category I waiting list. On November 8, 2017, LRS fully opened Category I and served the 795 on the waiting list. On July 16, 2018, Category II was opened and 464 were served off of the waiting list. Categories III – V remained closed. On October 1, 2018, Category III was opened and 242 were served from the waiting list. Categories IV & V remained closed. On December 12, 2018, Category IV was opened and 145 were served off of the waiting list, also 30 were served from Category V. Category V is the only category currently closed. There are no individuals on the waiting list and all client who have applied are being served.

C. The service and outcome goals

LRS anticipates serving all individuals with existing plans of service. As of December 17, 2019 LRS is serving Order of Selection Categories I through IV. Order of Selection Category V remains closed.

Estimated Number of Individuals with Existing Plans of Service in the Next Program Year:

Louisiana Rehabilitation Services estimates that it will serve 16,710 individuals during Program Year 2020 in the Vocational Rehabilitation program. This number includes approximately 11,250 cases that are expected to receive services under an IPE. The estimated number of individuals who will exit with employment after receiving services is 1,581. The estimated number of individuals who will exit without employment after receiving services is 1,473. In addition, approximately 3,100 students with disabilities will be served through the Pre-Employment Transition Services program.

Projected Cost for the Vocational Rehabilitation Program in the Next Program Year:

LRS is projecting that the VR Program will need $43,618,201 to provide services to newly eligible consumers in OOS Category I, those with plans of service in place in all five categories and to potentially eligible students receiving Pre-Employment Transition Services (Pre-ETS). Projected revenue includes matching funds of $9,290,753 and Federal Section 110 Funds of 34,327,448.

D. Time within which these goals may be achieved for individuals in each priority category within the order; and
LRS notes that the average number of days that services are provided for individuals exiting with and without employment who are most significantly disabled are much less than those who are least significantly disabled. LRS will further investigate the causes for this, but in initial reviews discovered that participants in the least significantly disabled categories had IPEs/plans that were written for college training.

**E. How individuals with the most significant disabilities are selected for services before all other individuals with disabilities**

All individuals within a higher priority category for services shall be served before individuals in the next lowest priority category are served. When it is impossible to serve all individuals within a priority category, individuals shall be placed on a deferred services waiting list and served in chronological order based on the date of application. In the event that the Order of Selection is rescinded, individuals on deferred services waiting lists and in unserved categories will be contacted and served.

The number of consumers on the waiting list by Order of Selection Category follows:

- OOS Category I - 0
- OOS Category II - 0
- OOS Category III - 0
- OOS Category IV - 0
- OOS Category V - 0
- Total - 0

In the last two PYs there have been 7 individuals placed on a waiting list for OOS Category V and periodically LRS opened the category as funding allowed in order to serve those individuals.

**2. If the designated State unit has elected to serve eligible individuals, regardless of any established order of selection, who require specific services or equipment to maintain employment**
Due to budgetary restrictions, Louisiana Rehabilitation Services does not elect, at this time, to serve eligible individuals in Order of Selection Categories not currently being served to assist them in maintaining employment.

n. Goals and Plans for Distribution of title VI Funds

1. Specify the State's goals and priorities for funds received under section 603 of the Rehabilitation Act for the provision of supported employment services

Louisiana Rehabilitation Services (LRS) will utilize Title VI funding to maintain the provision of intensive supported employment services to individuals with the most significant disabilities, including youth with the most significant disabilities, for the achievement of supported employment outcomes in competitive integrated employment.

The Order of Selection assures that individuals with the most significant disabilities receive priority for vocational rehabilitation services. Supported employment services will be provided to individuals with most significant disabilities in the following categories:

Order of Selection Category I - Severe limitations in four or more functional capacity areas.

The goals and plans of the program will be:

1. Expand the availability of customized employment services to individuals with the most significant disabilities, including youth with the most significant disabilities.

2. Enhance the quality of supported employment services by improving the approval process and training requirements and options for contracted community rehabilitation programs and their staff.

3. To investigate and provide technical assistance and training opportunities for state office and field office staff to improve the supported employment service delivery system. The field staff will receive supported employment training directed at case management and quality supported employment services.

4. To coordinate with the Department of Health & Hospitals (Office of Behavioral Health, Office for Citizens with Developmental Disabilities- Support Waivers Program, and Medicaid Purchase Plan), the Louisiana Chapter of the Association for Persons in Supported Employment (APSE), and the LSU Health Science Center Human Development Center in order to provide input to vendor agencies providing supported employment services and to solicit input from these agencies in the planning and implementation of quality supported employment services.

5. To coordinate with other agencies (public and private), employers and advocates to establish multiple options for extended services, including the use of natural supports, to ensure more successful supported employment outcomes.

Supported Employment Models Used by LRS:

LRS used an individual Job Coach model. It is estimated that approximately 130 individuals will be provided supported employment services with the funding available through the Title VI program in PY 2020.

2. Describe the activities to be conducted, with funds reserved pursuant to section 603(d), for youth with the most significant disabilities, including:
A. The provision of extended services for a period not to exceed 4 years; and

LRS will use a milestone payment system to purchase services from Community Rehabilitation Programs (CRPs) to provide intensive ongoing supports including customized employment, to assist individuals with the most significant disabilities to maintain competitive integrated employment from job placement to job stabilization and transition to extended services.

Purchased supported employment services are identified and listed on the IPE and must be obtained through an approved Supported Employment CRP. Funding for extended services are provided by the CRP, or, sources other than LRS, except in the instance of a youth with a most significant disability when no other funding sources are available. In such instances, LRS will fund extended services for a period not to exceed four years (48 months) or until the youth reaches age 25, whichever comes first. IPE’S that include extended services for youth in supported employment services will be written for one year only and continued/amended annually until either services are no longer needed; another funding source is identified; services have been provided for 48 months or the youth reaches his or her 25th birthday.

B. How the State will leverage other public and private funds to increase resources for extended services and expanded supported employment opportunities for youth with the most significant disabilities.

For youth in supported employment, other funding sources for extended services must be identified prior to the end of the 48 months or extended services provided by LRS and before the youth’s 25th birthday. LRS will assist the youth with securing extended services funding through private pay, waiver funding through the Office of Citizens with Developmental Disabilities, or Social Security Administration resources such as a Plan to Achieves Self Support (PASS) plan or Impairment Related Work Expenses (IRWE) and any other identified sources available.

o. State's Strategies

Describe the required strategies and how the agency will use these strategies to achieve its goals and priorities, support innovation and expansion activities, and overcome any barriers to accessing the VR and the Supported Employment programs (See sections 101(a)(15)(D) and (18)(B) of the Rehabilitation Act and section 427 of the General Education Provisions Act (GEPA)):

1. The methods to be used to expand and improve services to individuals with disabilities

Goal I: To maximize opportunities for individuals with disabilities in achieving competitive integrated employment and promote self-sufficiency.

Objective A. Provide quality vocational rehabilitation services leading to competitive integrated employment outcomes for 1,500 eligible individuals with disabilities annually through PY 2023.

Strategy 1. Evaluate and monitor case record documentation to maintain at least a 90% average level of compliance with policy and procedures.

Strategy 2. Explore and utilize web-based networks in order to improve consumer employment outcomes.

Strategy 3. Identify and collaborate with employers to provide job development, on-the-job training and job placement.
Strategy 4. Increase Counselor presence in secondary education settings in order to improve provision of vocational rehabilitation services to transition students.

Strategy 5. Collaborate with Veterans program and Apprenticeship program at LWC to determine methods to increase outreach and successful employment outcomes.

Strategy 6. Increase resources for assistive technology assessments and devices to improve employment outcomes.

Strategy 7. Make all LRS documents available in accessible formats.

Strategy 8. Ensure LRS office buildings are 504 compliant.

Strategy 9. Expand employment opportunities though improved interfaces with professional organizations focused on employment.

Strategy 10. Increase outreach to targeted populations who are identified by the Comprehensive Statewide Needs Assessment as being unserved/underserved, including those needing supported employment.

Strategy 11. Explore options for collaboration to provide transportation to consumers in rural areas.

Strategy 12. Explore options for collaboration to provide services to specific disability populations including those diagnosed with developmental/intellectual disabilities, autism, mental illness or addictive disorders, blind, blindness/deaf-blindness, deafness/hard-of-hearing or individuals who are students in transition.

Strategy 14. Collaborate with LDH to determine if individuals receiving services in non-integrated settings or earning sub-minimum wages are interested in competitive integrated employment and eligible for VR services.

Objective B. To expend a minimum of 15% of LRS federal funding to make available Pre-Employment Transitions Services (Pre-ETS) to applicants and potentially eligible students with disabilities.

Strategy 1. Perform comprehensive statewide needs assessment to determine needs of students with disabilities.

Strategy 2. Expand outreach to students with disabilities to make them aware of VR services including Pre-ETS.

Strategy 3. Monitor the provision of Pre-ETS services to determine effectiveness and possible improvement to service delivery process.

Strategy 4. Collaborate with LDE and LEAs to expand service provision of Pre-ETS.

Strategy 5. Collaborate with employers to provide work based learning experiences to students with disabilities.

Strategy 6. Identify and collaborate with partners to provide support services to students in transition or receiving Pre-ETS services.

Strategy 7. Explore options to increase the number of Counselors dedicated to providing services to transition students.

Objective C. Increase the number of Randolph-Sheppard Managers earning at least $25,000 annually by expanding opportunities and enhancing consumer service delivery in the Randolph-Sheppard Program.

Strategy 1. Monitor all legislation, which might impact the program’s preference (first choice at selecting to occupy available locations).
Strategy 2. Expand training opportunities for licensed blind managers to enhance skills, entrepreneurial abilities, and quality of service to customers.

Strategy 3. Consider merging locations with annual earnings below $25,000.

Strategy 4. Identify opportunities for new assigned and unassigned locations, including a Program Specialist staff position.

Strategy 5. Monitor existing Randolph Sheppard Managers to ensure they are completing the required paperwork and reporting properly.

Goal II: To ensure that Louisiana Rehabilitation Services has necessary and qualified rehabilitation personnel, both professional and paraprofessional, to provide quality vocational rehabilitation services to individuals with disabilities to achieve competitive integrated employment and self-sufficiency.

Objective A. Provide training resources to 100% of LRS staff in order to increase their efficiency in service provision through PY 2023.

Strategy 1. Implement upgrades to the Accessible Web-based Activity and Reporting Environment System (AWARE) software.

Strategy 2. Identify alternative methods of succession training for staff members interested in pursuing leadership positions.

Strategy 3. Provide in-service training to regional staff annually through a variety of methods as identified by training needs assessments/surveys and quality assurance reviews.

Strategy 4. Provide support for professional staff to obtain a Master's Degree in Rehabilitation Counseling.

Strategy 5. Develop and implement methods to increase recruitment and retention of qualified staff.

Strategy 6. Provide LRS staff with disabilities, written or electronic communication in accessible format(s) or provide other reasonable accommodations.

Strategy 7. Provide specialized training to Counselors working in caseloads serving consumers who are blind, deaf, deaf-blind, or hard-of-hearing.

Goal III: To increase the amount the state VR program draws down from the state’s federal VR grant allotment.

Objective A. Work collaboratively with Partners to leverage funding in order to ensure that services to consumers with disabilities are accessed and utilized to the utmost extent by PY 2023.

Strategy 1. Continue collaboration with the Second Injury Fund (SIF) and request increase in funding to assist consumers in obtaining or maintaining employment.

Strategy 2. Explore and implement third party cooperative arrangements with public entities and/or establishment projects with Community Rehabilitation Programs and/or public/private non-profit entities based on the needs identified in the Comprehensive Statewide Needs Assessment.

Objective B. Monitor and evaluate 100% of the Community Rehabilitation Programs (CRPs) for quality and cost effectiveness of service provision in order to assure compliance with LRS standards through PY 2023.

Strategy 2. Monitor and evaluate the cost effectiveness of service provision by reviews of a sample of CRPs through site visits on an annual basis.
Strategy 3. Annually measure consumer satisfaction with CRP services through a survey instrument.

Strategy 4. Conduct outreach to determine potential vendors who can collaborate to serve targeted populations in rural areas including, but not limited to, those who are veterans, have psychological disabilities, were formerly incarcerated, are recovering from addictive disorders or are individuals who are homeless with disabilities.

Strategy 5. Explore the use of a vendor quality instrument and/or questionnaire for counselors/consumers to be used to provide informed choice.

Objective C. Explore the use of technology to increase LRS' efficiency and any potential savings cost.

Strategy 1. Purchased necessary equipment and upgrade AWARE to go to a paperless case management system.

Strategy 2. Explore options to increase functionality of LRS staff in the community by utilizing new technologies and complementary work processes.

Strategy 3. Explore additional modules available as part of AWARE to increase efficiency.

2. How a broad range of assistive technology services and devices will be provided to individuals with disabilities at each stage of the rehabilitation process and on a statewide basis

In 2019 the AT Program Coordinator is working with Fiscal, Planning, and the CRP Bureau Administrator to update approved Rehabilitation Technology and Assistive Technology professionals, providers and vendors listed in our Technical Guidance and Assistance Manual. For fee-for-service assessments and evaluations statewide. A contract proposal is being reviewed internally for a technical assistance and training in each of the Regional Offices to begin in 2020.

LRS continues to coordinate with Louisiana Assistive Technology Network (LATAN) on an expanded program, funded by the Rehabilitation Services Administration (RSA) to provide statewide demonstration, learning, lending, and purchasing assistance of assistive technology. LATAN is an approved vendor for providing a device rental service so consumers may have a more realistic trial use of an AT device before requesting that LRS provide them with said device. LATAN is adding a leasing & lease-to-own program as an added option to the loan financing program. LATAN is a VOAD agency and a member of the Louisiana emergency preparedness and response network for persons with disabilities known as Emergency Management for Disabled and Aging Coalition (EMDAC). They conduct training to assist individuals with their personal planning for evacuations and participate in table-top exercises with First Responders (Fire and Police personnel who are part of search and rescue units).

3. The outreach procedures that will be used to identify and serve individuals with disabilities who are minorities, including those with the most significant disabilities, as well as those who have been unserved or underserved by the VR program

LRS Counselors are required to conduct outreach to faculty and students statewide at high schools and colleges to educate consumers with disabilities, who are unserved or underserved, regarding available VR services. In addition, outreach is conducted at prisons for individuals in pre-release programs and at community functions regarding available services.
In rural areas, the counselors travel to meet with applicants/consumers in a convenient location to provide services and work with them to obtain employment.

Based on needs identified in the needs assessment for transition students, outreach to local school districts continues to be conducted to identify those districts who are interested in a Third Party Cooperative Arrangement for transition services to increase success and improve post-secondary outcomes for students with disabilities.

LRS maintains a strong collaboration with the Office of Behavioral Health, Office for Citizens with Developmental Disabilities and the Office of Aging and Adult Services to identify potential sources of referrals.

LRS works collaboratively with Section 121 VR programs to ensure that any service needs to Native Americans with disabilities are addressed. A Program Coordinator is assigned to provide technical assistance to the field concerning outreach to this population. Outreach is performed through presentations at events sponsored by Section 121 groups and at functions attended by Native Americans. A representative from Section 121 VR programs is on the State Rehabilitation Council and acts as a liaison between the two programs.

4. The methods to be used to improve and expand VR services for students with disabilities, including the coordination of services designed to facilitate the transition of such students from school to postsecondary life (including the receipt of VR services, postsecondary education, employment, and pre-employment transition services)

LRS continues to review proposed ideas and initiatives for Pre-Employment Transition Services (Pre-ETS).

LRS has designated VR counselors to work with Pre-ETS only cases across the state. LRS is working with a technical advisor to develop innovative and progressive systems and regulations for Pre-ETS services.

The following strategies will expand and improve VR services for students and youth with disabilities who are transitioning from high school to postsecondary education and/or employment, and improve coordination with state and local secondary and postsecondary educational entities:

- Continue to evaluate, revise, and develop policy, procedures, and staffing strategies to improve consistency and increase effectiveness in the provision of transition services.
- Continue to expand and increase partnerships with schools to facilitate the coordination and provision of Pre-Employment Transition Services to students with disabilities.
- Continue to expand and increase partnerships with state and local secondary and postsecondary educational institutions and organizations to facilitate the identification of best practices, leveraged resources, and improved coordination.

5. If applicable, plans for establishing, developing, or improving community rehabilitation programs within the State

LRS monitors and evaluates 100% of the CRPs biennially for quality and cost effectiveness of service provision to determine what improvements may be needed as well as to assure compliance with established standards.
Based on the results of the last statewide needs assessment, LRS identified areas of the state where CRPs are unable to meet the current need or are not present to provide services. This information is used to explore funding options, facility and staffing needs to establish, develop or improve CRPs and LRS will consider these opportunities, as appropriate.

6. Strategies to improve the performance of the State with respect to the performance accountability measures under section 116 of WIOA

Strategies to improve performance are listed in the section above entitled “(1) The methods to be used to expand and improve services to individuals with disabilities.”

LRS is negotiating performance measures with our federal partner, the Rehabilitation Services Administration, and will continue to use baseline data and other available resources to increase performance outcomes per 116 of WIOA. LRS continues to provide training to staff statewide and review data captured to determine methods to increase outcomes.

7. Strategies for assisting other components of the statewide workforce development system in assisting individuals with disabilities

LRS continues to collaborate with LWC in identifying effective ways to integrate services and to be involved with the Workforce Commission and its fifteen (15) Workforce Development Areas. LRS is represented on each of the 15 boards and attends meetings as scheduled. There are fifteen (15) Memorandum of Understanding (MOU) established with each of the 15 Workforce Development Boards (WDBs). Within the 15 Workforce Development Areas, 62 American Job Centers have been established. Fifteen cost allocation plans have been completed by the WDBs, and approved by all parties. LRS has a good working relationship with the American Job Centers and continues to pay expenses to the local American Job Centers for our participation, as per the local cost allocation plans. To improve knowledge regarding assistive technology and address other accessibility issues, LRS’ Program Coordinator for Rehabilitation Technology continues to provide consultation to the American Job Centers. In addition, LRS’ REDS serve as the LRS liaison for all American Job Centers within the region and include providing “LRS Public Awareness” as well as services to consumers such as job seeking skills techniques and employment development. LRS and LWC are committed to the success of the American Job Centers and work collaboratively to serve individuals with disabilities at assigned Centers.

LRS continues to renew and revise existing local cooperative agreements, as applicable, with the 70 school districts and 146 Charter Schools in Louisiana. The LRS Transition Program Coordinator continues to collaborate and partner with LDE, OCDD, Work Incentive Planning Program, Office of Community Services, LWC, and the Office of Youth Development in an effort to network, share information and utilize comparable benefits to enhance VR services to transition students. The primary focus of LRS’ collaboration is to identify and address barriers (e.g. policies, eligibility process, resource allocation); assure effective service provision through the support of local interagency core teams, provide cross-agency training, outreach, engage in capacity building of young adults and family outreach efforts; provide continued support of innovative models and practices related to transition; and provide information and technical assistance. The Program Coordinator provides guidance and information to the Rehabilitation Counselors regarding specific transition issues. The Program Coordinator worked collaboratively with WINTAC’s Coordinator using conference calls, to discuss transition topics and provide information to LRS’ field offices. Training will continue to be provided statewide. VR Counselors are encouraged to provide services, when feasible, to students determined appropriate for workplace readiness training.

As LRS continues to focus on increasing/enhancing quality employment outcomes, every Regional Office now has a REDS position or an Employment Specialist that provides job
development/placement assistance to consumers. This assistance may include direct job placement, job shadowing, work experience, on the job training, or custom solutions.

In addition, a State Office position coordinates employment activities statewide. The Employment Initiative Program Coordinator serves as LRS’ direct contact to the VR Business Network and distributes job leads and information to the regional offices. The Employment Initiative Program Coordinator continues to build relationships with employers by attending job fairs and by attending other diversity meetings that may host employers. The state also launched the State as a Model Employer (SAME) initiative and the Employment Initiative Program Coordinator readily contacts the state agency’s Human Resource Director when we are aware of when we have a consumer that has applied to a state job. The first year that this was launched was in SFY 18-19 and we had a total number of 38 LRS consumers become successfully employed with the State of Louisiana. LRS continues to participate with Office for Citizens with Developmental Disabilities (OCDD) in the “Employment First” initiative, which was designed to provide employment as a first option for persons with developmental disabilities, as an alternative to institutionalization, and to provide integration/independence in the community.

LRS participates in roundtable discussions hosted by OCDD to inform their staff and providers of new requirements related to integration of individuals with developmental disabilities into their communities as a result of new Centers for Medicare and Medicaid Services (CMS) rules, as well as how to better collaborate with LRS to achieve goals set forth in WIOA.

8. How the agency’s strategies will be used to:

A. Achieve goals and priorities by the State, consistent with the comprehensive needs assessment;

LRS held a strategic planning session in October of 2019 and the results of the triennial needs assessment was reviewed. At this time, LRS updated it strategic plan, developing goals, priorities and strategies to address the needs identified. The strategies were also reviewed by the LRC in order for them to participate and give feedback. These strategies will support collaborative efforts, identify initiatives needed, determine funding requests, and improve services to consumers with disabilities. Staff members will be appointed to coordinate and conduct activities to achieve identified goals and strategies.

B. Support innovation and expansion activities; and

LRS will continue to explore opportunities to incorporate innovative methods of service delivery to improve consumer employment outcomes and expansion of opportunities. LRS will continue to utilize I & E funds for the SRC with a budget of $12,900 and SILC with a budget of $120,993 in both PY 2020 & PY 2021.

C. Overcome identified barriers relating to equitable access to and participation of individuals with disabilities in the State VR Services Program and the State Supported Employment Services Program.

Strategies to improve access include evaluation of all LRS offices, publications and all other electronic media utilized by consumers. LRS uses information from the Comprehensive Statewide Needs Assessment, as well as consumer, staff and vendor input to identify areas where access can be improved.

p. Evaluation and Reports of Progress: VR and Supported Employment Goals

Describe:
1. An evaluation of the extent to which the VR program goals described in the approved VR services portion of the Unified or Combined State Plan for the most recently completed program year were achieved. The evaluation must:

A. Identify the strategies that contributed to the achievement of the goals

The following summarizes LRS’ objectives/goals and the progress that has been made toward reaching them for Program Year (PY) 2018.¹ State VR agencies submit a state plan annually to RSA to identify the goals and priorities of the state in carrying out the program.

**Goal I: To maximize opportunities for individuals with disabilities in achieving competitive integrated employment and promote self-sufficiency.**

**Objective A. Provide quality vocational rehabilitation services leading to employment outcomes for 2,000 eligible individuals with disabilities annually through FY 2020.**

Strategy 1. Evaluate and monitor case record documentation to maintain at least a 90% average level of compliance with LRS policy and procedures.

Progress: LRS quality assurance staff randomly selected and reviewed 267 consumer service records during the 2018 review cycle (January 1, 2018 through December 31, 2018). Samples were drawn statewide from records in Service and Closed Rehabilitated statuses to review the following areas of casework for compliance: Application, Eligibility, Assessment, IPE, Supervision, Closed Rehabilitated, and Fiscal. The statewide rate of counselor compliance with agency documentation requirements delineated in the QA-1 monitoring form was measured at 94.9% (>90% is considered “Satisfactory”) for the 2018 review cycle. This compliance rating represents a decrease (1%) from the 2017 review year which was measured at 95.9%. The sample size for the 2018 review year was in compliance with RSA recommendations (2%) based on total consumer population.

Each of the eight regions achieved a “Satisfactory” rating during the 2018 review cycle for casework documentation compliance measured by the monitoring form. Regional scores ranged from 91% to 98%. Corrective action recommendations resulting from QA monitoring activities for the 2018 review year have been implemented. The QA-1 monitoring form was revised to incorporate changes in LRS guidelines implemented over the past 12 months.

Strategy 2. Explore opportunities for consumers to participate in Telework in order to increase employment outcomes.

Progress: Telework employment options are considered for consumers when appropriate.

Strategy 3. Identify and collaborate with employers to provide job development, Work-Based Learning Experiences and job placement.

Progress: Through collaboration with the LRS Rehabilitation Employment Development Specialists (REDS) and local businesses throughout the state, 163 jobs were developed leading to successful job placements. Additionally, LRS vendors work with businesses throughout the year in developing jobs and placing consumers.

Strategy 4. Increase Counselor presence in secondary education settings in order to improve provision of vocational rehabilitation services to transition students.

Progress: Pre-ETS counselors have been assigned to all public schools throughout the state.

Strategy 5. Coordinate with employers on transition services for youth and students with disabilities.

Progress: Pre-ETS counselors and REDS have identified employers and placed students with disabilities into Work-Based Learning Experiences.
Strategy 6. Increase resources for assistive technology assessments and devices to improve employment outcomes.

Progress: The contractual agreement to hire a Physical Therapist and Rehabilitation Engineer through LSU Health Sciences Department ended, and in compliance with guidance from RSA, the assistive technology program was re-vamped to be strictly fee-for-services.

Many, in-state vendor/providers have been vetted, and added to the approved, vendor’s list in the Technical Guidance & Assistance Manual (TG&AM) to provide rehabilitation technology assessments and training on a fee-for-service basis, to include vehicle modification specifications for LRS consumers. Specialized, professionals will conduct seating and positioning assessments, wheelchair and personal mobility evaluations, home modifications for accessibility evaluations, job accommodations assessments, and other rehabilitation engineering field services as required. The state-approved list of assistive technology and rehabilitation technology providers/vendors has been updated, and referral forms made available to the regional offices.

Strategy 7. Make all LRS documents available in accessible formats.

Progress: All documents can be provided in alternative formats, such as braille, large print, alternate languages, etc. upon request.

Strategy 8. Ensure LRS office buildings are 504 compliant.

Progress: Section 504 audits of the LRS buildings and facilities are on-going. In 2017-2018, Dr. Schweitzer worked with the Louisiana Workforce Commission (LWC) Equal Employment Officer, to perform in-house Americans with Disabilities Act as Amended (ADAA) and Uniform Federal Access Standards (UFAS) assessment of our Baton Rouge Business & Career Solutions Centers, and the proposed Opelousas Center. One feature of this, included exploration of funding for accessible pathways from state-parish-city maintained pathways to these facilities.

Strategy 9. Expand employment opportunities through improved interfaces with professional organizations focused on employment.

Progress: The Rehabilitation Employment Development Specialists and Employment Coordinator participate in Job Fairs, Society of Human Resource Managers, Mayor’s Commission on Disability, Business Service, Reentry Meetings and Chamber of Commerce meetings. The Employment Coordinator has participated in the tours that employers were offering such as Cintas, a nationwide uniform business that has full time job opportunities and The Employment Coordinator has also had several conversations with Amazon about their job opportunities and has passed that information along to the appropriate regions. After the holiday season, the Employment Coordinator will be taking a tour of their facilities.

Strategy 10. Increase outreach to targeted populations who are identified by the Comprehensive Statewide Needs Assessment as being unserved/underserved, including those needing supported employment.

Progress: The Comprehensive Statewide Needs Assessment was conducted in 2017 and the results are in section (J) Statewide Assessment above. The results of this assessment are being used to target areas of outreach.

Strategy 11. Explore options for collaboration to provide transportation to consumers in rural areas.

Progress: A technical college with multi-campuses in Tangipahoa and St. Helena parishes requested technical assistance in arranging transportation services for transition students to attend courses, following their graduation from high school. The Tangipahoa Voluntary Council on Aging (TVCOA) and St. Helena parish transportation providers met with Dr. Schweitzer and the Dean of the North Shore Technical College to discuss a proposal to the Louisiana Department of Transportation to provide services with ADA-accessible vans between communities in St. Helena and Tangipahoa parishes. The strategies behind this proposal will provide a reliable round-trip option for non-driving job-seekers, via apprenticeship and other transition, education plans for LRS consumers.
The Evangeline Parish the Council-on-Aging provides transit services for an LWC-sponsored apprenticeship training programs in Lafayette. A proposal to begin training technical skills at the Vocational Technical School in Ville Platte is in the planning stages.

As a result of WIOA-initiatives to increase collaboration between services agencies (LWC, LRS, VA, CAA and FITAP) at the local level, an initiative to link job-training and development programs between St. Landry and Evangeline parishes with Lafayette is underway from the Business and Career Solutions Center in Opelousas. The Community Action program has submitted a proposal to La DOTD that will build on their current fleet of five, USC-49 5310 (Elderly and Disabled) program vehicles.

The Metropolitan Planning Organization (MPO) of Lafayette, Louisiana has linked urban transit services with rural communities such as Carencro and Breaux Bridge, LA. The LRS Regional Manager of the Lafayette office is an active participant in this MPO.

In 2018 the Technical Guidance & Assistance Manual (TG&AM) on Transportation Services was updated to provide Counselors with state-wide transportation resources that are current, and available.

Strategy 12. Explore options for collaboration to provide services to specific disability populations including those diagnosed with developmental/intellectual disabilities, autism, mental illness or addictive disorders, blindness/deaf-blindness, deafness/hard-of-hearing or individuals who are students in transition.

Progress: LRS has a fee-for-service agreement with Nicholls State University, University of Lafayette, Baton Rouge Community College, Bossier Parish Community College, and the LSU Human Development Center to provide services to autistic and developmental/intellectual disability populations. LRS also has eleven (11) Third Party Cooperative Arrangements with Local Education Associations (LEAs) throughout the state to provide Pre-ETS to students in transition.

Progress: LRS investigated establishing this program in the Baton Rouge area and determined that a similar program was already established.

Strategy 14. Explore potential of establishing a program to provide training to individuals with autistic spectrum disorders.

Progress: LRS has developed fee-for-service agreements with Nicholls State University, University of Lafayette, Baton Rouge Community College, Bossier Parish Community College, and the LSU Human Development Center and a contract with Bossier Parish Community College to provide services primarily to consumers with autism.

Strategy 15. Explore how to determine if vocational training programs for industry-based certifications are qualified or certified to provide quality vocational training that results in competitive integrated employment outcomes.

Progress: LRS will work with the Workforce Investment Council to explore this further.

Strategy 16. Collaborate with Louisiana Department of Health to determine if individuals interested in competitive employment and in Sheltered Workshops are eligible for VR services.

Progress: LRS is in the process of updating our Memorandum of Understanding with the Office for Citizens with Developmental Disabilities to ensure a seamless referral process to LRS for individuals interested in competitive integrated employment. LRS also implemented WIOA’s subminimum wage regulations and developed guidance for staff statewide to aid in implementation.

Objective B. To expend a minimum of 15% of LRS federal funding to make available Pre-Employment Transitions Services (Pre-ETS) to applicants and potentially eligible students with disabilities.
Strategy 1. Perform comprehensive statewide needs assessment to determine needs of students with disabilities.

Progress: The needs assessment was conducted in calendar year 2017 for submission in the State Plan submitted in 2018 and will be conducted again in 2020. Students with disabilities were surveyed to determine needs and the results are being used to assist with strategies, outreach and activities.

Strategy 2. Expand outreach to students with disabilities to make them aware of VR services including Pre-ETS.

Progress: Pre-ETS counselors throughout the state attend IEP meeting, career fairs, and other school functions to make them aware of LRS services.

Strategy 3. Monitor the provision of Pre-ETS services to determine effectiveness and possible improvement to service delivery process.

Progress: Pre-ETS counselors monitor vendor activities in the schools to ensure delivery of appropriate services and determine any improvements needed.

Objective C. Increase the number of Randolph-Sheppard Managers earning at least $25,000 annually by expanding opportunities and enhancing consumer service delivery in the Randolph-Sheppard Program.

Strategy 1. Monitor all legislation, which might impact the program’s preference (first choice at selecting to occupy available locations).

Progress: This is monitored annually during the legislative session.

Strategy 2. Expand training opportunities for licensed blind managers to enhance skills, entrepreneurial abilities, and quality of service to customers.

Progress: Managers are provided upward mobility training annually. In the most recent Program Year, we began reimbursing registration fees for Randolph-Sheppard Managers who attend the National BLAST or Sagebrush conferences.

Strategy 3. Consider merging locations with annual earnings below $25,000.

Progress: As managers exit existing facilities, a systematic evaluation of the facility and potential for earning $25,000 or higher is undertaken. For those facilities that are not deemed to fall within that category, opportunities for merging with existing facilities and/or converting them to unassigned vending locations are investigated.

The location at the Louisiana Workforce Commission was converted from a Third Party vendor and assigned to a blind manager in November 2018. Efforts are continuing to convert the location to a “hybrid” type location with a self-service micro market along with fresh food prep. Customers are selecting from both pre-packaged items and/or items that are prepared on-site and paying for it using a self-service kiosk. This is the first micro-market in Louisiana, and could serve as a basis for making changes to existing locations around the state as we try to adopt new technology to assist our vendors to become more profitable while providing excellent customer service.

During the year, we combined the vending locations at the all new VA hospital with the existing NASA vending facility in New Orleans. This resulted in an increase of over 30% in the manager’s earnings.

In an effort to increase Randolph-Sheppard manager income at existing facilities, we have worked to improve product selection by upgrading equipment at multiple locations, including the Louisiana Department of Corrections and the Jefferson parish courthouse locations.

Strategy 4. Identify opportunities for new assigned and unassigned locations, including a staff position.

Progress: We will continue to pursue this goal pending availability of funds and positions.
Goal II: To ensure that Louisiana Rehabilitation Services has necessary and qualified rehabilitation personnel to provide quality vocational rehabilitation services to individuals with disabilities to achieve competitive integrated employment and self-sufficiency.

Objective A. Provide training resources to 100% of staff in order to increase their efficiency in service provision through FY 2020.

Strategy 1. Implement upgrades to the Accessible Web-based Activity and Reporting Environment System (AWARE) software.

Progress: All upgrades were implemented through PY2018 to correlate with the state and federal guidelines. All Staff were trained on the changes in AWARE and were instructed on the information needed to address these changes. Supervisors were given instructions on monitoring the new information and changes in AWARE. During the New Counselor Academy, the new Counseling staff were trained on various functions of AWARE including layouts, reports, activity dues, and other case management tools to assist with managing timelines and case flow. Special attention was given to Measurable Skills Gains, Credentials, and Educational Goals.

Strategy 2. Identify alternative methods of succession training for staff members interested in pursuing leadership positions.

Progress: Succession training is provided through the State's Comprehensive Public Training Program, mentoring LRS provides, cross training when applicable, and the National Rehabilitation Leadership Institute. Staff members participate based on interests and career advancement goals.

Strategy 3. Provide in-service training to regional staff annually through a variety of methods as identified by training needs assessments/surveys and quality assurance reviews.

Progress: LRS provides in-person training, live video training, video recorded training, and archived accessed training to accommodate staff time and needs. In-person training is a very effective training method that allows staff to communicate with state office personnel and to relate field concerns. Each region faces a variety of obstacles that differ from region to region. Video training has allowed more flexibility to reach staff across the state on a more frequent basis without requiring state travel. Video recorded training is a vital resource for staff that may have pre-scheduled appointments and were not able to attend the live video training. Archived training is a good resource to have to refer to when staff want to refresh themselves on methods or procedures. Having a variety of methods has allowed LRS to reach more staff in various ways to communicate the necessary information.

Strategy 4. Provide support for professional staff to obtain a Master’s Degree in Rehabilitation Counseling.

Progress: Professional staff are encouraged to complete their Master’s Degree and are provided with information on Colleges and Universities that offer scholarships. In 2018, we had one Rehabilitation Counselor complete her Master’s Degree through the University of Kentucky and another begin the Master’s Program at the University of Massachusetts-Boston. New Rehabilitation Counselors have expressed interest in obtaining their Master’s Degree once they become more familiar with the VR process and more comfortable with their job duties.

Strategy 5. Develop and implement methods to increase recruitment and retention of qualified staff.

Progress: Staff are offered numerous opportunities to attend conferences and trainings to improve competencies and skills. Staff are encouraged to submit any training request they find on their own that they wish to participate to the training department for consideration. Job related trainings are highly encouraged to enhance skills and knowledge about disabilities. Continuing education units can be provided by LRS for internal training events to assist staff with maintaining certifications. We encourage staff to assist with hosting interns to provide insight and ground level training to potential recruits.

Strategy 6. Provide LRS staff with disabilities, written or electronic communication in accessible format(s) or provide other reasonable accommodations.
Goal III: To maximize resources and pursue innovative means to leverage the state’s full federal VR grant allotment.

Objective A. Work collaboratively with Partners to leverage funding in order to ensure that services to consumers with disabilities are accessed and utilized to the utmost extent by FY 2020.

Strategy 1. Explore and utilize web-based networks in order to improve consumer employment outcomes.

Progress: LRS Counselors utilize the LWC Hire database to assist consumers in locating employment. In addition, the State Wage Interchange System Agreement has been signed to allow LRS access to wages of consumers working out of state. The AWARE system has been updated several times to allow necessary performance data to be captured and LRS continues to look at more innovative ways to conduct activities more efficiently.

Strategy 2. Continue collaboration with the Second Injury Fund (SIF) and request increase in funding to assist consumers in obtaining or maintaining employment.

Progress: During State Fiscal Year 2018, LRS served 758 consumers with SIF funds and spent the total amount allotted of $2,464,789. Monthly updates are provided and a formal quarterly report to the SIF Board. In 2018 the Louisiana legislature approved the Second Injury Fund authorization bill and moved to remove the “sunset rule” that would have ended in 2020.

Strategy 3. Explore and implement third party cooperative arrangements with public entities and/or establishment projects with Community Rehabilitation Programs and/or public/private non-profit entities based on the needs identified in the Comprehensive Statewide Needs Assessment.

Progress: LRS has negotiated Third Party Cooperative Arrangements with eleven (11) entities throughout the state including school boards, charter schools, and other public entities to provide Pre-Employment Transition Services.

Strategy 4. Explore options to increase the number of Counselors dedicated to providing services to transition students.

Progress: All LRS rehabilitation counselors are trained to provide Pre-Employment Transition Services statewide.

Strategy 5. Collaborate with Veterans program and Apprenticeship program at LWC to determine methods to increase outreach and successful employment outcomes.

Progress: The Program Coordinator for Employment Development works closely with her counterpart at the state Veterans program and the Apprenticeship colleagues and often reminds the Regional Managers and their staff that participation in the Registered Apprenticeship program is a quality employment goal as the chosen occupation is learned through a structured program of supervised on-the-job training; and Registered Apprenticeships are clearly identified and commonly accepted throughout the industry, requiring a minimum of 2,000 hours of work experience to learn and involves the development of manual, mechanical and technical skills broad enough to be applicable in like occupations in the industry.

Objective B. Monitor and evaluate 100% of the Community Rehabilitation Programs (CRPs) for quality and cost effectiveness of service provision in order to assure compliance with agency standards through FY 2020.

Strategy 1. Monitor and evaluate CRPs through a Regional Triennial Renewal Process.

Progress: The Bureau of Community Rehabilitation Programs completed programmatic reviews of CRP’s across the state. Of those found to have deficiencies, feedback was provided regarding non-compliant areas and corrective action was taken to enable the CRP to become compliant. The
triennial renewal was completed. Non-compliant vendors were required to take corrective action prior to renewal. CRPs are continuously monitored at the regional level for quality performance as quality indicators must be met prior to payment for services.

Strategy 2. Monitor and evaluate the cost effectiveness of service provision by reviews of a sample of CRPs through site visits on an annual basis.

Progress: LRS reviews rates for services when it appears that a rate is too low or if a request for review is received.

Strategy 3. Annually measure consumer satisfaction with CRP services through a survey instrument.

Progress: The most recent survey completed in 2018 indicated an approval rating of 77% for the CRPs.

Strategy 4. Conduct outreach to determine potential vendors who can collaborate to serve targeted populations in rural areas including, but not limited to, those who are veterans, mentally ill, ex-felons, recovering from addictive disorders or homeless.

Progress: Regional Managers determine areas of service in which vendors are needed within the regions that they serve. In the event that a shortage of service providers is identified within a region, the manager will conduct outreach to determine interest by the public or local service organizations qualified to provide the targeted services.

Strategy 5. Explore the use of a vendor quality instrument and/or questionnaire for counselors/consumers to be used to provide informed choice.

Progress: LRS has considered the use of a “report card” for vendors and continues to consider this option.

Objective C. Explore the use of technology to increase LRS efficiencies in processes to realize cost savings.

Strategy 1. Explore requirements to upgrade AWARE to paperless system.

Progress: LRS has implemented the first stages of a paperless system and staff have the capabilities to attach documents in AWARE. Additional equipment will be needed to fully utilize a paperless system. LRS plans to purchase scanners and digital signature pads to assist in becoming more paperless.

Strategy 2. Explore options to increase functionality of LRS staff in the community by utilizing Telework, new technologies, and complementary work processes.

Progress: LRS has considered options to allow counselors to fully work from outside/community locations but does not currently have the appropriate equipment to access the AWARE case management system and capture consumer’s signatures. Laptops, scanners and signature pads will be required. New laptops are in the process of being purchased. Scanners and signature pads are going to be purchased in the near future.

Goal IV. Investigate the transfer Independent Living (IL) Program to the Louisiana Department of Health to align with the federal program transfer.

Strategy 1. Discuss with administration of the Louisiana Department of Health, LWC and stakeholders.

Progress: Discussions were held and it was decided that the Independent Living Program will remain with LWC at this time. The IL Centers and their stakeholders have an excellent relationship with LWC and are satisfied with the current placement.

The following is a report of progress for specific LRS activities:

Second Injury Fund:
In 2018, LRS served 758 consumers with SIF funds and spent the total amount allotted of $2,464,789. LRS provides monthly updates and a formal quarterly report to the SIF Board. In 2018 the Louisiana legislature approved the Second Injury Fund authorization bill and moved to remove the “sunset rule” that would have ended in 2020.

Transportation Initiative:

A technical college with multi-campuses in Tangipahoa and St. Helena parishes requested technical assistance in arranging transportation services for transition students to attend courses, following their graduation from high school. The Tangipahoa Voluntary Council on Aging (TVCOA) and St. Helena parish transportation providers met with Dr. Schweitzer and the Dean of the North Shore Technical College to discuss a proposal to the Louisiana Department of Transportation to provide services with ADA-accessible vans between communities in St. Helena and Tangipahoa parishes. The strategies behind this proposal will provide a reliable round-trip option for non-driving job-seekers, via apprenticeship and other transition, education plans for LRS consumers.

The Evangeline Parish the Council-on-Aging provides transit services for an LWC-sponsored apprenticeship training programs in Lafayette. A proposal to begin training technical skills at the Vocational Technical School in Ville Platte is in the planning stages.

As a result of WIOA-initiatives to increase collaboration between services agencies (LWC, LRS, VA, CAA and FITAP) at the local level, an initiative to link job-training and development programs between St. Landry and Evangeline parishes with Lafayette is underway from the Business and Career Solutions Center in Opelousas. The Community Action program has submitted a proposal to LaDOTD that will build on their current fleet of five, USC-49 5310 (Elderly and Disabled) program vehicles.

The Metropolitan Planning Organization (MPO) of Lafayette, Louisiana has linked urban transit services with rural communities such as Carencro and Breaux Bridge, LA. The LRS Regional Manager of the Lafayette office is an active participant in this MPO.

In 2018 the Technical Guidance & Assistance Manual (TG&AM) on Transportation Services was updated to provide Counselors with state-wide transportation resources that are current, and available.

Employment Initiatives:

Throughout the regions in this state, LRS continues to focus on business engagements which focuses on connecting with various employers and thereby increasing employment outcomes with people with disabilities. Our Employment Specialists, REDS, and our Program Coordinator continue to educate employers on the advantages on hiring people with disabilities and the financial incentives such as the Work Opportunity Tax Credit Program (WOTC) that they may be able to receive. During Disability Awareness Month, (October) job fairs are held across the state which enables our consumers to make solid connections with employers that could lead to employment opportunities. Our Employment Specialist and REDS continue to provide job development/placement assistance to our consumers. This assistance may include direct job placement, job shadowing, work experience, on the job training, or custom solutions.

LRS has a dedicated State Office position that coordinates employment activities statewide. The Employment Initiative Program Coordinator serves as LRS’ direct contact to the VR Business Network and distributes job leads and information to the regional offices. The Program Coordinator continues to network by means of attending the Society of Human Resource Management monthly meetings, WIOA board meetings and monthly meetings with the Louisiana Diversity Council. The Program Coordinator continues to work closely with the Veterans personnel related to business engagement as employers often group veterans and people with disabilities as one group.

The Louisiana Rehabilitation Council also has an employment committee that focus on strategies used to increase business engagement as well as various approaches that we can use when working with our consumers to increase their own potential to employment. These committee members
consist of Employment Specialists, HR managers from businesses, Representatives from Independent Living Council and former recipients of vocational rehabilitation services. The committee focuses on establishing best practice models to improve services and employment outcomes for LRS consumers.

Ticket-to-Work:

LRS continues to network and collaborate with MAXIMUS, as well as many other agencies in the state, to ensure Ticket-to-Work is successful in Louisiana. LRS continues to maintain a statewide 1-800 Ticket Hotline number for individuals interested in learning more about their Ticket and how LRS would be able to assist them.

In PY 2018, LRS received $732,404.41; this amount was a decrease from FY 2017’s $1,163,021.25 which was received from the Social Security Administration’s (SSAs) reimbursement program. The Program Coordinator continues to work closely with SSA to insure all documentation is submitted properly so that claims can be processed.

Collaboration with Title 121 Programs:

LRS and the Tribal programs continue to provide coordinated services under the collaborative agreement to make the rehabilitation process more responsive to the needs of American Indians with disabilities. The collaborative agreement allows for mutual acceptance of eligibility decisions, the provision of services through concurrent (joint) cases, the sharing of resources, and to continue cross-training opportunities to facilitate the development of staff persons.

Due Process:

LRS had two scheduled Fair Hearings during 2019. Of the two fair hearing requests, both were resolved prior to the actual fair hearing; There was one fourth level review.

Impartial Hearing Officers and Mediators are initially provided training on LRS Policy and Technical Assistance and Guidance manual materials. Copies of revised policy and technical assistance manual material is provided to the Impartial Hearing Officers/Mediators, if needed, training is provided.

1 The goals and strategies identified in this section align with the goals identified in O.1. State's Strategies section and P.1.A. Evaluation of Reports of Progress of the 2018 State Plan.

B. Describe the factors that impeded the achievement of the goals and priorities

LRS continues to be unable to obtain the full state match to access all of the federal funding available to the state. However, the most significant challenges have been with retention and hiring of sufficient staff to serve the population of individuals with disabilities in Louisiana. Due to the disparity in the rates of pay between private and public vocational rehabilitation counselors, LRS frequently has rehabilitation counselors who have been in their positions for one or two years leave LRS once they have gained enough experience to be hired in private rehabilitation positions paying more.

The lack of sufficient staff that are available to provide the outreach and services needed in the state impacts the morale of current staff who are stretched to provide coverage for multiple vacant positions in addition to their own.

2. An evaluation of the extent to which the Supported Employment program goals described in the Supported Employment Supplement for the most recent program year were achieved. The evaluation must:

A. Identify the strategies that contributed to the achievement of the goals
One thousand five hundred and seventy six (1,576) individuals with disabilities received supported employment services in PY 2018 and continue to receive extended services. The supported employment goals and plans are identified in sections (n) Goals and Plans for Distribution of Title VI Funds and (q) Quality, Scope, and Extent of Supported Employment Services.

One hundred and thirty (130) individuals were provided supported employment services with the funding available through the Title VI, Part B program in PY 2018. Individuals with the most significant disabilities in Order of Selection Categories I and II will be served under this program.

B. Describe the factors that impeded the achievement of the goals and priorities

Factors that had a negative impact on reaching the goals include the following: (1) Insufficient state match to draw down the grant award, (2) Staff turnover due to a number of factors, (3) Challenges with recruiting and retaining staff due to low entry salaries, (4) Challenges with filling vacant positions that resulted from natural attrition; (5) Disruption to service delivery due to relocation of State Office and regional office.

3. The VR program’s performance on the performance accountability indicators under section 116 of WIOA

LRS is collecting baseline data and reporting its performance through the required RSA-911 reports. Negotiations will be held with RSA to determine performance measures.

4. How the funds reserved for innovation and expansion (I&E) activities were utilized

During FY 2019, LRS used the following innovation and expansion funds per allowable expenditures identified in the federal regulations 34 CFR 361.35 to support the salaries, travels, and activities of the Louisiana Rehabilitation Council staff person and it members, the Statewide Independent Living Council, as well as the AWARE case management system:

Louisiana Rehabilitation Council (LRC): $10,692.06
Statewide Independent Living Council (SILC): $133,336.77
Total: $144,028.83

Innovation and Expansion funds (I&E) support the travel of the Louisiana Rehabilitation Council (LRC) members to one day quarterly meetings. I&E funds support the Statewide Independent Living Council (SILC) Resource Plan as outlined in the Louisiana State Plan for Independent Living which includes SILC operations, staff salary, travel and activities of the SILC. The SILC holds two day quarterly meetings and attends conferences consistent with the State Plan.

q. Quality, Scope, and Extent of Supported Employment Services

Include the following:

1. The quality, scope, and extent of supported employment services to be provided to individuals with the most significant disabilities, including youth with the most significant disabilities

Louisiana Rehabilitation Services will provide and improve the quality of supported employment services through the Title VI Program, and the Title I, Vocational Rehabilitation Program to individuals.
with the most significant disabilities through the use of fee-for-service reimbursement, or LRS funded grants and/or contracts awarded to supported employment providers.

The goals of the program will be:

1. To fund the vendors necessary to provide supported employment services to eligible consumers. These vendors will provide services to a diverse population of individuals with significant disabilities, including youth with the most significant disabilities.

2. To ensure the quality of supported employment services provided to eligible consumers by improving the approval process including training requirements and options for contracted community rehabilitation programs and their staff.

3. Expansion of the availability of customized employment services to individuals with the most significant disabilities, including youth with the most significant disabilities.

4. Provide technical assistance and training opportunities to state office and field office staff to improve the supported employment service delivery system. The field staff will receive supported employment training directed at case management and quality supported employment services.

5. To work cooperatively with other agencies (public and private), employers and advocates to assist in developing employment opportunities and multiple options for extended services to ensure more successful supported employment outcomes.

6. To coordinate with the Department of Health & Hospitals (OBH and OCDD - Support Waivers Program, and Medicaid Purchase Plan), University of North Texas Workplace Inclusion and Sustainable Employment (UNTWISE), the Louisiana Chapter of the Association for Persons in Supported Employment (APSE), and LSU Health Science Center Human Development Center in order to provide input to vendor agencies providing supported employment services and to solicit input from these agencies in the planning and implementation of quality supported employment services.

Supported Employment Models used by LRS:

LRS uses an Individual Job/Job Coach model. It is estimated that at least 1,560 individuals can be provided supported employment services.

2. The timing of transition to extended services

The time required for transition to extended services is as follows:

1. Supported employment models:

   Individual Placement Model - Under the individual placement model, stabilization occurs when the consumer has made substantial progress toward meeting the hours per week goal indicated on an IPE and has reached a point where intervention is no more than 25% of the consumer’s normal work time and the individual has maintained at least ninety (90) days of consecutive employment after stabilization occurred.

   2. Extended Follow-along (transition):

      The consumer must meet the following requirements before the Counselor can provide for the transition of the consumer from LRS to the provider of extended services:

      a. Job placement is stable for the consumer;

      b. The consumer has substantially met the goal for number of hours of employment as indicated on an IPE; and,

      c. The Supported Employment Provider agency agrees to provide on-going support including the implementation of natural supports needed to maintain the consumer’s employment.
Vocational Rehabilitation (Combined or General) Certifications

States must provide written and signed certifications that:

1. The (enter the name of designated State agency or designated State unit, as appropriate,) is authorized to submit the VR services portion of the Unified or Combined State Plan under title I of the Rehabilitation Act of 1973 (Rehabilitation Act), as amended by WIOA[14], and its supplement under title VI of the Rehabilitation Act[15];

Enter the name of designated State agency or designated State unit, as appropriate

The designated State unit is Louisiana Rehabilitation Services (LRS).

2. As a condition for the receipt of Federal funds under title I of the Rehabilitation Act for the provision of VR services, the (enter the name of designated State agency)[16] agrees to operate and administer the State VR Services Program in accordance with the VR services portion of the Unified or Combined State Plan[17], the Rehabilitation Act, and all applicable regulations[18], policies, and procedures established by the Secretary of Education. Funds made available under section 111 of the Rehabilitation Act are used solely for the provision of VR services and the administration of the VR services portion of the Unified or Combined State Plan;

Enter the name of designated State agency

The Office of Workforce Development (OWD)

3. As a condition for the receipt of Federal funds under title VI of the Rehabilitation Act for supported employment services, the designated State agency agrees to operate and administer the State Supported Employment Services Program in accordance with the supplement to the VR services portion of the Unified or Combined State Plan[19], the Rehabilitation Act, and all applicable regulations[20], policies, and procedures
established by the Secretary of Education. Funds made available under title VI are used solely for the provision of supported employment services and the administration of the supplement to the VR services portion of the Unified or Combined State Plan;

4. The designated State agency and/or the designated State unit has the authority under State law to perform the functions of the State regarding the VR services portion of the Unified or Combined State Plan and its supplement;

5. The State legally may carry out each provision of the VR services portion of the Unified or Combined State Plan and its supplement.

6. All provisions of the VR services portion of the Unified or Combined State Plan and its supplement are consistent with State law.

7. The (enter the name of authorized representative below) has the authority under State law to receive, hold, and disburse Federal funds made available under the VR services portion of the Unified or Combined State Plan and its supplement;

Enter the name of authorized representative below

Sonya Williams

8. The (enter the title of authorized representative below) has the authority to submit the VR services portion of the Unified or Combined State Plan and the supplement for Supported Employment services;

Enter the title of authorized representative below

Interim Assistant Secretary, Office of Workforce Development, Louisiana Workforce Commission

9. The agency that submits the VR services portion of the Unified or Combined State Plan and its supplement has adopted or otherwise formally approved the plan and its supplement.
Footnotes

[16] All references in this plan to "designated State agency" or to "the State agency" relate to the agency identified in this paragraph.
[17] No funds under title I of the Rehabilitation Act may be awarded without an approved VR services portion of the Unified or Combined State Plan in accordance with section 101(a) of the Rehabilitation Act.
[18] Applicable regulations, in part, include the Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 76, 77, 79, 81, and 82; 2 CFR part 200 as adopted by 2 CFR part 3474; and the State VR Services program regulations.
[19] No funds under title VI of the Rehabilitation Act may be awarded without an approved supported employment supplement to the VR services portion of the Unified or Combined State Plan in accordance with section 606(a) of the Rehabilitation Act.
[20] Applicable regulations, in part, include the citations in footnote 6.

Certification Signature

Name of Signatory Sonya Williams
Title of Signatory Interim Director, Office of Workforce Development
Date Signed 03/02/2020

Assurances

The designated State agency or designated State unit, as appropriate and identified in the State certifications included with this VR services portion of the Unified or Combined State Plan and its supplement, through signature of the authorized individual, assures the Commissioner of the Rehabilitation Services Administration (RSA), that it will comply with all of the requirements of the VR services portion of the Unified or Combined State Plan and its supplement, as set forth in sections 101(a) and 606 of the Rehabilitation Act. The individual authorized to submit the VR services portion of the Unified or Combined State Plan and its supplement makes the following assurances: The State Plan must provide assurances that:

1. Public Comment on Policies and Procedures: The designated State agency assures it will comply with all statutory and regulatory requirements for public participation in the VR Services Portion of the Unified or Combined State Plan, as required by section 101(a)(16)(A) of the Rehabilitation Act.

2. Submission of the VR services portion of the Unified or Combined State Plan and Its Supplement: The designated State unit assures it will comply with all requirements pertaining to the submission and revisions of the VR services portion of the Unified or Combined State Plan and its supplement for the State Supported Employment Services program, as required by sections 101(a)(1), (22), (23), and 606(a) of the Rehabilitation Act; section 102 of WIOA in the case of the submission of a unified plan; section 103 of WIOA in the case of a submission of a Combined State Plan; 34 CFR 76.140.
The State Plan must include:

3. The designated State agency or designated State unit, as appropriate, assures it will comply with the requirements related to the administration of the VR services portion of the Unified or Combined State Plan:

3.a. The establishment of the designated State agency and designated State unit, as required by section 101(a)(2) of the Rehabilitation Act

3.b. The establishment of either a State independent commission or State Rehabilitation Council, as required by section 101(a)(21) of the Rehabilitation Act. The designated State agency or designated State unit, as applicable (A or B must be selected):

3.b.(A) “is an independent State commission” (Yes/No) No

3.b.(B) “has established a State Rehabilitation Council” (Yes/No) Yes

3.c. Consultations regarding the administration of the VR services portion of the Unified or Combined State Plan, in accordance with section 101(a)(16)(B) of the Rehabilitation Act

3.d. The financial participation by the State, or if the State so elects, by the State and local agencies, to provide the amount of the non-Federal share of the cost of carrying out the VR program in accordance with section 101(a)(3)

3.e. The local administration of the VR services portion of the Unified or Combined State Plan, in accordance with section 101(a)(2)(A) of the Rehabilitation Act. Select yes or no, as appropriate, to identify if the designated State agency allows for the local administration of VR funds (Yes/No)

3.f. The shared funding and administration of joint programs, in accordance with section 101(a)(2)(A)(ii) of the Rehabilitation Act. Select yes or no, as appropriate, to identify if the designated State agency allows for the shared funding and administration of joint programs (Yes/No)

3.g. Statewideness and waivers of statewideness requirements, as set forth in section 101(a)(4) of the Rehabilitation Act. Is the designated State agency requesting or maintaining a waiver of statewideness for one or more services provided under the VR services portion of the Unified or Combined State Plan? (Yes/No) See Section 2 of this VR services portion of the Unified or Combined State Plan Yes

3.h. The descriptions for cooperation, collaboration, and coordination, as required by sections 101(a)(11) and (24)(B); and 606(b) of the Rehabilitation Act

3.i. All required methods of administration, as required by section 101(a)(6) of the Rehabilitation Act

3.j. The requirements for the comprehensive system of personnel development, as set forth in section 101(a)(7) of the Rehabilitation Act

3.k. The compilation and submission to the Commissioner of statewide assessments, estimates, State goals and priorities, strategies, and progress reports, as appropriate, and as required by sections 101(a)(15), 105(c)(2), and 606(b)(8) of the Rehabilitation Act

3.l. The reservation and use of a portion of the funds allotted to the State under section 110 of the Rehabilitation Act for the development and implementation of innovative approaches to expand and improve the provision of VR services to individuals with disabilities, particularly individuals with the most significant disabilities

3.m. The submission of reports as required by section 101(a)(10) of the Rehabilitation Act
4. Administration of the Provision of VR Services: The designated State agency, or designated State unit, as appropriate, assures that it will:

4.a. Comply with all requirements regarding information and referral services in accordance with sections 101(a)(5)(D) and (20) of the Rehabilitation Act

4.b. Impose no duration of residence requirement as part of determining an individual's eligibility for VR services or that excludes from services under the plan any individual who is present in the State in accordance with section 101(a)(12) of the Rehabilitation Act

4.c. Provide the full range of services listed in section 103(a) of the Rehabilitation Act as appropriate, to all eligible individuals with disabilities in the State who apply for services in accordance with section 101(a)(5) of the Rehabilitation Act? (Yes/No) No

4.d. Determine whether comparable services and benefits are available to the individual in accordance with section 101(a)(8) of the Rehabilitation Act

4.e. Comply with requirements regarding the provisions of informed choice for all applicants and eligible individuals in accordance with section 102(d) of the Rehabilitation Act

4.f. Comply with requirements regarding the provisions of informed choice for all applicants and eligible individuals in accordance with section 102(d) of the Rehabilitation Act

4.g. Provide vocational rehabilitation services to American Indians who are individuals with disabilities residing in the State, in accordance with section 101(a)(13) of the Rehabilitation Act

4.h. Comply with the requirements for the conduct of semiannual or annual reviews, as appropriate, for individuals employed either in an extended employment setting in a community rehabilitation program or any other employment under section 14(c) of the Fair Labor Standards Act of 1938, as required by section 101(a)(14) of the Rehabilitation Act

4.i. Meet the requirements in sections 101(a)(17) and 103(b)(2) of the Rehabilitation Act if the State elects to construct, under special circumstances, facilities for community rehabilitation programs

4.j. With respect to students with disabilities, the State,

4.j.i. Has developed and will implement,

4.j.i.I. Strategies to address the needs identified in the assessments; and

4.j.i.II. Strategies to achieve the goals and priorities identified by the State, to improve and expand vocational rehabilitation services for students with disabilities on a statewide basis; and

4.j.ii. Has developed and will implement strategies to provide pre-employment transition services (sections 101(a)(15) and 101(a)(25))

5. Program Administration for the Supported Employment Title VI Supplement:

5.a. The designated State unit assures that it will include in the VR services portion of the Unified or Combined State Plan all information required by section 606 of the Rehabilitation Act

5.b. The designated State agency assures that it will submit reports in such form and in accordance with such procedures as the Commissioner may require and collects the information required by section 101(a)(10) of the Rehabilitation Act separately for individuals
The State Plan must include

receiving supported employment services under title I and individuals receiving supported employment services under title VI of the Rehabilitation Act

5.c. The designated state unit will coordinate activities with any other State agency that is functioning as an employment network under the Ticket to Work and Self-Sufficiency program under Section 1148 of the Social Security Act

6. Financial Administration of the Supported Employment Program:

6.a. The designated State agency assures that it will expend no more than 2.5 percent of the State's allotment under title VI for administrative costs of carrying out this program; and, the designated State agency or agencies will provide, directly or indirectly through public or private entities, non-Federal contributions in an amount that is not less than 10 percent of the costs of carrying out supported employment services provided to youth with the most significant disabilities with the funds reserved for such purpose under section 603(d) of the Rehabilitation Act, in accordance with section 606(b)(7)(G) and (H) of the Rehabilitation Act

6.b. The designated State agency assures that it will use funds made available under title VI of the Rehabilitation Act only to provide supported employment services to individuals with the most significant disabilities, including extended services to youth with the most significant disabilities, who are eligible to receive such services; and, that such funds are used only to supplement and not supplant the funds provided under Title I of the Rehabilitation Act, when providing supported employment services specified in the individualized plan for employment, in accordance with section 606(b)(7)(A) and (D) of the Rehabilitation Act

7. Provision of Supported Employment Services:

7.a. The Designated State Agency Assures That it Will Provide Supported Employment Services as Defined in Section 7(39) of the Rehabilitation Act

7.b. The designated State agency assures that:

7.b.i. The comprehensive assessment of individuals with significant disabilities conducted under section 102(b)(1) of the Rehabilitation Act and funded under title I of the Rehabilitation Act includes consideration of supported employment as an appropriate employment outcome, in accordance with the requirements of section 606(b)(7)(B) of the Rehabilitation Act

7.b.ii. An individualized plan for employment that meets the requirements of section 102(b) of the Rehabilitation Act, which is developed and updated with title I funds, in accordance with sections 102(b)(3)(F) and 606(b)(6)(C) and (E) of the Rehabilitation Act

Vocational Rehabilitation Program (Combined or General) Performance Indicators

Performance Goals for the Core Programs

Each state submitting a Unified or Combined State Plan is required to identify expected levels of performance for each of the primary indicators of performance for the first two years covered by the plan. The state is required to reach agreement with the Secretary of Labor, in conjunction with the Secretary of Education, on state-negotiated levels of performance for the indicators for each of the first two years of the plan.

For Program Year (PY) 2016-2019 plans, the Departments used the transition authority under section 503(a) of WIOA to designate certain primary indicators of performance as “baseline” indicators to ensure an orderly transition from the requirements of the Workforce Investment Act of 1998 to those under WIOA. A “baseline” indicator was one for which states did not propose an expected level of performance and did not come to agreement with the Departments on negotiated levels of
performance because sufficient data was not available to establish such performance levels. As a result, “baseline” indicators were not used in the end of the year adjustment of performance levels and were not used to determine failure to meet adjusted levels of performance for purposes of sanctions. The Departments designated indicators as “baseline” based on the likelihood of a State having insufficient data with which to make a reasonable determination of an expected level of performance.

For PYs 2020-2023 Plans, Title I programs (Adult, Dislocated Worker, and Youth) and the Title II program (Adult Education and Family Literacy Act) will have two full years of data available to make reasonable determinations of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit);
- Credential Attainment Rate; and
- Measurable Skill Gains

The Wagner-Peyser Act Employment Service program, authorized under the Wagner-Peyser Act, as amended by title III of WIOA, will have two full years of data available to make a reasonable determination of expected levels of performance for the following indicators for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit); and
- Median Earnings (Second Quarter after Exit)

The Credential Attainment Rate and Measurable Skill Gains indicators do not apply to the Wagner-Peyser Act Employment Service program; therefore, this program will not submit expected levels of performance for these indicators.

For the first two years of PYs 2020-2023 Plans, the Vocational Rehabilitation (VR) program, authorized under title I of the Rehabilitation Act of 1973, as amended by title IV of WIOA, will have two full years of data available for the Measurable Skill Gains indicator only. Therefore, the Departments will designate the following indicators as “baseline” for the VR program for PY 2020 and PY 2021:

- Employment (Second Quarter after Exit);
- Employment (Fourth Quarter after Exit);
- Median Earnings (Second Quarter after Exit);
- Credential Attainment Rate

VR agencies must continue to collect and report on all indicators, including those that have been designated as “baseline, pursuant to section 116(d) of WIOA.” The actual performance data reported by these programs for indicators designated as “baseline” for PY 2020 and PY 2021 will serve as baseline data in future years. The Departments will require VR agencies to submit expected levels of performance for these indicators for PY 2022 and PY 2023.

The Departments determined that the Effectiveness in Serving Employers indicator will be measured as a shared outcome across all six core programs within each state to ensure a holistic approach to serving employers. The Departments will continue piloting approaches for measuring this indicator for the first two years of PY 2020-2023 plans. Therefore, states are not required to submit an expected level of performance for the Effectiveness in Serving Employers indicator for PY 2020 and PY 2021. However, core programs are expected to collect data and report on this indicator for PY 2020 and PY 2021 as they did for PYs 2016-2019 plans.
Each core program must submit an expected level of performance for all of the other indicators, as applicable, with the exception of the four indicators designated as “baseline” for the VR program in PY 2020 and PY 2021. The Departments will work with states during the negotiation process to establish negotiated levels of performance for each of the primary indicators for the core programs not listed as “baseline.” Each state must update its plan to include the agreed-upon negotiated levels of performance before the Departments approve a state’s plan.

States may identify additional indicators in the plan, including additional approaches to measuring Effectiveness in Serving Employers, and may establish levels of performance for each of the state indicators. Please identify any such state indicators under Additional Indicators of Performance.

“Effectiveness in Serving Employers” is still being piloted and this data will not be entered for 2020 State Plans.

VII. Program-Specific Requirements for Combined State Plan Partner Programs

States choosing to submit a Combined State Plan must provide information concerning the six core programs—the Adult program, Dislocated Worker program, Youth program, Wagner-Peyser Act program, Adult Education and Family Literacy Act program, and the Vocational Rehabilitation program—and also submit relevant information for any of the eleven partner programs it elects to include in its Combined State Plan. When a State includes a Combined State Plan partner program in its Combined State Plan, it need not submit a separate plan or application for that particular program. 24 If included, Combined State Plan partner programs are subject to the “common planning elements” in Sections II-IV of this document, where specified, as well as the program-specific requirements for that program.

[24] States that elect to include employment and training activities carried out under the Community Services Block Grant (CSBG) Act (42 U.S.C. 9901 et seq.) under a Combined State Plan would submit all other required elements of a complete CSBG State Plan directly to the Federal agency that administers the program. Similarly, States that elect to include employment and training activities carried by the Department of Housing and Urban Development would submit all other required elements of a complete State Plan for those programs directly to the Federal agency that administers the program.

Temporary Assistance for Needy Families (TANF)
States that include TANF in the Combined State Plan must outline how the State will meet the requirements of section 402 of the Social Security Act including how it will:

(OMB Control Number: 0970-0145)

a. Conduct a program designed to serve all political subdivisions in the State (not necessarily in a uniform manner) that provides assistance to needy families with (or expecting) children and provides parents with job preparation, work, and support services to enable them to leave the program, specifically cash assistance, and become self-sufficient (section 402(a)(1)(A)(i) of the Social Security Act)

The Louisiana TANF programs are administered and supervised by the Louisiana Department of Children and Family Services.

Needy families with, or expecting children, will be provided financial assistance and/or other services to include education, job preparation, work and support services under Louisiana's Family Independence Temporary Assistance Program (FITAP), Kinship Care Subsidy Program (KCSP), and Strategies to Empower People (STEP) Program. A needy family is defined as a family residing in the state who meets the eligibility requirements listed below for FITAP and KCSP respectively.

For FITAP eligibility a dependent child must be: Under 18 years of age, or 18 years of age and enrolled in a secondary school or its equivalent and expected to graduate before their 19th birthday.

For KCSP eligibility, a dependent child must be under 18 years of age.

Unborn children are not eligible for FITAP. A pregnant woman who has completed the fifth month of pregnancy may be certified if otherwise eligible (unborn is not eligible). To qualify for cash assistance, a child must reside in the home of a parent or other qualified relative who is responsible for the day-to-day care of the child. The following relatives are qualified relatives:

Grandfather or grandmother (extends to great-great-great);

Brother or sister (including half-brother and half-sister);

Uncle or aunt (extends to great-great);

First cousin (including first cousin once removed);

Nephew or niece (extends to great-great);

Stepfather or stepmother; and

Stepbrother or stepsister.

These may be biological or adoptive relatives.

Resources are assets or possessions that a household can convert to cash to meet needs. All resources are excluded when determining eligibility.

Income is any gain or benefit to a household that has monetary value and is not considered a resource. All income is counted when determining eligibility and payment amounts.

Kinship Care Subsidy Program (KCSP)
Income is any gain or benefit to a household that has monetary value and is not considered a resource. All income is counted when determining pretest eligibility. In order to meet this requirement, the gross countable income of the caretaker relative’s KCSP income must be less than 150% of the federal poverty threshold for the family size. For purposes of this pretest, the caretaker’s KCSP income unit is defined to include the child, the caretaker relative, and anyone residing in the home for whom the caretaker relative claims financial responsibility. For purposes of this pretest, income is defined as countable income belonging to any member of the KCSP income unit.

Income After Pretest

The child is determined eligible for KCSP if the child’s countable income is less than $222. If the child’s income is $222 or more, the child is ineligible. Payment amount is $222 a month for each eligible child. A child who receives federal or state foster care payments or SSI is not eligible to receive KCSP benefits.

Strategies to Empower People (STEP) Program

To assist Louisiana families in becoming economically self-reliant so that their dependence on government benefits for basic needs is minimized, the department implemented the STEP program so that cash assistance recipients, with certain exceptions, are actively engaged in meaningful activities designed to enable their transition from cash assistance to self-reliance. It is further intended that cash assistance recipients demonstrate active and diligent personal responsibility in achieving self-reliance through employment and increased workplace literacy. All appropriate state agencies responsible for employment, training, and educating Louisiana’s citizens are expected to cooperate in the pursuit of this goal.

Once an applicant is certified for assistance, a comprehensive assessment will be conducted and include workplace literacy, basic skills and educational attainment, interests and aptitude related to employment, barriers to employment, need for education, supportive services such as child care and transportation, and other supportive services. Specialized assessments can occur for issues that arise after an initial assessment has been completed and could include substance abuse, domestic violence, mental health screening, or others as determined by the department.

Supportive services provided to clients include but are not limited to:

A full range of case maintenance and case management services designed to lead to self-sufficiency; Transportation assistance; Supplemental Nutrition Assistance Program (SNAP) benefits; Medicaid; Child care; and TANF-funded services and other services necessary to accept or maintain employment.

Services may be provided to persons participating in the Family Assessment and to persons referred by the analyst to other activities, such as drug counseling, prior to their participation in a work activity.

Supportive services also include providing services to FITAP recipients participating in approved activities necessary to meet exemptions to the FITAP time limits. In addition, although participation in the FITAP drug testing program is not countable as a STEP activity, appropriate supportive services may be provided to FITAP recipients to facilitate attendance in these activities. Appropriate supportive services may also be provided to allow participation in educational activities for FITAP recipients who are exempt from STEP.

b. Require a parent or caretaker receiving assistance to engage in work (defined by the State) once the State determines the parent or caretaker is ready to engage in work, or once he or she has received 24 months of assistance, whichever is earlier, consistent with the child
care exception at 407(e)(2) (section 402(a)(1)(A)(ii) of the Social Security Act)

To assist Louisiana families in becoming economically self-reliant so that their dependence on government benefits for basic needs is minimized, the department implemented the STEP Program effective October 1, 2003, so that all cash assistance recipients, with certain exceptions, are actively engaged in meaningful activities designed to enable their transition from cash assistance to self-reliance. It is further intended that cash assistance recipients demonstrate active and diligent personal responsibility in achieving self-reliance through employment and increased workplace literacy. All appropriate state agencies responsible for employment, training, and educating Louisiana’s citizens are expected to cooperate in the pursuit of this goal.

Work-eligible members of cash assistance programs are required to participate in STEP activities.

Work-eligible recipients shall participate in appropriate work activities as agreed upon in the Family Success Agreement. Work-eligible is defined as families containing an adult under 60 years of age, or teen head of household that is not disabled, incapacitated, or caring for a family member who is disabled or incapacitated as documented by a medical expert to which the status of disability is clearly established and explained.

Work-eligible excludes cases in which only the child portion of need that is unrelated to a sanction or penalty, known as a child only case, is considered in determining eligibility.

The work activities may include but are not limited to:

Unsubsidized employment; Subsidized employment; Unpaid work experience; On-the-job training; Job search/job readiness; Vocational education; Satisfactory attendance at a secondary school or in a course of study leading to a certificate of general equivalence, in the case of recipients who have not completed secondary schools or received a certificate; Education directly related to employment; Job skills training directly related to employment; Community service; and the provision of child care to an individual who is participating in community service. Participants who are found not to possess basic workplace or basic literacy skills, as determined by an assessment, shall combine employment and job readiness and job search activities with activities designed to increase their basic and workplace literacy skills.

c. Ensure that parents and caretakers receiving assistance engage in work in accordance with section 407 (section 402(a)(1)(A)(iii) of the Social Security Act). Consistent with the required strategic elements discussed in section II (a)(2) herein, provide a specific analysis of how the State’s workforce development activities are addressing employment and training services for parents or caretakers receiving assistance.

Work-eligible recipients are assigned a case manager who jointly performs an in-depth assessment of the participant’s family strengths, weaknesses, opportunities, and barriers. The assessment helps develop a strategy to determine the programs that the participant will need to become self-sufficient. A family success agreement is then prepared. The family success agreement is a mutually developed contract between the participant and the department. The work-eligible recipient then participates in the appropriate work activities as agreed upon in the family success agreement.
d. Take such reasonable steps as the State deems necessary to restrict the use and disclosure of information about individuals and families receiving assistance under the program attributable to funds provided by the Federal Government (section 402(a)(1)(A)(iv) of the Social Security Act)

Client information may only be used for the administration of the program. Use and disclosure of information will be restricted in accordance with all applicable state laws and federal regulations. Use of information for commercial, personal, or political purposes is prohibited.

e. Establish goals and take action to prevent and reduce out-of-wedlock pregnancies, with special emphasis on teenage pregnancies (section 402(a)(1)(A)(v) of the Social Security Act)

Through an agreement with the Louisiana Workforce Commission (LWC), DCFS will fund the Jobs for America's Graduates Louisiana (JAG-LA) Program to keep in school those students at risk of failing in school, to capture out-of-school youth in need of a high school education, to provide an avenue for achieving academically, and to assist students in ultimately earning recognized credentials that will make it possible for them to exit school and enter post-secondary education and/or the workforce. Services provided will meet TANF Goal 3 to prevent and reduce the incidence of out-of-wedlock pregnancies by providing intervention and improved life prospects for students who show evidence of failing, dropping out or engaging in negative behaviors that can lead to dependency, out-of-wedlock births, imprisonment, and/or other undesirable outcomes which may lead to the detriment and impoverishment of youth. Eligible participants in the JAG-LA Program shall be 12-22 years of age and must face at least two designated barriers to success that include economic, academic, personal, environmental, or work related barriers.

f. Conduct a program designed to reach State and local law enforcement officials, the education system, and relevant counseling services, that provides education and training on the problem of statutory rape so that teenage pregnancy prevention programs may be expanded to include men (section 402(a)(1)(A)(vi) of the Social Security Act)

The department provides services for victims of domestic violence and their children, including rural outreach and community collaboration training for the purpose of educating attendees about domestic violence and the available services provided by the Department of Children and Family Services including but not limited to TANF, Supplemental Nutrition Assistance, Child Care Assistance, and Employment and Training. Additionally, these services will include education and training addressing the problem of statutory rape. These programs are designed to not only reach the public, but also law
enforcement officials, educators, relevant counseling services. Training regarding statutory rape will also be made available to males 18 and older.

g. Implement policies and procedures as necessary to prevent access to assistance provided under the State program funded under this part through any electronic fund transaction in an automated teller machine or point-of-sale device located in a place described in section 408(a)(12), including a plan to ensure that recipients of the assistance have adequate access to their cash assistance (section 402(a)(1)(A)(vii) of the Social Security Act).

Needy families, through the FITAP, KCSP, and STEP programs will be provided financial assistance, job preparation, work and supportive services. Financial assistance is delivered through Electronic Benefits Transfer (EBT). EBT Restrictions The department has promulgated rules to establish provisions necessary to prevent cash assistance provided under the FITAP and KCSP programs from being used in any electronic benefit transfer (EBT) transaction in a liquor store, gambling casino or gaming establishment, or any retail establishment that provides adult—oriented entertainment in which performers disrobe or perform in an unclothed state for entertainment purposes, or at any retailer for the purchase of an alcoholic beverage, a tobacco product, or a lottery ticket.

Louisiana continues to provide recipients access to their benefits and related services in each of the 64 parishes based on the policies and procedures in effect. All of the major ATM networks accept the Louisiana Purchase (EBT) cards and many carry the Louisiana Purchase logo on the machines to allow the recipient to know that the card is accepted.

h. Ensure that recipients of assistance provided under the State program funded under this part have the ability to use or withdraw assistance with minimal fees or charges, including an opportunity to access assistance with no fee or charges, and are provided information on applicable fees and surcharges that apply to electronic fund transactions involving the assistance, and that such information is made publicly available (section 402(a)(1)(A)(viii) of the Social Security Act).

First time users of the EBT card are provided with a list of banks with no “out of network” surcharges. Information regarding transaction fees and surcharges, including a list of banks that assess no surcharge to recipients, is publicly available on the department’s website. Recipients may still access their benefits at grocery stores that sell both groceries and intoxicating liquors as long as the retail establishment does not sell exclusively or primarily intoxicating liquors. Also, recipients may still
access their benefits at establishments that offer gaming activities as long as those gaming activities are incidental to the principal purpose of the business.

i. Indicate whether it intends to treat families moving from another State differently from other families under the program, and if so how (section 402(a)(1)(B)(i) of the Social Security Act)

The TANF Programs will be operated statewide in all political subdivisions of the state. No specific provisions will be applied to families moving to Louisiana from another state.

j. Indicate whether it intends to provide assistance to non-citizens, and if so include an overview of the assistance (section 402(a)(1)(B)(ii) of the Social Security Act)

Each recipient must be a United States citizen, a non-citizen national (person born in an outlying possession of the United States [American Samoa or Swain's Island] on or after the date the U.S. acquired the possession, or a person whose parents are U.S. non-citizen nationals), or a qualified alien as defined below:

1. An alien who is lawfully admitted for permanent residence under the Immigration and Nationality Act;
2. An alien who is granted asylum under Section 208 of such act;
3. A refugee who is admitted to the United States under Section 207 of such act;
4. An alien who is paroled into the United States under Section 212(d)(5) of such act for a period of at least one year;
5. An alien whose deportation is withheld under §243(h) of such act (as in effect immediately before the effective date [April 1, 1997] of §307 of Division C of Public Law 104-208) or §241(b)(3) of such act (as amended by Section 305(a) of Division C of Public Law 104-208);
6. An alien who is granted conditional entry pursuant to §203(a)(7) of such act as in effect prior to April 1, 1980; or
7. An alien who is a Cuban or Haitian entrant as defined in § 501(e) of the Refugee Education Assistance Act of 1980; or
8. An alien who has been battered or subjected to extreme cruelty in the United States by a spouse or parent, or by a member of the spouse’s or parent’s family residing in the same household as the alien if the spouse or parent consented to, or acquiesced in, such battery or cruelty. The individual who has been battered or subjected to extreme cruelty must no longer reside in the same household with the individual who committed the battery or cruelty. The agency must also determine that a substantial connection exists between such battery or cruelty and the need for the benefits to be provided. The alien must have been approved or have a petition pending which contains evidence sufficient to establish:
   a. The status as a spouse or a child of a United States citizen pursuant to clause (ii), (iii), or (iv) of §204(a)(1)(A) of the Immigration and Nationality Act; (INA); or
b. The classification pursuant to clause (ii) or (iii) of Section 204(a)(1)(B) of the INA; or

c. Cancellation of removal under section 1229b of the INA (as in effect prior to April 1, 1997); or

d. The status as a spouse or child of a United States citizen pursuant to clause (i) of §204(a)(1)(A) of the INA, or classification pursuant to clause (i) of Section 204(a)(1)(B) of the INA;

9. An alien child of a battered parent or the alien parent of a battered child as described in §1223A.8.;

10. An alien who is a victim of a severe form or trafficking in persons, or an eligible relative of a victim of a severe form of trafficking in persons; or

11. An alien who is an Iraqi or Afghani immigrant who has been granted Special Immigrant Visa (SIV) status. An alien who is a qualified alien and who enters the United States on or after August 22, 1996, is not eligible for any Federal means-tested public benefit for a period of 5 years beginning on the date of the alien’s entry into the United States unless:

Exception for refugees and asylees:

- An alien who is admitted to the United States as a refugee under section 207 of the Immigration and Nationality Act [8 U.S.C. 1157];
- An alien who is granted asylum under section 208 of such Act [8 U.S.C. 1158];
- An alien whose deportation is being withheld under section 243(h) of such Act [8 U.S.C. 1253] (as in effect immediately before the effective date of section 307 of division C of Public Law 104-208) or section 241(b)(3) of such Act [8 U.S.C. 1231 (b)(3)] (as amended by section 305(a) of division C of Public Law 104-208);
- An alien who is a Cuban and Haitian entrant as defined in section 501(e) of the Refugee Education Assistance Act of 1980; An alien admitted to the United States as an Amerasian immigrant as described in section 1612 (a)(2)(A)(i)(V) [1] of this title;
- An alien who is a victim of a severe form or trafficking in persons, or an eligible relative of a victim of a severe form of trafficking in persons.
- An alien who is an Iraqi or Afghani immigrant who has been granted Special Immigrant Visa (SIV) status.

k. Set forth objective criteria for the delivery of benefits and the determination of eligibility and for fair and equitable treatment, including an explanation of how it will provide opportunities for recipients who have been adversely affected to be heard in a State administrative or appeal process (section 402(a)(1)(B)(iii) of the Social Security Act)

The DCFS Bureau of Appeals is responsible for providing a system of hearings that must meet the due process standards set forth in federal regulations, state laws and Goldberg vs. Kelly 397 US 254 (1970).
Each applicant is informed by the application form and by the appropriate notification forms (as decisions are made affecting his case) of his right to a hearing, of the method by which a hearing may be requested, and who may present his case.

The claimant may represent himself at the hearing or be represented by any authorized agent.

When a decision is made on a case, the client is notified and is allowed the following number of days from the date of the notice to request a Fair Hearing:

- FITAP 30 days,
- STEP Program 30 days,
- KCSP 30 days.

The client may appeal at any time during a certification period for a dispute of the current level of benefits. An appeal is timely requested if the appeal request:

- Is delivered on or before the due date; or
- Mailed on or before the due date. If the appeal request is received by mail on the first working day following the due date, there shall be a rebuttable presumption that the appeal was timely filed.

Recipients of FITAP and KCSP who request a Fair Hearing prior to the expiration of the Advance Notice of Adverse Action or within 13-days of the date of Concurrent Notice must have benefits continued at, or reinstated to, the benefit level of the previous month, unless:

- The recipient indicates he does not want benefits continued;
- A determination is made at the hearing that the sole issue is one of existing or changing state or federal law; or,
- Change unrelated to the appeal issue affecting the client’s eligibility occurs while the hearing decision is pending and the client fails to request a hearing after receiving the notice of change.

A decision by the hearing authority shall be binding on the Department of Children and Family Services and shall summarize the facts of the case, specify the reasons for the decision, and identify the supporting evidence and the pertinent state or federal regulations. The decision shall become a part of the record. The household shall be notified in writing of the:

- Decision,
- Reasons for the decision,
- Available appeal rights, and Right to pursue judicial review of the decision.

I. Indicate whether the State intends to assist individuals to train for, seek, and maintain employment (Section 402(a)(1)(B)(v) of the Social Security Act)—

1. Providing direct care in a long-term care facility (as such terms are defined under section 1397j of this title); or

2. In other occupations related to elder care, high-demand occupations, or occupations expected to experience labor
shortages as, determined appropriate by the State for which the State identifies an unmet need for service personnel, and, if so, shall include an overview of such assistance.

1. providing direct care in a long-term care facility (as such terms are defined under section 1397j of this title); or

2. in other occupations related to elder care, high-demand occupations, or occupations expected to experience labor shortages as, determined appropriate by the State for which the State identifies an unmet need for service personnel, and, if so, shall include an overview of such assistance.

- DCFs assists individuals interested in training for occupations related to elder care. Referrals are made on behalf of individuals to the Louisiana Community College System and Health Professional Opportunity Grants (HPOG) programs.

m. Provide for all MOE-funded services the following information: the name of the program benefit or service, and the financial eligibility criteria that families must meet in order to receive that benefit or service. In addition, for TANF MOE-funded services (co-mingled or segregated MOE) describe the program benefit provided to eligible families (SSP services do not have to include a description but the Department of Health and Human Services encourages it) (§263.2(b)(3) & §263.2(c) preamble pages 17826-7)

The State EITC is provided to families with dependents and includes the amount of the State EITC that exceeds the taxpayer’s tax liability (amount owed prior to application of any other credits). It is available to Louisiana residents who claim the federal Earned Income Tax Credit (EITC).

These services meet TANF goal 2 to end the dependence of needy parent on government benefits by promoting job preparation, work and marriage.

**Louisiana Office of Student Financial Assistance (LOSFA)**

The department through an agreement with the Louisiana Office of Student Financial Assistance (LOSFA) collects information on tuition assistance expenditures provided to eligible low income students who are pursuing postsecondary education for the purpose of claiming eligible expenditures that may count as Maintenance of Effort (MOE) effective TANF State Plan FY 2011 for the Temporary Assistance for Needy Families (TANF) grant. The eligible tuition assistance expenditures that may be claimed as MOE are from the following programs:

- Louisiana Go Grants — A need based student financial aid grant that supports nontraditional and low income students in their pursuit of postsecondary education. To receive the Go Grants, a student must be receiving a federal Pell grant and have remaining financial need, as determined in accordance with a formula established by the Louisiana Board of Regents. The formula for determining financial need is subject to change on a yearly basis in order to
ensure that the greatest number of students will benefit from the funds appropriated for the program by the Louisiana Legislature.

- **Taylor Opportunity Program for Students (TOPS)** — A state scholarship program for Louisiana residents who attend Louisiana postsecondary institutions. These services meet TANF goal 3, to prevent and reduce the incidence of out-of-wedlock pregnancies, by providing financial aid to eligible students who are pursuing postsecondary education. The services provide the students with the tools necessary to reduce risky behaviors and increase positive decision making.

Financial eligibility for these services attributable to TANF/Maintenance of Effort (MOE) funds is limited as follows:

Certification for TANF MOE for Go Grant expenditures will be those students who receive Pell Grants and have a remaining financial need and are defined as dependent by the U.S. Department of Education. The amount used for TANF maintenance of effort is not duplicated in determining match or maintenance of effort for any other program.

TANF eligibility for students receiving TOPS will be determined by receipt of a Go Grant. Certification for TANF MOE for TOPS expenditures will be for those students who simultaneously receive TOPS and Go Grants and are defined as dependent by the U.S. Department of Education.

Services are considered non-assistance by the department. State dollars associated with Louisiana Go Grants and TANF eligible TOPS expenditures may be applied to MOE funding requirements for Louisiana’s federal TANF grant.

**Louisiana State Child Care Tax Credit**

This is an annual refundable tax credit for low-income individuals and families who have a qualified dependent who is under the age of 13, and the parent or qualified relative has paid someone to provide care so that they can work or look for work.

Eligibility is limited to those families with minor children who meet the Louisiana Department of Revenue Child Care Tax Credit eligibility standards.

These services meet TANF Goal 2, to end dependence of needy parents on government benefits, by promoting job preparation, work, and marriage.

**Louisiana 4 Public Pre—Kindergarten Program (LA4)**

The LA4 program provides high quality early childhood education for low-income 4-year-olds in participating public school districts and charter schools.

Services are for children of at risk families in which the child is one year younger than the eligible age for kindergarten and is financially eligible to receive free or reduced school lunch meals pursuant to the Federal Child Nutrition Program as documented by a completed application for such meals, whether or not such meals are sought.

These services meet TANF goal 3, to prevent and reduce the incidence of out-of-wedlock pregnancies and TANF goal 4, to encourage the formation and maintenance of two-parent families by placing children in learning environments at the preschool level to foster an interest in learning, increase literacy levels, and increase the likelihood of developing responsible behavior.

**TANF Certifications**

States that include TANF in the Combined State Plan must provide a certification by the chief executive officer of that State, that during the fiscal year, the State will:
The State Plan must include:

1. Operate a child support enforcement program under the State Plan approved under part D. Yes (section 402(a)(2) of the Social Security Act); Yes

2. Operate a foster care and adoption assistance program under the State Plan approved under part E, and that the State will take such actions as are necessary to ensure that children receiving assistance under such part are eligible for medical assistance under the State Plan under title XIX. (section 402(a)(3) of the Social Security Act); Yes

3. Specify which State agency or agencies will administer and supervise the program referred to in paragraph (1) for the fiscal year, which shall include assurances that local governments and private sector organizations (section 402(a)(4) of the Social Security Act)—

3. (A) have been consulted regarding the plan and design of welfare services in the State so that services are provided in a manner appropriate to local populations; and Yes

3. (B) have had at least 45 days to submit comments on the plan and the design of such services; Yes

4. Provide each member of an Indian tribe, who is domiciled in the State and is not eligible for assistance under a tribal family assistance plan approved under section 412, with equitable access to assistance under the State program funded under this part attributable to funds provided by the Federal Government. (section 402(a)(5) of the Social Security Act); Yes

5. Establish and enforce standards and procedures to ensure against program fraud and abuse, including standards and procedures concerning nepotism, conflicts of interest among individuals responsible for the administration and supervision of the State program, kickbacks, and the use of political patronage. (section 402(a)(6) of the Social Security Act); Yes

6. (optional) Establish and enforcing standards and procedures to (section 402(a)(7) of the Social Security Act).—

6.i. screen and identify individuals receiving assistance under this part with a history of domestic violence while maintaining the confidentiality of such individuals; Yes

6.ii. refer such individuals to counseling and supportive services; and Yes

6.iii. waive, pursuant to a determination of good cause, other program requirements such as time limits (for so long as necessary) for individuals receiving assistance, residency requirements, child support cooperation requirements, and family cap provisions, in cases where compliance with such requirements would make it more difficult for individuals receiving assistance under this part to escape domestic violence or unfairly penalize such individuals who are or have been victimized by such violence, or individuals who are at risk of further domestic violence. Yes

Employment and Training Programs Under the Supplemental Nutrition Assistance Program (Programs Authorized Under Section 6(d)(4) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4)))

a. General Requirements [27]
The State agency must prepare and submit an Employment and Training (E&T) Plan to its appropriate Food and Nutrition Service (FNS) Regional Office. The E&T Plan must be available for public inspection at the State agency headquarters. A State agency may include its plan for the SNAP E&T program in a Combined Plan under WIOA but will require FNS approval prior to implementation and must continue to make a copy of the plan available for public inspection. If a State includes SNAP E&T in a Combined Plan under WIOA, the State agency will detail the following for each year covered by the Combined Plan:

[27] 7 CFR § 273.7(c)(6)

1. The nature of the E&T components the State agency plans to offer and the reasons for such components, including cost information. The methodology for State agency reimbursement for education components must be specifically addressed;

This plan presents Louisiana's proposal to use grant funding to meet the SNAP E&T requirements of the Food and Nutrition Act of 2008 and utilize 50/50 federal matching funds to serve participants in defined areas of the state as outlined in this plan hereinafter referred to as Expanded E&T. Policies are defined in Chapter 4 of the DCFS Policy Management System, the Louisiana Job Employment Training (LaJET) Handbook, Expanded E&T Handbook, and the Louisiana Administrative Code - Title 67, Social Services.

Louisiana intends to meet the SNAP E&T requirements through contractual agreements with the Louisiana Workforce Commission (LWC) to operate the Louisiana Job Employment Training (LaJET) Program and Expanded SNAP E&T through contracted partners.

LaJET is a mandatory participant-centered and service-oriented initiative to provide employment-focused services to targeted Mandatory Work Registrants (MWRs) who are recipients of SNAP benefits. ABAWDs who reside in a LaJET parish are exempt from mandatory participation in LaJET. ABAWDs who would be subject to the SNAP time limit if there were not a statewide ABAWD waiver are mandatory SNAP E&T participants and will be referred to LWC and will be required to participate in LWC’s various programs offered through LWC’s Business and Career Solutions Centers statewide. Louisiana currently has a statewide ABAWD waiver approved through March 31, 2020. A MWR is an individual who does not meet a federal exemption to SNAP work requirements as outlined in 7 CFR 273.7. SNAP recipients who are MWRs and reside in a LaJET parish are referred to LaJET; therefore, are mandatory E&T participants. Non-ABAWDs who are MWRs and do not reside in a LaJET parish are not offered LaJET services nor are considered mandatory E&T Participants. The State contracts the administration of the LaJET Program with the Louisiana Workforce Commission (LWC). The LaJET Parishes are Caddo, Orleans, Ouachita, and Rapides. Although this is a mandatory program, volunteers are also accepted.

Louisiana has fourteen contracted partners which provide Expanded E&T services to SNAP recipients. • Liberty's Kitchen serves youth in the Greater New Orleans area. • The Calcasieu Parish Police Jury (CPPJ) Human Services Department offer services for residents of Allen, Beauregard, Calcasieu, Cameron, and Jefferson Davis parishes. • Goodwill Industries of Southeastern Louisiana (GWSELA) offer services to individuals in the Greater New Orleans Metropolitan area. • Covenant House serves youth in the Greater New Orleans Metropolitan area. • Reconcile New Orleans (Café Reconcile) serves youth in the Greater New Orleans Metropolitan area. • HOPE Ministries offer services in East Baton Rouge Parish. • Louisiana Green Corps offer services in the Greater New Orleans Metropolitan area. • Youth Empowerment Project serve youth in the Greater New Orleans Metropolitan area. • New Opportunities Vision Achievement offer services for residents in Ouachita, Richland, Morehouse, Madison, East Carroll, and West Carroll parishes. • Louisiana Delta Community College offer services for residents in Union, Lincoln, Jackson, Caldwell, Ouachita, Morehouse, West Carroll, Richland, Franklin, Tensas, Madison, and East Carroll parishes. • United Way of Southeast Louisiana offer services to residents in Orleans, Jefferson, St. Bernard, Plaquemines, Tangipahoa, St. Tammany, and Washington parishes. • Cowen Institute serve youth in the Greater New Orleans area.
Metropolitan area. • Center for Employment Opportunities offer services to residents in Orleans, Jefferson, and St. Tammany parishes. • New Orleans Women & Children’s Shelter offer services to residents in the Greater New Orleans Metropolitan area.

Recipients who choose to volunteer may take advantage of opportunities offered through the LaJET Program, LWC’s Business and Career Solutions Centers, or opportunities offered via contracts with Expanded E&T partners, where available. This includes ABAWDs and non-ABAWDs. Volunteers who do not participate will not be sanctioned for failure to cooperate with the volunteer program.

Louisiana Workforce Commission Business Career Solutions Center focuses on providing a variety of employment related labor exchange services including job search assistance, job referral and placement assistance for job seekers. Services are accessed in one of three ways including self-service, facilitated self-help services, and staff assisted service.

Services are provided to ABAWDs statewide through LWC’s Business and Career Solutions Centers by providing workforce preparation skills, labor exchange information, and referrals. LWC's Business and Career Solutions Center provides services through Workforce Innovation and Opportunity Act (WIOA) participation. Volunteers and mandatory work registrants will be served by Expanded SNAP E&T Providers in designated areas of the state.

The following components will be offered through the E&T Program: Job Search Training, Supervised Job Search, Workforce Innovation and Opportunity Act (WIOA) Participation, Work Experience, Job Retention, and Education - Vocational Training.

Job Search Training is designed to teach skills leading to behavior modification and foster a positive job search attitude. Participants have an opportunity to set goals, acknowledge barriers to employment, gain skills, training and experience leading to employment. The estimated monthly cost is $330,106.00.

Supervised Job Search is designed to assess participants who are required to complete minimum of 24 job contacts over a 30-day period and document on the LaJET Employer Contact Record. The LaJET participant must apply for a minimum of three jobs each day of supervised job search. The estimated monthly cost is $33,139.00.

WIOA is a work experience and training component offered by LWC. By federal law, all SNAP recipients are eligible to participate in WIOA activities. Participants expressing an interest in WIOA will evaluated and referred. If referred, the participants must report to the local WIOA administrative entity or to the designated Louisiana Workforce Investment Act (LWIA) contractor or partner in order to meet compliance. Activities may include On-the-Job Training, Institution Training (class-size or individual referral), Work Experience, Educational/Motivational Training and Special Industry-specific Training Programs. Zero funding is used for administrative costs for ABAWDs at LWC.

Work Experience is designed to improve the employability of participants through work experience and training that will move the participant into employment. The estimated monthly cost is $266,691.00.

Job Retention is designed to assist participants in maintaining employment by assessing participant’s performance, assisting the participant to resolve issues that arise and may affect their ability to maintain employment, reinforcing positive behaviors and teaching additional job retention skills. The estimated monthly cost is $217,807.00.

Education - Vocational Training is designed to provide educational programs with a direct link to job-readiness to improve basic skills and employability. The estimate monthly cost is $230,266.00.

The agency’s goal is to serve as many mandatory work registrants as possible. After careful analysis of available 100% Employment & Training Funds and consideration of the prevailing environment, it has been determined that the program will best serve our clients if services are provided in a limited geographic area to non-Able-Bodied Adults Without Dependents (non-ABAWDs). The geographic limitation is expected to provide optimum opportunity to utilize available federal and state funds in a responsible, practical and productive manner.
Geographic Areas Covered and Local Variations

LWC will provide LaJET services in 4 parishes and will serve ABAWDs statewide.

Liberty’s Kitchen, Covenant House, Louisiana Green Corps, Cowen Institute, YEP, NOWCS, GWSELA – Goodwill Technical College, and Reconcile New Orleans (Café Reconcile) offer services for participants who reside in the Greater New Orleans Metropolitan area.

CPPJ offer services for participants who reside in Allen, Beauregard, Cameron, Jefferson Davis, or Calcasieu Parish.

HOPE Ministries offer services in East Baton Rouge Parish.

NOVA offer services in Ouachita, Richland, Morehouse, Madison, East Carroll, and West Carroll.

LDCC offer services in Union, Lincoln, Jackson, Caldwell, Ouachita, Morehouse, East Carroll, West Carroll, Richland, Franklin, Tensas, and Madison.

UWSELA offer services in Orleans, Jefferson, St. Bernard, Plaquemines, Tangipahoa, St. Tammany, and Washington.

CEO offer services in Orleans, Jefferson, and St. Tammany.

2. An operating budget for the Federal fiscal year with an estimate of the cost of operation for each Federal fiscal year covered by the Combined Plan. Any State agency that requests 50 percent Federal reimbursement for State agency E&T administrative costs, other than for participant reimbursements, must include in its plan, or amendments to its plan, an itemized list of all activities and costs for which those Federal funds will be claimed, including the costs for case management and casework to facilitate the transition from economic dependency to self-sufficiency through work. Costs in excess of the Federal grant will be allowed only with the prior approval of FNS and must be adequately documented to assure that they are necessary, reasonable and properly allocated. A State must submit a plan amendment to request budget adjustments at least 30 days prior to planned implementation;

For the current FFY, the total 100% federal funds allocated to Louisiana is $2,104,528.00. The total amount of 50/50 funds is $10,734,676.00. The total state share is $5,367,338.00 and the total federal share is $5,367,338.00.

3. The categories and types of individuals the State agency intends to exempt from E&T participation, the estimated percentage of work registrants the State agency plans to exempt, and the frequency with which the State agency plans to reevaluate the validity of its exemptions;
The following persons are exempt from work registration requirements:

- Persons under age 16 or age 60 or older. An individual is subject to the work registration requirement beginning the month after his 16th birthday. An individual becomes exempt from the work registration requirement effective the month of his 60th birthday.

- Persons age 16 or 17 who are not the head of the household or person 16 or 17 attending school, or enrolled in an employment-training program on at least a half-time basis.

- Persons age 18 through 59 enrolled at least half-time in any recognized school (including high school), training program, or institution of higher education. Students enrolled at least half-time in an institution of higher education must meet the student eligibility requirements to meet this exemption. A student will remain exempt during normal periods of class attendance, vacation, and recess if he intends to return.

- Parents or other household members personally providing the care of a dependent child under age 6 or an incapacitated person of any age. Verify that the person is needed to care for the incapacitated person.

- Regular participants in drug or alcohol treatment and rehabilitation programs.

- Persons who are temporarily or permanently disabled (physically or mentally).

- A pregnant woman must register unless a doctor’s statement verifies incapacity.

- Persons working an average of 30 hours per week or receiving average weekly gross earnings equivalent to 30 multiplied by the federal minimum wage. Migrant and seasonal farm workers under contract or similar agreement with an employer or crew chief to begin work within 30 days are exempt.

- Persons subject to and complying with STEP or have met the minimum work registration requirement through STEP.

- Persons receiving unemployment compensation benefits (UCB). A person who has applied for but is not yet receiving UCB is also exempt if that person is complying with the work requirements of the Louisiana Workforce Commission.

All Mandatory Work Registrants must be screened for any barriers to SNAP E&T program participation at application and redetermination. The household must be questioned to determine if any barrier to participation exists for each MWR in the household after exploring exemptions to SNAP work registration requirements. If a barrier does exist, the MWR must not be referred to mandatory E&T program participation.

The following barriers to SNAP E&T program participation include but are not limited to:

- Physical or Mental Disability: Registrants with medical conditions (including, but not limited to substance abuse) expected to last beyond 30 days which will prevent a participant from seeking or accepting employment.

- Lack of Child Care: Registrants with children ages 6-12 may be exempted when participation cannot be initiated because of a lack of child care.

- Lack of Transportation: Registrants for whom public or private transportation is not available on a regular basis and who do not live within walking distance of employers and the SNAP E&T provider.

- Remoteness: from Job Sites or Contractor Location: Registrants residing an unreasonable distance from the appropriate SNAP E&T provider or potential employers. A distance may be considered unreasonable if the round trip exceeds two hours by available public or private transportation.
• Inability to speak or write English: Registrants who are unable to speak or write English. These individuals may be referred to English as a Second Language (ESL).

The percentage the state intends to exempt from E&T participation is 56%. These exemptions will be re-evaluated on at least an annual basis.

4. The characteristics of the population the State agency intends to place in E&T;

Targeted populations for LaJET are mandatory work registrants and volunteer participants. LaJET participants will participate in the following components: Job Search Training, Supervised Job Search, and Referrals to Educational Programs. LaJET participants will also participate in Work Experience Activities and retention services. ABAWDs who are mandatory work registrants will utilize WIOA for job skills training.

Expanded SNAP E&T participants enrolled at Liberty’s Kitchen are self-initiated participants between the ages of 16 and 24 who reside in the greater New Orleans area.

Expanded SNAP E&T participants enrolled at CPPJ are participants of all ages recruited during Calcasieu Parish Business & Career Solution Center (BCSC) orientation who reside in Allen, Beauregard, Calcasieu, Cameron, and Jefferson Davis Parishes.

Expanded SNAP E&T participants enrolled at GWSELA – Goodwill Technical College are self-initiated participants ages 18 and up who reside in the Greater New Orleans Metropolitan area.

Expanded SNAP E&T participants enrolled in Covenant House are self-initiated participants between the ages of 16 and 22 who reside in the Greater New Orleans Metropolitan area.

Expanded SNAP E&T participants enrolled in Reconcile New Orleans (Café Reconcile) are self-initiated participants between the ages of 16 and 24 who reside in the Greater New Orleans Metropolitan area.

Expanded SNAP E&T participants enrolled in HOPE Ministries are self-initiated participants ages 18 and up who reside in East Baton Rouge Parish.

Expanded SNAP E&T participants enrolled in Louisiana Green Corps are self-initiated participants between the ages of 18 and 25 who reside in the Greater New Orleans Metropolitan area.

Expanded SNAP E&T participants enrolled in YEP are self-initiated participants between the ages of 18 and 24 who reside in the Greater New Orleans Metropolitan area.

Expanded SNAP E&T participants enrolled in NOVA are self-initiated participants ages 18 and up who reside in Ouachita, Richland, Morehouse, Madison, East Carroll and West Carroll Parishes.

Expanded SNAP E&T participants enrolled in LDCC are self-initiated participants ages 18 and up who reside in Union, Lincoln, Jackson, Caldwell, Ouachita, Morehouse, East Carroll, West Carroll, Richland, Franklin, Tensas, and Madison Parishes.

Expanded SNAP E&T participants enrolled in one of UWSELA’s subcontractors program are self-initiated participants ages 18 and up who reside in Orleans, Jefferson, St. Bernard, Plaquemines, Tangipahoa, St. Tammany, and Washington Parishes.

Expanded SNAP E&T participants enrolled in Cowen Institute are self-initiated participants between the ages of 18 and 24 who reside in the Greater New Orleans Metropolitan area.

Expanded SNAP E&T participants enrolled in CEO are self-initiated participants ages 18 and up who reside in Orleans, Jefferson, and St. Tammany Parishes.

Expanded SNAP E&T participants enrolled in NOWCS are self-initiated participants ages 18 and up who reside in the Greater New Orleans Metropolitan area.
Louisiana has a large population of underemployed individuals working less than 30 hours per week who are required to register for work. The average number of SNAP recipients for FFY 2019 was 816,237. Of this number, 66,860 were mandatory work registrants. Statistical information was obtained from the SNAP data files.

5. The estimated number of volunteers the State agency expects to place in E&T;

DCFS expects 2286 volunteers to participate each year.

6. The geographic areas covered and not covered by the E&T Plan and why, and the type and location of services to be offered;

The agency’s goal is to serve as many mandatory work registrants as possible. After careful analysis of available 100% Employment & Training Funds and consideration of the prevailing environment, it has been determined that the program will best serve our clients if services are provided in a limited geographic area to non-Able-Bodied Adults Without Dependents (non-ABAWDs).

The geographic limitation is expected to provide optimum opportunity to utilize available federal and state funds in a responsible, practical and productive manner. Therefore, the LaJET program will be operated in parishes of Caddo, Ouachita, Rapides, and Orleans. These are urban areas where with a history of being LaJET parishes. The Louisiana Workforce Commission will provide the employment and training services to the LaJET parishes. The services are job search training and supervised job search. Only non-ABAWDs are offered LaJET services since ABAWDs are being provided services statewide through LWC.

Louisiana partners with LWC to offer Able-Bodied Adults Without Dependents (ABAWDs) assessment and training through LWC’s Business and Career Solutions Centers statewide (59 locations). ABAWDs in parishes without LaJET are required to participate in LWC services. Non-ABAWDs are exempt from mandatory participation.

Louisiana has fourteen contracted partners which provide Expanded SNAP E&T services to SNAP recipients. • Liberty’s Kitchen serves youth in the Greater New Orleans area. • The Calcasieu Parish Police Jury (CPPJ) Human Services Department offers services for residents of Allen, Beauregard, Calcasieu, Cameron, and Jefferson Davis Parishes. • Goodwill Industries of Southeastern Louisiana (GWSELA) – Goodwill Technical College offers services to individuals in the Greater New Orleans Metropolitan area. • Covenant House serves youth in the Greater New Orleans Metropolitan area. • Reconcile New Orleans (Café Reconcile) serves youth in the Greater New Orleans Metropolitan area. • HOPE Ministries offers services for residents in East Baton Rouge Parish. • Louisiana Green Corps offers services for residents in the Greater New Orleans Metropolitan area. • Youth Empowerment Project (YEP) serves youth in the Greater New Orleans Metropolitan area. • New Opportunities Vision Achievement (NOVA) offers services to residents in Ouachita, Richland, Morehouse, Madison, East Carroll, and West Carroll Parishes. • Louisiana Delta Community College (LDCC) offers services for residents in Union, Lincoln, Jackson, Caldwell, Ouachita, Morehouse, East Carroll, West Carroll, Richland, Franklin, Tensas, and Madison Parishes. • United Way of Southeast Louisiana (UWSELA) subcontractors offer services for residents in Orleans, Jefferson, St. Bernard, Plaquemines, Tangipahoa, St. Tammany, and Washington Parishes. • Cowen Institute serves youth in the Greater New Orleans Metropolitan area. • Center for Employment Opportunities (CEO) offers services to residents in Orleans, Jefferson, and St. Tammany Parishes. • New Orleans Women & Children’s Shelter offers services to residents in the Greater New Orleans Metropolitan area.

7. The method the State agency uses to count all work registrants as of the first day of the new fiscal year;
The initial count for October 2019 was obtained from the State’s eligibility system file.

Mandatory work registrants are identified by specific work registration codes on the State’s eligibility system. Statewide and individual parish totals are available. On the last workday of September of each year, an analysis is conducted to identify and count all certified individuals who are mandatory work registrants on that date. A date is system-generated to distinguish on-going registrants from new registrants who have been added during the fiscal year. If a case is closed but reopened prior to the expiration of the system-generated date, a program edit prevents the entry of the mandatory work referent code, thereby preventing a recipient from being referred for E&T services more than once per year. In this situation, a re-referral code would be appropriate. The re-referred recipient would display as a re-referral on the list sent to the LaJET Service Provider.

8. The method the State agency uses to report work registrant information on the quarterly Form FNS–583;

DCFS uses the participant information provided by the providers to report participant information to FNS and an unduplicated count of mandatory work registrants from SNAP data files.

9. The method the State agency uses to prevent work registrants from being counted twice within a Federal fiscal year. If the State agency universally work registers all SNAP applicants, this method must specify how the State agency excludes those exempt from work registration under 7 C.F.R. §273.7(b)(1). If the State agency work registers nonexempt participants whenever a new application is submitted, this method must also specify how the State agency excludes those participants who may have already been registered within the past 12 months as specified under 7 C.F.R. §273.7(a)(1)(i);

DCFS uses a master list of participant information provided monthly by the providers, the electronic Unduplicated Count of Mandatory Work Registrants Report and the Monthly Mandatory Work Registrants Report to ensure work registrants are not counted twice in a Federal Fiscal Year. Mandatory Work Registrants are screened during certification and recertification for exemptions and barriers to mandatory E&T program participation. DCFS uses work registration codes to exempt work registrants from work registration requirements.

The eligibility worker at the local DCFS office will be responsible for screening all mandatory work registrants by identifying the work registrant and/or volunteers who are to participate in E&T for those mandatory work registrants who reside in a LaJET Parish or ABAWDs statewide who would be subject to the SNAP time limit if there were not a statewide waiver. An ABAWD meets the ABAWD work requirement by fulfilling any of the following: working an average of at least 20 hours per week, participating in and complying with the requirements of any program under the Workforce Innovation and Opportunity Act (WIOA), or any program under section 236 of the Trade Act of 1974 for an average of at least 20 hours per week, or any combination of working and participating in a work program described above for an average of at least 20 hours per week.

If the household member is not exempt, the worker then instructs the household member to register for work with LWC by creating an active Helping Individuals Reach Employment (HiRE) account.
before the SNAP case is certified. A notice is provided to the household advising that in order to register for a HiRE account, the MWR must: Go online to the LWC website at www.louisianaworks.net or go to the local DCFS office and register by using a kiosk located at the office or go to a local LWC Business and Career Solutions Center and register. The account must be active at certification and recertification to be registered for work. Work registration status for all MWRs in the SNAP case must be verified by reviewing the LWC website to determine if each MWR has an active work registration in HiRE.

10. The organizational relationship between the units responsible for certification and the units operating the E&T components, including units of the Statewide workforce development system, if available. FNS is specifically concerned that the lines of communication be efficient and that noncompliance by the participant be reported to the certification unit within 10 working days after the noncompliance occurs;

**Program Coordination**

Mandatory work registrants will be screened at application and during recertification or every twelve months, whichever is later. During clearance of the work registration status, the eligibility worker will screen individuals to determine their LaJET status and to screen for ABAWDs. The eligibility worker will provide each registrant a written explanation of the work requirements through the mail. Mandatory work registrants will be identified on the State's eligibility system by a special code. Non-ABAWDs who do not have a barrier to SNAP E&T program participation and reside in a LaJET parish and are a mandatory work registrant will be referred to LaJET. ABAWDs who do not have a barrier to SNAP E&T program participation will be referred to LWC. LaJET volunteers will also be identified.

Information obtained during the work registration screening process will be entered on the State’s eligibility system as work registrant household members are certified or recertified.

The eligibility worker at the local DCFS office will be responsible for screening all mandatory work registrants by identifying the work registrant and/or volunteers who are to participate in SNAP E&T. The eligibility worker will also be responsible for all referral activities related to the LaJET Program and to LWC. Referrals are entered on the State’s eligibility system for mandatory LaJET participants and volunteers, and ABAWDs who would be subject to the SNAP time limit if there was not an ABAWD waiver in place. From this information, a weekly Super Referral Report of LaJET referents will be sent to the LaJET Service Provider (SP) and weekly referral report of ABAWDs will be sent to LWC.

E&T Component Assignment: The DCFS Regional Program Consultants will also perform compliance monitoring semi-annually in the local DCFS parish office and LaJET office in addition to conducting reviews of E&T and ABAWD during the Management Evaluation Review. The DCFS Contract Section will monitor the LaJET contract to ensure that the LaJET Service Provider is in compliance with program policy and procedures and fiscal requirements outlined in the contract. This monitoring will be conducted at least on an annual basis and will include reviewing program and fiscal records, LWC’s monthly invoices and participant reimbursements made to SNAP clients.

The SP determines if the individual failed to comply.

**Conciliation with LaJET:**

- Is an attempt to reach a resolution of the participant's failure to comply with the employment and training requirements prior to initiation of a sanction.
- Must be initiated by the LaJET Service Provider the day following the date the individual fails to comply.
• Cannot exceed 30 days and may end sooner if the participant refuses to cooperate in the process.
• Is considered successful when the participant performs a verifiable act of compliance.
• Is available to all E&T participants.

Conciliation with LWC for ABAWDs:
• Is an attempt to reach a resolution of the participant’s failure to comply with the employment and training requirements prior to initiation of a sanction.
• Will be initiated if the ABAWD fails to contact LWC at the end of 30 days.
• LWC will send a second letter to the ABAWD at the end of 30 days allowing another 30 days for the ABAWD to contact LWC to comply.
• At the end of the second 30-day period, LWC will send a third letter advising the ABAWD to contact LWC to comply.
• At the end of 90 days without compliance, LWC will notify DCFS of non-compliance.

Preparation of the Notice of Adverse Action
If the participant does not comply during the conciliation process the LaJET Service Provider (SP) will notify the local DCFS of the participant’s non-compliance via the LaJET Provider to Parish Communication Form, (LaJET 2). The form must be sent within 2 days of the determination of non-compliance. Upon receipt of notification from the LaJET Service Provider of failure to comply, the worker will contact the mandatory work registrant to determine if good cause exists for non-compliance. If good cause does not exist, DCFS will mail a Notice of Adverse Action within 10 days proposing disqualification of the mandatory LaJET participant or the household, as appropriate.

Determination of Good Cause
Based on the information that is reported by the LaJET provider on the Provider to Parish Communication Form (LaJET 2) regarding the reason for non-compliance and information provided by the mandatory work registrant, the eligibility worker will determine whether the individual had good cause for failure to comply.

If an ABAWD does not comply within 90 days, LWC will send a report of non-compliance to DCFS. The worker will review case notes in their Helping Individuals Reach Employment (HiRE) account, and will contact the ABAWD to determine if good cause exists for non-compliance. If good cause does not exist, DCFS will mail a Notice of Adverse Action within 10 days proposing disqualification of the ABAWD or the household, as appropriate.

Sanctioning Resulting From Noncompliance With the E&T Program Requirements
Mandatory work registrants are individuals who are not exempt from SNAP work requirements and are ineligible if they fail to meet the work registration requirements without good cause. This includes failing to create a HiRE account, failing to comply with LaJET for non-ABAWDs, or failing to comply with LWC for ABAWDs. Any household member may assist a mandatory work registrant with creating a (HiRE) account to register for work.

Length of sanction:
• First violation - the individual will be ineligible for 3 months or until compliance, whichever is later.
• Second and subsequent violations - the individual will be ineligible for six months or until compliance, whichever is later.
If the individual who does not comply is the head of the household, the entire household is ineligible for the duration of the sanction.

Notifications of failure to comply with E&T requirements from the Service Provider are documented in the case and reported to the Department of Children and Family Services on a monthly basis.

11. The relationship between the State agency and other organizations it plans to coordinate with for the provision of services, including organizations in the Statewide workforce development system, if available. Copies of contracts must be available for inspection;

The LaJET Program is the cooperative employment and training services initiative of three entities, the Local Parish Offices of DCFS, State SNAP Office and Louisiana Workforce Commission.

The actual services to participants are provided through a contractual agreement with the Louisiana Workforce Commission. In general, the responsibilities are as follows:

- Staff in the local parish DCFS offices identifies LaJET participants.
- On a weekly basis, DCFS notifies the LaJET Service Providers of the SNAP recipients who are to be provided employment and training services.
- Within 15 days of receipt of notification from DCFS, the LaJET Service Provider must schedule an appointment and subsequently assess and place the LaJET referent. Services will be provided as outlined in the components.

Services are provided to ABAWDs statewide through LWC’s Business and Career Solutions Centers by providing workforce preparation skills, labor exchange information, and referrals. LWC's Business and Career Solutions Center provides services through Workforce Innovation and Opportunity Act (WIOA) participation. ABAWDs who do not meet the ABAWD work requirements are referred to LWC Business and Career Solutions Centers. There is no contractual agreement of MOU to provide these services as LWC’s mission is to serve this population.

Louisiana has fourteen contracted partners which provide voluntary SNAP E&T services to SNAP recipients. These volunteer programs serve self-initiated participants who are considered as reverse referrals. Voluntary E&T services are offered at Liberty’s Kitchen, Calcasieu Parish Police Jury (CPPJ) Human Services Department, Goodwill Industries of Southeastern Louisiana (GWSELA) – Goodwill Technical College, Covenant House, Reconcile New Orleans (Café Reconcile), HOPE Ministries, Louisiana Green Corps, Youth Empowerment Project (YEP), New Opportunities Vision Achievement (NOVA), Louisiana Delta Community College (LDCC), United Way of Southeast Louisiana (UWSELA), Cowen Institute, Center for Employment Opportunities (CEO), and New Orleans Women & Children’s Shelter (NOWCS).

12. The availability, if appropriate, of E&T programs for Indians living on reservations after the State agency has consulted in good faith with appropriate tribal organizations;

Not applicable.

13. If a conciliation process is planned, the procedures that will be used when an individual fails to comply with an E&T
program requirement. Include the length of the conciliation period; and

If the participant fails to comply with the first appointment letter, the provider sends the Conciliation Notice, (LaJET 6C) to the participant advising the participant that he must complete the conciliation process and come to the LaJET office by a certain date for a face-to-face interview. The interview must be held within 20 days of the first appointment date. The Conciliation Notice (LaJET 6C) must be mailed no later than the day after the failure to comply.

If the client contacts the LaJET Service Provider and the absence is not excused, but the participant agrees to comply, or has an excused absence, the LaJET Service Provider will schedule another appointment. This appointment must be held within the 20-day time period. The LaJET Service Provider may confirm this appointment with the LaJET 7 (second appointment letter).

ABAWDs are required to meet with LWC staff every 30 days as long as they are actively participating. LWC staff is instructed to document a HIRED case note every 30 days as long as the ABAWD is participating. LWC staff will only document non-compliance when the ABAWD contacts them and states refusal to participate. So, there will not be a HIRED case note if the participant did not create a HIRED account or never participated. The never participated and stopped participating tasks are received after 90 days of no contact with the ABAWD. The stopped participating task does not always mean the ABAWD is non-compliant. The ABAWD could have obtained employment, participating in another program and not required to participate, may have a long-term barrier or possible exemption, or finished participating and is no longer required to participate.

14. The payment rates for child care established in accordance with the Child Care and Development Block Grant provisions of 45 CFR 98.43, and based on local market rate surveys.

15. The combined (Federal/State) State agency reimbursement rate for transportation costs and other expenses reasonably necessary and directly related to participation incurred by E&T participants. If the State agency proposes to provide different reimbursement amounts to account for varying levels of expenses, for instance for greater or lesser costs of
transportation in different areas of the State, it must include them here.

Participants are reimbursed for participation in E&T activities. If funding is not available, the state will exempt individuals from mandatory E&T participation during the screening process. Additionally, during the screening process, the eligibility worker will determine if transportation costs would exceed the allowable reimbursement amounts prior to making a referral to the E&T provider.

Transportation Participants use various methods of transportation including services provided through contractual agreements with different agencies which is free and does not cost the participants any out of pocket expenses.

LWC will reimburse LaJET participants $10.00 per activity up to a maximum of $210.00 for Job Search Training per participant, up to a maximum of $110.00 for Supervised Job Search, or up to a maximum of $330.00 for Education. • LWC will reimburse ABAWDs $10.00 per activity up to a maximum of $120. • Liberty's Kitchen will provide monthly bus passes/tokens, Uber/Lyft services, and mileage reimbursement to participants. • Calcasieu Parish Police Jury (CPPJ) will ensure transportation is available in one of the following — through agreements with transportation providers in the area, public transit, share-a-ride, local taxi service, Uber/Lyft services, and mileage reimbursement. The maximum amount a participant can receive for transportation assistance is $150.00 per participant per fiscal year. • Goodwill Industries of Southeast Louisiana - will provide bus tickets as needed. • Covenant House has on-site transportation. • Reconcile New Orleans (Café Reconcile) will provide bus tokens as needed. • HOPE Ministries will provide bus passes, bus tokens, and mileage reimbursement. • Louisiana Green Corps will provide bus tokens and passes as needed. • Youth Empowerment Project (YEP) will provide bus tokens and bus passes as needed. • New Opportunities Vision Achievement (NOVA) will provide bus tokens and gas cards. • Louisiana Delta Community College (LDCC) will provide bus passes as needed. • United Way of Southeast Louisiana (UWSELA) will provide bus passes, bus tokens, etc. • Cowen Institute will provide bus passes and mileage reimbursement. • Center for Employment Opportunities (CEO) will provide bus passes and Uber/Lyft services. • New Orleans Women and Children's Shelter (NOWCS) will provide bus passes, bus tokens, and Uber/Lyft services.

Child Care Dependent care expenses are for parents with children under the age of 12, or 13 and older and have a physical or mental disability. The majority of the children are school age and do not require reimbursement. • LWC will reimburse childcare costs for LaJET participants up to $200 per month for 2 months. Maximum per participant is $400. The state will exempt from mandatory E&T participation an individual who needs childcare reimbursement if funds are not available. There are no childcare reimbursements for ABAWDs. • Covenant House has an on-site facility available for dependent care. • United Way will reimburse childcare cost at $600.00 per participant per month. • Cowen Institute will reimburse at $200.00 per week per child. Liberty's Kitchen has a Memorandum of Understanding with Love Center to provide childcare services. New Orleans Women and Children's Shelter does not have a cap for childcare.

There are no non-LaJET, non-ABAWD mandatory E&T participants. Only non-ABAWDs would be offered LaJET services, so in the 60 parishes that are non-LaJET parishes, the only mandatory E&T participants are ABAWDs.

Other Costs necessary to participate in educational or job training activities such as uniforms, professional fees, clothing, equipment, and temporary housing assistance are reimbursed by Expanded SNAP E&T providers.

The LaJET Handbook and Expanded SNAP E&T Handbook provides directions to SNAP E&T service providers regarding which costs are allowable and which costs may and may not be reimbursed. Requests from SNAP E&T service providers for reimbursement paid to SNAP E&T participants are submitted monthly and through contract monitoring when invoices are submitted they are reviewed for allowable expenses. The LaJET Handbook and SNAP work requirements can be found in DCFS’ Policy Management System at www.dcfslouisiana.gov.
16. Information about expenses the State agency proposes to reimburse. FNS must be afforded the opportunity to review and comment on the proposed reimbursements before they are implemented.

We anticipate that $1,363,718.00 (state/federal funds) will be used to reimburse SNAP E&T participants.

b. Able-bodied Adults without Dependents (ABAWD) [28]

1. A State agency interested in receiving additional funding for serving able-bodied adults without dependents (ABAWDs) subject to the 3-month time limit, in accordance with 7 C.F.R. §273.7(d)(3), must include the following for each Federal fiscal year covered by the Combined Plan under WIOA:

[28] 7 CFR § 273.7(c)(7)

1. Its pledge to offer a qualifying activity to all at-risk ABAWD applicants and recipients;

Louisiana is not a pledge state.

2. Estimated costs of fulfilling its pledge;

Not applicable.

3. A description of management controls in place to meet pledge requirements;

Not applicable.

4. A discussion of its capacity and ability to serve at-risk ABAWDs;

Not applicable.

5. Information about the size and special needs of its ABAWD population; and

Not applicable.

6. Information about the education, training, and workfare components it will offer to meet the ABAWD work requirement

Not applicable.

Jobs for Veterans’ State Grants

(OMB Control Number: 1225-0086)
The Jobs for Veterans’ State Grants (JVSG) are mandatory, formula-based staffing grants to States (including DC, PR, VI and Guam). The JVSG is funded annually in accordance with a funding formula defined in the statute (38 U.S.C. 4102A (c) (2) (B) and regulation and operates on a fiscal year (not program year) basis, however, performance metrics are collected and reported quarterly on a Program Year basis (as with the ETA-9002 Series). Currently, VETS JVSG operates on a multi-year grant approval cycle modified and funded annually.

In accordance with 38 U.S.C. § 4102A(b)(5) and § 4102A(c), the Assistant Secretary for Veterans’ Employment and Training (ASVET) makes grant funds available for use in each State to support Disabled Veterans’ Outreach Program (DVOP) specialists and Local Veterans’ Employment Representatives (LVER) staff. As a condition to receive funding, 38 U.S.C. § 4102A(c)(2) requires States to submit an application for a grant that contains a State Plan narrative, which includes:

**a. How the State intends to provide employment, training and job placement services to veterans and eligible persons under the JVSG;**

Services are provided to veterans and eligible persons by JVSG staff members according to the needs of the veteran, any significant barrier to employment (SBE) they may possess and the roles and responsibilities of JVSG personnel. DVOP specialists and LVERs are essential parts of and fully integrated into the workforce development network. They are included among the AJC partner staff, which consists of all staff employed by programs or activities operated by AJC partners listed in 29 U.S.C. 2841(b) that provide online and/or in-person workforce development or related support services as part of the workforce development system. Other AJC partner staff members include staff of Workforce Innovation and Opportunity Act (WIOA), Wagner Peyser (WP) and other AJC network partner programs.

DVOP specialists -- Under 38 U.S.C. 4103A(a), a DVOP specialist provides individualized career services and facilitates placements to meet the employment needs of veterans, prioritizing service to special disabled veterans, other disabled veterans and other categories of veterans in accordance with priorities determined by the Secretary of Labor; and

LVER -- Under 38 U.S.C. 4104(b), the LVER’s principal duties are to: (1) conduct outreach to employers in the area to assist veterans in gaining employment, including conducting seminars for employers and, in conjunction with employers, conducting job search workshops and establishing job search groups; and (2) facilitate employment, training and placement services furnished to veterans in a state under the applicable state employment service delivery systems.

DVOP specialists are domiciled in local AJC offices throughout the state or with other partner agencies. One LVER is designated as the state coordinator of veterans’ services and one DVOP is currently operating under an approved waiver from DOL VETS to utilize four LVERs as veteran program managers (lead LVERs) in the JVSG Program. These LVERs provide direct supervisory and administrative oversight for the DVOP staff in their assigned areas of operation. It is anticipated the lead LVER will perform the traditional role of the LVER within their assigned geographical area 70% of the time. The remaining time will be spent performing supervisory functions such as payroll activities, schedule approval, performance evaluation, etc. for DVOP staff in their respective geographical area.

An analysis of the veteran population in each parish throughout the state was recently conducted to determine an equitable distribution of DVOP specialists. Official domiciles and areas of responsibility have been adjusted in accordance with the results of that analysis. The state will review analysis results annually in conjunction with the Annual Funding Modification process and adjust domicile locations as necessary based on population shifts in order to best serve veterans (with SBEs) and other eligible persons in targeted populations. In addition to DVOP specialists, each AJC has individuals trained in case management and business and/or community services networking.
specialists coordinate closely with these AJC staff members when providing intensive services to veterans with an SBE or those that are otherwise targeted. In turn, DVOP specialists provide advice and guidance as needed to AJC staff members that are providing services to other veterans and other eligible persons. This team approach ensures that all veterans and other eligible persons receive quality services that afford them the greatest opportunity for a successful outcome.

When not actively providing individualized career services or reviewing open case files, DVOP specialists and other AJC career specialists fully trained in case management and networking conduct outreach at off-site locations including, but not limited to, U.S. Department of Veterans Affairs offices, Community Based Outpatient Clinics (CBOC) for the U.S. DVA, Military Treatment facilities (MTF), Warrior Transition Units/Battalion (WTU/WTB) and Homeless Veterans' Reintegration Program (HVRP) grantee locations. The purpose of these outreach efforts is two-fold. The first purpose is to find veterans in need of services and offer the needed services to them. The second purpose is to develop relationships with supportive services in the area so that SBE and other veterans can be referred to those agencies for services.

LVER staff members are domiciled in local AJCs throughout the state. In the state's business services delivery model, one industry sector coordinator and one business services coordinator has been assigned to each of the state's eight regional labor market areas. The area of responsibility for each LVER staff member has been adjusted to align with that of these regional labor market areas. The LVER coordinates with regional industry sector coordinators, business services coordinators and members of the Recruitment and Placement Team assigned to AJCs to advocate to employers on behalf of veterans and to develop job opportunities specifically for veterans. LVER staff train all AJC employees to network for veterans and comply with priority of service requirements.

b. The duties assigned to DVOP specialists and LVER staff by the State; specifically implementing DVOP and LVER duties or roles and responsibilities as outlined in 38 U.S.C. § 4103A and 4104. These duties must be consistent with current guidance;

The primary function of the state's DVOP specialist team is to provide individualized career services for veterans identified to have an SBE in accordance with 38 U.S.C. § 4103A, VPL 07-10 and VPL 03-14, or the most recent USDOL policy, and those veterans that are a member of a special population in accordance with VPL 04-14, or the most recent USDOL policy.

Prior to conducting any other individualized career service, DVOP specialists shall conduct a comprehensive assessment, which shall be an “individualized interviewing process” and may also include the use of an Interest Inventory, Work Keys, WIN Assessment or other assessment tool. Once the comprehensive assessment has been completed, the DVOP shall, with the cooperation of the veteran, develop and implement an Individual Employment Plan (IEP). DVOP specialists shall always, and as a minimum, complete these two individualized career services. Case management continues to be an appropriate delivery strategy or framework within which intensive services may be delivered and in most cases, shall be followed. To enhance the implementation of the IEP career guidance, supportive services, job development contacts, job referrals and individualized career services and training may also be provided. Depending on the needs of the individual, the goal of the IEP may be to obtain education, training or employment. Training or education may be short- or long-term depending on the certification, licensing or skills being acquired to optimize successful employment outcomes. The DVOP specialist may receive assistance with these functions by other career specialists who are also specifically trained to facilitate case management. The state requires DVOP specialists to conduct outreach to locate veterans with an SBE with the purpose of providing individualized career services and to form partnerships with external and internal supportive services programs that can provide those services. Examples of the programs are listed below.
The DVOP will work closely with the following partner programs or organizations:
- VA Vocational Rehabilitation and Employment facilities
- Homeless Veteran Reintegration Programs
- VA VET Centers
- Homeless and Halfway Shelters
- Civic and Veteran Service Organizations
- Workforce Innovation and Opportunity Act partners
- Louisiana Vocational Rehabilitation facilities
- Veterans' Upward Bound Program
- State Veterans' Affairs Representatives
- Local College and Universities and Vo-Tech Veterans' Service Representatives
- Veterans' Service Organizations
- Department of Social Services TANF initiatives for veterans
- Parish Veteran Service Officers

The LVER responsibilities are specifically targeted to promote the advantages of hiring veterans to employers, employer associations and business groups. LVER roles and responsibilities are consistent with 38 U.S.C. § 4104, VPL 07-10 and VPL 03-14. As such, the LVER serves an important role in the state's Business Services Delivery Model. In coordination with the other members of the business services team, the LVER advocates for employment and training opportunities through outreach to employers, training facilities, unions, apprenticeship programs and private and government businesses. The LVER also participates in job fairs, promotes programs that offer licensing and credentialing opportunities and develops and makes presentations to employers. Each LVER must provide a monthly report to the state veterans coordinator detailing their outreach activities. LVER Staff members conduct outreach to perform the following activities:

- Conducting employer outreach;
- In conjunction with employers, conducting job searches and workshops and establishing job search groups;
- Coordinating with unions, apprenticeship programs and businesses or business organizations to promote and secure employment and training programs for veterans;
- Informing federal contractors of the process to recruit qualified veterans;
- Promoting credentialing and licensing opportunities for veterans; and
- Coordinating and participating with other business outreach efforts.

The state intends for LVER staff to play a central role in facilitating the provision of services to veterans. This is accomplished through building partnerships, especially with AJCs in their assigned regions, providing subject matter expertise and promoting the efficient and effective integration of all employment services provided to veterans. Within each AJC, LVER staff shall coordinate closely with the local area coordinator (LAC) to provide training and technical assistance on priority of service, best practices for providing effective services to veterans, relevant external partners, the role of DVOP specialists, integration of DVOP specialists into the AJC service delivery model, and best practices for conducting outreach to employers.

To maximize the impact of the streamlined LVER staff, the state takes a top-down, cooperative approach to employer outreach. LVER staff shall coordinate with their business service team...
partners, and other state agencies or programs such as Louisiana Rehabilitative Services (LRS), to conduct outreach to employer associations at the state and regional level. In this way the maximum number of employers can be efficiently and effectively incorporated into the promotion of hiring of veterans. This outreach will educate employers on the advantages of hiring veterans, and inform employers on how to find qualified veteran applicants by leveraging the State workforce system and AJCs. The state intends to increase veteran employment by making a sound business case to employers regarding the advantage of hiring veterans and providing employer's tools and contacts to do so effectively.

c. The manner in which DVOP specialists and LVER staff are integrated into the State’s employment service delivery system or American Job Center;

Louisiana provides employment, training and placement services to all veterans through a network of strategically located AJCs operated by 15 Regional Workforce Development Boards (WDB) and supported by the state’s proprietary Hire database system. The state, working closely with each AJC and their WDB, has implemented a standardized framework for customer flow. This flow determines the methodology through which all clients (both job-seeker and employer) are integrated into the system and how they are assessed to identify their service needs. All programs are coordinated through a joint referral process described in each region’s memorandum of understanding (MOU) between partners. Each partner performs the services allowed by their authorizing legislation or policy. Inter-staff collaboration is also enforced via program updates and workforce development policies are shared among partners at regularly scheduled staff meetings and training. During those contacts, all staff members share information about new employers and job orders received, AJC scheduled activities and positive recruitment activities taking place in the region.

All DVOP specialists are full-time employees, including the DVOP specialist ISC out-stationed with VA VR&E. They are singularly responsibility for locating and providing individualized career services to targeted veterans and other eligible persons in the context of an effective network system. Although DVOP specialists are responsible for facilitating the case management and individualized career services of veterans with significant barriers to employment (SBE), they are not alone in this effort. Providing individualized career services to veterans with SBEs takes a team effort and as such, all services available in any particular AJC are available to veterans on a priority-of-service basis. The state mandates and monitors that non-JVSG funded staff provide individualized career services through the case management framework as appropriate to veterans and other eligible persons when no DVOP specialist is available.

The state promotes employment and job training opportunities through the use of several specialized programs. The state funds an Incumbent Worker Training Program (IWTP) initiative through collaboration with local education and training facilities in order to train participants who are already working toward upgrading their skills and pay. Southeastern Louisiana University and Delgado Community College operate Veterans’ Upward Bound Programs to promote additional education for veterans and assist with college or technical school programs designed to help earn a degree or certification. These opportunities are presented to veterans through AJC office visits and presentations at veterans workshops.

The state’s Business Services Delivery Model divides the state in to eight separate labor regions. Each region is assigned an industry sector coordinator and a business services coordinator. The LVER functions as a member of these Business Services Teams in their respective regions. The team’s primary focus is to conduct job development and outreach to employers, including federal contractors and labor unions. LVER staff responsibilities include operating targeted hiring events, and veterans’ job fairs. LVER staff provides program continuity by acting as the technical program advisor and trainer for AJC staff. The state has no part-time LVER staff.

To facilitate the optimal utilization of the services and resources available from other service providers, the state has developed cooperative relationships with many service providers including all
WDBs, AJCs, the Louisiana Economic Development (LED), Homeless Veterans’ Reintegration Program (HVRP) grantees, Employer Support of the Guard and Reserves (ESGR), Louisiana Department of Veterans Affairs (LDVA), U.S. Department of Veterans Affairs (VA), Louisiana Rehabilitation Services (LRS) and numerous local agencies and nonprofit organizations. The state continues to execute robust, coordinated outreach efforts at the local, regional, and state levels to identify and reach out to additional service providers. As part of this outreach, all DVOP specialists are required to conduct outreach to local USDOL-VETS competitive grantees (currently there is one HVRP grantee in Louisiana) and the one Wounded Warrior Transition Unit located at Fort Polk, La. This outreach ensures an accurate and realistic picture of what other services and resources are available at the local, regional and state levels and promote the development of relationships to leverage those service providers. This information is shared with JVSG staff across the state. Information sharing provides a vehicle for DVOP specialists to integrate available partner services and resources into the IEP for the veterans they are serving and provide LVER staff with additional avenues to promote and facilitate employment services and placements for veterans and other eligible persons.

The state partners with many of these organizations through the MOU process and DVOPs make regular outreach contact with these organizations on behalf of the veterans they serve.

All AJCs across the state work together with JVSG grant-funded staff to ensure that information flow regarding employment and training opportunities is clear, concise and continuous. The state lists approved training providers on its website including detailed descriptions of training provided and the veteran’s potential for employment after successful completion of the training, based on occupational demand.

Louisiana’s Native American tribes live in open tribal lands and are not segregated from the general public. As such, resources of other organizations that provide employment services to veterans are openly available to the very small Native American population residing in Louisiana.

Louisiana has adopted a demand-driven approach to all workforce and employment programs to ensure that all services and training are directed toward high-demand jobs. To support this effort, the state is heavily engaged with employers, employer associations and other partners in the top industries within each region to continuously identify the skills necessary to both enter and succeed in high-demand careers.

The local WDBs and their constituent AJCs make up the central hub for all workforce activities and associated training within the state. The state’s strategy for the leveraging of other state and federal education and training programs to develop skills necessary to prepare veterans for in-demand jobs is therefore focused on and operated in close cooperation with our AJC partners. The combined effects of the effective integration of the JVSG into the AJC service delivery model, outreach to and relationship building with relevant partners, and comprehensive up-to-date information on in-demand jobs and skills, produces a coordination of programs and services that reduces or eliminates duplication, closes gaps in service and identifies the program or service best suited to the individual veteran being served. In this way, the state leverages a wide range of state and federal training programs to efficiently and effectively provide veterans with the specific skills necessary to secure and succeed in current in-demand jobs.

The state’s outreach efforts and public information activities are used to inform veterans of the services available at their local AJC and the training opportunities that are available in their area and within the state. These outreach efforts, as described in Section B above, are focused on key service providers likely to interact with veterans that have significant barriers to employment. The intent of this outreach is to educate service providers about job training and other services available to veterans at their local AJC. In turn, the state’s partner service providers can encourage veterans to seek services at an AJC. Due to the complexity of eligibility criteria and the variance of programs offered in disparate areas, public information systems usually do not provide specifics on particular programs but do direct veterans and other eligible persons into the local AJC.
The state is actively engaged in promoting development of high-demand, job-driven training opportunities for veterans and other eligible persons within the education community. Business Services Teams, specifically the ISC, partnering with LED staff members, advise and collaborate with employers and educational institutions, (particularly the Louisiana Community and Technical College System), to promote access to, retention in and completion of individual training and education.

d. The Incentive Award program implemented using the 1% grant allocation set aside for this purpose, as applicable;

The state shall request no more than 1 percent of its annual allocation for each year’s JVSG grant as performance incentive awards for eligible staff. This award shall be used in accordance with VPL 04-19 or the most recent guidance from USDOL-VETS. The objective of the LWC incentive award program is to recognize, promote and reward superlative and exceptional performance in the provision of service to veterans within the context of statutes and regulations. The basic objective of the awards program is to create an awareness and continuous level of interest in the importance of priority of service for veterans and an environment that engenders continuous improvement in serving veterans across the spectrum of service. The award system shall continue to operate as defined in the applicable State Policy and as approved by USDOL.

The state anticipates that individuals and teams will recognize the value and process of the awards program and will, as a result, develop a competitive attitude within the agency that supports esprit de corps within the team while sharpening the focus on service to other eligible persons.

Incentive awards shall be expended up to no more than 1 percent of the total grant amount for the fiscal year, which is set aside strictly for this purpose in the annual grant budget. Awards shall be determined based on a percentage of total award available for that fiscal year but shall not (in total) exceed no more than 1 percent of the total available funds for a given fiscal year or the most current USDOL guidance on grant-funded incentive award amounts.

Exceptional merit is based on a number of factors, with the overriding concept being the value of the process. In essence this is determining both a quantitative and qualitative rating and merit based on the following factors:

- Total numbers of veterans served and total services rendered to those veterans within the parameters of these areas;
- Outreach to veterans and subsequent flow of basic services that result in veterans becoming job ready, or the need for individualized career services;
- Outreach to and the comprehensive assessment of special target groups within the veteran community;
- Individualized career services through the case management framework and outcomes of those efforts;
- Job placements, in particular job developments, for veterans and disabled veterans;
- Other successful outcomes for veterans who may not return to employment, but through community partner referral developed an improved situation and/or economic stability;
- Outreach to and partner development with employers and federal contractors in the support of creating job opportunities for veterans;
- Outreach to and partner development with community service agencies, other state and federal programs and internal agency components in creating a supportive service network for veterans with barriers to employment and who may need case management;
- Organization of, participation in and success in job fairs and other veteran center community activities;

- Any other innovative veteran-related activity.

The award process is restricted by state law, such that to operate all awards must be cash, and all cash awards must be presented directly to individuals. This means that offices (teams) receiving incentive recognition shall share equally in the overall office award, and the individual award amount shall be determined by the team composition.

Half the total award fund available shall be awarded to JVSG funded staff, 35% of the total award fund available shall be split between two offices (teams of which JVSG grant funded staff may be a part) and 15% of the total award fund available shall be awarded to three individual partner agency service providers. The two awards made to offices shall be split between one large office (6) full-time staff or and one small office (5) or fewer full-time staff.

Awards shall be administered and distributed as approved by the state of Louisiana Civil Service Board as detailed in the approved policy. For state merit staff awardees, the incentive will be paid out through the payroll system. For non-state merit employee, a separate payroll check will issued to the individual. Any employee contributions that result from the payment of the incentive will be charged to the JVSG grant.

An email request for team details and recommendations shall be sent to all Workforce Development Boards, local area coordinators, site supervisors, senior field leadership and JVSG-funded staff during August. Recommendations may come from anyone in the system, co-workers, supervisors, managers, coordinators, directors and JVSG staff.

Determination of the award shall be by a combination of objective and subjective data. Data compilation, analysis and award determination shall be by a team comprised of the veterans state coordinator and members of the management of information systems (MIS) staff. The final award approval shall be by the appointing authority, director of the Office of Workforce Development who is also the signatory authority for the JVSG grant relationship with USDOL.

Incentive award funds distributed shall be obligated by Sept. 30 each fiscal year and distributed not later than Dec. 31 of the same year in accordance with the regulation. The incentive award report shall be in compliance with USDOL VETS reporting requirements.

Winners shall be publicly recognized locally by their peers, local dignitaries and leadership for their exceptional performance on behalf of veterans. Winners shall also be recognized at a statewide conference or other similar large-scale event forum that provides the greatest positive publicity for the program.

Insufficient nominees: Because the entering arguments for eligibility are based on objective performance data, there shall be sufficient nominees. Unless, and in the unlikely and extraordinary circumstance that the appointing authority chooses not to make any award, all incentive award funds shall be distributed.

Tie breakers: If two or more individuals or offices (teams) score equally for their category, then those ties shall be broken by selecting the office that had the highest ratings on customer service reports during the review period, taken from the JVSG Customer Service Surveys, or for the individual by selecting the individual who had the most successful outcomes or the most successful job developments for the period.

Documentation: Documentation used for the award nominee selections shall be taken from the state proprietary employment system HiRE, veteran staff reports and job fair records. Data shall encompass the period of the first three federal fiscal quarters of the fiscal year. Credit for activities and services shall not be awarded without back-up documentation.
e. The populations of eligible veterans to be served, including any additional populations designated by the Secretary as eligible for services, and any additional populations specifically targeted by the State Workforce Agency for services from one-stop delivery system partners (e.g., Native American veterans; veterans in remote rural counties or parishes);

Veterans that attest to belonging to at least one of the six criteria listed below or are members of a special population are considered to have an SBE and are targeted by the DVOP specialist:

- A special disabled or disabled veteran, as defined in 38 U.S.C. § 4211(1) and (3);
- Homeless, as defined in Sections 103(a) and (b) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11302(a) and (b)), as amended;
- A recently separated service member, as defined in 38 U.S.C § 4211(6), who has been unemployed for 27 or more weeks in the previous 12 months;
- Vietnam-Era Veterans
- An offender, as defined by WIOA Section 3 (38), who is currently incarcerated or who has been released from incarceration;
- Lacking a high school diploma or equivalent certificate; or
- Low-income, as defined by WIOA Section 3(36).

- Veterans, as defined in 38 U.S.C. § 4211, aged 18 to 24 that possess limited civilian work history which can make transitioning to civilian labor force difficult. Based on this fact, veterans between 18 and 14 may benefit from individualized career services.

DVOP specialists shall also provide services to priority category populations identified by the Secretary under 38 U.S.C. § 4103A (a)(1)(C). Currently, the secretary has identified four such populations. These populations are:

- Transitioning service members who have participated in the Transition Assistance Program and have been identified as in need of individualized services;
- Service members who are wounded, ill or injured and receiving treatment in military treatment facilities or warrior transition units;
- The spouses or other family caregivers of such wounded, ill or injured service members;
- Native American tribes live in open tribal lands and are not segregated from the general public. As such, resources of other organizations that provide individualized services to veterans are openly available to the very small Native American population.

f. How the State implements and monitors the administration of priority of service to covered persons;

Per Grant Officer Memorandum 01-20, a response to this section is not required.
g. How the State provides or intends to provide and measure, through both the DVOP and American Job Center staff:

1. Job and job training individualized career services,
   Per Grant Officer Memorandum 01-20, a response to this section is not required.

2. Employment placement services, and
   Per Grant Officer Memorandum 01-20, a response to this section is not required.

3. Job-driven training and subsequent placement service program for eligible veterans and eligible persons;
   Per Grant Officer Memorandum 01-20, a response to this section is not required.

h. The hire date along with mandatory training completion dates for all DVOP specialists and LVER staff; and

i. Such additional information as the Secretary may require.
Senior Community Service Employment Program (SCSEP)

(OMB Control No. 1205-0040)

a. Economic Projections and Impact

1. Discuss long-term projections for jobs in industries and occupations in the State that may provide employment opportunities for older workers. (20 CFR 641.302(d)) (May alternatively be discussed in the economic analysis section of strategic plan.)

In the first quarter of 2019 (the latest available data from the U.S. Census Bureau), the largest share of workers age 55 and older were employed in the following top six industries that are most likely to employ older workers in the future.

<table>
<thead>
<tr>
<th>Industry</th>
<th>Workers Ages 55-64</th>
<th>Workers Ages 65-99</th>
<th>Total Workers Over Age 55</th>
</tr>

</tr>
</tbody>
</table>

Many of these occupations, including food preparation, cashiers, waiters and waitresses and retail sales start at a lower end of the pay-scale. However, Louisiana SCSEP and its partners will seek to place older workers in higher paying jobs where possible.

2. Discuss how the long-term job projections discussed in the economic analysis section of strategic plan relate to the types of unsubsidized jobs for which SCSEP participants will be trained and the types of skill training to be provided. (20 CFR 641.302(d))

Long-term projections for jobs in industries that will be targeted by sub-grantees include healthcare, retail, customer service. These jobs include positions for private sitters, certified nurse assistants, home health aides, medical assistance, retail sales clerks, sales associates, cafeteria workers, museum attendants, greeters, etc. SCSEP coordinators will work to establish more classroom training and community service assignments relative to these positions. Concentration would be on increasing the level of participant skills in those areas and promote those ready participants to those employers. Louisiana has been most successful in placing participants in unsubsidized employment with community service agencies and service-oriented type industries. Those jobs such as custodial work, maintenance, stock clerks, office workers, receptionists, childcare, drivers, retail sales and
housekeeping have proven to be the most successful for long-term employment. This will be a continued objective. Small business will continue to be the target, as it has proven successful with past placements. High growth industries with a presence in the community will be identified and targeted as potential employers of enrollees. Additionally, Louisiana will re-inforce On the Job Experience (OJE) to place participant into unsubsidized employment. On-the-job Experience (OJE) is a component of the Senior Community Service Employment Program (SCSEP) and is a tool to attract employers to SCSEP and its participants. It gives eligible participants a competitive edge by allowing them an opportunity to receive job skills training. This program can also assist employers who have difficulty filling job openings through traditional means (i.e. internet, newspaper/trade journals, or standard job order postings).

3. Discuss current and projected employment opportunities in the State (such as by providing information available under §15 of the Wagner-Peyser Act (29 U.S.C. 491-2) by occupation), and the types of skills possessed by eligible individuals. (20 CFR 641.325(c))

Louisiana SCSEP will work collaboratively to address issues ensuring host agency assignments are truly providing skills training to meet the needs of both the participant and employers. Sub-Grantees will continue to utilize the Individual Employment Plan (IEP), in partnership with the participant and host agency supervisor, ensuring community service assignments are providing skills training that meet the needs of the participant and host agency. Sub-Grantees will monitor participants at least once every six months at their community service assignments. During those visits, sub-grantees staff will review and update the IEP with both the participant and host agency supervisor.

Sub-Grantees will continue to monitor the training to ensure local employers will prepare participants for unsubsidized employment through the acquisition of transferable skills in demand. In addition, where applicable, sub-grantees in partnership with participants will develop IEPs that combine community service employment with their allowable training (e.g., classroom training or on the job experience (OJE) in the private for profit sector) as funding is available.

b. Service Delivery and Coordination

1. A description of actions to coordinate SCSEP with other programs. This may alternatively be discussed in the State strategies section of the strategic plan, but regardless of placement in document, must include:

A. Planned actions to coordinate activities of SCSEP grantees with WIOA title I programs, including plans for using the WIOA one-stop delivery system and its partners to serve individuals aged 55 and older. (20 CFR 641.302(g), 641.325(e))

Louisiana SCSEP is a mandated WIOA partner. Louisiana’s SCSEP looks forward to improving coordination and collaboration with WIOA during the next four years by looking to implement the following strategies to benefit SCSEP participants:

1. Identify training for seniors in soft and occupational skills including senior with disabilities.

2. Work with WIOA partners, faith based community organizations to identify financial assistance and financial planning supportive services for SCSEP participants;
3. Work with WIOA and One Stop System to identify senior friendly user technology and identify resources to secure the technology to increase career readiness for participants. Computer-based training and Teknimedia is being offered to participants statewide.

4. Work with WIOA partners, faith-based community organizations to identify and encourage SCSEP participant participation in work-related training and education activities.

5. Identify literacy resources in Louisiana and work to build partnerships and improve coordination of these resources with WIOA and SCSEP; encourage participation by SCSEP participants in these programs.

B. Planned actions to coordinate activities of SCSEP grantees with the activities being carried out in the State under the other titles of the Older Americans Act (OAA). (20 CFR 641.302(h))

Louisiana SCSEP nationals and sub-grantees cooperate with other providers of community resources in the State that carry out services under titles of the Older American’s Act. GOEA is the State Unit on Aging (SUA) and is responsible for the administration and provision of services under the Older Americans Act. This includes active roles in National Family Caregiver Services, ensuring participants are aware of housing opportunities, partnering with agencies to assist persons with disabilities and ensuring they have assistive technology and services, Vocational Rehabilitation in providing supportive services like eyeglasses, hearing aids, dentures, etc. GOEA has knowledge of services under the OAA and staff is trained in the referral process (helping refer participants to Meals on Wheels, in-home services, respite care, medication management, wellness, transportation, etc.) that could benefit participants. A close working relationship with staff in these programs and in-depth knowledge of services provides a great benefit to participants because it allows get them to the correct service needed.

C. Planned actions to coordinate SCSEP with other private and public entities and programs that provide services to older Americans, such as community and faith-based organizations, transportation programs, and programs for those with special needs or disabilities. (20 CFR 641.302(i))

By collaborating with the community-based and faith-based organizations for job fairs and information sharing, grantees will have a shoe-in on job opportunities and placements. The platform will be used to promote participants and engage employers hire enrollees. Local SCSEP projects have established cooperative relationships between the local, host agencies and public and private employers. Coordination and co-location of services help to identify suitable job openings in high-demand occupations. Local projects make every effort to establish rapport with employers who offer reliable career pathways and are willing to develop and maintain a working partnership on a long-term basis. Louisiana SCSEP, as well as Sub-grantees, coordinate SCSEP with other private and public entities and programs that provide services to older Americans, such as community and faith-based organizations to assist the elderly and those with special needs or disabilities. Participants are referred to community action programs for assistance with housing; Catholic Charities provides assistance with income tax preparation, and Vocational Rehab assign job coaches to work with participants with the greatest barriers to employment. There are numerous partnerships with clothes closet, food banks/pantries, etc. to assist participants in obtain items to wear to work, food, reduced health care services, and more.

D. Planned actions to coordinate SCSEP with other labor market and job training initiatives. (20 CFR 641.302(j))
Louisiana SCSEP plans to continue coordination with other labor market and job training initiatives by:

- Partnering with the Parish Career Solution Centers Service Delivery Systems, in creating a customer focused method to increase the number of persons 55 years or older who might benefit from unsubsidized employment in both the private and public sectors;
- Identifying the appropriate education, skills upgrade and training needs that older workers must obtain to secure new jobs or to retain their present jobs with advancement opportunities;
- Collaborating with Higher Learning Educational Systems, LA Community/ Technical College Systems (LCTCS), Public School Adult Education and training providers to improve literacy/educational deficiencies, update present skills, and obtain new training in demand occupations for potential long-term employment whether it be part or full-time;

E. Actions to ensure that SCSEP is an active partner in the one-stop delivery system and the steps the State will take to encourage and improve coordination with the one-stop delivery system. (20 CFR 641.335)

As mandatory partners, as prescribed in public law under the Older Americans Act, Louisiana SCSEP grantees continue to coordinate services with WIOA Boards and service providers. Several grantees continue to report details on those seniors who have entered employment from each assigned parish. In some areas, these job placement numbers increase the regular WIOA employment totals, thereby, improving performance measures throughout the State.

Sub-grantees and Nationals will continue to coordinate employment services with WIOA as described below:

- A SCSEP representative will continue to attend WIOA board meetings in each area throughout the State. Through these members, the WIOA Boards solicit older workers input to ensure that senior training and employment issues are addressed;
- Seek additional grant funds to provide adequate personnel in the Parish Career Solution Centers and continue to provide participant SCSEP trainees to assist the WIOA staff at these centers;
- Identify methods that contractors might employ to assist WIOA service providers attain performance standards and recruitment; conduct job search workshops for older workers and introductory computer training workshops conducted by a professional instructor at the Career Solution Centers;
- Involve WIOA service providers in older worker issues, conferences, and training;
- Participate, when requested, in writing local and state WIOA plans;
- Engage in joint outreach by participating in local Job Fairs, Business Expos, WIOA seminars, Chambers of Commerce and Economic Development planning to accomplish appropriate employment for seniors;
- Collaborate with community-based and faith-based organizations, Councils on Aging and other agencies by collaborating and sharing as much information relative to the older worker as possible. Collaboration may include using Workforce Investment Training Vouchers to provide formal job training. In addition, opportunities might exist to leverage on-the-job experience training funds in conjunction with support from for-profit companies seeking to fill critical employment vacancies. When a repetitive training system can be accomplished, the long-term value to the community would be of great benefit; and,
• More importantly, SCSEP Sub-grantees and Nationals will maintain a strong partnership with other community-based non-profit programs to make an impact in the social service network. Each non-profit or government host agency that SCSEP supports creates a social support network; however, all programs must recognize that hiring the older worker is the true focus.

F. Efforts to work with local economic development offices in rural locations.

According to the USDA Economic Research-Louisiana Fact Sheet website, 24% of Louisiana’s total population live in rural or non-metropolitan areas, with the remaining 76% residing in metropolitan areas or in a near proximity to metro areas. Louisiana SCSEP faces challenges with providing services in rural areas such as: assisting participants to find unsubsidized employment due to a shortage of jobs and many of the participants lack transportation. To overcome these challenges Louisiana SCSEP will continue collaborative efforts with rural development. In addition, Louisiana SCSEP will concentrate on awareness and recruitment efforts in parishes having the highest levels of poverty.

2. The State’s long-term strategy for engaging employers to develop and promote opportunities for the placement of SCSEP participants in unsubsidized employment. (20 CFR 641.302(e)) (May alternatively be discussed in the State strategies section of strategic plan.)

In order to identify long-term employment projections for jobs in industries and occupations in Louisiana that may provide employment opportunities for older workers, the State and National Grantees offer the following:

Various methods will be used in order to identify how those long-term employment projections for jobs in industries and occupations in the state relate to the types of unsubsidized jobs for which SCSEP participants will be trained and the types of skill training to be provided. An additional method is to utilize the Department of Labor Bureau of Labor Statistics to identify areas of highest unemployment and seeking jobs for participants.

3. The State’s long-term strategy for serving minority older individuals under SCSEP. (20 CFR 641.302 (c))

According to the SCSEP Analysis of Service to Minority Individuals for PY 2017, Louisiana SCSEP has an overall SCSEP service rate of 75.8%, which exceeds the U.S. Census percentage of 48.4%. The overall service to minorities report indicates Louisiana SCSEP has had no significant change in its service to minorities but continues to exceed the U.S. Census percentages. For Hispanics, the U.S. Census shows 4.7% of Louisiana’s population is Hispanic and Louisiana SCSEP is serving 8.8% (which is 123.4% of the total Hispanic population). The Census indicates 40.1% Blacks for the assigned areas that Louisiana SCSEP serves 69.6% (with no significant variance). Of the 0.7% of American Indians, Louisiana SCSEP served 0.8% to those individuals in the program year. The report shows Louisiana SCSEP serves 0.0% of the Asian population and the Census indicates that there is 2.2% Asians in the service area. The Census shows no Pacific Islanders and there were no service to those individuals in the program year. Although service were not rendered to the Asian population and the Pacific Islanders population, Louisiana SCSEP will continue to strive to make efforts to increase these numbers. Louisiana SCSEP will continue implementing a plan to increase outreach by coordinating with National partners to develop techniques to these populations. Additionally, Sub-grantees will continue to seek methods to increase these numbers by advertising in the local newspapers and by listing vacancies with the local workforce “Career Solution Centers as a primary
focus on these minority groups. Additionally, Louisiana SCSEP will continue to work with Catholic Charities and use its resource connections within its Refugee programs to seek out individuals for placement. Furthermore, Sub-grantees will continue to post information in places like grocery stores, pharmacies, and religious institutions to attract minorities and the underserved populations.

4. A list of community services that are needed and the places where these services are most needed. Specifically, the plan must address the needs and location of those individuals most in need of community services and the groups working to meet their needs. (20 CFR 641.330)

The following community service needs are to be focused on by national grantees and sub-grantees:
1. identifying employers and referring participants to job openings.
2. participant's with transportation issues;
3. housing for participants and potential participants; and
4. will coordinate with other state and local officials who have been able to identify and address community service needs. The community services that are needed exist in the following rural parishes: Acadia, Allen, Assumption, Avoyelles, Beauregard, Bienville, Caldwell, Cameron, Catahoula, Claiborne, Concordia, De Soto, East Carroll, East Feliciana, Evangeline, Franklin, Grant, Jackson, Jefferson Davis, La Salle, Lafourche, Lincoln, Livingston, Madison, Morehouse, Natchitoches, Plaquemines, Pointe Coupee, Richland, Sabine, St. Helena, St. Landry, St. Martin, Tangipahoa, Tensas, Union, Vermillion, Vernon, Washington, Webster, West Carroll, West Feliciana and Winn.

In order to address these needs, grantees should develop cooperative agreements with agencies outside the established service area and host agencies, including agencies such as: Assisted Living Facilities, United Way Organizations, Goodwill Industries, Catholic Charities, Salvation Army, local Libraries, local YMCA, LDOL/WIOA, Adult Education, Louisiana Technical Colleges, Community Action Programs, Hispanic Resource Centers and AAA/Councils on Aging. These agencies are essential to meet the community social health, welfare, educational, recreational, conservation and environmental quality efforts. Information obtained through surveys and other sources dictate that our primary focus should be placed upon housing, transportation and medical/prescription needs that are crucial and necessary to the community. SCSEP sub-grantees should develop a rapport with the local utility companies, local cable (government access) stations, free newspapers, and local malls to obtain (low or no cost) advertising of program information that will meet the community needs, environmental quality efforts, economic development and other essential services to the community.

5. The State’s long-term strategy to improve SCSEP services, including planned long-term changes to the design of the program within the State, and planned changes in the use of SCSEP grantees and program operators to better achieve the goals of the program. This may include recommendations to the Department as appropriate. (20 CFR 641.302(k))

Louisiana SCSEP will continue to strive to meet the required goals and targets established by Dol. To achieve and exceed goals and targets, Louisiana SCSEP will continue to develop new relationships and partnerships with local and national employers within the state by re-enforcing awareness and outreach efforts.

Additionally, Louisiana will apply the following strategies to improve SCSEP services:
- Work with new and existing host agencies in effort to improve and increase training opportunities for participants.
- Expand opportunities for participants through On the job Experience-OJE, which means to develop employer relationships in the private sector.

- Expand supportive services to include meeting transportation needs for seniors through mass transportation (bus tokens, jobs on bus line, etc.), car repair and collaboration for transportation with other agencies serving seniors.

- Collaborate with community colleges, adult learning centers and libraries to provide basic computer training for seniors.

6. The State’s strategy for continuous improvement in the level of performance for SCSEP participants’ entry into unsubsidized employment, and to achieve, at a minimum, the levels specified in OAA Section 513(a)(2)(E)(ii). (20 CFR 641.302(f))

Performance in assisting SCSEP participant’s transition into unsubsidized employment could be improved by increasing specialized and advanced training outside community service assignments early in a participant’s enrollment with the program. Additional training would allow the participant to gain the necessary skills needed and required to enter into unsubsidized employment.

Helping participants and host agencies adjust to shorter lengths of time participants will be on the program would also be helpful so that training remains progressive with the short-term goal of employment immediately in view.

c. Location and Population Served, including Equitable Distribution

1. A description of the localities and populations for which projects of the type authorized by title V are most needed. (20 CFR 641.325 (d))

The Equitable Distribution Report (EDR) provides a basis for determining the collective progress made by SCSEP grantees toward equitable distribution of program positions in the State. It is also useful for determining where to locate new or vacant positions. The US DOL releases the annual EDR, which calculates the proportion of income and age eligible population by parish. It is multiplied by the SCSEP funds for the state, which results in the number of authorized SCSEP positions per parish. These reports are essential in identifying where projects of this type are most needed based on their high unemployment rates. Parishes with the highest unemployment rates during the July 2019 of the current program year (PY 2019) were as follows: East Carroll, Tensas, West Carroll, Madison, Morehouse, Franklin Concordia, Catahoula, Vernon, Natchitoches, St. Helena, Winn and Evangeline. (see data listed below)
WIOA Combined State Plan PY 2020-2023

- Page 281 -

Final


2. List the cities and counties where the project will be conducted. Include the number of SCSEP authorized positions and indicate where the positions changed from the prior year.

Based upon the SCSEP Equitable Distribution Report Louisiana has a total allotment of 718 slots with 138 for the State Grantee and 568 for the other national grantees. There were no significant variances in PY 2018 and PY 2019. See below.

3. Describe current slot imbalances and proposed steps to correct inequities to achieve equitable distribution.

The Louisiana Program Year 2017 Equitable Distribution Report (see below). All grantees will concentrate efforts on filling slots in parishes that are underserved first in order to correct the imbalance during this four-year plan period through outreach efforts. Equitable distribution can be challenging in rural parishes and areas with increases in the number of eligible individuals. Louisiana strives to keep the actual position distribution between one or two positions above or below the equitable distribution goal.

4. The State’s long-term strategy for achieving an equitable distribution of SCSEP positions within the State that:

A. Moves positions from over-served to underserved locations within the State in compliance with 20 CFR 641.365.

Grantees will address under enrollment by the following:

- Increase collaboration with the local workforce, private and public entities to recruit and enroll participants.
- Provide additional training to SCSEP staff on how to increase program participation.
- Expanding recruitment efforts, increase program outreach efforts, and focus on developing viable host agencies in underserved parishes.
- Adequately enroll new participants after program participants have achieved durational limits.

Grantees will address over-enrollment by the following:

- Increase efforts to place participants who are "job ready" to enter into unsubsidized employment.
- Develop a waiting list for eligible participants.
- Freeze enrollment in over-served parishes and develop a waiting list for eligible participants.

B. Equitably serves rural and urban areas.

Louisiana SCSEP will utilize the Equitable Distribution formula provided by the SCSEP.org website as a long term strategy to manage and ensure rural and urban areas are equitably served. In addition, Louisiana and National SCSEP Grantees will continue to collaborate on best practices and strategies to ensure that participants are equitably served in both urban and rural areas.

C. Serves individuals afforded priority for service under 20 CFR 641.520. (20 CFR 641.302(a), 641.365, 641.520)

Louisiana SCSEP will ensure when recruiting and selecting participants for SCSEP, priority is given to individuals who have one or more of the following priority of service characteristics:

- Are covered persons in accordance with the Jobs for Veterans Act (covered persons – veterans and eligible spouses, including widows and widowers – who are eligible for SCSEP must receive services instead of, or before, non-covered persons);
- Are 65 years or older;
- Have a disability;
- Have limited English proficiency;
- Have low literacy skills;
- Reside in a rural area;
• Have low employment prospects;
• Have failed to find employment after utilizing services provided through the One-Stop Delivery System;
• Are homeless or are at risk for homelessness

The priority of service requirements are included in the state SCSEP contract and are also followed by national SCSEP grantees. Local project staff use connections with other programs, such as Veteran Affairs and Vocational Rehabilitation Services at the WIOA One-Stops to promote SCSEP and gain referrals on potential applicants who meet the priority of service and eligibility requirements. Grantees also partner with organizations that serve hard to reach populations such as those that are geographically or socially isolated and those whose primary language is not English. Catholic Charities has a refugee assistance program in-house which allows for immediate access to special populations. Due to the demographics of the areas they serve, some grantees will be able to serve larger percentages of these special populations better. The State SCSEP Director (GOEA) will aid the grantees in evaluating whether, collectively, they are serving these populations adequately based on quarterly performance reports.

5. The ratio of eligible individuals in each service area to the total eligible population in the State. (20 CFR 641.325(a))

6. The relative distribution of eligible individuals who:

A. Reside in urban and rural areas within the State

Louisiana has a population of approximately 4,659,978. If an estimated 12% is over the age of 65 and 16% of those persons live in poverty, then there are approximately 89,471 eligible SCSEP individuals in Louisiana. The state has a total of 781 slots assigned overall. The percentage of persons residing in rural areas is 18.6% and 81.4% for urban (about a 4:1 ratio in those residing in urban areas rather than rural).

B. Have the greatest economic need

Of the total SCSEP eligible population in Louisiana, 52% has been identified as having the greatest economic need, with income at or below the federal poverty guideline.

C. Are minorities

Minorities make up about 38% of Louisiana’s population.

<td>0.1%</td>
</tr>
</tbody>
</table>

D. Are Limited English Proficient

8% of Louisiana's SCSEP eligible population is identified as having limited English proficiency.

E. Have the greatest social need. (20 CFR 641.325(b))

Greatest Social Need* which is caused by non-economic factors, including persons with disabilities, language barriers, and cultural, social or geographical isolation. When considering the greatest social need for Louisiana SCSEP eligible participants characteristics were measured by the following statistics:

- Those with disabilities: 38%
- Limited English proficiency: 8%
- Geographical isolation: 18.6%

7. A description of the steps taken to avoid disruptions to the greatest extent possible, when positions are redistributed, as provided in 20 CFR 641.365; when new Census or other reliable data become available; or when there is over-enrollment for any other reason. (20 CFR 641.325(i), 641.302(b))

Sub-grantees and National grantees in Louisiana will not transfer positions from one geographic area to another without first notifying the state agency responsible for preparing the State Plan and the Equitable Distribution report. The State & National program operators will submit in writing any proposed changes in distribution to the Federal Project Officer.

Participants will be notified within 30 to 60 days of any transfer. Participant records, if applicable, will be given to the new grantee within 60 days of the new grant period. This will include any intake documentation and eligibility information to retain current participants. Prior to transfer, every effort will be made to secure unsubsidized employment for participants and referrals to other workforce programs will be conducted. Participants will be notified of the transfer by the current grantee as soon as possible in order to ease the transition. Any questions regarding the transfer will be answered.
Payroll payments will be made by the current agency until the end of the program period. Afterwards, the new agency will be responsible for payroll payments.

Community Services Block Grant (CSBG)

Note: Below is information about the employment and training activities carried out under the Community Services Block Grant (CSBG) (42 U.S.C. 9901 et seq.) that is included in the WIOA Combined State Plan. The complete CSBG State Plan is submitted directly to the Federal agency that administers that program and is collected under OMB Control Number: 0970-0382.

Where CSBG is included in the Combined State Plan, the State CSBG Lead Agency (as designated by the chief executive of the State under the requirements of section 676(a) of the CSBG Act (42 U.S.C. 9908(a)) will coordinate plans for employment and training activities under CSBG as part of a larger antipoverty and workforce development strategy.

As part of the Combined State Plan, the State CSBG Lead Agency must:

(a) Describe how the State and the eligible entities will coordinate the provision of employment and training activities through Statewide and local WIOA workforce development systems; and may

(b) Provide examples of innovative employment and training programs and activities conducted by eligible entities or other neighborhood-based organizations as part of a community antipoverty strategy.

CSBG employment and training activities are included as a “required partner” for WIOA One-Stop Career Centers. The State CSBG Lead Agency and the Community Action Agencies statewide have an MOU with comprehensive American Job Centers to coordinate services in their local areas which include employment, referrals, training and workshops, resume writing, job search, high school equivalency testing, transportation and housing assistance.

Performance Indicator Appendix

All WIOA Core Programs

The Departments determined that the Effectiveness in Serving Employers indicator will be measured as a shared outcome across all six core programs within each state to ensure a holistic approach to
serving employers. The Departments will continue piloting approaches for measuring this indicator for the first two years of PY 2020-2023 plans. Therefore, states are not required to submit an expected level of performance for the Effectiveness in Serving Employers indicator for PY 2020 and PY 2021. However, core programs are expected to collect data and report on this indicator for PY 2020 and PY 2021 as they did for PYs 2016-2019 plans.

¹ “Effectiveness in Serving Employers” is still being piloted and this data will not be entered for 2020 State Plans.

Additional Indicators of Performance

States may identify additional indicators in the plan, including additional approaches to measuring Effectiveness in Serving Employers, and may establish levels of performance for each of the state indicators. Please identify any such state indicators under Additional Indicators of Performance.

Additional Indicators of Performance
