Re: Effect Date of the 2012 CPT Code Update

To whom it may concern,

After several months of hard work, we are pleased to announce the updated CPT Codes will go into effect July 20, 2013. The final rule will be published in the July 20, 2013 Volume of the State Register which can be found on the Division of Administrations website. In the meantime, you can find a copy of the final draft with revisions on our website.

As you know, the rule making process began several months ago and a redline copy of the original proposed CPT Code Updates were placed on our website. In the months that followed, we published the original notice of intent, held a public hearing and sent the final version to the oversight committees. We would like to thank everyone who helped move this process along the way.

We hope this advanced notice will allow everyone time to process all the updates and, if necessary, change any internal bill pay systems. If my office can be of any assistance, please do not hesitate to contact me.

Very truly yours,

Wes Hataway
Director, Office of Workers' Compensation
