Approval of the merger of LWIA #82 and LWIA #83

Background: Federal Allotments to states for Workforce Development programs have been decreasing over the past several years. The decrease in funding to local areas has created administrative funding issues for LWIA #82 and #83. Accordingly, with the approval of the local chief elected officials in each area, LWIA #82 and #83 are seeking approval of a merger which, as a result, would allow more investment in Job Training for local participants.

Recommendation: Approve the attached request.

Action Required: Approval of the proposed merger between LWIA #82 and #83.
